It is presumed that the workmen have been denied some of their increments on account of the omission in the last award of any principle for adjustment of the wages of the different workmen. It is presumed that by the time this award comes into force, the workmen would have been entitled to three to four increments. I have taken this fact into consideration. It is not possible to give each and every benefit with retrospective effect, for that will bring about a collapse of many of the uneconomic and marginal rates. The benefit which is given in an award relates to the circumstances existing at the time when it is given. I accordingly lay down the following rules—

(1) All workmen who are getting as then basic salary less than the minimum of their respective grades prescribed by this award shall be pulled up to the minimum.

(2) All workmen shall be deemed to have been started with the minimum of their respective grades and shall be subject to rules 4 and 5 below be entitled to the following increment with effect from the date when this award comes into force:—

(a) For workers whose basic salary is below Rs. 20 and clerks and bill collectors below the special grade (for whom annual increments have been prescribed by this award)—

(i) Less than one year's service—Nil

(ii) More than one year's service—One increment for each completed year of service subject to a maximum of four increments in their respective grades.

(b) Workmen other than those specified in rule 2(a)

(i) Less than 2 years' service—Nil.

(ii) More than two years' service—One increment for each completed period of two years' service, subject to a maximum of two increments in their respective grades.

(3) Subject to rules 4 and 5 below, all workmen who were getting on 11th May 1948 more than the minimum of their respective grades, as basic pay shall be given on the date on which this award comes into force the following increments in their respective grades:—

(i) Workmen getting less than Rs. 20 and all clerks and bill collectors below the special grade—One annual increment over the salary on 11th May 1948 for each completed year of service.

(ii) All other workmen—One biennial increment over the salary on 11th May 1948 for every two completed years of service.

(4) No workmen shall be entitled, by way of adjustment under this award, to more than what he would have been entitled to, if he had initially started with minimum of his grade and had got the periodical increments regularly.

(5) A workman shall not be entitled, by way of adjustment under this award to cross the efficiency bar unless he is considered fit by the employers and in no case he shall be entitled to more than the maximum of his grade.

(6) Rules 3, 4 and 5 above do not affect prejudicially the existing basic salary of any workman whose existing salary exceeds the limits specified in these rules.

(7) If the basic salary of any workman either existing or after adjustment as aforesaid, does not reconcile with any stage in his grade prescribed by this award, he shall be placed at the next higher stage and this stage shall be the starting point for calculating the next periodical increment.

(8) The increment by way of adjustment shall neither affect the right of the workmen to the next periodical increment or alter their anniversary for such increment due after this award comes into force.

If, in any press, the dearness allowance is consolidated with the basic salary, the basic salary shall be what remains after deducting Rs. 25 dearness allowance from the total emoluments. This basic salary shall be adjusted according to the principles laid down above.

Point No. 3.—Gratuity or Provident Fund.

No definite claim for gratuity was placed before the Management of any of the presses covered by the last omnibus award. The only dispute was either that the Tribunal's direction about the institution of the Contributory Provident Fund was not either implemented or was delayed. The Contributory Provident Fund with contributions at 6½ per cent. of basic salary of a workman on either side was to be instituted under the last award on the date on which it came into force, viz., the 11th May 1948. Some presses had Contributory Provident Fund from before. A good number of presses are said to have no Provident Fund as yet, while a number of presses have recently started Contributory Provident Fund as directed in the last award. The delay is said to have been caused by some correspondences with the Commissioner of Income-tax. Be whatever that might be the poor workmen were deprived of the benefit for a number of years. I accordingly direct that for the period between 11th May 1948 and the date when the Contributory Provident Fund started by the different presses the employees shall be compensated by a gratuity at the rate of 1/24th month's basic salary for each completed month of service. This will work out to be month's basic salary for each year. Those presses who feel any difficulty in instituting the Contributory Provident Fund shall pay their workmen gratuity at half month's basic salary for each completed year of service to be calculated with effect from 11th May 1948. Those who have not as yet started the Contributory Provident Fund shall have the option to elect between the two and shall notify to the workmen the result of their election within a month from the date when this award comes into force.

I cannot, for reasons already discussed, lay down any different scheme to the presses which were not covered by the last omnibus award. They shall start immediately either a Contributory Provident Fund or a gratuity scheme in the light of the aforesaid direction. The workmen of these presses shall also be entitled to gratuity with effect from 11th May 1948 or from the date when these presses were started whichever is later, on the same principle as have been laid down for the presses covered by the last omnibus award. Deductions of the gratuity, either in whole or in part, shall be made on the principles laid down in the rules for the Provident Fund for reduction of the employers' contribution to the Provident Fund.

Points Nos. 4 and 5.—Leave and working hours.

The rules on these points as laid down in the last omnibus award published under Government of West Bengal, Labour Department, Order No. 1487Lab., dated 11th May 1948, shall be followed.

Point No. 7.—Bonus.

For reasons already stated I cannot lay down a different scheme for the bonus not covered by the last omnibus award. The scheme for bonus as down in the last omnibus award under issue No. 8 shall be adopted.

Point No. 8.—Security of service.

The Standing Orders which were incorporated in the last omnibus award the result of an amicable settlement between the parties. These Standing Orders appear to have caused some hardships to the workmen for proper clarification. Besides there is no clear provision for termination of service by superannuation and retrenchment. I accordingly recast the Standing Orders with a view to remove the misunderstanding between the parties as far as possible. The employers shall maintain proper records suggested in the Standing Orders. In the absence of any such records presumption will naturally go against them. The revised Standing Orders are detailed below:—

Standing Orders for works staff.—These Standing Orders apply to all men and shall come into force with effect from the date of award of the award.

Definitions.—In this order unless there is anything repugnant in the context,—

- a. The "Company" means.....Press.
- b. "Manager" means the Company's Manager or any person named as Manager under section 9(I)(c) of the Factories Act.
- c. "Managing Director" means Managing Director of the Company.
- d. "Workman" means a person employed by the Company to do any skilled, semi-skilled or unskilled manual work for hire or reward but does not include clerical and Managerial, outdoor and menial staff.
- e. "Pay" means basic pay except for overtime allowance, in which case pay includes dearness allowance.

Classification—All workmen shall be classified as follows:—

- (i) Permanent, (ii) probationer, (iii) temporary, (iv) Badli and (v) apprentice.

A "permanent" workman is one who has been engaged on a permanent basis or any workman who has satisfactorily completed a full working period of one year in the same or another occupation in the Company, including breaks due to sickness accident, leave, lock-out, strike (not being an illegal strike), or involuntary closure of the establishment and has been confirmed as permanent in writing.

"Probationer" is a workman who has been provisionally employed in a permanent vacancy and has not completed twelve months' service.

"Temporary" workman is one who has been engaged for work which is essentially of a temporary nature likely to be finished within a specified period.

"Badli" is a workman who has been engaged in the post of a permanent workman, who is temporarily absent.

(*) An "apprentice" or a learner is a person selected to undergo a course of training in the trade or business of the Company and who may or may not be paid any allowance during the period of such training.

4. *Appointments.*—(i) No appointment is valid until a form setting out the name of candidate, job and rate of pay is signed by the Manager or the Director, and made over to the workman concerned. The employee's rate of pay will also be verbally intimated to him and his name will be maintained in a register for the purpose. This rule applies to all categories of workers as detailed in rule 3.

It must be understood that the Management shall prepare two copies of the appointment letters and shall obtain the signature of the workman concerned on the copy retained by the Management as a token of receipt of the original letter by him. Any workman refusing to sign the duplicate as suggested above shall not be entitled to get any appointment.

(ii) All appointments other than temporary, Badli and apprentice, as specifically mentioned, will be for a probationary period of one year. At the expiry of one year, the Company will consider each case for confirmation. On the application of the employee concerned and if found suitable he will be confirmed and made permanent. Otherwise he will be discharged. A probationary period may be further extended. The Company has the right to discharge a workman at any time during the probationary period without giving any notice or compensation in lieu of notice.

(iii) The service of a temporary workman may be terminated with or without any compensation in lieu of notice by operation of law at the expiry of the term or on completion of the work for which he was employed. If after completion of the work for which he was initially employed, such an employee is retained for the regular works of the Company, he shall be absorbed in the regular staff either as a permanent worker or as a probationer, according to his skill and ability. If he is taken as a probationer, the period he worked as a temporary hand shall be taken into account and credited against the period of probation necessary for confirmation. He may however be employed to execute more temporary works after completion of the temporary works for which he was initially employed. In all cases the particular job or the period for which he was initially employed and the re-employment if any shall be clearly noted in the appointment letter handed over to him. In the event of his failure to produce the original appointment letter, the Management will have the option to refuse him re-appointment.

5. *Notification of period and hours of work.*—The period of work for different classes of workman and different shifts will be as required by the Factory Act and shall be as the Management may from time to time decide.

6. *Notification of holidays and pay days.*—Notices specifying the holidays observed in the Company as holidays shall be notified provided that if a particular workman is required to work on notified holiday, he will be personally notified to that effect in advance as required by the Factories Act.

The "Pay Day" for different groups of workmen should be notified. The payment of wages should be made within the time provided under Section 5 of the Payment of Wages Act, 1936.

7. *Transfer.*—Service of any workman is liable to be transferred from one post to another or from one department to another or from one shift to another.

Shift working.—Shift working shall be regulated in accordance with Factories Act. More than one shift may be worked in a department or section of department at the discretion of the Company. If more than one shift is worked a worker shall be liable to be transferred from one shift to the other. Shift may be discontinued at any time after being notified.

Attendance and late coming.—All workmen shall be at work at the time fixed and notified. A grace of five minutes may be allowed. A daily absence up to five minutes will be excused. If any worker is late by more than five minutes, the period by which he is late over the grace period of five minutes shall be carried over and shall be dealt with according to the existing rules.—

(i) Total hours of late attendance during the month according to the said principle shall be calculated to the nearest hour.

(ii) If the total late attendance in one month exceeds two hours, it will involve a deduction in wages only.

(iii) If workers are to come to their place of work by trains, they shall be allowed to join their work if they can satisfy the Management that their attendance is due to late arrival of the train, the scheduled time of arrival of which would not have occasioned any delay in the workmen joining work.

such late attendance shall be dealt with as provided in clause (ii). The Management may consider the advisability or otherwise of condoning such attendance of a worker due to late arrival of trains provided such cases are not frequent.

(iv) If the total late attendance exceeds two hours during the month, it will involve deduction in both wages and dearness allowance and deduction be proportionate to pay and dearness allowance.

Exit and entry and liability to search.—All workmen entering or leaving the Company's premises at any time whilst on duty are liable to be searched by any person authorised by the Management provided that no search shall be made except in the presence of at least one witness. All workmen must enter and leave the premises by the gate allotted for the purpose. Gates may be closed during working hours at the discretion of the Management and workmen must not leave the premises during working hours without permission.

Stoppage of work.—(a) The Management may, at any time, in the event of a catastrophe, breakdown of machinery, stoppage of power supply, fire, civil commotion, strike or other cause beyond their control stop all or sections of the works, either wholly or partially, for any period without notice.

(b) In the event of such stoppage during working hours, the workmen shall be notified by notices upon notice board, as soon as practicable, and work will be resumed and whether they are to remain or leave their place of work. No deduction from pay shall be made for the day on which stoppage occurs. No other compensation will be admissible in case of stoppage. Wherever practicable, reasonable notice shall be given of stoppage of normal work.

(c) In case where workmen are laid off for short periods on account of stoppage of plant or a temporary curtailment of production, the period of lay-off not exceeding 15 days at a time shall be treated as leave,

with half pay or adjusted against leave at credit, ~~on~~ pay at the option of the worker. When, however, workmen have to be laid off for over 15 days their services may be terminated after giving them due notice or pay in lieu thereof.

12. *Leave and holidays.*—As laid down by the omnibus award entered under Government of West Bengal, Labour Department, order No. 1487/La dated 11th May 1948.

13. *Disciplinary action for misconduct.*—(a) A workman may be warned or fined for any of the following acts and omission:—

- (i) Disobedience.
- (ii) Carelessness.
- (iii) Negligence.
- (iv) Laziness.
- (v) Occasional breach of rules.
- (vi) Committing nuisance in the factory premises.
- (vii) Failure to observe safety instructions expressly given.
- (viii) Quarrelling.

(b) A workman may be suspended or dismissed without notice or compensation in lieu of notice, if he is found to be guilty of misconduct defined below:—

- (i) Wilful insubordination or disobedience, whether alone or in combination with others, to any lawful and reasonable order of superior officer.
- (ii) Theft, fraud or dishonesty in connection with the Company's business or property.
- (iii) Wilful damage to or loss of the Company's goods or property.
- (iv) Taking or giving bribes or any illegal gratification.
- (v) Habitual absence without leave or absence without leave for more than 14 days at a time.
- (vi) Habitual late attendance.
- (vii) Habitual breach of any law applicable to the factory or smoking in prohibited areas.
- (viii) Riotous or disorderly behaviour during working hours at factory or any act subversive to discipline.
- (ix) Habitual negligence or neglect of work.
- (x) Frequent repetition of any act or omission referred to in paragraph 13(a) above.
- (xi) Striking work or inciting others to strike work in contravention of the provisions of any law or rule having the force of law.

(c) A written charge shall be framed against the employee in fault and it should be handed over to him specifying the facts on which the charge is based in good time to enable him to prepare his defence.

Then a date shall be fixed for enquiry sufficiently ahead with due notice to the employee concerned. An opportunity should be given to him and himself either by himself or by official of the Union or by a bona fide lawyer. He should be given facilities to examine and cross-examine the witnesses.

If the charge is disproved, no punishment shall be inflicted upon him where the enquiring officer entertains a grave doubt about the honesty of the worker in which case he may be warned or discharged with usual and with usual compensation. If the charge is proved the employee shall be given such punishment as the offence proved justified.

The employee concerned may appeal against the recommendation of the officer of the department who holds the enquiry both on merit and punishment to the local head, who shall pass the final orders after hearing the employee concerned and examining the materials on the record. In all cases of punishment, previous record, if any, and other extenuating or mitigating circumstances, if any, shall be taken into account.

Before an employee is awarded extreme punishment of dismissal, the enquiring officer should consider whether a lighter punishment would have been justified in the circumstances of the case.

In case of grave misconduct and dishonesty affecting the interests of the industry, an employee may be suspended pending enquiry; but in no case shall the specific charge be framed against him in writing. If he is found guilty of the charge, he shall be reinstated with full wages and other benefits he would have been entitled to during the period of suspension.

The Company shall maintain a record containing details of such misconduct as above in respect of such a worker who is warned, suspended or dismissed and this shall be entered therein and the worker concerned shall be required to sign or put his left thumb impression against the entry.

The enquiry shall be concluded with all possible expediency and the period of pending enquiry shall not be for an indefinite period.

Termination of employment.—Termination may take the following forms:

Retirement on account of old age.—All workmen shall retire ordinarily on completion of the 55th year of their age. If any workman is considered fit for employment after completion of 55th year of his age he may, on his application, be granted an extension not exceeding three years, provided no retrenchment takes place in the meantime. No workman who is physically unfit shall be required to retire. Any workman completing 25 years of service shall have the right to retire even if he has not completed 55th year of his age.

Dismissal for misconduct or inefficiency.—A workman may be dismissed for misconduct as also for inefficiency, in which case the procedure laid down under rule 13 shall be followed. This rule is applicable to all categories of workmen including temporary workmen, dismissed before the expiry of the term or completion of the work for which he was re-employed.

Discharge on any ground other than proved misconduct or inefficiency.—A workman may be discharged on any justifiable grounds other than proved misconduct and inefficiency with one month's notice or one month's basic wages and dearness allowance in lieu thereof.

(4) *Retrenchment*.—In matters of *bona fide* retrenchment the following rule shall be followed:—

- (i) A workman whose superannuation is overdue shall be made to go in the first instance.
- (ii) If further retrenchment is called for, retrenchment shall be effected according to the accepted principle, "last come, first go". This shall be the usual rule. Deviation from this accepted principle is permissible in consideration of comparative efficiency of employees, their conduct and other factors. At the time of first appointment, retrenched employees shall get the first preference over other things being equal. It must be noted that in re-employing retrenched employees it is only efficiency and ability that count and not the principle "last come, first go".

15. *Certificate of service*.—Each worker having more than one year of service shall be entitled to a service certificate at the time of resignation, discharge, dismissal or retirement.

16. *Appeal*.—A worker shall have right to appeal from the order of the Manager to the Managing Director or the Proprietor as the case may be in case he is suspended or dismissed. In all other cases, the decision of the Manager is final.

17. *Complaints by worker*.—All complaints arising out of the employment including those relating to unfair treatment or exaction on the part of the supervisor or departmental head shall be submitted by a worker to the Manager. All such complaints will be carefully investigated by the Manager with a view to redress thereof.

18. *Overtime*.—Overtime payment shall be according to the scale given in the last omnibus award.

19. *Accidents*.—All workmen shall immediately report any injury or accident during the course of their work to the Manager through the departmental head for attention and necessary action. Should the man be found "unfit", payment of compensation would be made in accordance with the provisions of the Workmen's Compensation Act.

20. *Amendments*.—Additions, amendments or modifications to the Standing Orders may be made from time to time in accordance with the provisions of the Industrial Employment (Standing Orders) Act 1946 or any amendment thereof, or any other law relating thereto for the time being in force.

21. A copy of these Standing Orders should be kept in a prominent place for inspection.

Conclusion.

I need hardly repeat that the scales of pay, dearness allowances, contributions to the Provident Fund and other monetary benefits to the workmen laid down in this award are for uneconomic and marginal units of production, presses whose service conditions are more favourable to the workmen.

efore the award was ready for submission to the Government the hearing
dispute in respect of Messrs. Gordon & Co. was concluded. Instead of
g a separate award for this Company as suggested in the body of the
award, I propose to incorporate my directions in respect of this firm
is award. At the hearing Sri S. K. Dhar, Pleader, represented the
loyees' Association and the employers were represented by Sri J. K.
h pleader of Messrs. Orr, Dignam & Co. He was instructed by Mrs.
ue on behalf of the Proprietors of the Company and Mr. V. F. Vica-
ee, a Partner of Messrs. Batliboi & Co., Receivers. A heavy outstanding
ity of the Company on account of income amounting to Rs. 14,81,094-6
stated appointment of the Receivers. At the hearing Mr. Vica-
ee stated that the Company had an additional liability of twenty-one lakhs
pees. There was, however, no document to substantiate this additional
ty of twenty lakhs of rupees. It was contended on behalf of the
any that in view of the heavy liabilities of the Company it was not
le for it to undertake any additional financial commitments. The
liabilities for income-tax clearly indicates that the Company earned
terable profits during the years to which the liability for income-tax
Messrs. Gordon & Co. is one of the firms covered by the last
us award. It is expected that the scales of wages and dearness allow-
for the employees of the Company were not less than what were laid
in the last award. In this award I have adopted the identical scales
grades of pay and dearness allowance. These are irreducible minima.
do not approach even the concept of a minimum living wage. I am
hat dearness allowance to the employees of this Company is paid partly
subsidised foodstuff and partly in cash which has been consolidated with
ast wages. The learned lawyer for the Employees' Association
ented that the workers are not willing to the concession of subsidised
nt being withdrawn. I accordingly direct that the Company will
on to give its employees foodstuffs at cheap rates as hitherto given.
the consolidated cash emoluments so much as will make up together
the subsidy for the foodstuffs calculated at the market controlled rate,
imum dearness allowance allowed to different categories of workers
be deducted from the total cash emoluments, the balance will be con-
das the basic wages of the workmen of different categories. After the
wages and dearness allowance are separated as suggested above, the
ees shall be fitted into the grades and scales of pay as laid down by
ard, according to the directions given for such fitting. The employees
also be entitled to increments within the grades as directed in this

out the provisions for old age and other points, the directions already
in this award shall be followed. The Company will be at liberty to
aw the provision for discretionary pension to employees who have not
been granted any pension.

and (m) Qualifications for Junior Artist (Litho and Offset) cannot be defined.

and (n) Supervisors, Overseers, Foremen, and Section-holders.—Their main duty is supervisory work. They are responsible to the Proprietors or Manager of the firm for all the work in their respective departments and as such they must be clothed with powers to take disciplinary action against the worker under them. A person to whom the principal work or the work has been allotted is not raised to the status of a Supervisor, Overseer, Foreman or Section-holder simply because by virtue of his office as a principal worker he has some control over the work of the workers who assist him to finish his work inasmuch as the finished work depends on the assistance he receives from the other workers in his department. He may be a senior worker, or principal worker or head of the department and this does not convey a sense of supervision.

ORDER.

No. 1140Lab.—20th February 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 7353Lab., dated the 21st December 1950, the industrial dispute between Messrs. Kilburn & Co., Ltd., Fairlie Place, Calcutta, Managing Agents of the Indian Cardboard Industries, Ltd., Majerhat, and their workmen represented by Kilburn Workers' Union, 47, Chowringhee, Calcutta, regarding the matter specified in the schedule to the said order was referred for adjudication to Sri A. Das Gupta, District Judge;

And whereas the said Sri A. Das Gupta, District Judge, has submitted to the State Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

the matter of reference No. 7353Lab., dated the 21st December 1950, of the Government of West Bengal, Labour Department, and in the matter of an industrial dispute between Messrs. Kilburn & Company, Limited, 4, Fairlie Place, Calcutta, Managing Agents of the Indian Cardboard Industries, Limited, Majerhat, and their workmen represented by the Kilburn Workers' Union, 47, Chowringhee Road, Calcutta.

PRESENT :

SRI A. DAS GUPTA, *District Judge.*

for the employer: Sri S. Sen, Advocate, and Sri J. K. Ghosh, pleader, instructed by Messrs. Orr, Dignam & Co., solicitors.

for the employees: Sri P. K. Sanyal, Advocate, instructed by B. K. Sarkar, General Secretary of the Union.

AWARD.

The only dispute which has been referred to for adjudication is about the bonus for the year 1950.

The workmen have based their claim for bonus for 1950 on the following grounds —

- (1) The total remuneration paid by the Company is far below a living wage.
- (2) The Company had been paying for a pretty long time the workmen one month's wages every year as bonus to compensate for the low wages.

The Company pleads that the total remuneration of the workmen is fully commensurate with their present day cost of living and compatible with the different types of work in which they are employed and that bonus had never been treated as deferred wages under the Company.

Both parties have represented to me that the workers were paid wages at the rate of Re. 1 per day. Only two workmen who are swe are paid 11 annas and 13 annas respectively per day. Prior to the publication of the award of the Major Engineering Tribunal under Government of West Bengal, Labour Department, order No. 5160, dated 9th September 1950, all workers were paid Re. 1 per day as dearness allowance. Since publication of the aforesaid Major Engineering Tribunal's award, the Company has adopted the scheme of dearness allowance as laid down in said award. Hence taking a month to be equivalent to 26 working days majority of the workers got Rs. 52 as basic wages and dearness allowance month. The two sweepers used to get Rs. 43-14 and Rs. 47-4 respectively. Since the publication of the Major Engineering Tribunal's award in September 1950, the dearness allowance has been increased by Rs. 6. In a swe family almost every adult member is an earning member. Although total remuneration of a sweeper is a few rupees less than that of workmen it cannot be said that the total earnings of a sweeper's family were in any way at a disadvantage as compared with the total earnings of a family of any other workman in the Company. We may accordingly proceed to discuss the merit of the case on the assumption that prior to publication of the Major Engineering Tribunal's award in September 1950 total earnings of a workman in the present Company were Rs. 52 and this have since been raised to Rs. 58. I could understand during the discussions that the Company has to do some printing works. Card industries doing some printing works have been classed in West Bengal under the printing industries. The living wage basis affords an excellent standard for the determination of the minimum wage. In fact where living wage criterion has been used in any award in giving the decision has always been tempered by other circumstances of a practical character. According to President Jethrowbrown, needs of an individual cannot be interpreted without reference to national income and national output. Capacity of a particular industry to pay is one of the factors which should guide fixation of fair wage of an industrial worker. The actual award should depend on a consideration of the following other factors:—

- (1) Productivity of labour.
- (2) Prevailing rates of wages for the same or similar occupations : same or neighbouring localities.
- (3) The level of the national income and its distribution.
- (4) The place of the industry in the economy of the country.

The Union contends that the workmen of the other industries under management of Messrs. Kilburn & Co., were paid bonus in the year 1949-50. In order to decide whether the industry has the capacity to bear particular financial burden, we must enquire whether the particular industry is in a position to bear the burden and not into the financial position of the Managing Agents. Besides the wages in comparable industry are not wages in those industries which are under the management of the Managing Agents, but the wages in those industries which carry on business similar to that carried on by the Company to which the dispute relates. The identity of the Managing Agents is not material. What is material for comparing the wages of the workmen is the similarity in the trade or occupation. Funds have got to be supplied by the industries and not by the Managing Agents. The wages of the workmen of the present Company may be compared favourably with those workmen in printing industry. I am clearly of opinion that the total remunerations paid to the workmen of the present Company are not in any way less favourable than that which is being paid by the majority of the printing presses in Calcutta and Howrah.

though the total remuneration does not fully satisfy the test of a living wage, the workmen should, in view of the low financial capacity of the industry, low national income *per capita* in the country and the low level wages of workmen having the same or similar occupations in the neighbouring localities, make some sacrifice. The mere fact that their total remuneration does not satisfy the concept of a living wage, does not by itself entitle them to bonus as a deferred wage. In order to justify their claim for a bonus as deferred wage, they must satisfy that they have been paid a bonus for an indefinitely long period irrespective of profit or loss in the industry. It is only when a bonus has been paid for an indefinitely long period irrespective of profit or loss, the bonus may be called to be a deferred wage or a customary bonus and may be a part of the terms and conditions of service. In such a case the workmen have an indefensible claim for bonus, no matter whether the industry has earned a profit or not. In such a case has not been made out. Hence the only circumstances under which the workmen can claim a bonus are when the Company has earned sufficient profits.

The Company has appended to its written statement a statement showing details of profit and bonus paid to the workmen since 1940. The Company produced at the hearing the audited balance-sheets since 1940 and the learned Advocate for the Union was given an opportunity to inspect them. He had nothing to say against the corrections of the figures given in the annexure to the Company's written statement. The annexure is reproduced

Annexure showing dividend paid to share-holders of the Indian Cardboard Industries, Limited, and ex-gratia payment to the employees from profits.—

Sl. No.	Dividend declared. Per cent.	Ex-gratia amount paid from profits.
1	7½	Nil—Advance of ½ month's basic salary.
2	10	1 month's basic salary.
3	10	1 month's basic salary.
4	30	1 month's basic salary.
5	25	1 month's basic salary.
6	15	1 month's basic salary.
7	Nil (loss declared)	Nil—Advance of ½ month's basic salary.
8	4	1 month's basic salary.
9	6	1 month's basic salary.
10	6	1 month's basic salary.
11	Nil (loss declared)	Nil—Advance of 1 month's basic salary.

It may be noted that in 1946, the Company did not earn any profit and did not pay any bonus to the workers. Half month's basic salary was advanced to them and it was recovered. Thus it is clear that the Company does not pay any bonus to the workmen when it did not earn any profit. It was paid only in those years in which the Company earned a substantial profit and declared a dividend to the share-holders. The learned Advocate for the Union objected to some items of appropriation of the profit earned in 1949. The objection was about the appropriation of Rs. 10,000 towards the dividend equalisation fund. If the share-holders do not get any return for their investment, investment will naturally be shy and there will be no expansion of industries. This is undoubtedly against the national interest. Without expressing myself definitely about the appropriation for the dividends equalisation fund, I may say that we are

not concerned with the justification or otherwise for the appropriation of the year 1949. The workmen had their due share of bonus out of the earned in that year. The Company sustained a loss of Rs. 10,550-15-6 in the trading accounts for the year ending on 31st March 1950. If considered the financial position of the industries, I am not in a position to direct the Company to pay any bonus to the workmen for the year 1950.

A. DAS GUPTA,

District Judge, Industrial Tribunal

The 12th February 1951.

By order of the Governor

D. S. P. MUKHERJEE, Jt. Secy.

ORDER.

No. 1081Lab.—16th February 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 581Lab., dated the 4th February 1950, the industrial dispute between Messrs. Albert David, Ltd., Head Office, 15, Chittaranjan Avenue, Calcutta, February at 5/11, D Gupta Lane, Calcutta, and their workmen as represented by Albert David Workers' Union, 34, Creek Row, Calcutta—14, was referred for adjudication to the Industrial Tribunal consisting of Sri M. C. Banerji, District Judge,

And whereas during the pendency of proceedings before the said Tribunal the said Union on behalf of the workmen of the said Company, made a complaint in writing before the said Tribunal alleging that the said Company had altered, to the prejudice of the said workmen, the condition of service applicable to them immediately before the said proceedings,

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Tribunal has adjudicated upon the said complaint and submitted its award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

INDUSTRIAL TRIBUNAL, CALCUTTA.

PRESENT:

SRI MATISH CHANDRA BANERJI, *District Judge, Tribunal*

In the matter of an application under section 33A of the Industrial Disputes (Amendment) Act, 1950, arising out of the industrial dispute between Messrs. Albert David, Ltd., and their workmen represented by the Albert David Workers' Union under order of reference No. 581Lab., 4th February 1950.

AWARD.

Messrs. Albert David, Ltd., is a pharmaceutical firm manufacturing drugs and chemicals. Its factory is situated at 5/11, D Gupta Lane, Dum, Calcutta, it has a Glass Blowing Department manufacturing ampoules.

at 29/1, Doctor's Lane, Calcutta, and its head office is at 15, Chittaranjan Avenue, Calcutta. The total number of employees in the workshops of the office is a little over 600. On the 28th October 1949, the Union issued on the Company a notice of strike for fulfilment of a 32-point charter of demands. The Labour Directorate of the Government of West Bengal attended conciliation proceedings but the employees launched a strike on 12th November 1949 and the Company declared a lock-out on 15th November 1949. The Labour Directorate failed to effect any conciliation of the disputes and recommended to Government for reference of the dispute to a Tribunal.

Thereupon the Government of West Bengal, in the Department of Labour, by order No. 581Lab., dated 4th February 1950, referred, under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the dispute between the Company and their workmen, as represented by Albert and Workers' Union, 34, Creek Row, Calcutta, to me for adjudication.

After the reference of the case to the Tribunal the parties came to an agreement on 22nd February 1950 by which the Union called off the strike and the Company lifted the lock-out with immediate effect. The Company agreed to take in all the workers within a period of 3 weeks from the date of the reopening of the factory and the Union agreed to give up the claim for the wages for the strike period.

The Award on this dispute was published in the *Calcutta Gazette*, dated 24th August 1950. The proceedings before the Tribunal in the previous year were, therefore, pending from 4th February 1950 to 24th August 1950.

In the present application filed by the Union under section 33A of the Industrial Disputes Act, 1947, it is stated that the Company discharged the employees shown in Schedule A, in the month of June 1950, or in other words, during the pendency of the proceedings before the Tribunal in connection with the present dispute referred by order No. 581Lab., dated 4th February 1950. The Union further stated that the Company also failed to reinstate 14 employees shown in Schedule B annexed to the application in accordance with the agreement between the Company and the Union on 22nd February 1950. The Union, therefore, claims on behalf of the workmen mentioned in Schedules A and B of the application, that all of them should be reinstated with proper compensation.

The Company states in its written statement that it never violated the agreement, dated 22nd February 1950, but on the contrary it was the workers who frequently violated the spirit of the agreement by demonstrations accompanied with violence. Referring to Schedule B of the application, the Company stated that only 7 out of the 14 were not taken in as their conduct during the strike and subsequent to the date of the agreement was contrary to the spirit of the agreement and their inclusion would have meant disaster to the Company. In respect of the employees in Schedule A of the Union's application, the Company states that they were discharged as they were guilty of trying to sabotage the agreement and the Company had no other alternative, in order to forestall an impending labour trouble, which was to be accompanied with violence, than to discharge these employees. The Company states that that was the only course left to it to save the situation after a crippling strike lasting for 103 days. The Company was ready to pay them reasonable compensation, but it was not agreeable to reinstate them.

Issues were framed on 14th November 1950.

The appearances for the parties were as follows :—

For the Union: Sri Soumyendra Nath Tagore, President of the Union, Nalini Bhanja, Secretary, and others.

For the Company: Sri P. Pardes Rao, Secretary of the Company, Sr Sarma, Labour Officer, and Sri D. Mukherji, Factory Manager.

The issues framed were as follows :—

DECISIONS.

Issues Nos. 1 and 2.—After the case was partly heard, the parties, at advice and instructions, came to a settlement and filed a joint petition in compromise. By this compromise the Company agreed to re-employ, with effect from 1st February 1951, 53 employees as mentioned in the annex to the compromise petition and also agreed to pay some compensation for the period of non-employment. The period of non-employment to be considered as leave subject to rights mentioned in the compromise petition. On a perusal of the compromise petition I consider that the terms proposed are fair and reasonable and they should be accepted, I, therefore, accept the terms recorded in the compromise petition filed by the parties. It is made Annexure A of this Award, and award accordingly. The compromise petition in Annexure A shall form a part of the Award.

These issues are accordingly answered.

By order of the Governor,

ORDER.

No. 1192Lab.—21st February 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 6038Lab., dated the 25th November 1949, and subsequently amended by order No. 5730Lab., dated the 29th September 1950, the industrial dispute between Messrs. Luxmo Mills, 15, Shib Thakur Lane, Calcutta, and their employees represented by the Telkal Mazdoor Congress, 19, Goa Bagan Street, Calcutta, in connection with the discharge of two of its employees, namely, (1) Haripada Saha and (2) Shambhu Nath Saha, was referred for adjudication to Sri P. R. Mukharjee, District Judge;

And whereas the said Sri P. R. Mukherjee, District Judge, has submitted to the State Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to publish the said award as shown in the annexure hereto.

ANNEXURE.

matter of an industrial dispute between Messrs. Luxmi Oil Mills, 15, ib Thakur Lane, Calcutta, and their employees as represented by xmi Oil Mills Sramik Union, 242-1, Upper Circular Road, cutta—4, and later on by Telkal Mazdoor Congress, 19, Goa Bagan et, Calcutta.

PRESENT :

SRI P. R. MUKHERJEE, *Judge, Industrial Tribunal.*

Messrs. Luxmi Oil Mills: Sri Sukumar Bose, Pleader, assisted by Sri B. Dutta, Secretary of the Mill.

Telkal Mazdoor Congress: Sri D. L. Sen Gupta, Advocate, assisted by P. Bhattacharyya, Vice-President of the Congress.

AWARD.

The above dispute had been referred to me by Government of West Bengal Department of Labour, order No. 5730Lab., dated Calcutta, the 1st September 1950, under sections 7 and 10 of the Industrial Disputes Act 1947.

The reference has some history. The dispute was originally referred to my colleague, Sri P. K. Sarkar, by Government of West Bengal, Labour Department, order No. 6038Lab., dated Calcutta, the 25th November 1949, where the discharged employees were represented by Luxmi Oil Mill Sramik Union. Later on the discharged workers to whom the disputes were referred, represented before Sri Sarkar that they did not want to be represented by Luxmi Oil Mill Sramik Union and prayed that they might be allowed to be represented by Telkal Mazdoor Congress.

The prayer had been allowed by Sri Sarkar when the Management challenged the validity of the order before the Hon'ble High Court, but the order taken by Sri Sarkar was upheld. Thereupon this fresh reference had been made to me on 29th September 1950.

In the case of the discharged workers, as mentioned in the first petition, at Haripada Saha and Shambhu Nath Saha, who were working as apprentices, were active workers of the Union and had actively participated in the formation of the present Union, and as such victimised.

It is alleged that on 20th August 1949 the said employees were served a notice of warning by the Management (with a copy to the Secretary of the Union), alleging therein that the employees in question were causing disturbance to the production of the Mills and unless they could explain their conduct within 24 hours from the receipt thereof, they would be forthwith dismissed.

It is also alleged that the above allegations being vague and indefinite, the employees could not reply to the notice forthwith when to the surprise of the Management, a letter of dismissal of the two employees, with a copy to the Secretary, was received on 22nd August 1949. The employees now pray for reinstatement.

Further on, these employees filed a separate written statement through Sri P. Bhattacharyya, Vice-President of Telkal Mazdoor Congress, on 1st February 1950. It is significant that the facts stated in the first

petition were not challenged in the second written statement. It simply alleged that the Luxmi Oil Mill Sramik Union was an organization sponsored by the Management.

The Management files a written statement alleging that these two workers were dismissed on the grounds of misconduct, misbehaviour and hampering production of the Mill. It is also alleged that these two workers were previously warned on several occasions for gross misconduct, misbehaviour and insubordination.

ISSUES.

1. Whether the dismissal of Shambhu Nath Saha and Haripada Saha was legal and justified?
2. Are they entitled to reinstatement or compensation, or both?

FINDINGS.

Issue No. 1.—Dismissal of the two employees.

These two workers, according to the Management, had been dismissed for gross misconduct and insubordination and it is further alleged that they did not even care to reply to the charges framed against them.

The workers' case is that they are active members of the Union, and such, had been victimised for their participation in Union activities. It was further alleged at the time of hearing before me that no notice of cause had been served on them, and as such, they had got no opportunity to know what the charges really were. I shall examine these contentions very carefully. It is clear, as already stated, that both Haripada Saha and Shambhu Saha had first filed a written statement on 19th December 1949 in which it was admitted that some of the allegations made against them were correct and it is also admitted that on 4th May 1949 an apology had been tendered to the Management on behalf of these employees. It is clearly admitted that notice of warning intimating these charges had been given to the employees. It is further admitted that no explanation had been submitted to the above charges brought against these employees. In the second written statement the above admissions as contained in their first written statement are not denied. Not a whisper is uttered that the statement regarding tendering of apology and notice having been given were incorporated without the knowledge of the workers concerned. However that may be, let us go to the merits of the case. The Management brought the following charge against the workers (Exhibit A) that they were disobeying the order of the Manager, insulting the Manager and hampering production of the Mill. It is further alleged that they were given the undertaking on 4th May 1949 to be on probation of good conduct but they were not behaving properly. This charge is proved to have been brought home to the employees and this is admitted in their written statement. It is found that no explanation had been given for these charges. The Management had adduced oral evidence in support of the charges and had examined Indu Bhusan Dutt, O.P.W. 1, who was the Manager of the Mill. This Manager is no longer in service of the Luxmi Oil Mill and as such, I believe, he is under no obligation now to please the authorities. He deposes that Haripada came with a threatening attitude and told him that he would beat him, if necessary. He further deposes that Shambhu was also altercationing with him. He further states that the notices were accepted on tender and that the notice was hung on the notice board. A copy has been sent to the Labour Commissioner. It is also found that previously in April 1949, Haripada and Shambhu came to assault him and at that time were discharged, but through the intervention of one B.

al, proprietor of Ashutosh Oil Mill, they were taken back on executing the document (Exhibit D), which is a letter of apology, by which they bound themselves to be on probation of good conduct in future. The manager was supported in evidence by Anil Kumar Gorai, a clerk of the mill, and also by Brij Mohan Bahati. On reviewing the evidence, I am quite satisfied, these two workers assumed a threatening attitude towards the Manager and the charge has been substantially proved. It is, however, noted that the charge does not relate to the fact of assault to the Manager. It must be remembered that these laymen are not versed in law and as such it is not a wonder that there would be such omission. The very fact that these two workers did not submit any explanation to the charges also shows that they had nothing to say in their defence. Admittedly also they did not appear before the Management with any statement.

The case of the Union is that Shambhu Saha and Haripada Saha had led a procession against Mill Maliks shouting slogans against them and that this procession had been watched by the Maliks somewhere in Upper Circular Road. In my opinion, this was against all the Mill authorities and as such there can be no reason why the proprietors of this particular mill would be displeased with the workers so as to get rid of them. The conduct of these workers previously was also very bad and unsatisfactory and it was only through the intervention of Bhabani Babu that they had been reinstated on probation of good conduct. Thereafter they did not behave properly and went to assault the Manager—it was gross misconduct—and in my opinion they have been properly dealt with. It is not at all a case of victimisation as pleaded. In my opinion, a case of gross misconduct and haughty attitude has been proved and I refuse to interfere with the decision of the Management.

Issue No. 2.—Reinstatement or compensation.

In view of the previous finding that they have been dismissed for gross misconduct, no compensation or any relief can be given to these witnesses.

P. R. MUKHERJEE,
Judge, Industrial Tribunal.

12th February 1951.

By order of the Governor,
D. S. P. MUKHERJEE, Jt. Secy.

ORDER.

No. 1156Lab.—20th February 1951.—Whereas under the Government West Bengal, Labour Department, order No. 5707Lab., dated the 28 September 1950, the industrial dispute between the Victoria Cotton Mill Ghosuri, Howrah, Head Office 46, Strand Road, Calcutta, and their workers represented by Sri Rajani Kanta Jana and others, 27/1, Ram Charan Naskar Lane, post office Ghosuri, Howrah, was referred for adjudication to Sri Das Gupta, District Judge;

And whereas the said Sri A. Das Gupta, District Judge, has submitted to the State Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of reference No. 5707Lab., dated the 28th September 1950, the Government of West Bengal, Labour Department, and in the matter of an industrial dispute between the Victoria Cotton Mills, Ghosuri Howrah, Head Office 46, Strand Road, Calcutta, and their workers represented by Sri Rajani Kanta Jana and others, 27/1, Ram Charan Naskar Lane, post office Ghosuri, Howrah.

PRESENT:

SRI A. DAS GUPTA, *District Judge.*

For the employers: Sri P. C. Mullick, Advocate.

For the employees: Sri D. L. Sen Gupta, Advocate.

AWARD.

The only point which has been referred to for adjudication is whether the proposal to close down the mill from 1st October 1950 is justified, and if the workers are entitled to any relief as a result of such closure.

The Manager of the mill issued the following notice on the 30th August 1950:—

“Head Office: 46, Strand Road, Calcutta.

August 30, 1950

NOTICE.

The Management is regretfully compelled to give notice hereby that the mills will be closed on and from the 1st of October 1950 for want of required quality and quantity of cotton at the ceiling prices, blocking of finance, heavy loss being incurred due to the disparity of cost of production and prices of the finished products.

The Management have made repeated representations to the author concerned for making the required quality and quantity of cotton available and for either allowing higher prices for yarn or for supplying cotton at reasonably lower prices to enable the mills to run the mill economically. So far the requests have not been complied with.

Manager.”

(Annexure J to the Company's written statement.)

This notice raised an apprehension in the minds of the workmen and at the basis of the present industrial dispute. By the order of reference the workmen have been called upon to enquire if the closure was justified. It may

oned at the very outset ~~that~~ the industrial dispute was referred for
 action by an order, dated 28th September 1950. It was received by
 that very day. The mill was closed on and from 1st October 1950 as
 d. Before the mill was actually closed the partners fell out and one of
 rners Sri Rameswar Das Agarwalla filed a suit in the Original Side
 Hon'ble High Court in Calcutta. The suit was registered as suit
 165 of 1950. By an order of the Hon'ble High Court, dated the 17th
 of 1950, Sri Madan Lal Jaju was appointed Receiver. Notice was duly
 on the Receiver as a necessary party to these proceedings and he was
 ented by Sri P. C. Mullick, Advocate, who also appeared for the
 ment of the mill. The terms on which the Receiver was appointed
 een elaborately stated in the written statement filed by the Receiver
 ulf of the Management. These terms are quoted below:—

The Receiver shall be at liberty to carry on the said business of Shree
 Hanuman Cotton Mills Co., as a going concern.

ith previous consent in writing of the plaintiff Sri Narsingdas Agar-
 walla and the defendants Kamala Prosad Agarwalla and Rangalal
 Bagaria the Receiver shall be at liberty to borrow from time to
 time upon charge of the said partnership properties in his hands
 such sum or sums of money not exceeding rupees two lakhs at
 any time for the purpose of carrying on the said partnership
 business and to repay the moneys that may be borrowed by the
 said Receiver from time to time."

interim award had to be given in favour of the workers pending final
 action. Annexure A to this award is the said interim award. I was
 an application, dated 11th January 1951, filed by the Receiver for
 ion of time to implement the interim award that the Receiver having
 to obtain consent of all the partners to raise money for running the mill
 for making payments to the workers in terms of the interim award
 phed to the Hon'ble High Court for necessary directions. A copy of
 plication filed before the Hon'ble High Court which was annexed to
 ceiver's application for extension of time forms part of this record.

the notice, dated 30th August 1950, the Management enumerated the
 ng reasons for the contemplated closure of the mill: (1) want of
 d quality and quantity of cotton at the ceiling prices; (2) blocking of
 and (3) heavy loss on account of disparity of cost of production and
 es of the finished products. The Victoria Cotton Mills have no weaving
 ent. It is an exclusively spinning mill. Another spinning mill of
 e partners named Shree Hanuman Cotton Mills had been closed long
 the present mill was closed. The closure of the Hanuman Cotton
 led to an industrial dispute and the said industrial dispute was
 i to me for adjudication. During the said adjudication proceedings,
 circumstances were placed before me to show how the finance of the
 ompany had been blocked. One of the most important reasons was
 earn produced by the said mill could not be lifted promptly by the
 ment. No such reason appears to have been present in the case of
 totia Cotton Mills. In fact nothing has been suggested by the
 ment on this point.

as of audited balance-sheets for the year Ram Navami 2004-2005

 id that the balance-sheet for the next year is in preparation. This
 sheet represents the consolidated accounts for the two mills Shree
 an Cotton Mills and the Victoria Cotton Mills. In the application of

the Receiver before the Hon'ble High Court for direction for raising to meet the liabilities it was stated that the Victoria Cotton Mills is and parcel of the said Shree Hanuman Cotton Mills. That Shree Hanuman Cotton Mills were a losing concern cannot be disputed. But in the evidence by the balance-sheets nothing was indicated to apportion the loss between the two mills, if really the Victoria Cotton Mills was also a concern. The two mills might have been the subject-matter of one and the same partnership agreement, but so far as the relation between the mills and employees is concerned the two mills are distinct and separate from each other. From the balance-sheets it is not possible for me to say whether if the Victoria Cotton Mills really incurred any loss, and, if it really incurred any loss what the extent of such loss was. On the assumption that the mill also incurred loss during the Ram Navami 2004-2005, the Advocate for the Management urged that the reasons for such loss were (1) go-slow tactics and low production by the workers; (2) disparity between the price of cotton and yarn. The first ground may be summarily rejected inasmuch as no suggestion appears to have been thrown out to the workers about any complaint against them. In 1947 a major Tribunal was constituted with myself as Chairman to adjudicate upon the industrial disputes of the Cotton Textile Industry. The award which was given in pursuance of the reference was published in the *Calcutta Gazette* under Government of West Bengal, Labour Department, No. 2956Lab., dated the 21st April 1948. Both Shree Hanuman Cotton Mills and the Victoria Cotton Mills were parties to the said adjudication proceedings and were governed by the award. By this award the basic pay of an unskilled worker in an exclusively spinning mill was fixed at Rs. 20-2-5 per month of 26 days. The pay was linked with the consumption of cotton per spindle. Consumption of 145 pounds per spindle per annum was to entitle an unskilled worker to a basic wage of Rs. 20 monthly. For every increase and decrease in cotton consumption by 10 pounds, the wages were to be increased or decreased by annas 7-2 per month. The following chart (Annexure B to the Company's written statement) will show that the consumption was far below the standard fixed by the last omnibus award.

Consumption of cotton per spindle.

(Based on Annexure B to the Company's written statement)

*Minimum consumption of cotton fixed by the last omnibus award
a basic pay of Rs. 20-2-5 per month.*

Year.	Working hours.	Annual consumption of cotton per spindle in pounds.	Annual consumption per spindle calculated on basis of 8 working days in lbs.
1944	12 hours	.. 84.2	56.1
1945	12 hours	.. 86.9	58.0
1946	11 hours	.. 75.0	51.5
1947	8 hours	.. 71.4	71.4
1948	8 hours	.. 76.4	76.4
1949	8 hours	.. 89.0	89.0
1950	8 hours	.. 74.0	74.0

This chart will show at a glance that consumption of cotton per spindle working 8 hours a day although much below the standard fixed by the last award was gradually improving at least till 1949. The consumption in

9.0 pounds as against 54.5 pounds in 1946 and 56.1 lbs. in 1944. This clearly indicates that the consumption of cotton per spindle was not half of the standard fixed by the last award even at a time when there was no workers' union and when there was no labour trouble. It has not been suggested that the low consumption of cotton from the years 1944 to 1946 was due to any labour trouble or any unfair tactics of the workers. The workers of the Hanuman Cotton Mills attributed their low production to old and unworkable machineries, the Management refuted the allegation against the machineries thus: "You will be interested to know that the production of our Victoria Cotton Mills which is 10 years older than Shree Hanuman Cotton Mills is much higher." (*Vide Calcutta Gazette*, October 12, 1950, page 2078.) This certificate is to the credit of the workers of the Hanuman Cotton Mills. We get from the employers' written statement that the boiler used in the Victoria Cotton Mills indicates the year 1888. Nothing is said as to how long the boiler had been in use. But the admitted fact is that the machineries are very old, and I am clearly of opinion that the low production was due to the age of the machineries. The chart which has been given above will show at a glance that the workers were straining themselves to raise the production at least till 1949. The figure for 1950 cannot be relied upon inasmuch as the mill did not work for at least three months. A good portion of the work for the remaining 9 months was affected by lock-outs and resignation of some workmen of the spinning and weaving departments, and the figure was arrived at on the basis of consumption of cotton for 8 months under disturbed conditions as aforesaid. If there had been any loss on account of low production it was due to the bad quality of cotton was not available at the ceiling prices and there was a disparity between the cost of production and the price of finished goods. It cannot be denied that by partition of India into two dominions—dominion of India and the dominion of Pakistan—a good portion of the growing areas has fallen in the dominion of Pakistan. This accounts for the shortage of cotton in the dominion of India. And this was the reason for the promulgation of ordinance and orders controlling purchase and movement of cotton. My attention was drawn to the fact that non-availability of cotton of good quality and quantity was one of the grounds for closing down the Hanuman Cotton Mills. I have been also referred to the recital in the order for Shree Hanuman Cotton Mills of the evidence which was led before the court in regard to shortage of cotton and non-availability of cotton at controlled prices. (*Vide Calcutta Gazette*, October 12, 1950, page 2087.) "The Management has filed two extracts from the newspapers to show that on account of shortage of cotton, three textile mills at Kanpur have recently been hard hit. One of them, employing about 1,500 workers was completely closed down. Two others have reduced their shifts from three to two shifts thereby about 6,000 workers, another mill at Ahmedabad employing 1,400 workers has also been closed down for shortage of cotton. There are five textile mills in the Province of Bombay, out of which 14 were in Ahmedabad appear to have given notice for closure in the month of October 1950 for want of raw cotton." The difficulties about cotton are common to all spinning mills as also to all composite mills. I am told that in the case of composite mills the loss in production of yarn is made up in the production of cloth. Even if it be so the difficulties about shortage of cotton and non-availability of the required quality and quantity of cotton are common to all spinning mills. There is nothing to show that all the spinning mills have been closed down. On 19th October 1949 the Company applied for cotton by an application to the Textile Commissioner, Bombay, for the monthly requirements of various types of cotton were stated to be as follows: This is Ext. 1(a). Exhibit 1(b) is the permit granted by the

Textile Commissioner for purchase of 1,500 bales of cotton from East and Central Provinces and Berar. This is dated the 19th November 1949. The permit was for cotton year 1949-50, i.e., from September 1949 to August 1950. On the application of the Management, a supplementary permit for purchase of 400 bales from Pepsu and East Punjab was granted. This is Ext. 1(c), dated the 1st August 1950. From this it is clear that on 30th June 1950 the Company had a stock of 251 bales, and that later under the previous permit still remained to be purchased. Thus on 30th June 1950 394 bales were available to the Company. The stock on 30th June 1950, according to the Textile Commissioner, is sufficient for 14 months at 168 bales per month. The stock on 30th June 1950 together with the unpurchased balance of cotton under the previous permit and 400 bales of cotton under the permit, dated 1st August 1950, was quite sufficient for 12 months, i.e., up to November 1950 at the rate of consumption as stated in the letter of the Textile Commissioner, Ext. 1(c). On the 2nd August 1950 the Management addressed a letter to the Textile Commissioner in which it was stated that the cotton position of the mill was threatening closure. In this letter the Management also prayed that the Textile Commissioner should procure some bales of cotton suitable to the requirements of the mill. In this letter 275 bales were mentioned as the monthly consumption. Different figures for monthly consumption were given by the Management at different times. Annexure B to this award will show at a glance the discrepancy between the Company's statement about the average monthly requirement of different kinds of cotton. Both the applications, dated 19th October 1949 and 2nd August 1950 [Exts. 1(a) and 1(d)] are for requirements of cotton for the cotton year 1949-50. But the total monthly requirements as stated in the applications did not agree. Annexure C to this award is an abstract indicating stock and consumption of cotton of 12 months before closure. It is clear from this chart that 2,367 bales were consumed in 12 months. This works out to about 200 bales per month.

I have already mentioned that the Management had a stock of 251 bales on 30th June 1950 and was quite in a position to procure additional 543 bales on the strength of the permit, dated 19th November 1949 and 1st August 1950. I am told that the Management did not purchase any further cotton. In reply to the Company's letter to the Textile Commissioner for procurement of cotton the Textile Commissioner informed the Management by letter dated the 26th August 1950, that he was agreeable to assist the Company's procurement of cotton at the ceiling prices provided 15 per cent. of the basic ceiling price was deposited with the Imperial Bank of India Reserve Bank of India. But he would not guarantee either the quality of cotton or the year of growth of cotton. Thereupon the Company wrote to the Textile Commissioner for further clarification. These are Annexures E and F(a) to the Company's written statement. This is how the matter was delayed and the Company did not purchase any cotton under the permit dated 1st August 1950. By a letter, dated 6th September 1950, the Company prayed that in the event the Textile Commissioner was not in a position to guarantee the quality of cotton and the year of its growth, the rules about thelea-strength of yarn might be relaxed without reducing the [Annexure F(1) to the Company's written statement]. It appears that the Textile Commissioner did not reply to this letter. On 21st September 1950 the Company sent a wire to the Textile Commissioner "Regarding requisition. Our letter, dated 6th, remains unreplied. Please help to avert closure of the mills" (Ext. 3). Obviously the letter of the 21st September 1950 could not be replied to off hand. In the interest of the consumer public the rules about the lea-strength of cotton yarn could not be relaxed. For the cotton year 1950-51 the mill obtained a permit for

les of cotton which was forwarded to the mill by a letter, dated 24th October 1950, by which date the mill had already been closed. Although in the permit the allotment was stated to be for the period from 24th October 1950 to 31st August 1951, it is clear from the letter of the Secretary of the Bengal Mill Owners' Association, dated 13th November 1950, that the allotment of 650 bales was the first allocation of Indian cotton for the year 1950-51. The permit is Ext. 1(e) and Ext. 1(f) is the letter of the Secretary of the Bengal Mill Owners' Association. It may be noted that in view of the difficulties about cotton, the Government of India, Ministry of Industry and Supply, constituted an Advisory Board consisting of representatives of Mill Owners' Associations and cotton traders to assist the Textile Commissioner in ensuring equitable distribution of Indian cotton at or within the ceiling price during the crop year 1950-51. This is clear from Annexures H and H(a) of the Company's written statement. This Advisory Board was constituted by a letter of the Government of India, Ministry of Industry and Supply, dated 16th September 1950. On behalf of the Bengal Mill Owners' Association the Secretary of the Association wrote to the different mills inviting a statement about their requirements to reach the office of the Association not later than 4th October 1950 (Annexure H). In pursuance of this circular the Management submitted a statement of requirements for the year 1950-51. In this statement the annual consumption was stated to be 3,600 bales (Ext. 4). From the proceedings of the meetings held by the Advisory Board in Bengal which were sent to me by the Bengal Mill Owners' Association in a confidential cover I could understand that there would be four allocations: (1) October; (2) December and January; (3) January and February; and (4) April. The estimate about the annual requirements appears to have been exaggerated in Ext. 4. The consumption of cotton in 1944 of the Victoria Cotton Mills working 12 hours a day was 1,553,400 pounds and in the year 1945, 1,604,737. If the Mills had worked for 8 hours a day the consumption would have been 1,035,600 and 1,069,825 pounds respectively in the two years, i.e., 2,589 bales and 2,675 bales. This will work out to a little over 200 bales per month. So far as quantity of cotton suitable during the cotton year 1950-51 the Victoria Cotton Mills had made out no reason to despair. It might expect the same quantity for the 2nd, 3rd and 4th allocations as it had received in the 1st allocation. It had been shown to me that from the zones from which the Victoria Cotton Mills were permitted to purchase cotton, cotton answering the requirements mentioned in the applications of the mill was not available. If it be assumed that cotton of the exact quality received by the Victoria Cotton Mills was not available from the zone to which the permit was issued, that was a difficulty common to all spinning mills. It was urged on behalf of the mills that the deficit in the requirements was made good by purchase of Kapash or loose cotton at a higher price. But that after the control of Kapash cotton which came into force on the 13th September 1950, was not possible for the Company to purchase Kapash cotton without the sanction of the Textile Commissioner. Control of Kapash cotton is expected to increase the stock of pressed cotton in bales in the market available for distribution under the permit of the Textile Commissioner. At the time when the Victoria Cotton Mills were closed down, it was rather premature to say that the control of Kapash cotton added to the difficulties of the spinning mills to procure cotton. Import of foreign cotton was not considered. If there was any deficit in the supply of Indian cotton, the deficiency could be made up by import of foreign cotton. But it has been urged on behalf of the Management that Victoria Cotton Mills spun only coarse yarn and that foreign cotton was not suitable for the Victoria Cotton Mills on the following grounds: (1) foreign cotton is suitable for fine yarn only; (2) old machineries were not fit for spinning yarn from foreign cotton;

(3) by using foreign cotton the back processes from slabbing to roving were left idle and (4) price of imported cotton is higher but yarn produced from imported cotton would not fetch a higher price. Nothing has been planned before me to substantiate any of these grounds. I may however observe that by use of foreign cotton which is expected to be of high quality, the production of yarn may be more speedy to keep pace with the back processes and the outturn of yarn may be higher to compensate the probable high cost of cotton. This is also my surmise, for I have no authority on this point either way. From the statement (Annexure B to the Company's written statement) and from Ext. 1 we can fairly presume that the average consumption of cotton of the Victoria Cotton Mills was about 200 bales per month. The Company had a balance of 143 bales out of the allotment made for the year 1949-50. It got a further allotment of 400 bales on the 1st August 1950 and 650 bales on the 24th October 1950. The total would be 1,193 bales. It could purchase 1,193 bales and carry on for about 6 months. By the time these 1,193 bales of cotton were used up it could expect a further allotment. But the Company did not avail itself of the permit on the ground that the Textile Commissioner did not give any assurance as demanded in the Company's letters, dated 26th August 1950 and 6th September 1950. The difficulties which the Company pleaded were common to all spinning mills. Nothing unusual appears to have taken place in the Victoria Cotton Mills about the procurement of cotton.

About the loss in the mills I have already stated that the balance-sheets (Exts. 5 and 5(a)) do not represent the financial and economic position of the Victoria Cotton Mills separately. The low production of yarn may raise the presumption that the Company was not earning good profit. But as I have already stated the low production was due more to the conditions of the machineries rather than any fault of the workers. On the 16th May 1951 the Company appears to have addressed a letter to the Regional Deputy Director (Production), Government of India, by which the Company submitted an account about the cost of production of yarn 10s counts and 20s counts to show that the loss of the mill was Rs. 4,50,333-12 per annum. The costing was made according to the directions in the Tariff Board report (Exhibit 2) is the letter with the Annexure. No reply appears to have been sent to this letter. Without the assistance of any expert it is not possible for me to say anything on the costing account either way.

It was contended on behalf of the Management that cotton could not be purchased at the ceiling prices fixed by the Textile Commissioner and that cotton has always been purchased at a much higher price. It is urged that further difficulties were created by the Government of India enhancing the price of cotton by Rs. 150 per candy. There is nothing to show that the price was increased by the Government beyond what was being hitherto paid for cotton in the market. We are not aware at what price cotton is used to be purchased before this order increasing the price. The Hon'ble Minister Sri Hare Krishna Mahatab explained the position very lucidly: "There is no likelihood of this measure giving an impetus to the inflationary tendency because this measure only recognises the existing price as it stands. It does not materially raise the price. On the contrary it is just possible that the ceiling which is prescribed now may not be reached. It is at all a ceiling price and not the floor price [Annexures G and G(1) to the Company's written statement]."

Recently the Spinning Master of the mill along with others was prosecuted on the charge of selling yarn in excess of controlled price fixed for standard yarn of different counts. The criminal case is said to have been

minated in the lower court in acquittal of the accused persons. It is pending in appeal before the District Judge of Howrah. These proceedings have no bearing on the point at issue.

Some time before closure of the mills, the partners fell out and one of the partners rushed to the Hon'ble High Court. A Receiver has been appointed and it is clear from the materials on record that all the partners are not agreeable to run the mill. They were not helping the Receiver to secure money for running the mill. This was possibly one of the reasons for closing the mills. The Company might have incurred some loss on account of low production of yarn. It was due to bad condition of the old machineries rather than any fault of the workers. The recent difference among the partners hastened the climax. The mill has been closed down and I am clearly of opinion that the workers were not in any way responsible for the situation. The present economic position of the country might have no contribution to the present situation. This did not by itself affect the cotton Mills more than any other spinning mills. Every business and every individual are hit by the present economic position of the country. It is not possible to say definitely without the assistance of any expert other apart from the low production of yarn on account of bad condition of the machineries and the recent difference among the partners the Management had any justification to close down the mills. It may be remarked with certainty that the closure of the mill was not prompted by any spirit of victimisation or unfair labour practice. Be whatever that might be as Judge of the Tribunal I have no jurisdiction to compel the Management or the Receiver to reopen the mill. Every individual has an inherent right to start a business and to close it down. This inherent right is based upon the principle of natural rights. Closure of the mill cannot in any way be a part of the terms and conditions of service of employees, although the compensation payable to an employee in the event of closure of a business is a term and condition of service of the workers employed in the said business. Where such closure is prompted by a spirit of victimisation or an unfair labour practice, the employers may be compelled to pay higher compensation to the employees by way of penalty and in such case compensation varies with the degree of this unwholesome spirit. But where no such spirit of victimisation and unfair labour practice is present, the employees are not entitled to claim more than the usual compensation. By reason of the closure of the mill the workers were thrown out of employment with effect from 1st October 1950. They were however given one month's notice. So far as could be understood from the discussion with the parties there is no likelihood of the mill being reopened in the near future. If the mill is closed down there cannot be any work in the office, although the office staff was retained up to 30th November. They were also given one month's notice. A few women were however reappointed for maintenance works. They are Sri K. K. Banerji, Sri B. C. Sircar, Sri Satya Ranjan Das Gupta, Sri Ish Ch. Saha, Sri Ramkaran Dubey, Jagannath, Ramjiwan, Rajendra, Narayana, Dalbahadur, Kanu, Lakhin and Beliya (Ext. 6). These workers were not unemployed for a single day before their alleged reappointment. All intents and purposes their services were not dispensed with in pursuance of the notice, dated 30th October 1950. Their services on and from December 1950 shall be taken as continuation of their prior services. Management was to start Contributory Provident Fund in terms of the omnibus award. This was not started. It was urged on behalf of the Management that the Provident Fund could not be started on account of losses of the employees. I have been referred to Annexure I, series to the Company's written statement. Sri Taradas Bhattacharjya was the President of the Ghosury Sutakal Mazdoor Union. The Management

wrote to Taradas Babu for nominating representatives of the workmen in Trustee Board to be formed under the Model Rules for Provident Fund industrial employees. The relevant rule is:

"The fund shall be administered by a Board of Trustees formed, equal number of representatives of the employers and subscribers. The total strength of the Board shall not exceed ten."

In reply to the letter of the Management Taradas Babu denied to have responsibility in forming the Trustee Board. Thereupon the Management wanted the workmen to send names of four persons to form the Board. This Tarapada Babu's reply was: "Please do what you think best as Model Rules". The Spinning Master appears to have consulted the labour force and his remark was:

"Labour say they have nothing to say about Trustee Board. What you like you can do. They have no objection. They want Service Book."

Then on 17th October 1949 the Manager wrote to Taradas Babu requesting him once more to explain the matter to the workmen. Some deductions made from the wages of the workmen for the contemplated Provident Fund were refunded. It is alleged by the Management that the deductions which were deducted from the wages of the workmen were refunded at the request of the workmen themselves; while it has been contended on behalf of the workmen that the deductions were withdrawn by the workmen on a representation by the cashier that the Provident Fund would be continued. Be whatever that might be, it is clear from the correspondence that the workers did not non-co-operate with the Management in forming the Trustee Board. They left the matter entirely to the Management. Management could have and should have nominated the subscribers as required by the Model Rules. In any case the Provident Fund should have been started. As the Provident Fund has not yet been started the workmen are entitled to half month's basic wages for each completed year of service till their services were actually terminated subject to a maximum of 15 months' basic wages. The wages payable to the workmen at the time when their services were dispensed with shall be the basis for calculation of this gratuity.

In addition to this gratuity, all workmen shall get wages and dearness allowance for the unexpired period of the leave on full pay due at the time of credit.

It was contended on behalf of the clerical staff that they have not received any Puja bonus for the year 1950. It is not disputed that the bonus was paid to the clerical staff for about ten years up to 1949. The workmen have termed the bonus in their application under section 33 of the Industrial Disputes Act as Puja bonus. According to the terms of the last award a festival bonus is an *ex-gratia* payment. The Proprietor, Marwaris. With them the Durga Puja is not the principal festival. The bonus was paid also to the non-Bengalis with whom also the Durga Puja is not the principal festival. Thus the bonus which had been paid to the clerical staff for the last ten years was practically annual bonus paid on the eve of the Durga Puja. It was linked with the salary and not with profit. The rate of bonus was 1 month's salary of the workman. The Company follows the Ram Navami year. This begins in March or April of an English year and ends in March or April of the following year. The bonus was paid in 1949 after the accounts for the Ram Navami year 2005 were closed, in which year, the Company is said to have incurred a loss. In spite of loss the clerks were paid bonus. The fact that they were

a pretty long time, irrespective of profit and loss, a bonus which was linked with their salary leads to this conclusion that bonus was one of the main conditions of their service.

1. accordingly, in the circumstances of the present case direct that the workers be paid one month's salary as bonus for the year 1950.

It has further been contended that members of the clerical staff were not entitled any increment of pay since the last award. The increment of the clerical staff was not linked with production. They should have been given increment according to the scale prescribed by the award. If really they were not been granted any increment, the Management violated the directions in the award. In fairness the workmen should be given the arrears calculated at the scales of increment since the date of enforcement of the award. The clerical staff shall get such arrear increments as compensation and for the purpose of gratuity, the amounts which would have been payable to them on the date when their services were terminated if they had regularly got the increments shall be taken into account.

The interim award which was given in favour of the workers shall merge into this final award.

Considering the plight to which the workmen have been reduced by the closure of the mill, I recommend that the workmen who have been thrown out of employment on account of the closure may be paid two weeks' basic wages to cover their passage for returning home. For calculation of this benefit to the piece raters their earnings less dearness allowance for the last two weeks may be taken into account. The compensation payable to piece raters by way of gratuity shall also be calculated at the average earnings of two weeks as indicated above.

All payments under this award shall be paid within a fortnight from the date when this award comes into force.

INTERIM AWARD.

The point for adjudication in the main dispute is whether the proposal to close down the mills from 1st October 1950 is justified and if the workers are entitled to any relief as a result of such closure. Proceedings were initiated immediately on receipt of the order of reference. But in the meantime the Company closed the mills on and from 1st October 1950 without the sanction of this Tribunal. Sri Madanlal Jaju has been appointed a member by the Hon'ble High Court of Calcutta. Notice has been duly

issued to the Receiver and Sri P. C. Mallick, Advocate, has been represented both the Management of the Company and the Receiver on their written applications with consent of the other side.

By reason of the closure of the mills the workers have been thrown out of employment. It is desirable that the poor workers should get something to fall back upon for the period of their unemployment. I do not propose to express myself at this stage whether the closure was justified or not whether unemployment of the workers on account of the closure amounts to retrenchment or involuntary unemployment. I may note in this connection that this Tribunal's jurisdiction to grant interim relief to the workers has not been disputed. If the closure amounts to retrenchment of workers they are undoubtedly entitled to some relief in the form of gratuity or employer's contribution to the Provident Fund. By the award of the major Tribunal, Provident Funds were directed to be started with contribution by the employees at 6½ per cent. of the wages and an equal contribution by the employers. For the uncovered period of worker's service he was to be compensated by gratuity to be calculated at half month's wages of worker for each year of service at the rate the worker was drawing on date of the said award. I am told that the Provident Fund could not be started. So long as Provident Fund is not started the workers shall be entitled to half month's wages for each year of service. This gratuity payable under the said award on the same conditions and under the same circumstances as the employer's contribution for the compulsory contributory Provident Fund was payable under the Model Rules framed by the Government. The rules were annexed to the award and formed part thereof. According to these rules, the employer's contribution was payable in full to the worker in the event of retrenchment. Deduction from contribution has been provided under certain circumstances only in the event of premature resignation of the worker at his own request otherwise by reason of superannuation on medical grounds and the employer's contribution can be withheld only when the worker is dismissed for serious misconduct. Hence if the closure of the mills is construed as retrenchment of the workers and is justified, the workers are entitled to half month's wages for each completed year of service.

If, on the other hand, the closure is construed as involuntary unemployment the workers are entitled to, for every half year, compensation for two fortnights—75 per cent. of the average daily rate for the first fortnight and 50 per cent. of the second fortnight, provided the period of unemployment in a half year—January to June or July to December—is more than 7 days. This compensation works out to more than 10 per cent. of the daily wages. If the closure of the mills is construed as involuntary unemployment of the workers, they are entitled to this compensation on account of involuntary unemployment, in addition to the retiring benefit awarded. Moreover the lien on their employments does not cease by reason of involuntary unemployment. They will be entitled to employment when the mills reopen.

I feel that in these hard days some compensation must be paid to the workers for their unemployment and I propose to allow them half month's basic wages for each completed year of their service to be calculated at the average basic rate they had been drawing prior to the closure of the mills, subject to a maximum of 15 months' wages. Whichever of the two interpretations may be put on the closure of the mills, the Management will have no difficulty in making an adjustment without any detriment to the interests of the mills. The compensation which I have awarded by way of interim relief shall be paid to the workers within a month from the date of the interim award.

Office of the Accountant-General, West Bengal NOTIFICATION.

৪৮৬: Early closing of Accounts for March.

T.M (T.F-Intg-XXXI)/234.—1st March
—In continuation of this office notification
T.F-Intg-XXXI-3357, dated the 2nd March
on the subject noted above, all District
Officers in West Bengal are requested to see that
the following directions are strictly complied with
by the Treasury Officers in closing the Accounts
for March 1951.

As required under Article 55 of the Account
Code, Volume II, every endeavour should be made
to close the Treasury Accounts for March 1951 not
later than the 5th of April 1951. All transactions
of the month of March 1951 should be incorporated in these
accounts and the accounts despatched positively
before the 5th of April 1951.

Inter-Governmental adjustments in respect of
transactions pertaining to the financial year 1950-
51 shall not be carried out by the Reserve Bank
of India in the accounts of that year if the neces-
sary advices are not sent so as to reach the Bank
before the 14th April 1951 at the latest. To ensure
that all advices to the Bank are sent in time, it
is essential that—

(a) The periodical statements of Central and
Railway transactions in non-bank
treasuries and sub-treasuries supported by
complete schedules (showing names of
respective Railway to which the Railway
transactions relate) are sent by the
Treasury without fail on the 10th March
1951, 20th March 1951 and the 5th April
1951 (instead of on the last working day
of the month as is done in the case of
other months).

(ii) A statement showing the transactions of
March 1951 relating to respective State
Governments falling under the heads
“Inter-Provincial Suspense” and “Account
with the Government of Burma” duly
supported by schedules and vouchers are
furnished so as to reach this office not
later than the 10th of April 1951.

(iii) All correcting entries in respect of the
financial year 1950-51 affecting Inter-
Governmental adjustments and Adjusting
Account with Railways are intimated to
this office so as to reach it by the 10th of
April 1951 at the latest (*vide* Article 55
of the Account Code, Volume II).

LABOUR DEPARTMENT

ORDER.

No 1269Lab.—26th February 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 6119Lab., dated the 27th October 1950, the industrial dispute between Messrs. Mahaluxmi Cotton Mills, Ltd., 15, Netaji Subhas Road, Calcutta, and their workmen represented by H. Dutta & Sons Employees' Association, 15, Netaji Subhas Road, Calcutta, regarding the matters specified in the schedule thereto was referred for adjudication to Sri G. Palit, District Judge;

And whereas the said Sri G. Palit, District Judge, has submitted to the Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

the matter of an industrial dispute between Messrs. Mahaluxmi Cotton Mills, Ltd., 15, Netaji Subhas Road, Calcutta, and their workmen represented by H. Dutta & Sons Employees' Association, 15, Netaji Subhas Road, Calcutta.

PRESENT :

SRI G. PALIT, *District Judge, Chairman of the Tribunal.*

agent for the Union Sri D. L. Sen Gupta, Advocate.

agent for the Company : Sri S. C. Sen, Advocate.

1 By order No. 6119Lab., dated the 27th October 1950, the Government of West Bengal constituted a Tribunal of one Member under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), and referred said dispute to me for adjudication.

2 The reference was received on the 30th October 1950. The Union filed its written statement on the 10th November 1950. The Company filed written objection on the 20th November 1950. After some adjournments to enable the parties to complete steps for inspection of documents the case was finally set down for hearing on the 31st January 1951. The hearing was concluded on the 1st February 1951.

3 The issue contained in the schedule of the Order of Reference reads as follows: (1) Whether the discharge of Sri Probhat Chandra Ghose is justified. What relief is he entitled to?

AWARD.

1 A brief history of the facts leading up to the present dispute is as follows: The Company has its Factory at Palta and its Head Office at Netaji Subhas Road, Calcutta. Messrs. H. Dutta & Sons, Ltd., were the Managing Agents of the concern. The employees numbered about 400 in 1946. One hundred and fifty employees of most of the concerns under the managing agency of H. Dutta & Sons, Ltd., formed a Union for collective bargaining in 1946. It was registered under the Trade Union Act. The said office employees of the Mahaluxmi Cotton Mill fully associated themselves with the said Union and Sri Probhat Chandra Ghose was elected its President in 1948. There was a Tribunal with Sri S. K. Haldar as its Chairman to adjudicate upon the disputes between the employees and the employers of the different concerns under the managing agency of H. Dutta & Sons, Ltd. The award was published on 15th September

1948. The Directors of Mahaluxmi Cotton Mill were arrested in connection with the Calcutta Commercial Bank fraud case on the 17th September 1948. Thereafter, on 3rd November 1948 Sri K. C. De Biswas was co-opted as a Director amongst other men. The Company was heading towards a crisis. Under the intervention of the Hon'ble High Court a scheme was adopted on 11th July 1949 as a result of which the Directors Board was made to include equal representatives of share-holders and creditors of the Company. The employees of the Company with Probhat Chandra Ghose were agitating for the balance of bonus which the Company had declared for the year 1949 and which was still unpaid. There was some exchange of correspondence between the employees and the employers with not much tangible results. The Union on 23rd May 1950 asked for the Labour Commissioner's intervention. A conciliation proceeding followed and there were joint conferences on 31st May 1950 and 28th June 1950 over this question of bonus. While this matter was thus pending the Company suddenly discharged Probhat Chandra Ghose on 29th June 1950 without assigning any reason. The Company informed the Conciliation Officer about payment of bonus of 15 days' wages on 1st July 1950. Probhat Chandra Ghose contends that he was discharged for his trade union activities in connection with bonus arrears. Sri K. De was also annoyed with him for his insisting on distribution of Company's products to the extent of 1/3rd to the old dealers in preference to the dealers whom Sri K. C. De happened to have selected. Probhat Chandra Ghose claims reinstatement with incidental reliefs, failing which some compensation including gratuity, etc. The Company denies all the above allegations. Its main contention is that Probhat Chandra Ghose was a surplus and he was retrenched. He took one month's salary in lieu of notice and so is estopped from raising all these claims. It was not a case of victimisation or unfair labour practice. The Company's financial position was precarious and to avoid disaster the Company was bound to adopt economic measures.

5. Coming to the facts of the case we get that Probhat Babu was discharged on 29th June 1950. Admittedly he was the President of H. Dutta & Sons Employees' Union. He was agitating for the balance bonus for the year 1949. Exhibits 2, 2(b) and 2(d) bear on the matter. There was a letter addressed to the Labour Commissioner on the 2nd May 1950. Jonab Quader Nawaz, Assistant Labour Commissioner, started the conciliation proceeding on the 26th May 1950 and held joint conferences on the 31st May and 28th June 1950 over this question of bonus. It is really strange that Probhat Babu was discharged on the 29th June 1950 without any permission having been obtained from the Conciliation Officer. This is clearly in contravention of section 33 of the Industrial Disputes Act, 1947, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950. The learned Advocate on behalf of the Company contends that the conciliation proceeding was in respect of bonus while Probhat Babu was discharged as a surplus. This contention might have prevailed under section 33 as it stood before the amendment referred to above, but under the present section 33 after the amendment on 20th May 1950 such contention is of no avail. The present section is imperative. Without the express permission in writing of the Conciliation Officer no workman can be discharged during the pendency of a conciliation proceeding—no matter for what reason. But I am not asked to decide specifically whether section 33 of the present Act has been contravened or not. That can be done in a specific proceeding brought for the purpose. But it clearly shows that the action of the Company in discharging this man was rather hasty. It did not bother to consider whether by this discharge it was doing something which was illegal. It

and that there was no written charge-sheet given to Probhat Babu. So was practically left guessing why he was discharged. Under the Standing Orders, which apply substantially to every industrial concern, it is imperative that a man going to be discharged must be given written charge-sheet stating the reasons of his retrenchment. He should be given an opportunity to explain matters. These requirements have not been complied with in the present case. If the Company had really considered Probhat Babu to be a surplus and was bent upon retrenchment, should have considered whether more recent recruits could be discharged and Probhat Babu could be made to fit in one of the vacancies so created. It is told that the Company was bent on effecting drastic retrenchments. It is one of the accepted principles of retrenchment that the last come must go first except where a junior man can claim to remain on the ground of remarkable efficiency. In the present case, I get it admitted by the Company's Secretary, Sri Amiya Kishore Das, that Probhat Babu is one of the oldest officers of the Company. He has put in about 25 years of service under the Company. From the list (Ext. D) it will appear that many old people were discharged. But I get that there are many people who are junior to Probhat Babu still in the Company's service. Not that the post of Probhat Babu was abolished. His work is being done by his Assistant and also by another part-time man. Even the Secretary of the Company admits that he has nothing to say against Probhat Babu's merit as an officer. The Company tried to make out a case of inefficiency against Probhat Babu. It was told that he was nearing the 60th year. But the evidence makes it clear that he was a devoted servant of the Company. There is no evidence derogatory to his merit as an officer. So this is an idle plea on the part of the Company to chuck out Probhat Babu by giving him a bad name. I found him to be quite active and alert when he deposed before me. Age does not seem to have robbed him of his alertness. I also find that other persons have been appointed even after the discharge of Probhat Babu. Sisir Chowdhury has been since taken as a technical expert for the first time. It is extremely doubtful whether there was any emergent necessity for creating this post. So there are good reasons for believing that there is something behind this discharge of Probhat Babu than what the Company has alleged. Now what is that reason? Probhat Babu says that he was charged for his trade union activities and for his difference with the Director in charge, Sri K. C. De, in the matter of distribution of the Company's products. Regarding the second reason, Probhat Babu has not adduced satisfactory evidence except his uncorroborated testimony. He has also not mentioned this ground in his letter to the Labour Commissioner. I am not prepared to accept that Sri K. C. De discharged him out of private grudge arising from his interference in the matter of distribution of the Company's products. But regarding the first reason, Probhat Babu stands on a firmer footing. It is admitted that he was formerly the President of the H. Dutta & Sons Employees' Union. I also get that he was actively agitating for the balance of bonus of 1949 which the Company withheld. There was a conciliation proceeding pending over this matter. A day before his discharge there was a joint meeting presided over by the Conciliation Officer. So in the absence of any cogent reason for discharge, as I have already discussed, it will not be too much to hold that Probhat Babu was an eyesore to the Company for his trade union activities and was discharged as a consequence. Even Sri Nathuram Choudhary, who is the other Director in charge, spoke before the Conciliation Officer that the demand of Sri Ghose was reasonable and his discharge had been done arbitrarily. He was however helpless in the matter (*vide* the Conciliation Officer's report in the record). Thus it is abundantly clear that Probhat Babu's discharge was an instance of victimisation and unfair

labour practice. Sri K. C. De wanted to stifle the agitation for bonus. That he was not well disposed towards Probhat Babu will also appear from the fact that the bonus which was declared only on the 3rd day of 1950, i.e., four or five days after Probhat Babu's discharge, did not include his name amongst the recipients. So in the present case Probhat Babu is entitled to reinstatement. He must be reinstated to his previous post, but, if that is not vacant, to an equivalent post with equivalent pay and prospects within a month of the award coming into operation. The Company's objection is that Probhat Babu, having received one month's pay in lieu of notice, has forfeited all rights to relief before the Tribunal. I am afraid such contention can never find favour with a Tribunal. By accepting these wages in lieu of notice, all that Probhat Babu has waived—if he has waived at all—is his objection resting on the ground of notice. He cannot find fault with the Company for not giving a notice of termination of service, but nothing more has been waived. The question of acquiescence also does arise in the present case. The Company can never gag an industrial dispute by prevailing on the discharged worker to receive one month's wages in lieu of notice. The Company's objection is overruled. The Company's objection regarding the present Union is also untenable. Though some of the members might have left the Union, they have not formed a new Union to represent them. So this contention also fails.

6. Regarding incidental reliefs, Probhat Babu is entitled to have his salary for the period of this forced unemployment. But in view of the Company's financial position which is not very sound, as will appear from the fact that the Company has adapted a scheme under section 153 of the Companies Act under the direction of the Hon'ble High Court, I do not grant such compensation. I grant Probhat Babu leave with full pay that stands to his credit at the time of his discharge. This period of forced unemployment will count towards other privileges available under the Company, viz., gratuity, etc., as it is leave without pay. Probhat Babu will also be eligible for receiving the benefit of bonus that was given up to the time of his discharge and also to other bonus, if any, which has since been declared. The one month's wages that he has received in lieu of notice I grant as compensation in the present case. About the deposit of Rs. 160 I give no direction. The payments referred to above must be made within one month of the award coming into operation. So this issue is disposed of in favour of Sri Probhat Chandra Ghose.

And whereas during the pendency of proceedings before the said Sri Das Gupta, District Judge, Sri Rajani Kanta Jana, Taraknath Banerjee and other workers of the Victoria Cotton Mills, Ghosury, Howrah, made a complaint in writing before the said Tribunal alleging that the said Commission had altered, to the prejudice of the said workmen, the conditions of service applicable to them immediately before the said proceedings;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Sri A. Das Gupta, District Judge, has adjudicated upon the said complaint and submitted his award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of reference No. 5707Lab., dated the 28th September 1950, of the Government of West Bengal, Labour Department, and in the matter of an industrial dispute between the Victoria Cotton Mills, Ghosury, Howrah, Head Office, 46, Strand Road, Calcutta, and their workers represented by Sri Rajani Kanta Jana and others, 27/1, Ram Charan Naskar Lane, post office Ghosury, Howrah, and in the matter of three complaints under section 33A of the Industrial Disputes Act, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950. AWARD.

The facts of the case are that by an order of reference No. 4861Lab., dated 13th August 1950, of the Government of West Bengal, Labour Department, an industrial dispute involving various points was referred to S. C. Chakrabartty, District Judge, for adjudication. Subsequently the services of Sri S. C. Chakrabartty were not available, I was asked to adjudicate the said dispute. The dispute is still pending.

With a view to close the mill the Manager issued the following notice on 13th August 1950:—

'The Management is regretfully compelled to give notice hereby that the mills will be closed on and from the 1st of October 1950 for want of required quality and quantity of cotton at the ceiling prices, blocking of finance and heavy loss being incurred due to the disparity of cost of production and the prices of the finished products.

The Management have made repeated representations to the authorities concerned for making the required quality and quantity of cotton available and for either allowing higher prices for yarn

or for supplying cotton at reasonably lower prices to enable mills to run the mill economically but so far the requests have not been complied with.

(Sd.)

The contemplated closure of mill is the subject-matter of adjudication under reference No. 5707Lab., dated the 28th September 1950.

The Victoria Cotton Mills together with Sri Hanuman Cotton Mills a partnership business of the same set of partners. Some time before notice for closure of the mill was given the partners fell out and rushed to the Hon'ble High Court. By an order, dated 17th August 1950, Sri Mahesh Lal Jaju was appointed Receiver. The Receiver was given the right to carry on the business and to raise money for the purpose up to a limit of two lakhs at any time, with the previous consent of all the partners, being able to obtain the consent of all the partners, the Receiver could secure funds. He applied to the Hon'ble High Court for further directions. We are not aware what further directions were given by the Hon'ble High Court.

Pursuant to the notice of the 30th August 1950, the mill was closed down on and from 1st October 1950 and the workers were thrown out of employment. But the services of the office staff were retained for completing the office records. On the 30th October 1950 a notice was issued over the signature of the Receiver terminating the services of all employees on the expiry of the last date of November 1950. The notice was as follows:—

"The employees of Victoria Cotton Mills at Ghusury, Howrah, are hereby informed that due to disputes among the partners, the mills are under my charge and under orders of the Hon'ble High Court in Calcutta and owing to the difficulties of finance and necessarily in the procurement of materials, etc., it is not possible to reopen or to run the mills for the present, and in the exigencies of the circumstances and with deep regret your services are hereby terminated with the expiry of the last date of the month of November 1950....."

For carrying on the maintenance works some workers were reappointed with effect from 1st December 1950. Three complaints have been filed by the workmen of the mill under section 33A of the Industrial Disputes Act as amended by the Industrial Disputes (Appellate Tribunal) Act, 1948. The details are given below in a tabular form:—

The circumstances which the mill closed down came in the mischief of section 33 of the Industrial Disputes Act.

No.	Complainants.	Complaints.	Reply of the opposite party.
1950	Taraknath Banerji and others, 94, Naskarpara Road, Howrah.	The Company by issuing a notice on 30th October 1950 over the signature of the Receiver terminating the services of the employees during the pendency of the adjudication proceedings under orders Nos. 4861 Lab. and 5707-Lab. without the express permission of the Tribunal violated the provision of section 33 of the Industrial Disputes Act.	The circumstances under which the mill was closed resulting in the discharge of labour and other employees do not come within the mischief of section 33.

The Receiver was made a party to the adjudication proceedings as also the proceedings under section 33A. Notice was duly served on him and was represented in all these proceedings by Sri P. C. Mullick, Advocate.

Section 33A of the amended Industrial Disputes Act authorises a Tribunal assume jurisdiction over an industrial dispute arising out of the violation the provisions of section 33 of the Act as amended by the Industrial Disputes (Appellate Tribunal) Act of 1950, without a formal reference from the appropriate Government under section 10 of the Act. This is a special provision and the conditions under which this special provision may be invoked must be fulfilled before the Tribunal assumes jurisdiction over an industrial dispute, without any order of reference from the appropriate Government as contemplated by the general section (section 10 of the Act). The conditions are that adjudication proceedings must be pending before the Tribunal and that during the pendency of these proceedings the employers contravene the provisions of section 33.

In all these cases at the time when the employers' actions complained were taken, adjudication proceedings before this Tribunal were pending. It is to enquire whether the provisions of section 33 of the Act as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, were contravened. The amended section runs as follows:—

"During the pendency of any conciliation proceedings or proceedings before a Tribunal in respect of any industrial dispute, no employer shall—

- alter, to the prejudice of the workmen concerned in such dispute, the conditions of service applicable to them immediately before the commencement of such proceedings; or
- discharge or punish, whether by dismissal or otherwise, any workman concerned in such dispute, save with the express permission in writing of the Conciliation Officer, Board, or Tribunal, as the case may be."

I have already said, adjudication proceedings were pending before this Tribunal at the time when the actions of the Management complained of were taken. It may further be noted that the permission in writing contemplated by this section was not obtained by the Management, or for that matter by the Receiver, before the actions complained of were taken. They are therefore called upon to look into the merit of the points and to decide whether these complaints are hit by the section. Section 33 consists of two parts. Clause (a) refers to alterations of the conditions of service

applicable to the workmen immediately before the commencement of proceedings, and clause (b) refers to discharge or punishment by dismissal or otherwise of workmen concerned in the parent dispute.

Case No. 30 refers to a demand of the workers for Puja bonus for, although it was stated in the petition of complaint that the workers had been paid Puja bonus in the preceding two years. It transpired from discussions during the hearing that in pursuance of the directions in omnibus award published under the Government of West Bengal, Labour Department, order No. 2956Lab., dated the 21st August 1948, the standing dues of Puja bonus for 1947 were paid in the year 1948. Rupee was paid in 1947. The directions of the Tribunal were for payment of month's basic salary and dearness allowance as Puja or Id bonus for. Pursuant to this direction the workers were paid one month's basic salary and dearness allowance less Rs. 33 which had already been paid in 1948. In 1949 the workers were paid 20 days' wages as bonus. The contention of the Management is that this payment was made by a partur as *ex-gra* payment. Be whatever that might, the fact remains that no bonus was paid in 1948. The payment which was made in 1948 was on account of bonus due for 1947. It is clear that bonus was never paid regularly to the workers. It was paid only for two years at intervals and the rate of bonus was not uniform. I do not consider that such bonus was a condition of service for the workers. Besides under the last omnibus award, festival bonus was no better than *ex-gratia* payment. Such bonus could not therefore be part of the conditions of service. I accordingly hold that non-payment of bonus for 1950 or rather refusal by the Management to pay bonus to workers in 1950 does not offend section 33 of the Act. The complaint No. 30 of 1950 is accordingly rejected.

I take up complaints Nos. 35 and 47 together, for they involve identical questions of facts and law. I have already noted that the mill was closed on and from 1st October 1950 pursuant to a notice issued on 30th August 1951. At the time when the mill was closed the adjudication proceedings were pending. Consequent to the closure of the mills the workers were thrown out of employment, although the notice does not clearly indicate that the workers were discharged. The mill was closed but to complete records, the office staff was retained. Subsequently when the records were completed their services were terminated with effect from 1st December 1950 by a notice, dated 30th October 1950. Some of the workmen were however retained with effect from 1st December 1950 for carrying on maintenance works. Termination of service of the office staff was also a result of the closure of the mills. The first question that has got to be considered is whether closure of the mills is a violation of section 33 of the Industrial Disputes Act, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950. Every individual has the natural right to initiate business or an undertaking and to close it down. This natural right has not as yet been interfered with in any way by any legislation. An industrial dispute is a dispute or difference between employers and employees, between employers and workmen or between workmen and workmen, which is connected with the employment or non-employment or the terms of employment or with the conditions of labour, of any person. Employment or non-employment or terms of employment or conditions of labour contemplated by the definition of industrial dispute must be understood to have reference to circumstances under which employment is possible. The definition does not contemplate circumstances under which employment of labour or service of any workman is impossible. Conditions of service contemplated by section 33(a) must also be read with reference to circumstances when such service is possible. When the natural right of

Individual to wind up a business or an undertaking has not been denied, & consequence that follows cannot be avoided by any legislation. A temporary closure of a business or an undertaking is technically known as lock-out and its counterpart is strike. Labour laws as also Labour codes recognise the right of an employer to declare a lock-out and the right of employees to declare a strike subject to some limitations which have been imposed in the interest of the public as also in the interest of an industrial concern, so long as the industry is not permanently closed down. The Victoria Cotton Mills comes under the head Cotton Textile Industry in the schedule annexed to the Industrial Disputes Act, 1947. It is a public utility concern. Section 22 of the Act provides the conditions under which an employee may strike work and an employer can lock out any of his workmen. Section 23 prohibits strikes and lock-outs during the pendency of proceedings before a Tribunal and two months after the conclusion of such proceedings. Strikes and lock-outs may also be prohibited by the appropriate Government under section 10, sub-section (3) of the Act. Section 26 provides for punishment for strikes and lock-outs in violation of the provisions of the Act. Section 29 provides penalty for breach of any term of any settlement or award under the Act and section 31 provides penalty for offences under section 33.

Thus it is clear that the scheme of the Act clearly indicates that strikes and lock-outs are not alteration of the conditions of service. If they were, the Legislature would have provided the same punishment for illegal strikes and lock-outs and for alteration of the conditions of service and discharge of punishment by way of dismissal or otherwise of any workman in violation of section 33. Besides, alteration of the conditions of service as also charge or punishment of workmen by dismissal or otherwise during the pendency of the proceedings before a Tribunal are permissible if the express permission of the Tribunal is obtained in writing as contemplated by section 23.

But the prohibition of strikes and lock-outs during the pendency of proceedings before a Tribunal and two months after the conclusion of such proceedings is absolute under section 23 of the Act. The express permission of the Tribunal contemplated by section 33 will not validate such strikes and lock-outs. The prohibition under section 33 in the absence of an express permission of the Tribunal continues only up to the date of publication of the award. But the prohibition of strikes and lock-outs under section 23 continues not merely up to the publication of the award but extends to two months after such publication. Thus it is clear that the intention of the Legislature was to treat strikes and lock-outs as having no reference to conditions of service of workmen.

Strikes and lock-outs mean temporary suspension of work. This may be carried on for a pretty long time or even indefinitely but intention to resume work on a future date must be present. If the workmen striking work have no intention to return to work, their action amounts to resignation. Particularly if the place of business is closed down without the intention on part of the employer to reopen it, the action amounts to winding up of the business and it can no longer be called a lock-out, in the same way as its counterpart cannot be called a strike if the employees have no intention to return to work. I am, accordingly, clearly of opinion that strikes and lock-outs have no connection with the conditions of service. If they were prohibited before the reference of an industrial dispute for adjudication, they would be prohibited during the pendency of the adjudication proceedings under section 23 of the Act and not by section 33. If strikes and lock-outs are declared and carried on during pendency of the adjudication proceedings,

the illegality will not be cured by a permission of the Tribunal as contemplated by section 33 for alteration of conditions of service and discharge or punishment by dismissal or otherwise of any workman.

During strikes and their counterpart lock-outs, relationship of employer and employee between the Management and the workmen is not *ipso facto* terminated. It is only suspended to be revived when the strikes and lock-outs are recalled. Employment of the workmen is not altogether impossible during such suspension of work but for the difference between the employer and employees. Conditions of service clearly suggest the circumstances under which such service is possible. When such service is not possible is rather impossible there cannot be any question about conditions of service. If during temporary suspension of work (strikes and lock-outs), when service is possible but for the difference between employers and employees, a suspension of work does not amount to alteration of the condition of service. I fail to understand that when a business or an undertaking is wound up and all possibilities of service are permanently closed such winding up of business or undertaking may be construed as alteration of condition of service.

In any view of the case, the closure of the Victoria Cotton Mills pursuant to the notice, dated 30th August 1950, was not hit by section 33(a) of Industrial Disputes Act as amended by the Industrial Disputes (Appellate Tribunal) Act of 1950, no matter whether such closure was temporary or permanent. If it is temporary and if it be construed as a lock-out, Management is punishable under section 26 of the Act. I may be permitted to make it clear that I do not propose to express myself whether the closure if it were temporary amounted to lock-out. If the closure was permanent it flowed from the natural right to close down a business or an undertaking which has not hitherto been restricted in any way.

In the notice, dated 30th August 1950, there was no indication that services of the workers were to be terminated on the date when the mill was to be closed down. The intention of the employers was made clear by the notice, dated 30th October 1950, terminating the services of the workers. From this notice it is clear that there was no intention to close the mill. Financial difficulties and difficulties in procurement of material are said to have stood in the way. If the closure be construed as a temporary one, it might at best be construed as a lock-out. And in that case employer may be subjected to the penalty under section 26 of the Act. In this view of the case the workers were not discharged. Their relationship with the employers as employees was subsisting till it was indicated expressly or by implication that their services were terminated. The notices, dated 30th August 1950 and 30th October 1950, taken together clearly indicated that the closure was for good. If such closure flowed from the exercise of natural right, the consequences which such closure entails cannot be prohibited, for that will be indirectly prohibiting the exercise of natural right. Termination of service of employees when a business or an undertaking is wound up is inevitable. Such termination of service of employees consequent on the winding up of business or an undertaking cannot be said to be by operation of law, for the subject-matter of the employment of the employees is no longer existent and services of the employees cannot become impossible. To attract clause (b) of section 33, the discharge or punishment by way of dismissal or otherwise of a workman must be a positive act of the employer. Where services of an employee are terminated by operation of law in consequence of the employer exercising a natural right, section 33(b) does not come into play. In any view of the case, the employment of the workers which is the subject-matter of the complaint in case No. 35 of 1950 is not hit by section 33 of the Act.

The members of the clerical staff were perfectly aware that their services could also be terminated as a natural consequence of the closure of the mills. If their services were retained for a further period till the 30th November 1950 for completion of the records. On completion of the records their services were terminated by operation of law. The arguments about the closure of the mills with reference to the non-employment of the workers are not applicable to the non-employment of the members of the office staff. Their services were not actually terminated on 1st October 1950 on which date the mill was closed. Their services were terminated on the 30th November 1950 on completion of the work for which their services were retained after the closure of the mills. Whether the termination of their services be attributed to the closure of the mills or to the completion of the records, the termination was by operation of law. In giving the notice to the members of the office staff on the 30th October 1950, the Receiver only invited the attention of the office staff that their services would come to an end on completion of the records. The complaint which is the subject-matter of case No. 47 of 1950 is not also, in any view of the case, hit by section 33.

Although closure of an undertaking and the consequent termination of services of the employees do not amount to alteration of the conditions of service of workmen or discharge of the workmen by an act of the employer, are not prohibited by any law, the circumstances under which such closure is effected may be taken into account in assessing the compensation payable to the workmen, for compensation on termination of service, whether by operation of law or by an act of parties or compensation during temporary suspension of work, strike or lock-out, is a term and condition of service. Each compensation varies inversely with the degree of justification of the closure of the business or temporary suspension of work by the employer. I am not called upon here to assess this compensation. I may be permitted to note that this was the subject-matter of adjudication under order of reference No. 5707Lab. and that a separate award has already been given at this point.

Office of the Accountant-General, West Bengal

NOTIFICATIONS

Subject: Preparation of separate schedules under the heads "37—Education" and "57—Miscellaneous".

No. TM/332.—1st March 1951.—Attention of all Treasury Officers in West Bengal is invited to this office notification No. TM/1167, dated 23rd March 1950 (published on page 513 of Part I of the *Calcutta Gazette*, dated 30th March 1950) in which instructions were issued for preparing the payment schedules in two parts: the first part for payments to Gazetted Officers and the second part for other payments. With a view to facilitate the process of audit and accounting in this office it has been necessary to have schedules relating to the second part in respect of the major head "37—Education" further subdivided as follows:—

Part II for Grant-in-aid and scholarship payments and Part III for other payments, e.g., Establishment, Travelling allowance, Contingency, etc. The totals of Parts I and II should be carried forward to Part III.

Similarly, the payment schedule relating to the second part in respect of the major head "57—Miscellaneous (Provincial)" should be further subdivided as follows:—

Part II for payments relating to the minor head "Expenditure on displaced persons" and Part III for those relating to all other minor heads under the aforesaid major head, the totals of Parts I and II being carried forward to Part III.

The vouchers supporting each part of the schedules should accordingly be submitted in separate lots.

This procedure will have effect from the accounts for April, 1951.

Subject: Preparation of payment schedule and transmission of paid vouchers and cheques relating to the major head "85A—Capital Outlay, etc."

No. TM(THVI)/233.—1st March 1951.—It has been noticed that the procedure followed by the Treasury Officers in the preparation of payment schedules and submission of paid vouchers and cheques relating to the major head "85A—Capital Outlay, etc.", is not correct and uniform. The main defect noticed in this respect is that the paid cheques relating to the personal ledger accounts opened in connection with the concessional supply of foodgrains to certain classes of Government servants through the cheap grainshops do not in many cases accompany the other paid vouchers and the main schedules of charges under the aforesaid head of account. It is generally seen that these paid cheques, which are entered in a separate schedule often remain wanting or are mislaid or sometimes get mixed up with other kinds of cheques with the result that their adjustment in the accounts is delayed; and sometimes the adjustment has to be carried out on the strength of certificates of payment obtained from the Treasury Officers concerned.

2. With a view to obviate this, all Treasury Officers in West Bengal are hereby requested to see that the following procedure in respect of preparation of payment schedules under the aforesaid head and the transmission of paid vouchers and cheques to this office is strictly observed:—

A sub-schedule should be prepared in duplicate in which the paid cheques should be entered serially according to the voucher Nos. assigned to them. The entries should be made under distinct heading for each officer operating the P.L. Account, and the totals thereof carried forward to the main schedule of payments under the head "85A—Capital Outlay, etc.". All paid cheques with the covering sub-schedule and also the other paid vouchers relating to the above head should be tied together and sent to this office along with the main schedule accompanying the monthly account.

Subject: Payment to local bodies of fees for petroleum, explosives and carbide of calcium licenses issued by District Authorities.

No. TM(TEI)/235.—3rd March 1951.—Attention of all District Officers in West Bengal is invited to paragraph 39A of the Bengal Audit Manual as inserted by correction slip No. 172, dated the 2nd January 1940, regarding payment to local bodies of fees for petroleum, explosives and carbide of calcium licenses issued by the District Authorities. Statements of fees realised under the Petroleum Act and Carbide of Calcium Rules during the period from March 1950 to February 1951, duly verified by the Treasury Officer, should be sent to this office in time to enable it to issue necessary authority for payment to the municipalities before the 31st March 1951. Special care should be taken to see that the statement, referred to above, is prepared in terms of the aforesaid paragraph of the Bengal Audit Manual to avoid unnecessary correspondence and delay in payment. A separate statement should be submitted in respect of fees under Explosive Acts which are not refundable.

Subject: Submission of Annual Establishment Returns by Heads of Offices.

No. T.M./236.—8th March 1951.—Attention of all heads of offices of the Government of West Bengal as well as of the Central Government under

the audit control of this office is invited to fiction No. T.M./950, dated 8th March 1949, published at pages 487, 535 and 573 of the *Calcutta Gazette*, dated 17th, 24th and 31st March respectively, as well as to notification No. 192, dated 20th September 1950 (published page 2051 of the *Calcutta Gazette*, dated 5th March 1950), on the subject noted above. It is requested that suitable steps may kindly be taken to ensure the submission of Annual Return of Establishment (including personnel holding temporary non-gazetted posts in superior pension service against temporary sanctions) as it stands on the 1st April 1951 to this office on or before the 15th May 1951 as required by the rules.

LABOUR DEPARTMENT

ORDER.

No. 1467Lab.—5th March 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 4568Lab., dated the 17th August 1950, the industrial disputes between Messrs. J. K. Eastern Industries, Ltd., and their associated firms, Messrs. Vita Supplies Corporation, Ltd., Messrs. Reform Flour Mills, Ltd., Messrs. Snow White Food Products Co., Ltd., all of 18, Netaji Subhas Road, Calcutta, and their employees employed at 18, Netaji Subhas Road, Calcutta, represented by Association of Employees' Unions, Commercial Buildings, Block No. 3, 2nd Floor, 23, Netaji Subhas Road, Calcutta, were referred for adjudication to a Tribunal consisting of Sri A. Das Gupta, District Judge;

And whereas during the pendency of proceedings before the said Tribunal, Joint Secretary of the Association of Employees' Union aforesaid made a complaint in writing before the said Tribunal alleging that the said company had altered, to the prejudice of the said workmen, the conditions of service applicable to them immediately before the said proceedings;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Tribunal has adjudicated upon the said complaint and submitted his award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of reference No. 4568Lab., dated the 17th August 1950, of the Government of West Bengal, Labour Department, and in the matter of an industrial dispute between Messrs. J. K. Eastern Industries, Limited, and their associated firms, the Vita Supplies Corporation, the Reform Flour Mills, Ltd., and Messrs. Snow White Food Products, Co., Ltd., all of 18, Netaji Subhas Road, Calcutta, and their employees at 18, Netaji Subhas Road, Calcutta, represented by Association of Employees' Unions, Commercial Buildings, Block No. 3, 2nd Floor, 23, Netaji Subhas Road, Calcutta, and in the matter of a complaint under section 33A of the Industrial Disputes Act, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950 (Case No. 3 of 1951),

PRESENT:

SRI A. DAS GUPTA, *District Judge.*

the complainant. Sri Jiten Bannerji, Joint Secretary, Association of Employees' Unions.

the opposite party. Sri S. Sen, Advocate, and Sri N. M. Das Gupta, Pleader

AWARD.

In the present complaint, dated the 13th January 1951, was filed by the Secretary of the Association of Employees' Unions, Sri Jiten Bannerji, on behalf of some employees of Messrs. J. K. Eastern Industries and their associated firms, the Vita Supplies Corporation, Ltd., the Reform Flour Mills, Ltd., and Messrs. Snow White Food Products Co., Ltd.

The complaint is that these Companies have victimised their employees wrongfully by a notice, dated 11th January 1951, in contravention of section 33 of the Industrial Disputes Act, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, without any permission from the Tribunal as contemplated by the said amended section, during pendency of adjudication proceedings under order of reference of Government of West Bengal, Labour Department, No. 4568Lab., dated the 17th August 1950. The complainant prays for an order prohibiting discharge of the employees and for compensation to the employees aggrieved by the said notice. The notice is said to have been served on ten employees mentioned in the annexure to the petition of complaint.

The opposite parties contend that their action in respect of the employees mentioned in the annexure to the petition of complaint is not hit by section 33 of the amended Act; and that the complaint on behalf of the said employees under section 33 is not maintainable. They plead that as the mill of the Snow White Food Products Co., Ltd., has been closed, the employees for whom the petition of complaint has been filed have become surplus to the requirements.

Before I enter into the merit of the case, for a clear appreciation of the law involved, I may be permitted to reproduce section 33 of the amended Industrial Disputes Act.

“During the pendency of any conciliation proceedings or proceedings before a Tribunal in respect of any industrial dispute, no employer shall—

- (a) alter, to the prejudice of the workmen concerned in such dispute, the conditions of service applicable to them immediately before the commencement of such proceedings; or
- (b) discharge or punish, whether by dismissal or otherwise, any workman concerned in such dispute,

save with the express permission in writing of the conciliation officer, Board or Tribunal, as the case may be.”

Section 33A of the amended Industrial Disputes Act authorises the Tribunal to assume jurisdiction over an industrial dispute arising out of the violation of the provisions of section 33 of the Act as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, without any order of reference from the appropriate Government under section 10 of the Act. This is a special provision and the conditions under which this special provision may be invoked must be fulfilled before the Tribunal assumes jurisdiction over an industrial dispute, without any order of reference from the appropriate Government as contemplated by the general section 10 of the Act. The conditions are that the adjudication proceedings must be pending before a Tribunal, that during the pendency of the proceedings the employers contravene the provisions of section 33, and that such contravention is in respect of the workmen who are concerned in the dispute pending for adjudication.

It may be noted that an industrial dispute covering a good number of items of grievance of a general nature was referred to this Tribunal for adjudication by order of reference of the Government of West Bengal, Labour Department, No. 4568Lab., dated the 17th August 1950. An award which was given in pursuance of the said order of reference was published by the Government of West Bengal, Labour Department, *Calcutta Gazette*, dated 8th February 1951, under order No. 485Lab. dated 24th January 1951. The basis of the grievance of the employees

notice, dated 11th January 1951. It is clear when this notice was given the adjudication proceedings started under order of reference No. 4568 Lab., were pending; and that the workmen for whom the notice, dated 11th January 1951, was meant were concerned in the dispute covered by the aforesaid order of reference. It may be noted that no permission was obtained from this Tribunal for the action which was to take effect under the said notice on and from 12th January 1951. The basis of the grievance of the employees, as I have already stated, is the action taken by the Management against the ten employees on and from 12th January 1951, by the notice, dated the 11th January 1951. The notice is reproduced below:—

"Dated 11th January 1951.

DEAR SIR,

The Company regrets to inform you that owing to the dearth of work the Company is not in a position to keep you employed any further. It is therefore necessary that your services should be terminated. The Company has decided to apply to the Tribunal (Sri A. Das Gupta), for necessary permission for the purpose and till such permission is obtained to put you on leave of absence.

You are therefore hereby informed that with effect from tomorrow, that is 12th January 1951, you will be put on leave and need not attend till further orders.

Yours faithfully,

For and on behalf
of Reform Flour Mills, Ltd.,
J. K. Eastern Industries, Ltd.,

G. D. JATIA, *Mg. Agts.,*
Director."

It is clear from the notice that the Management contemplated to retrench ten employees on whom the notice was served on the ground of dearth of work. But that before actually terminating their services they were put on compulsory leave, till permission was obtained from the Tribunal to terminate their services. On 17th January 1951 the Company filed an application before this Tribunal for permission to discharge the said ten employees. This application was registered as Case No. 152 of 1951. Notice was issued to the opposite parties and the opposite parties had to file written objection. The case could not be taken up before 13th February 1951 by which date the main award had been published in the *Calcutta Gazette*. The employees were not discharged at least till 8th February 1951 on which date the said award was published, as contemplated by the notice, dated 11th January 1951. Section 33 of the amended Act contemplates permission of the conciliation officer, Board or Tribunal before any proceedings in respect of an industrial dispute between the parties are pending, for such action or actions as are covered by clauses (a) and (b) of the said section only during pendency of the proceedings. After publication of the award, the adjudication proceedings could not be said to be pending. As section 33 does not contemplate any permission for any action after publication of the award, even though such action may be either of the two kinds mentioned in clauses (a) and (b) of section 33, no order was passed on the application of the employers under section 33 granting any permission. The matter was accordingly left to the discretion of the employers who might take any action they might think best, at their own risk.

According to the notice, dated 11th January 1951, the ten employees were put on leave on and from the 12th January 1951, pending the final order of discharge, which was not passed at least till the award was finally published. The only point for investigation in the present case is whether the act of the employers which was to take effect under the notice on and from 12th January 1951 was covered by any of the two clauses (a) and (b) in section 33.

The employees were put on compulsory leave. In clause (a) the word "workmen" has been used while in clause (b) the word appears in the singular number. Evidently the intention of the legislature appears to have been to use the word workmen in clause (a) in the collective sense and the words "any workman" in clause (b) in the singular or individual sense. The mere fact that one or more workmen individually have been denied the privileges or benefits available to the workmen in general under the existing terms and conditions of service in an industry, cannot be construed as a change in the conditions of service. It is only when such privileges and benefits are denied to the workmen taken collectively, the inference is that the conditions of service have been changed. This has not happened in the present case. If some workmen are denied the privileges and benefits available under the existing terms and conditions of service, the presumption is that at least these workmen have been denied such privileges and benefits by way of punishment. This presumption is rebuttable and on the facts and circumstances of each case the Tribunal has to decide whether such denial was connected with any punishment or was for other reasons.

Putting some of the employees on compulsory leave does not by itself amount to discharge or punishment. Punishment presupposes or signifies some offence committed by the man who is punished. Any action of an employer to the detriment of a workman's interest is not punishment so long as no offence is found to have been committed by the workman. Such action, in the absence of any suggestion of an offence to the prejudice of a workman may be the subject-matter of an investigation as to whether it amounted to any unfair labour practice or not. We are not here concerned with that question. It is sufficient for the purpose of the present enquiry to say that the action of the employers in respect of a workman, however detrimental to the interests of the workman is not punishment so long as the workman is not held to have committed an offence or, in other words, so long as the action of the employer is not looked upon by a man of ordinary prudence as punishment. Putting the employees on compulsory leave does not also amount to discharge, for during such leave the relationship of employers and employees between the parties did not cease. In view of the case, the action which was to take effect on and from 12th January 1951, under the notice, dated 11th January 1951, did not amount to alteration of the conditions of service of the entire body of workmen taken collectively or to discharge or punishment of the workmen taken individually as contemplated respectively by clauses (a) and (b) in section 33 of the amended Act.

The next question which may arise is whether putting the workmen on compulsory leave amounted to a lock-out, as defined in clause (1) of section 2 of the Industrial Disputes Act. "Lock-out" has been defined to mean the closing of a place of employment or the suspension of work or refusal by an employer to continue to employ any number of persons employed by him. We could understand at the hearing that the factory of Snow White Food Products Co., Ltd., had been closed. Without expressing myself definitely as to whether the action of the employers complained of amounted to a lock-out, I propose to discuss the question

whether a lock-out during pendency of adjudication proceedings is hit by section 33 of the amended Act, on the assumption that the action of the management amounted to a lock-out. I also propose to discuss whether closure of the mill of Snow White Food Products Co., Ltd., during pendency of the adjudication proceedings without permission of this Tribunal amounted to a contravention of section 33. Every individual has a natural right to initiate a business or an undertaking and to close it. This natural right has not as yet been interfered with in any way by any legislation. An industrial dispute is a dispute or difference between employers and employees, or between employers and workmen or between workmen and workmen, which is connected with the employment or non-employment or the terms of employment or the conditions of labour, of any kind. Employment and non-employment or terms of employment or the conditions of service contemplated by the definition of an industrial dispute must be understood to have reference to circumstances under which employment of labour or service of any workman is impossible. Situations of service as contemplated by section 33(a) must also be read with reference to the circumstances when such service is possible. When a natural right of an individual to wind up a business or an undertaking has not been denied, the consequence that follows cannot be avoided by any legislation. A temporary closure of a business or an undertaking is technically known as a lock-out and its counterpart is a strike. Labour as also Labour Courts have recognised the right of an employer to declare a lock-out and the right of employees to declare a strike subject to the limitations which have been imposed in the interests of the public as in the interest of an industrial peace so long as the industry is not permanently closed down. The Snow White Food Products Co., Ltd., is, by its name implies, a foodstuff industry. According to the schedule annexed to the Industrial Disputes Act, 1947, a foodstuff industry is a public utility concern. Section 22 of the Act provides the conditions under which an employee can strike work and an employer can lock-out any of his workmen. Section 23 prohibits strikes and lock-outs during the pendency of proceedings before a Tribunal and two months after the conclusion of such proceedings. Strikes and lock-outs may also be prohibited by the appropriate Government under section 10, sub-section (3) of the Act. Section 26 provides for punishment for strikes and lock-outs in violation of the provisions of the Act. Section 29 provides penalty for breach of any award or settlement or award under the Act and section 31 provides punishment for offences under section 33.

But it is clear that the scheme of the Act clearly indicates that strikes and lock-outs are not alteration of the conditions of service. If it were so, the Legislature would have provided the same punishment for illegal strikes and lock-outs and for alteration of the conditions of service and discharge of workmen by way of dismissal or otherwise of any workman in violation of section 33. Besides, alteration of the conditions of service as also punishment of workmen by dismissal or otherwise during the pendency of the proceedings before a Tribunal are permissible if the express permission of the Tribunal is obtained in writing as contemplated by section 22. But the prohibition of strikes and lock-outs during the pendency of proceedings before a Tribunal and two months after the conclusion of such proceedings is absolute, under section 23 of the Act. No permission of the Tribunal will validate such strikes and lock-outs. The prohibition under section 33 in the absence of an express permission of the Tribunal operates only up to the date of publication of the award. But the prohibition of strikes and lock-outs under section 23 continues not merely up to the date of the award but extends to two months after such publication.

Thus it is clear that the intention of the Legislature was to treat strikes and lock-outs as having no reference to conditions of service of workmen.

Strikes and lock-outs mean temporary suspension of work. This may be carried on for a pretty long time or even indefinitely but intention to resume work on a future date must be present. If the workmen striking work have no intention to return to work, their action amounts to resignation. Similarly if the place of business is closed down without the intention of reopening the business, the action amounts to winding up of the business and it can no longer be called a lock-out. The same way as its counterpart cannot be called a strike if the employees have no intention to return to work. I am, accordingly, clearly of opinion that strikes and lock-outs have no connection with the conditions of service. If they were permissible before the reference of an industrial dispute to adjudication they were prohibited during the pendency of the adjudication proceedings by section 23 of the Act and not by section 33. If strikes and lock-outs are declared and carried on during pendency of the adjudication proceedings, the illegality will not be cured by a permission of the Tribunal as contemplated by section 33 for alteration of conditions of service, discharge or punishment by dismissal or otherwise of any workman.

During strikes and their counterparts lock-outs, relationship of employer and employee between the Management and the workmen is not *ipso facto* terminated. It is only suspended to be revived when the strikes and lock-outs are recalled. Employment of the workmen is not altogether impossible during such suspension of work but for the difference between the employer and employees. Conditions of service clearly suggest the circumstances under which such service is possible. When such service is not possible it is rather impossible there cannot be any question about conditions of service. If during temporary suspension of work (strikes and lock-outs), when service is possible but for the difference between employers and employees, suspension of work does not amount to alteration of the condition of service. Winding up of a business or an undertaking cannot be construed as alteration of the conditions of service inasmuch as all possibilities of service are permanently closed. If the closure of the mill of the Snow White Products Co., Ltd., is permanent, it flows from the natural right to close down a business or an undertaking which has not hitherto been restricted in any way. If it is temporary it may at best amount to a lock-out. I have pointed out that a lock-out is not contemplated by section 33 of the amended Act.

I have considered the case from all possible angles, and I am clearly of opinion that the action of the Management, which took effect from January 1951 in pursuance of the notice of the 11th January 1951, was not hit by section 33 of the Industrial Disputes Act as amended by the Industrial Disputes (Appellate Tribunal) Act of 1950. I cannot, accordingly, exercise jurisdiction over the industrial dispute under section 33A of the Act without any reference from the appropriate Government. I am not, accordingly, called upon here to make any award for compensation to the employees aggrieved by the aforesaid action of the Management. The aggrieved employees may, if they are so advised, move the Government in the matter.

A. DAS GUPTA
Judge,
Industrial Tribunal

The 20th February 1951.

D. S. P. MUKHERJEE, Jt.

NOTIFICATIONS.

No. 1485 Lab.—7th March 1951.—In exercise of the power conferred by clause (a) of sub-section (1) of section 3, read with sub-section (2) of clause 5 of the Minimum Wages Act, 1948 (XI of 1948), the Governor, having considered the advice of the Committee appointed under clause (a) of sub-section (1) of section 5 of the said Act by the notification No. 1363-Ab. dated the 22nd March 1950, is pleased to fix the minimum rates of wages payable to the employees in Tanneries and Leather Manufactories in the State of West Bengal, as specified in the schedule annexed hereto.

Schedule.

(8 working hours, 1 week = 6 working days and 1 month = 26 working days.)

NOTIFICATIONS.

No. P.H./600/2R-44/50.—9th March 1951.—The following draft of an amendment which in exercise of the power conferred by section 20 of the Bengal Food Adulteration Act, 1919 (Bengal Act VI of 1919), the Governor proposes to make in the rules published with notification No. 1977P.H., dated the 24th July 1930, as subsequently amended, is published for information of the persons likely to be affected thereby.

The draft will be taken into consideration on the 26th April 1951, and any objection or suggestion

with respect thereto received by the undersigned before that date will be duly considered.

Draft Amendment.

In rule 2 of the said rules under item (7) mustard oil *add* the following:—

“(c) Wherein a sample of mustard oil, the presence of any quantity of argemone is detected it shall be presumed, until the contrary is proved for the purposes of the Act, that the mustard oil is not genuine by reason of the addition thereto of extraneous matter”.

Murshidabad.—No. P.H. 602/2R-10/51.—8th March 1951.—Whereas the Governor is satisfied that the district of Murshidabad is threatened with an outbreak of small-pox;

Now, therefore, in exercise of the power conferred by section 2 of the Epidemic Diseases Act, 1897 (Act III of 1897), the Governor is pleased to prescribe the following temporary regulations for the prevention and control of small-pox, and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with, small-pox in the said district for a period of six months:—

Temporary regulations for the prevention and control of small-pox.

1. In these regulations, unless there is anything repugnant in the subject or context—

(a) “District Health Officer” means the Health Officer of the district appointed by the District Board under sub-section (3) of section 91 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885);

(b) “Sanitary Inspector” means a Sanitary Inspector appointed by the District Board under sub-section (3) of section 91 of the Bengal Local Self-Government Act of 1885;

(c) “Board” means a District Board constituted under the Bengal Local Self-Government Act of 1885;

(d) “Union Board” means a Union Board constituted under the Bengal Village Self-Government Act, 1919;

(e) “small-pox” means any disease accompanied by an eruption of vesicles or pustules;

(f) “patient” means a person suffering from or suspected to be suffering from small-pox;

(g) “medical practitioner” means any person practising the medical profession.

Notices.

2. If in any case the District Health Officer considers that the issue of a notice under regulation 20 is likely to lead to such an amount of delay as might facilitate the spread of small-pox he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reasons why such work has been carried out.

3. If any measure which the District Health Officer has, by a notice issued under regulation 20, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

Costs and compensation.

4. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the Board except in any case where the order directs a person to carry

out any work in relation to property in his possession, in which case the expenses shall be such persons:

Provided that where the conditions which the District Health Officer to pass such an order are not attributable to any act or default of the person in possession of the property, the Board shall reimburse to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The Board may recover all expenses incurred by the District Health Officer in carrying out any measure under regulation 3 from the persons to whom the notice was originally issued.

5. The Board shall pay adequate compensation to any person who has sustained substantial damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations if he has failed to carry out any measure issued under these regulations within the time specified in the order and to the satisfaction of the District Health Officer.

Location of disease

6. When a case of small-pox occurs in a house, the nearest male relative in attendance on the patient, or in the absence of any such relative the occupier of the house, or if the occupier is a female patient, the senior male inmate of the house, shall, within four hours of the onset of the disease, give information regarding the occurrence of such case personally or in writing or by means of a chaulkidar or other village watchman to the Sanitary Inspector.

7. (1) Every medical practitioner called upon to attend upon any case of small-pox shall give notice of the case by a special messenger to the nearest member of the outdoor staff of the Board and to the District Health Officer, and the cost of such messenger in each case shall be defrayed by the Board.

(2) The doctor-in-charge of a hospital or dispensary within the district shall forthwith give notice of any case of small-pox brought to the hospital or dispensary for treatment to the Sanitary Inspector by a special messenger, and the cost of such messenger by post and the cost of such messenger in each case shall be defrayed by the Board.

8. Presidents of Union Boards in union areas and thana officers in non-union boards shall supply to the District Health Officer periodical returns of cases of small-pox as and when from time to time call upon them to furnish.

9. The District Health Officer or a Sanitary Inspector may examine any person who is suspected to be, suffering from small-pox or in his opinion, may be infected with or likely to spread small-pox.

Isolation of patients

10. When the District Health Officer or Sanitary Inspector considers that the isolation of any patient is a precaution necessary for the protection of the neighbouring population he shall order the patient to observe isolation and order the nearest relative in attendance on the patient, or the occupier of the house in which the patient is staying, to arrange for the isolation of the patient in such a manner and for such a period as may be approved by the District Health Officer.

He shall not direct the patient to be removed from the house unless it is, in his opinion, necessary to make proper arrangements for his isolation therein.

The District Health Officer or a Sanitary Inspector may order that any person, who has been in contact with a person found to be suffering from small-pox, shall be segregated for a period not exceeding a fortnight in a manner and in a place approved by the District Health Officer.

The District Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from small-pox shall be vaccinated or re-vaccinated on a time to be specified in the order.

No person shall enter any place wherein a patient is isolated under regulation 10 without the permission of the District Health Officer or a Sanitary Inspector.

When a patient has been removed from a place of isolation under regulation 10, the Board shall provide for him free of charge a suitable place, with necessary attendants, diet, etc.

No person, who is or has been suffering from small-pox, shall leave the place where he has been staying until he has received from the District Health Officer or a Sanitary Inspector the permission to do so.

No person while suffering from evident symptoms of small-pox or in the convalescent stage of the disease with scabs of pocks on his face shall expose himself in any street, road, place, shop, bazar or any place used in common by persons other than members of the household to which such infected person belongs or shall move from place to place unless proceeding to a hospital for admission and treatment.

Miscellaneous.

The District Health Officer or a Sanitary Inspector may require any person to allow to be entered by such agency and within such time as may be specified in the order, such measures for disinfection of any premises in the occupation of such person or for the disinfection or destruction of any of his personal effects, as the said officer or inspector may consider necessary.

The District Health Officer or a Sanitary Inspector authorised by the District Health Officer in that behalf may, during the prevalence of any outbreak of small-pox, order that any shop or other public place shall remain closed for such time as may appear to him to be necessary and may forbid the holding of any fair, or other gathering to which people from the neighbourhood commonly or periodically resort.

The District Health Officer or a Sanitary Inspector may direct the owner or occupier of any premises to take steps to have vaccinated or re-vaccinated within a time to be specified in the order any person residing on such premises and under the control of such owner or occupier if the District Health Officer is of opinion that such person has been in contact with any one suffering from small-pox.

The District Health Officer or a Sanitary Inspector may forbid any person who has been a patient or who has to his knowledge been in contact with a patient to act as vendor of any article for a period as may be specified in the order.

No person shall carry or permit to be carried in a public conveyance a patient except in the case where a patient is carried to a hospital for treatment. The following precautions against spreading the disease, namely:—
(i) that he is so well covered that the discharge from the lesions do not come directly into touch with the body of the conveyance;

(ii) that he is taken to the hospital direct and the conveyance does not halt at any other place for transacting any business; and

(iii) that excepting one or two attendants for the patient no other person is carried in the conveyance at the same time.

18B. Every conveyance in which a patient or a dead body of a person who has died of small-pox or any article that has been in contact with a patient is carried shall be disinfected before it is used again. The disinfection will be effected—

(i) in the case of a conveyance carrying a patient to hospital, by the authorities of the hospital before such conveyance leaves the hospital;

(ii) in the case of a conveyance carrying any clothing, bedding or other article of a patient to the disinfecting station, by the authorities of such station; and

(iii) in the case of a conveyance carrying a dead body to the burial or cremation ground, by the owner of the conveyance himself and such owner shall effect the disinfection with a strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500) or of saponified cresol (1 in 160).

19. No person shall sell any article which has been in contact with a patient until it has been disinfected to the satisfaction of the Health Officer or a Sanitary Inspector.

19A. No person shall expose in any street, shop, bazar or any public place any clothing, bedding or other article which has been in contact with a patient or shall cause or suffer such articles to be carried in any public conveyance, but nothing in this regulation shall apply to a person who transmits any such article for the purpose of having the same disinfected with the following precautions against spreading the disease:—

(i) the article is so well covered with a cloth soaked in strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500) or of saponified cresol (1 in 160), that it does not come directly into touch with the body of the conveyance;

(ii) the article is taken to the disinfecting station direct and the conveyance does not halt at any other place for transacting any business; and

(iii) excepting one attendant for the purpose of taking the infected article to the disinfecting station no other person is carried in the conveyance.

20. The District Health Officer or a Sanitary Inspector may issue general orders that by a specified date certain sanitary precautions of a simple nature, such as lime-washing of houses, clearing of latrines or the removal of filth or rubbish shall be carried out to his satisfaction.

20A. No person shall carry or permit to be carried in a public conveyance the dead body of any person who has died of small-pox without the previous written permission of the District Health Officer, or a Sanitary Inspector and without taking the following precautions against spreading the said disease:—

(i) the dead body is so well covered with a cloth soaked in a strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500), or of saponified cresol (1 in 160) that the discharge and scabs from the lesions do not come directly into touch with the body of the conveyance;

(ii) the dead body is taken to the burial or cremation ground direct and the conveyance does not halt at any other place for transacting any business; and

(iii) excepting attendants for the dead body no other person is carried in the conveyance at the same time.

21. The District Health Officer or a Sanitary Inspector may prohibit persons from retaining or selling clothes taken from the bodies of persons who have died of small-pox and may cause any such clothes to be destroyed.

22. No person shall, without the written permission of the District Health Officer, dispose of any corpse except by burning or burial.

23. The District Health Officer may approve burning or burial grounds and may by order direct either generally or specially in respect to any specified area, that corpses shall not be burned or buried at places other than those so approved by him.

24. Any person burning or causing to be burnt any corpse shall cause the same to be completely reduced to ashes and shall likewise cause the clothes or other articles brought with such corpse to be reduced to ashes.

25. The District Health Officer may direct that no person shall bury or cause to be buried any corpse, which in the opinion of the District Health Officer, is likely to spread small-pox, in a grave, not constructed of masonry and less than 6 feet deep.

26. The District Health Officer may order that no *dome* or other servant of the Board employed for the disposal of corpses shall withdraw from his duties without the permission of the District Health Officer unless such *dome* or other servant of the Board has given notice in writing not less than one month previously of his intention so to withdraw.

27. The District Health Officer or a Sanitary Inspector may through any person authorised by such officer or inspector in that behalf seize and dispose of any corpse which in the opinion of the said officer or inspector is infected with or is likely to spread small-pox, unless the relatives or friends of the deceased person satisfy him that they are prepared and able to dispose of the corpse in a manner which will prevent the spread of small-pox.

28. (1) The District Health Officer or a Sanitary Inspector may require any person who appears to be acquainted with facts in connection with any case or suspected case of small-pox to attend before him at a time to be stated in the order and at any place not more than one mile from the place where such person resides or is staying when the order is issued, and such person shall appear as so required.

(2) When the person summoned to appear under paragraph (1) is a female who, by the custom of the country, does not appear in public, suitable precaution shall be taken to respect the said custom.

29. (1) The District Health Officer or a Sanitary Inspector may examine orally any person who appears to be acquainted with the facts and circumstances of a case or suspected case of small-pox.

(2) When the person to be examined under paragraph (1) is a female who, by the custom of the country, does not appear in public, the officer shall take her statement under such conditions and shall admit of due respect of the said custom.

(3) Such person shall be bound to answer all questions relating to such case put to him or her by such officer, other than questions the answers to which would have a tendency to expose him or her to any criminal charge.

30. The District Health Officer or a Sanitary Inspector may, with such assistants (if any) as he thinks fit, enter upon any land, or after two hours' notice in writing, into any premises or building used for human habitation at any time between

sunrise and sunset for the purpose of carrying out any measure or making any enquiries authorised by these regulations.

31. The crew of any inland steam vessel or boat which plies in any canal or river and persons residing on such vessel or boat shall be subject to these regulations.

32. (1) All vaccinations under these regulations shall be performed gratuitously, provided they be done (a) at such public vaccination stations as may be opened by the District Board or (b) at house to house visits in the case of such persons as are by the custom of the country unable to attend at public vaccination stations and are too poor to pay fees.

(2) Persons desirous of being vaccinated in their own houses other than those specially exempted under sub-regulation (1) shall pay a fee of two annas for each vaccination for which they get a printed receipt: provided that the amount of fees payable for any number of vaccinations performed in one family at the same time and at the same place shall not exceed annas

33. (i) Orders issued by the District Health Officer or a Sanitary Inspector under these regulations shall be in writing.

(ii) The officer issuing such orders shall furnish copies of them to be served upon any person named in them.

(iii) The nearest relative of a patient or occupier of the house in which the patient is staying shall, if a copy of the order under regulation 10 has been served upon him, give immediate notice of any disobedience of the order to the nearest Sanitary Inspector or to his officer.

By order of the Governor
B. C. DAS GUPTA.

RESOLUTION No. 436-IND.

Calcutta, the 19th February 1951.

The Governor is pleased to reconstitute with effect on the 1st April 1951 the West Bengal Khadi Board with the following members:—

- (1) The Hon'ble Minister, Supply, Chairman (*ex-officio*).
- (2) The Director of Industries, West Bengal (*ex-officio*).
- (3) Srijukta Hemaprava Das Gupta (representing the Khadi Pratisthan).
- (4) Dr. Nripendra Nath Bose (representing Ashoy Ashram).
- (5) Sri Sudhan Chandra Laha (representing the Khadi Mondul).
- (6) Sri Gagan Chandra Jana (representing the Khadi Mandir).
- (7) Sri Bhim Chandra Patra (representing the Seva Sangha).
- (8) Sri Nagendra Nath Sen (representing the Aloke Kendra).
- (9) Sri Panchanan Basu, Honorary Secretary.

The members will hold office until the 31st March 1953.

The function of the Khadi Board will be to initiate the rapid development of hand-spinning and hand-weaving in the villages of the State so as to make the people self-sufficient as regards cloth requirements. For this purpose the Board will employ its own staff, establish centres for the training of instructors and workers, establish rural centres for the training of villagers in hand-spinning and weaving, purchase and distribute cotton spinning wheels and other accessories, purchase and market the khadi produced and take all other measures as may be necessary.

The Khadi Board will receive such grants as may be sanctioned from time to time. The Board may also receive donations and contributions from others.

Apart from establishing its own organisation the Khadi Board may at its discretion render technical and other assistance to other reputable organisations working for the development of the hand industry.

The Board will form its own rules for the regulation of its work and for the control of its expenditure.

The annual budget of the Board will be submitted to the approval of Government. The members of the Board will be liable to audit by persons as Government may appoint in this behalf. Officers authorised by Government will be empowered to inspect the work of the Board.

Order.

Ordered that the resolution be published in the Calcutta Gazette, and copies thereof forwarded to the Chairman and members of the Board.

Ordered also that a copy of the resolution be forwarded to other departments of the Secretariat and the Director of Industries, West Bengal, for information.

By order of the Governor,
S. K. CHATTERJEE, Secy.

RESOLUTION No. 494-IND.

Calcutta, the 23rd February 1951.

On an application, dated the 30th November 1950, from Messrs. Instrument Research Laboratory, of 309, Bowbazar Street, Calcutta, for a grant of Rs. 50,000 since reduced to Rs. 35,000, under section 19(1)(a) of the Bengal State Industries Act, 1931 (Bengal Act III of 1931) for manufacture of optical instruments:

Read also the resolution adopted by the Board of Industries, West Bengal, at the meeting held on the 13th December 1950, incorporated in the report submitted with letter No. 17777, dated the 6th February 1951, from the Director of Industries, West Bengal.

Order.

Ordered that the loan of Rs. 35,000 only be sanctioned provided that it does not exceed 50 per cent. of the net value of the assets of the firm in the industry after deducting all encumbrances thereon existing at the time when the application was made. The loan is also subject to the following conditions:—

- (1) That the entire amount of loan should be utilised for the purpose of development of the existing factory for the manufacture of microscope lens, objectives, etc., etc.;
- (2) That a mortgage bond should be executed by Sri S. S. Sastry, the Managing Director of the Company, in the form to be drawn up by Government for the purpose;
- (3) That the applicant-firm should admit two apprentices every year for training in their laboratory on the recommendation of the Director of Industries, West Bengal, on such terms as may be mutually decided hereafter;
- (4) That interest should be charged at the rate of 8 per cent. per annum payable with each instalment on the balance of the unpaid principal;
- (5) That if the instalments with interest thereon are paid promptly on the due dates or within seven days thereafter, the interest will be accepted at the reduced rate of 6½ per cent. per annum; and
- (6) That the entire amount of loan with interest thereon should be repaid in seven equal annual instalments of Rs. 5,000 only each plus interest; the first instalment being repayable on the first anniversary of payment of the loan.

Ordered also that the resolution be published in the Calcutta Gazette.

By order of the Governor,
S. K. CHATTERJEE, Secy.

LABOUR DEPARTMENT

ORDER.

No. 1571Lab.—12th March 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 2200Lab., dated the 3rd May 1950, the industrial disputes which had existed between the 79 printing presses of Calcutta and Howrah mentioned in the list appended to the said order, dated the 3rd May 1950, and their employees represented by the Press Employees' Association, 249B, Bowbazar Street, Calcutta, over the questions relating to (1) minimum wages, grades and scales fixed in the previous award referred to therein, (2) dearness allowance, (3) gratuity and standing orders regarding termination of employment, were referred adjudication to an Industrial Tribunal constituted by Sri A. Das Gupta, District Judge;

And whereas during the pendency of proceedings before the said Tribunal, Samarendra Nath Dutta of 47/1, Ogg Road, post office Shyamnagar, Parganas, an employee of Messrs. Caledonian Printing Co., Ltd., of 3, Wellesley Place, Calcutta, being item No. 15 of the list aforesaid, as represented by the said Press Employees' Association, made a complaint in writing before the said Tribunal alleging that the said Company had acted, to the prejudice of the said employee, the conditions of service payable to him immediately before the said proceedings;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Tribunal has adjudicated upon the said complaint and submitted its award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

the matter of Sri Samarendra Nath Dutta, 47/1, Ogg Road, post office Shyamnagar, 24-Parganas, an employee of Messrs. Caledonian Printing Co., Ltd., 3, Wellesley Place, Calcutta, as represented by the Press Employees' Association, 249B, Bowbazar Street, Calcutta, and in the matter of a complaint under section 33A of the Industrial Disputes Act, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950 (Case No. 6 of 1951), and in the matter of reference No. 2200Lab., dated the 3rd May 1950, Government of West Bengal, Labour Department.

PRESENT:

SRI A. DAS GUPTA, *District Judge.*

the complainant: Sri P. K. Sanyal, Advocate, assisted by Sri Indu Bhushan Sarkar, Secretary of the Press Employees' Association.

the opposite party: Sri S. K. Mallik of Messrs. Sandersons and Morgans, Solicitors.

AWARD.

In pursuance of the order of reference No. 2200Lab., dated the 3rd 1950, of the Government of West Bengal, Labour Department, adjudication proceedings were started for settlement of industrial disputes between employers and employees of 79 printing presses of Calcutta and Howrah mentioned in the list annexed to the order of reference, of which *Mc Caledonian Printing Co., Ltd.*, was one, being serial No. 15 in the list. The award has been submitted to the Government but it has not as yet been published.

The complainant's case is that he was an accountant of *Mc Caledonian Printing Co., Ltd.*, and that for no fault of his, he was compelled by the management by threat, coercion and undue influence to tender his resignation by a letter, dated 11th December 1950. According to the complainant, the circumstances under which he is alleged to have tendered his resignation are that since July 1950 the Managing Director had been requesting the complainant to use his influence with an Assistant Commissioner of Income-tax who happened to be a cousin of the complainant to secure some undue favour in matter of income-tax, that the complainant had refused to comply with the unfair request of the Managing Director, that the Managing Director commenced behaving rudely with and threatening the complainant with dire consequences, held up payment of wages to the complainant and demanded of the complainant from time to time to sever his connection with the Company, appointed a new hand, rendering the complainant completely idle, held up threats of a criminal case unless he would resign, that when the complainant demanded all his up-to-date dues, the Managing Director promised to pay up his dues only if he would tender his resignation and that the complainant, being exasperated and frightened under conditions created by the Managing Director, had no other alternative than to resign but that his arrear dues have not been paid in spite of repeated demands. The complainant pleads that the action and conduct of the Managing Director amounted to unfair labour practice and prays for reinstatement with full compensation for the period of forced unemployment and all arrear dues.

The opposite party denies all the allegations of the complainant including those about the unfair request, threat, coercion, undue influence and unfair labour practice. The opposite party's case, in brief, is that in November 1950 some account books in the charge of the complainant were found to be in order, that arrangement was made for a special audit of the books from the 11th December 1950 and that to avoid this special audit, the complainant absented himself from duty and eventually tendered his resignation by a letter, dated 11th December 1950. The opposite party further pleads that the complainant's salary was suspended during investigation, and that payments were made to him from time to time on suspense accounts.

A preliminary objection has been raised as to whether the complaint is maintainable under section 33A of the Industrial Disputes Act as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950. The scheme of the Act is that Tribunals can assume jurisdiction over industrial disputes only on a reference by the appropriate Government under section 10 of the Act. The only exception has been made in cases coming under section 33A of the Act. Section 33A authorises a Tribunal to assume jurisdiction over an industrial dispute arising out of a violation of provisions of section 33 of the Act as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, without a formal reference from the appropriate Government under section 10 of the Act. This is

on and the conditions under which this special provision may be must be fulfilled before the Tribunal assumes jurisdiction over an industrial dispute, without any order of reference from the appropriate authority, as contemplated by the general section (section 10 of the Act). The conditions are that the adjudication proceedings must be pending before the Tribunal, that during the pendency of the proceedings employers have contravened the provisions of section 33 and that such contravention is in the interest of the workmen who are concerned in the dispute pending for adjudication.

It may be noted that an industrial dispute covering a good number of workmen of a general nature was referred to this Tribunal for adjudication by order No. 2200Lab., dated 3rd May 1950, of the Government of West Bengal, Labour Department. The award which was given in pursuance of the said order of reference has not as yet been published. According to section 20 of the Act, the adjudication proceedings must be deemed to be pending till the award is published. In any case on the date to which complaint relates, viz., the 11th December 1950, the adjudication proceedings were pending. As the industrial disputes involved in the said proceedings were of a general nature, the dispute concerned all workmen in the printing press including the complainant. These two conditions have been fulfilled. The only other condition is whether the provision of section 33 of the Act as amended by the Industrial Disputes (Amendment) Act, 1950, was contravened by the management.

Section 33 of the amended Act prohibits any change in the conditions of service of workmen, discharge or punishment of any workman by dismissal or otherwise pending proceedings of conciliation or adjudication in which the workman or workmen are concerned except with the express permission in writing of the conciliation officer, Board or Tribunal as the case may be. It has been accepted by almost all the Judges of the Industrial Tribunal for West Bengal that "a change in the condition of service of workmen" contemplated in clause (a) of section 33 refers to "a change in the condition of service of workmen in a collective sense". In this view of the law, the conduct of the Managing Director towards the complainant as such by him does not come within the mischief of clause (a) of the section. I am not aware if the Judges of the Industrial Tribunals of other States have taken any different view.

I do not propose to enter into the merit of the allegations of the parties. I will discuss only the legal aspect of the respective cases of the parties. The complainant alleges that the respondent is guilty of no fault of his, but he tendered resignation under a threat, coercion, undue influence and pressure from the Managing Director. The action and conduct of the Managing Director are said to have amounted to unfair labour practice. Whatever may have been the case, there was no discharge nor was there any punishment inflicted by the management on the complainant. If the Managing Director demanded of him to tender resignation, he was quite at liberty to refuse to comply with this unfair demand of the Managing Director and to seek redress before the proper forum. He chose to comply with the demand of the Managing Director. By his own action, he terminated the relationship of employer and employee with the Printing Press. The management did not itself take any action for the termination of this relationship. If on the other hand, we accept the version of the management that the complainant was at fault, inasmuch as some of the account books and vouchers were not in order. But according to the management no punishment was inflicted on him, only an arrangement was made for a special audit and to avoid the special audit, this complainant of his own accord tendered resignation. If really any loss was caused to the

industry by the complainant by his irregular maintenance of the Accounts Books, he was liable for compensation to the management. This compensation may vary according to the degree of wilful negligence on the part of the defaulter. If in the interest of the industry, the salary of the complainant had been suspended pending the investigation, as a security measure, such an action does not amount to punishment. The entire amount will be paid to him if he can stand the investigation and is absolved of all liabilities. In that case, the payment will be delayed only and the delay cannot be construed as punishment. Some payments are said to have been made to the complainant on suspense accounts. The deductions were made permanently by way of punishment, for it is nobody's case that the investigation has concluded or that the result of the investigation is against the complainant, or that the deductions made from his salary as a security measure have been withheld for all time to come to be credited against his liability by way of punishment.

It has been alleged that the complainant was not getting full salary from before January 1950. The employer's case is that as a measure of economy in the interest of the industry, the salary of the complainant was reduced and his special allowance was stopped without reference to any fault or default of the complainant. Whatever that might have been, it was done long before the reference No. 2200 Lab., when no adjudication proceedings were pending. It is nobody's case that this was done by way of punishing the complainant. Without expressing myself about the effect of this reduction of salary and stoppage of the special allowance, I am clearly of opinion that I have no jurisdiction to look into the matter under section 33A of the Act which authorises a Tribunal to investigate a contravention of section 33 only if such contravention has taken place during the pendency of adjudication proceedings before a Tribunal. The Tribunal are not concerned whether at the relevant time any conciliation proceedings were pending before any conciliation officer. Even if any such conciliation proceeding was pending at the time, the pendency of such conciliation proceedings does not bring the case under section 33A of the Act, as there had been any contravention of section 33 during the pendency of conciliation proceedings.

In any view of the case, the action or conduct of the Managing Director does not amount to discharge or punishment of the complainant as contemplated by clause (b) of section 33 of the Industrial Disputes Act as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950.

I have considered the case very carefully from all possible angles. I am clearly of opinion that no case of violation of the provisions of section 33 of the Act during the pendency of adjudication proceedings has been made out by the complainant. I cannot accordingly assume jurisdiction over the complaint under section 33A of the Act. If the complainant is really aggrieved, he may approach the proper authority or forum for relief.

ORDER.

15601ab.—10th March 1951.—Whereas under the Government of Bengal, Labour Department, order No. 5353Lab., dated the 18th September 1950, the industrial dispute between Messrs. Carlsbad Mineral Manufacturing Co., Ltd., 14, Watkins Road, Howrah, and their workmen represented by the Bengal National Chamber of Labour, 51, Chittaranjan Avenue, Calcutta, was referred for adjudication to Sri P. R. Mukherjee, District Judge;

and whereas during the pendency of proceedings before the said Sri P. R. Mukherjee, District Judge, the Treasurer of the Union on behalf of 16 workmen of the said Company, made a complaint in writing before the Industrial Tribunal, alleging that the said Company had altered, to the prejudice of the said workmen, the conditions of service applicable to them immediately before the said proceedings;

and whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Sri P. R. Mukherjee, District Judge, has adjudicated upon the said complaint and submitted his report to the State Government;

now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of an industrial dispute between Messrs. Carlsbad Mineral Water Manufacturing Co., Ltd., 14, Watkins Road, Howrah, and their workmen represented by the Bengal National Chamber of Labour, 51, Chittaranjan Avenue, Calcutta, and in the matter of an application under section 33A of the Industrial Disputes (Amendment) Act made by the Treasurer, Carlsbad Factory Mazdoor Union on behalf of the workers of the Company.

PRESENT:

Sri P. R. MUKHERJEE, *Judge, Industrial Tribunal.*

For the Company Sri S. C. Sen, Advocate, and Sri N. M. Das Gupta, Pleader, assisted by Sri B. L. Bhawalka, Director of the Company, and Sri M. Pasari, Manager of the Company.

For the Union Janab Md. Shaafatullah Khan, Treasurer of the Union.

AWARD.

The main dispute between the employer and the employees abovenamed was referred to this Tribunal by the Government of West Bengal as order No. 5353Lab., dated the 18th September 1950, and while this dispute was pending, this application under section 33A of the Industrial Disputes Act had been filed by the Treasurer of the Union on behalf of the workmen of the Company, alleging that the workers in question had had for days from 301 to 310 during the period of last twelve months that they are entitled to one day's wages for every 20 days worked. It is complained that the Company, in contravention of clause (8) of the awarding Orders, did not allow them the requisite number of holidays but allowed them only 10 days.

The Union alleges that this is contravention of section 33 inasmuch as it was before the Tribunal was pending at the time, and the Company—

it is said—altered the conditions of service by giving only 10 days' leave lump.

The Company filed a written statement denying contravention of section 33 of the Act. The only issue before the Tribunal is if there has been such contravention of section 33, or in other words, if there has been alteration in the condition of service as alleged by the Union.

Decision.

On reviewing the points urged, it is found that there has been no contravention of section 33 of the Industrial Disputes Act as alleged, for—

- (i) the Standing Order of the Company was certified on 24th November 1950 and under section 7 of the Industrial Employment (Standing Orders) Act, the above Standing Order will come into force on expiry of 30 days from the date of certification. Before the Standing Order came into operation, the workmen were entitled to 10 days' leave. Consequently, therefore, none of the workmen are entitled to more than 10 days' leave for the period when this new Standing Order was not in operation. I do not think there has been any such contravention as alleged by the Union.
- (ii) Even if it be assumed that 16 workmen are entitled to get leave according to the Factories Act of 1948, i.e., one day for every 20 days' work, subject to a minimum of 10 days, the Company did not violate the said rule, for under sub-section (3) of section 79 of the Factories Act, the workman must apply for such leave not less than 15 full working days before the date on which he wishes his leave to begin. None of these workmen in question has yet applied for such leave. The Company, therefore, cannot allow them 10 days' leave provisionally. There is no knowing what the workmen in question were entitled to get more than 10 days' leave. As the Company has had no occasion to refuse the leave and as there is no prayer, no question of contravention of the Act can arise.
- (iii) Even assuming that the Company refused to grant more than 10 days' leave earned in 1950 to its workmen in question, it cannot be deemed to be an alteration of condition of service. It may at the worst be a contravention of the Factories Act, for under section 92 of the Factories Act, the employer in question will be liable to be punished on the report of the Factory Inspector. Contravention of provision of Factories Act may not be an alteration of section 33 of the Industrial Disputes Act.

On reviewing all the points, it is clear that there has been no contravention as complained, and that there has been no application for leave as prayed and it is not also clear for which period the leave had been prayed, or whether it had been refused. The petition is significantly silent on this material point. I have, however, directed the Company to prepare an up-to-date Leave Register as contemplated under the Factories Act showing the amount of leave each worker is entitled to, and this, I hope, will be completed before long.

P. R. MUKHERJEE
Judge, Industrial Tribunal

The 24th February 1951.

By order of the Governor
D. S. P. MUKHERJEE, Jt. Secy.

ORDER.

1561Lab.—10th March 1951.—Whereas under the Government of Bengal, Labour Department, order No. 5628Lab., dated the 26th September 1950, the industrial dispute between Messrs. Hajee Ismail Sait & Sons, Ltd., Russa Distillery, Tollygunge, Calcutta, and their workers as represented by Russa Distillery Workers' Union, Basanta Lal Saha Road, Tollygunge, Calcutta, was referred for adjudication to Sri A. Das Gupta, District Judge;

and whereas the said Sri A. Das Gupta, District Judge, has submitted to the Government his award on the said industrial dispute;

now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

The matter of reference No. 5628Lab., dated the 26th September 1950, of the Government of West Bengal, Labour Department, and in the matter of an industrial dispute between Messrs. Hajee Ismail Sait & Sons, Ltd., Russa Distillery, Tollygunge, Calcutta, and their workers as represented by Russa Distillery Workers' Union, Basanta Lal Saha Road, Tollygunge, Calcutta.

PRESENT:

SRI A. DAS GUPTA, *District Judge.*

the employers: Sri S. C. Sen, Advocate, and Sri J. K. Ghosh, Pleader, instructed by Messrs. Orr, Dignam & Co., Solicitors.

the Union: Sri Atul Chandra Ghosh, General Secretary, Janab Akhmed Khan, Assistant Secretary, Sri Bibhuti Ghose, representative.

AWARD.

The following points have been referred to for adjudication:—

- (1) Introduction of Production Bonus.
- (2) Employment of substitutes in place of workmen on leave.
- (3) Introduction of grade promotion.
- (4) Appointment of 50 relieving hands.
- (5) Should a worker working temporarily in the higher grade receive the wages of the same grade in which he is serving.
- (6) Fixation of initial pay of the workers within the existing scale according to the length of service.
- (7) Travelling allowance for workers residing at distant places.
- (8) Supply of uniform to all workers.
- (9) Free medical treatment to the family members of the workers.
- (10) Should temporary workers be recognised as permanent after 3 months' service from the date of their admission and should their basic pay be Re. 1-8 per day.

It may be noted that since 1947 there have been as many as three awards between the parties. Details are given below:—

Particulars of reference.	Name of adjudicator.	Particulars of publication.
Order No. 635Lab., dated 8th October 1947.	Sri M. C. Banerji	<i>Calcutta Gazette</i> , dated 15th January 1948 (Order No. 29Lab., dated 6th January 1948).
Order No. 3253Lab., dated 5th July 1949.	Sri M. C. Banerji	<i>Calcutta Gazette</i> , dated 22 December 1949 (Order No. 6428Lab., dated 16th December 1949).
Order No. 4238Lab., dated 1st August 1950.	Sri S. C. Chakrabarty	<i>Calcutta Gazette</i> , dated 10 September 1950 (Order No. 5396Lab., dated 16th September 1950).

Prior to these three awards there was another award so far back as 1944, which was given by Sri R. Gupta, I.C.S., the then President Magistrate, Calcutta. These four awards adjudicated upon various points in dispute. I shall refer to only those points which are relevant for the purpose of the present adjudication.

Before I proceed to discuss the merit of the several points referred for adjudication, I should do well to indicate briefly the nature of the industry. The employers, Messrs. Hajee Ismail Sait & Sons, Limited, carry on business at Russa Distillery, Tollygunge, Calcutta, and manufacture country spirit under the supervision of the Commissioner of Excise, West Bengal, and under a licence granted by the Government of West Bengal. Under the terms of agreement in the licence, the Government fixes prices of the spirit on the basis of the cost price of materials, manufacturing cost and profit to be allowed to the manufacturers, and the Company is to take sanction from the Commissioner of Excise for an increase in cost of production to enable them to get credit for the same. As to country spirit the Company manufacture rectified spirit and denatured spirit. So far as country spirit is concerned, the Government base the manufacturing cost calculated on the accounts of the preceding year plus per cent. of the cost as profit. Country spirit is sold by the Government. About rectified spirit and denatured spirit, although there is no control rate, the Company cannot sell these two kinds of spirit at more than market rate. We have been told at the hearing that hitting at a price spirit is dependent on the release permit given by the Excise Collector. The Excise Commissioner always requests the manufacturer to sell at price recommended by him. It has been contended on behalf of the Company that the Company have to compete in the market under very favourable circumstances. These spirits are manufactured from molasses which is usually obtained from U.P. and Bihar at the rate of Rs. 1.50 per maund as against Rs. 2-8 in Calcutta. Rectified spirit is sold in Calcutta at Rs. 1-6 per gallon. This is imported from U.P. with the permission of the Excise Commissioner. But the Commissioner of Excise does not fix price of the imported spirit. Imported rectified spirit generally sold in Calcutta at Rs. 3-6 per gallon whereas the Bengal quality of rectified spirit is sold at Rs. 3-8 per gallon. This is the position of the industry as before the Tribunal by the Company, and this has not been refuted on behalf of the Union.

Any increase in the financial burden of the Company is likely to increase the cost of production of country spirit. With a view to avoid any objection from the Excise Department in future, I requested the Excise Department to be present during the adjudication proceedings and to place its views before this Tribunal. The Deputy Commissioner of Excise and the

superintendent Sri Jyotirmoy Roy accordingly came when the case was taken up. They however made it clear that the Excise Department would use no objection to any reasonable increase of the financial burden. That is about country spirit. But about other two kinds of spirit care must be taken to see that the industry is not thrown out of the market by any undue increase in the cost of production. Any step that may lead to a collapse of the industry will be ultimately detrimental to the workmen themselves and I firmly believe that the Workers' Union, which appeared to me at the hearing to be very reasonable, will appreciate this position.

Points Nos. 1, 2 and 3.—Introduction of Production Bonus. Employment of substitutes in place of workmen on leave. Introduction of grade promotion.

These three points were covered by the award given by Sri S. C. Chakrabarty, which was published in the *Calcutta Gazette (Extraordinary)*, dated 16th September 1950, under Government of West Bengal, Labour Department, order No. 5396Lab., dated 16th September 1950. The award by Sri S. C. Chakrabarty was as follows:—

"As no statement of claim has been filed, I find that no dispute exists. Award that no dispute exists." This award was to remain in force under section 19 of the Industrial Disputes Act, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, for one day only.

The Industrial Disputes Act, 1947, was amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, which came into force on the 1st May 1950. The order of reference No. 4238Lab., by which Sri S. C. Chakrabarty was appointed Tribunal to adjudicate upon the industrial disputes between the parties, was dated the 1st of August 1950. Sri S. C. Chakrabarty gave his award on the 17th August 1950, and the award was published on the 16th September 1950. It is thus clear that the reference, the award and the publication of the award were posterior to the amendment of the Industrial Disputes Act of 1947. Under section 17A of the amended Act, the award of a Tribunal becomes enforceable on the expiry of 30 days from the date of its publication. Under section 19, sub-section (3), an award is ordinarily to remain in force, subject to the provisions of section 17, for a period of one year, and the appropriate Government has the power to reduce the said period or to extend the period up to a maximum limit of two years from the date on which the award comes into force. A question is now raised as to whether immediately on the expiry of the operative period fixed by the Government for the award of Sri S. C. Chakrabarty, fresh reference on the points which were the subject matter of adjudication before Sri S. C. Chakrabarty is valid in law. For a clear understanding of the law on this point, I may reproduce sub-sections (5) and (6) of section 19 of the amended Industrial Disputes Act:—

(5) Nothing contained in sub-section (3) shall apply to any award which by its nature, terms or other circumstances does not impose, after it has been given effect to, any continuing obligation on the parties bound by the award.

(6) Notwithstanding the expiry of the period of operation under sub-section (3), the award shall continue to be binding on the parties until a period of two months has elapsed from the date on which notice is given by any party bound by the award to the other party or parties intimating its intention to terminate the award."

It has been contended on behalf of the Company that after an award adjudicating an industrial dispute has been published a fresh industrial dispute on the same point cannot be raised except by a notice by the party who wants to get out of the award to the other party as provided in section

17, sub-section (6). Notwithstanding the expiry of the period of operation the award is to remain in force and binding on the parties for a period of two months from the date of the notice. We get from the file of the Labour Commissioner that a fresh demand was forwarded by the Union to management by a letter, dated 15th September 1950. In this letter, included, among other points, the points which were referred to Sri S. C. Chakrabarty for adjudication. It was not expressly mentioned in the letter that the Union intended to terminate the award of Sri S. C. Chakrabarty which had not then been published. By no stretch of imagination this letter can be construed as an intention to terminate the award which had not then acquired any legal value. Notwithstanding the fact that the award of Sri S. C. Chakrabarty did not expressly impose any obligation on any party, the Government fixed one day as the operative period of the award under section 19(3). Under sub-section (5) of section 19, sub-section (3) of the said section does not apply to any award which by its nature, terms and other circumstances does not impose, after it has been given effect, any continuing obligation on the parties bound by the award. The award of Sri S. C. Chakrabarty was that there was no dispute. It does not expressly impose any obligation on the parties. It has been contended on behalf of the Company that the implication of the award was that the existing state of things was to continue and the learned Advocate for the Company urges that the award imposed a continuing obligation on the parties, namely, maintaining the state of things then existing. I am not prepared to accept this view: "Imposing an obligation signifies the idea of adding to the existing obligation." Hence in my view the Government, in fixing one day as the operative period of the award had no legal value. Under section 19(3) the Government was not called upon to fix the operative period for an award which did not impose any obligation on the parties bound by the award. The result is that immediately on the publication of the award of Sri S. C. Chakrabarty it ceased to be operative immediately after acquiring its value under section 17A. In this view of the award, section 17(5) does not apply to the circumstances of the present case.

On the date on which Sri S. C. Chakrabarty gives the award it had no legal value. It acquired a legal value only on expiry of 30 days from the date of publication of the award. The award was published in the *Calcutta Gazette* on the 16th September 1950. Hence under section 17A of the amended Act the award acquired a legal value only on the 16th October 1950. In this view of the case, it cannot but be said that on the 1st October 1950 there was no dispute between the parties on the points covered by the award. The letter of the Union, dated the 15th September 1950 which I have already referred, could by no means revive an industrial dispute which was set at rest by the award of Sri S. C. Chakrabarty on the 1st October 1950. Although the Tribunal had no seisin over the industrial dispute after publication of the award, any fresh reference on the points covered by the award in between the award was published and it acquired a legal value under section 17A cannot have any practical value. There is no bar to the Government making such a reference, but if any such reference is made on the strength of a dispute raised by a party on points covered by a previous award, the subsequent Tribunal cannot ignore the legal value of the award on the date on which it has acquired such value and adjudicate upon an industrial dispute on the same point raised anterior to the award acquiring its legal value. In this view of the case I can only hold that on the 16th October 1950 there was no dispute between the parties on the points covered by the award given by Sri S. C. Chakrabarty. If any dispute on the same points had been raised by the Union before the 1st October 1950, such an action of the Union could not wipe out the legal value of the award of Sri S. C. Chakrabarty on the 16th October 1950.

accordingly unable to entertain the demand of the Union on the first three points. The point is undoubtedly very technical but a Tribunal cannot ignore the legal bar of a statute of which the Tribunal is a creature.

Although I am legally debarred from adjudicating on the first three points the industrial disputes, in the interest of the industry I propose to make my recommendations to the employers. The first three demands were in the following terms in the letter addressed by the General Secretary of the Union to the Managing Director of the Company on 15th September 1950:—

- (1) Introduction of Production Bonus as per agreement, dated 17th February 1950.
- (2) Appointment of 50 relieving hands.
- (3) Introduction of grade promotion as per agreement, dated 17th February 1950.

There was an agreement between the parties through the intervention of the Assistant Labour Commissioner on 17th February 1950. A copy of the terms of settlement has been marked Ext. 1. This is admitted by both parties. It is clear that no settlement was arrived at about the Union's demand for Production Bonus on 17th February 1950. It was however agreed that the question would be taken up by the Company in future. As no tangible scheme was prepared for Production Bonus by the parties on 17th February 1950 there was nothing to be introduced. No definite scheme of Production Bonus appears to have been placed before the Company by the Union.

Some settlement was arrived between the parties on 17th February 1950 about grade promotion. I recommend that the terms agreed upon may be given effect to as early as possible.

About the demand for employment of substitutes in place of workmen on leave, I am not in a position to make any recommendation for reasons given under point No. 4.

Point No. 4.—Appointment of 50 relieving hands.

It is indirectly raising item No. 2 of the industrial dispute referred to C. Chakrabarty for adjudication. Legally, for reasons already stated this point cannot be entertained.

It has been contended on behalf of the workers that there has been an increase in the number of officers and clerks without any corresponding increase in the number of workers. Increase in the number of clerks and officers does not by itself justify a corresponding increase in the number of workers. The increase in the number of clerks and officers might have been for more than one reason: (1) The office might have been under-staffed in the past; (2) with the increase in the Government rules for sale-tax, excise-tax, control of raw materials as also finished goods, office works have increased without a corresponding increase in the works of the workers. The increase in Government rules on this point might have necessitated maintenance of regular accounts in an improved manner and it has thereby increased the works in the office. The Union pleaded in its written statement that there had been a considerable increase in the demand of the country spirits. This does not necessarily imply an increase in the strain on the workers. It has not been suggested by the Union that there has been normally any increase in the strain on the workers. What is wanted by the Union is that some relieving hands may be appointed to work in the places of workers on leave. It has been urged on behalf of the Company that the number of workers is more than what is required normally, and that there is sufficient margin to meet the normal requirements so that when some workers are on leave there is no undue strain on the other workers. This issue cannot be decided

without a full knowledge about the work-load that may be fairly allotted to a worker without causing any undue strain on him. A correct decision on this point is not possible without the following materials:—

- (1) What a fair work-load for each worker is or should be.
- (2) Whether the works allotted to a particular worker are left unfinished during the period he is on leave and whether arrears are finished by the worker on his return from leave in addition to his normal work.
- (3) Whether the work of a worker on leave is finished by other workers and whether such work causes any undue strain on these workers. In the absence of any definite suggestion on this point, I am in a position to give any decision in favour of the workers.

Point No. 5.—Claim of a worker working temporarily in the higher grade to the wages of the same grade.

According to the agreement, dated 17th February 1950, to which I have already referred, no worker is eligible for promotion unless he has worked at least for nine months in his existing grade. This agreement does not in any way exclude the demand of a worker for the pay of the higher grade in which he may be required to work as a temporary arrangement. It is contended on behalf of the Company that a temporary appointment to a higher post affords opportunities to workers for receiving a training for higher work. The Company is agreeable to give the worker officiating in a higher post the pay fixed for the higher post as soon as he is found fit on an equitable principle. I am inclined to hold that whenever a worker is required to do the works of a higher post he should be paid some allowance. This allowance will serve as an encouragement to the worker to discharge his duties in the higher post to the best of his abilities. I fix such allowance at 25 per cent. of the difference between the pay the worker has been drawing at the time of his officiating appointment to the higher post and the minimum pay fixed for the said higher post. A worker appointed temporarily to a higher post shall not get such allowance for a period exceeding one month which is considered sufficient for his training. Immediately after expiry of one month or immediately after he is found fit for the appointment, whichever is earlier, he shall be given the allowance fixed by this award till he is substantively appointed to the post according to the terms of settlement, dated 17th February 1950. The period of one month, which has been fixed for training of a worker appointed to a higher post temporarily for which he has not been allowed any additional compensation, shall be deducted from the aggregate period of one or more such temporary appointments of a worker to the higher post and he shall be getting the allowance fixed by this award for the balance. Any appointment to a higher post on completion of first month's training shall lead to the presumption that the worker has been found fit. To avoid discontent among the workers, I recommend that officiating appointment to the higher post should only be given to the workers according to their seniority. Deviation from this general rule is permissible only when a worker is due to retire in a very short time, as also when a worker is found inefficient. Good attendance and punctuality shall also be taken into account.

Point No. 6.—Fixation of initial pay of the workers according to the length of service.

The existing grades and scales were introduced on the recommendation of the Commissioner of Excise so far back as in January 1947. For a better appreciation of the dispute on this point I may reproduce the state of affairs

it existed before the introduction of the grades and scales as also the revised grades and scales:—

Several initial pays.	The corresponding single scale.
Rs. 21 to Rs. 24-8	... Rs. 30—2—50.
Rs. 26 to Rs. 30	... Rs. 35—2½—60.
Rs. 32 to Rs. 34-8	... Rs. 40—3—70.
Rs. 35 to Rs. 42	... Rs. 50—3½—85.
Rs. 45 to Rs. 53	... Rs. 60—3½—95.
Rs. 55-8 to Rs. 60-8	... Rs. 70—4—110.
Rs. 68 to Rs. 83	... Rs. 90—4½—135.
Rs. 108 to	... Rs. 115—5—160.

It is clear from the aforesaid table that those who were getting Rs. 21 to Rs. 24-8 were placed in the grade Rs. 30—2—50 and when the grade and scale were introduced all workmen drawing basic salary as between Rs. 21 to Rs. 24-8 were given the minimum of the grade, i.e., Rs. 30. The aforesaid table will show at a glance how the workers drawing different basic salaries were placed in the grades and scales newly introduced. All workers of different basic pays were placed at the bottom of the grade which was prescribed for them, without taking into account the length of service of the workers or the difference in the salaries of the workers when the grades and scales were introduced. This is undoubtedly a genuine grievance of the workers. It appears that before Sri M. C. Banerji, the Union asked to revise the grades and scales. They were not satisfied with the existing grades and scales. If the learned Adjudicator Sri M. C. Banerji had revised the grades and scales of pay, he would have laid down proper rules placing the employees into the revised grades and scales having regard to the length of their service. The workers were not satisfied with the existing grades and scales as revised from the recommendation of the Commissioner of Labour. So instead of demanding fixation of the wages in the revised grades and scales according to the length of service, the Union demanded a complete revision of the grades and scales. Now when the Union failed to revise the grades and scales completely revised it has fallen back on the existing grades and scales as revised on the recommendation of the Commissioner of Labour and is attempting to get whatever benefit is possible for the workers under these grades and scales. That the length of service of the workers was not taken into account in fixing the workers into the revised grades and scales of pay is admitted. Workers getting salaries within a certain range were given the minimum of the grade prescribed for them without taking into account the length of their service or the difference in their pays. At the hearing the Union demanded one increment within a grade for workers who had completed five years of service and two increments for those who have completed ten years' service or more. This demand does not appear to me to be unreasonable. I accordingly allow the demand of the Union on this point as placed before me during the hearing. The increment shall be given with effect from the date when this award comes into force. This increment by way of adjustment shall not affect the workers' right to the annual increment and the anniversary of such increment in any way.

Item No. 7.—Travelling allowance for workers residing at distant places.

The Company pays a fixed house allowance to the workers, no matter whether they live in their own house or in a rented house. The factory is situated within human habitation. The workers are paid house allowance with a view to enable them to live in a rented house in the neighbourhood.

I am told that those who live at a distant place usually live in their own houses. In such a case the house allowance is a sufficient compensation to cover the conveyance charges. I am accordingly not inclined to do any extra conveyance charges for the workers.

I am told that some clerks and officers are given conveyance charges. That might have been an undue concession to them. In the interest of the industry the management may give this concession to any employee whose services are indispensable and where services would not have been available but for this concession, but extension of this concession to any other employee has undoubtedly no justification. I am not here competent to withdraw such concessions from any officer or a clerk who has been enjoying such concession without any justification.

Point No. 8.—Supply of uniforms to all workers.

The uniforms are intended for employees who appear before the public. These are intended to maintain prestige of an industry. At the hearing the Union contended that the clothes of the workers are spoilt by acid, wax, coal and molasses. From what the Union urged I could understand that they wanted some dress for the workers when they worked so that their clothes might not be spoilt in any way. It was contended on behalf of the Union that in these hard days of cloth scarcity, the workers are hard if their ordinary clothes are spoilt in any way in discharging their normal duties under the Company. I appreciate this point, but as no definite demand was made on this point I am not competent to give any direction to the Company. I however recommend that the management will consider the real grievance of the workers on this point favourably and extend some relief to the workers, if possible.

Point No. 9.—Free medical treatment to the family members of the workers.

A similar demand appears to have been made by the Staff Union before Sri M. C. Banerji. The award of Sri M. C. Banerji was published in the *Calcutta Gazette*, dated December 22, 1949. It has been made clear in this award that the entire responsibilities in respect of medical facilities cannot be thrown on the employers alone and that the State has a substantial part to play with regard to this matter. It has not been pointed out by reason of the employment of the workers in the Russa Distillery, that members of their family have been denied the ordinary facilities available by the State. Exclusive obligation to arrange for medical treatment of an employee is with the employer only in cases where the employees have no risk of contracting any disease peculiar to the employment in the mill or where an employee receives any accident in course of his employment.

Sri M. C. Banerji however suggested a scheme for improvement of medical facilities for the workers. The scheme appears to have been finalised by the agreement, dated 17th February 1950. The Union's demand on this point is accordingly rejected.

Point No. 10.—Recognition of temporary workers as permanent after 12 months' service and increase in their basic pay.

Temporary workers are paid Re. 1 as basic pay and Re. 1-3 as dearness allowance. On Saturdays they work for half the daily normal hours and are paid at half rate. On Sundays and holidays when they do not work they are not paid anything. The workers are confirmed after 12 months of continuous service. I do not feel myself justified to reduce the qualification

of temporary service to entitle the temporary worker to be classed permanent one or to increase his wages. In addition to the basic wages and dearness allowance, temporary workers get canteen allowance. This concession works out to 2 annas per day. The existing conditions of service wages shall stand. I may however mention that any interruption in services of the temporary workers without any fault of the workers earned shall not be considered as a break in their service for the purpose of determining the length of service requisite for confirmation.

ORDER.

No. 6071Lab.—15th March 1951.—Whereas under the Government of Bengal, Labour Department, order No. 6071Lab., dated the 13th October 1950, and with its corrigendum No. 7008Lab., dated the 6th December 1950, the industrial dispute between Messrs. Pure Food Products of India Ltd., 12, Jawpara Road, Dum Dum, and their workers as represented by the Bengal General Engineering and Metal Factory Workers' Union, 19, Matisil Street, Calcutta, was referred for adjudication to Sri Palit, District Judge;

And whereas the said Sri G. Palit, District Judge, has submitted to the Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the Annexure hereto.

ANNEXURE.

Matter of an industrial dispute between Messrs. Pure Food Products of India, 12, Jawpara Road, Dum Dum, and their workers, Sri Basanta Kumar Das and 20 others, as represented by the Bengal General Engineering and Metal Factory Workers' Union, 19, Matisil Street, Calcutta.

PRESENT:

Sri G. PALIT, *District Judge, Chairman of the Tribunal.*

For the Union: Sri P. K. Sunyal, *Advocate.*

For the Company: Sri D. N. Basu, *Advocate, assisted by Sri S. P. Kundal, Factory Manager.*

By order No. 6071Lab., dated the 13th October 1950, the Government of West Bengal constituted a Tribunal of one member under sections 7 of the Industrial Disputes Act, 1947 (XIV of 1947), and referred the dispute to me for adjudication.

2. The reference was received on the 27th October 1950. The I filed written statement of claim on the 8th December 1950. The Com filed its written objection on the 26th December 1950. There was a compromise on 1st February 1951 which did not materialise. The case taken up for hearing on the 12th February 1951. It was continued on 13th February 1951. On the 14th February 1951 the parties filed a petition of compromise and wanted an award to be passed in terms thereof.

3. The issues contained in the schedule of the Order of Reference as under—

- (1) Basic wages.
- (2) Dearness allowance.
- (3) Bonus.

AWARD.

4. I need not go into the facts of the dispute as the same has settled by amicable compromise. I have gone through the terms of the compromise filed before me. I find that the terms are reasonable and dis of the entire matter in issue between the parties. So I accept the compromise and incorporate it in my award. The award is accordingly. The compromise is reproduced in the Annexure form part of the award.

BEFORE SRI G. PAJIT, *Tribunal, appointed under the Industrial Disputes Act, 1947.*

In the matter of an industrial dispute between Messrs. Pure Food Products (India) and their workmen represented by the Bengal Engineering and Metal Factory Workers' Union.

The humble petition of the
named employers and workmen

MOST RESPECTFULLY SHEWETH:

1. That the abovenamed parties have settled this dispute on the following terms, viz.:—

- (a) that the basic pay of the workmen now paid at the rate of Rs. 20 per month as shown in the Annexure "A" to the written statement of the workmen shall be increased to Rs. 30 and the pay of the workmen now getting more than Rs. 25 shall be increased by keeping the present differentials intact, the pay of Khanna (No. 8 of the said Annexure) shall be increased by Rs. 5 per month;

- (b) that the dearness allowance shall be Rs. 25 per month;
- (c) that 15 days' wages for the year 1949 shall be paid to the workmen as an *ex gratia* payment;
- (d) that the terms as aforesaid shall come into force as from the 1st of February 1951.

Your petitioners, therefore, humbly pray that the Tribunal may be pleased to make an award in the above matter on the above terms.

And your petitioners, as in duty bound, shall ever pray.

By order of the Governor.

ORDER.

No 1661Lab—15th March 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 170Lab., dated the 9th January 1951, the industrial dispute between Messrs. Murlimal Santaram Company (Calcutta), Ltd., 20, Maharsi Devendra Road, Calcutta—7, and their employees in connection with the case of Sri J. N. Prosad of 14, Anukul Mukherjee Road, Calcutta—6, regarding the matter specified in the Schedule the said order was referred for adjudication to Sri G. Palit, District Judge;

And whereas the said Sri G. Palit, District Judge, has submitted to the Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the Annexure hereto.

ANNEXURE.

the matter of an industrial dispute between Messrs. Murlimal Santaram Company (Calcutta), Ltd., 20, Maharsi Devendra Road, Calcutta—7, and their employees in connection with the case of Sri J. N. Prosad of 14, Anukul Mukherjee Road, Calcutta—6.

PRESENT:

SRI G. PALIT, *District Judge, Chairman of the Tribunal.*

Present for the Employees: Sri J. N. Prosad in person.

For the Company: None.

1 By order No. 170Lab., dated the 9th January 1951, the Government of West Bengal constituted a Tribunal of one Judge under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), and referred the said dispute to me for adjudication.

2. The reference was received on the 11th January 1951. The employee filed his written statement on the 24th January 1951. A copy of the written statement was sent to the Company by registered post calling upon it to file its written reply by the 6th February 1951. The notice was acknowledged by the Company on the 29th January 1951, but none did appear. The 6th February 1951 was the date set down for taking steps. The Company was next informed that if it did not take any steps on the next date fixed for that purpose, the case would be heard *ex parte* on that date. The 16th February 1951 was decided as the date for hearing. The Company did not enter appearance on this date also. The employee Sri J. N. Prosad was present. He affirmed his claim verbally. The award was reserved.

3. The only issue contained in the schedule of the Order of Reference stands as follows:—

- (1) Whether Sri J. N. Prosad is entitled to any wages in lieu of notice and overtime work.

AWARD.

4. It is the case of the employee Sri J. N. Prosad that he was employed by Messrs. Murlimal Santaram Company (Calcutta), Ltd., of 20, Maharsi Devendra Road, Calcutta, on the 14th June 1950 as a permanent shipping clerk on a salary of Rs. 200 per month. He was discharged on the 8th August 1950 without any notice. He claims salary from August to October 1950. He also claims overtime wages. He received his wage up to 31st July 1950.

5. I really fail to understand why the Company did not think it worth while to attend the Tribunal though it was served with a notice. Evidently, as there is no claim for reinstatement, the Company does not mind paying any compensation that the Tribunal might award in this respect. I have only *ex parte* evidence of the employee before me to accept that his monthly salary was Rs. 200 per month. In the circumstances elicited I award that he will get eight days' pay at the above rate for his service of eight days in August 1950. As he has been given no notice of discharge and as it is really hard nowadays to get an appointment quickly and as I find that the man is still unemployed, I grant him compensation to the extent of two months' salary, i.e., Rs. 400.

I do not allow any overtime wages. He is said to have put in no overtime work in July 1950. He has received salary of July 1950 admittedly. If he was really entitled to overtime wages in respect of the month of July 1950, he would not consent to have only the salary and not the overtime wages due. I am led to think that this claim has been inserted now because he has been aggrieved by the Company's abrupt discharge. So the claim in this respect stands rejected.

6. The amount awarded above must be paid within one month of the award coming into operation.

G. PALIT.

Public Health

NOTIFICATIONS

No. P.H.759/1R-97/50.—21st March 1951: Annual Report of the West Bengal Smoke Nuisances Commission for the year 1948 is published herewith for general information.

THE ADMINISTRATION OF WEST BENGAL
FOR 1948.

Smoke Nuisances Commission.

The Commission at present controls the area covered by the Calcutta Police Act, the Suburban Police Act and Howrah Offence Act. It also controls the area under the Tollygunge and the South Suburban Municipalities. The whole area controlled by the Commission almost covers the whole of the city proper and its surrounding industrial areas except for the strip on both sides of the river beyond the limits of the city.

During 1948, 53 complaints were received against smoke nuisance. In every case action after careful investigation was taken and relief was given wherever possible. In giving these reliefs the Commission maintained its policy of persuasion in place of repression as far as practicable. Prosecutions however were instituted in 12 cases when parties even after repeated persuasion did not conform to the provisions of the Act. Out of these 12 cases 10 cases imposed punishment in 10 cases.

During the year under review the Commission held 11 meetings where 151 new plans for

Directorate and 46 new plans submitted by parties were examined and approved by the Commission. This brings the total number of plans approved by the Commission to 2,533 up to end of the period under survey.

The number of inspections and tests of furnaces, stoves and chimneys carried out by the two inspectors supported by the Chief Inspector during the year were 2,758. The two observers recorded 46 observations during the period. Out of these observations warnings were issued over the telephone directly to the parties in 86 cases and by writing in 1,304 cases.

The average emission of smoke per hour per chimney for the period was .08 minutes which reflects the extent of the success of the Commission in its efforts to reduce the industrial smoke nuisance of the area under its control.

No. PH 793/2R-36/50.—22nd March 1951.—The time for receiving objections or suggestions on the draft of an amendment which the Governor, in exercise of the powers conferred by section 10 of the Bengal Smoke Nuisances Act, 1905 (Bengal Act III of 1905), proposes to make in the rules published with notification No. 73 Marine, dated 25th August 1907, as subsequently amended, and which was published with notification No. PH 273/2R-36/50, dated 15th November 1950, on page 2337 of Part I of the Calcutta Gazette of the 23rd idem, is hereby extended up to 30th April 1951.

- (ii) "the Government" shall mean the Government of West Bengal;
- (iii) the expression "the licensee" shall mean and include the Tamralipta Co-operative Electric Supply Society, Limited, registered under the Bengal Co-operative Societies Act, 1940, having their registered office at Tamluk and their permitted assigns;
- (iv) the expression "deposited map" shall mean the plan of the area of supply hereinafter specified, which has been deposited with the Government in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of West Bengal in the Department of Commerce and Industries and by the licensee;
- (v) the term "unit" shall mean the quantity of electrical energy equivalent to a current of one thousand amperes flowing under an electromotive force of one volt during one hour;
- (vi) the expressions "First Annexure", "Second Annexure", "Third Annexure" and "Fourth Annexure" shall mean the first, second, third and fourth annexures to this license, respectively;
- (vii) the expression "the commencement of this license" shall mean the date of the notification by the Government in the *Calcutta Gazette* by which this license is granted;
- (viii) unless otherwise stated, where roads or streets are mentioned as forming the boundary or part of the boundary of any area in this license, the premises, properties or structures abutting upon either side of such roads or streets shall be deemed to be within the area of supply.

SECURITY.

3. (i) The period within which the licensee shall show, under sub-clause (a) of clause 1 of the Schedule to the Act, that he is in a position to discharge fully and efficiently the duties and obligations imposed upon him by the license throughout the area of supply shall, unless otherwise ordered by the Government under sub-clause (b) of sub-section (3) of section 4 of the Act, be six months from the commencement of this license.

(ii) Unless otherwise ordered by the Government under clause (d) of sub-section (1) of section 4 of the Act, the sum which the licensee shall deposit or secure to the satisfaction of the Government under sub-clause (b) of clause 1 of the Schedule to the Act, shall be Rs. 10,000 and such sum shall be so deposited or secured within thirty days from the commencement of this license:

Provided that if the works proceed in a manner satisfactory to the Government, this amount shall be repaid by the Government to the licensee in four equal instalments and a final instalment for payment of interest, if any.

The whole of the amount repaid by the Government shall be used by the licensee for carrying into effect the works for which the license is granted.

AREA OF SUPPLY.

4. The area above referred to within which the supply of energy is authorised by the license (the area of supply under the Act) is the whole of the area, the boundaries of which are described in the First Annexure and delineated in red colour on the deposited map.

SITUATION OF THE GENERATING STATION.

5. The licensee shall erect the generating station or main receiving station within the area covered by the license.

LICENSEE'S WORKS.

6. (A) *Compulsory Works.*—(i) The licensee shall, within two years from the date of the grant of this license (1) provide and install suitable and sufficient feeders and distributing mains and execute works to the satisfaction of the Government for the purpose of supplying electrical energy throughout the streets, or parts of streets, named in the Second Annexure and shown in yellow colour on the deposited map, (2) erect the generating station or main receiving station mentioned in clause 5 with all machinery and apparatus necessary for the purpose of giving a continuous and efficient supply and (3) do all other works necessary for the commencement of the supply of energy to consumers.

The generating station or main receiving station mentioned in clause 5 together with all machinery and apparatus, feeders and distributing mains and all other works in connection with this license shall have the prior approval in writing of the Government before any orders for the same are placed.

(ii) At the expiration of each successive period of six months from the date of the grant of this license and until the completion of the compulsory works, the licensee shall submit to the Secretary to the Government of West Bengal in the Department of Commerce and Industries reports stating all steps taken and the progress made in carrying into effect this license.

(B) *Provision of adequate plant and extension of distributing mains.*—Further within twelve months of the receipt of applications and subject to the first proviso of clause 6(i) of the Schedule to the Act, the licensee shall lay down suitable and sufficient additional transmission lines and feeders and distributing mains as may be required to give and supply adequate energy to every consumer within the area, and shall provide and maintain adequate plant which, in the opinion of the Government, may be considered necessary for regular, constant and sufficient supply of energy to consumers.

SUPPLY OF ENERGY.

7. (i) Subject to the provisions of this license, the Act, and the Rules, and also the Electricity (Supply) Act, the licensee shall be entitled during the continuance of his license to supply energy within the area of supply for all purposes.

(ii) The supply of energy shall not be commenced until an Electric Inspector to the Government shall have inspected the licensee's works and certified in writing that the supply of energy may commence.

(iii) As soon as may be after the grant of this license and in any case within six months thereafter the licensee shall submit to the Government for sanction under sub-section (2) of section 21 of the Act draft "Conditions of Supply" to regulate his relations with persons who are or intend to become consumers.

(iv) After such conditions have been sanctioned by the Government with or without modification the licensee shall not supply energy unless:—

(a) the person to whom such supply is to be given shall have tendered to the licensee a requisition duly signed in the form for the time being approved by the Government, and

(b) such person and the licensee shall have executed an agreement in a form approved by the Government.

(v) The amount of all miscellaneous charges incidental to and in connection with the supply of energy, which the licensee proposes to make against consumers, shall be subject to the previous approval of the Government.

(vi) Where all the works have not been completed by the licensee and the licensee nevertheless desires to commence to give supply of energy in a portion or portions of the area of supply, the licensee shall do so only with the express permission of the Government.

EXTENSIONS TO GENERATING PLANT, TRANSMISSION AND DISTRIBUTING MAINS.

8. After the supply of energy has commenced in accordance with clause 7(ii) of this license, no major additions to the generating station, machinery and apparatus, transmission and distributing mains or other works shall be made or orders placed for the same without the previous approval in writing of the Government.

ACCOUNTS.

9. (i) Separate and distinct accounts shall be kept, prepared and rendered by the licensee showing in full details, as required by the Act and the Rules thereunder and the Electricity (Supply) Act, 1948 or any order of the Government, the working of the undertaking for which this license is granted.

All books of accounts shall at all times be open to the inspection of the Government or of any person authorised by the Government in that behalf.

(ii) The licensee shall submit to the Government before the 1st October every year, the accounts of the undertaking for one year made up to the 31st March of the same year.

STATISTICS.

10. The licensee shall when called upon to do so submit to the Government or an officer duly appointed in this behalf such statement and data as may be considered necessary for the purpose of compiling comprehensive statistics of electric supply undertakings in the State.

HOURS OF SUPPLY.

11. From the date of the commencement of supply the licensee shall maintain a continuous supply of energy for 24 hours throughout the year:

Provided that for a period of two years from the commencement of supply specially during the months of November, December, January and February, the supply may be discontinued daily for ten hours and a half, namely, between 6-30 a.m. and 5 p.m. local time, with the permission of Government obtained in writing.

METHOD OF CONSTRUCTION.

12. The feeders, distributing mains and service connections may be overhead or underground in whole or in part and shall subject to the provisions of section 18 of the Act, be erected, constructed and maintained by the licensee in strict conformity with the Act and the Rules thereunder and the following provisions:—

- (i) The licensee shall not erect overhead mains for use at any higher pressure than medium pressure without the sanction in writing of the Government in each case and subject to such conditions and/or limitations as the Government may impose.
- (ii) Aerial lines in the vicinity of a building or structure shall be erected in compliance with the Indian Electricity Rules concerned and in no case shall an aerial line be at a less distance than 4 feet horizontally and/or 8 feet vertically from any building or structure whether permanent or temporary.
- (iii) In narrow lanes, passages or streets where it is not possible to maintain a horizontal clearance of 4 feet between aerial lines and buildings or structures, underground cables shall be provided unless any special method of construction of aerial lines shall have been expressly sanctioned in writing by the Government for any such lane, passage or street and such sanction shall be obtained by the licensee before beginning construction of any such special aerial line.
- (iv) Where any electric supply lines cross or run along the routes of a taboot, temple car or similar other religious processions, the supply lines shall be laid underground or placed at such height as will allow of the free and safe passage of those processions. In case of dispute, such routes and heights shall be determined by the District Magistrate to whom the licensee shall refer before running any such lines.
- (v) *Removal of lines.*—The licensee shall remove or replace at his own expense any aerial line which runs along or across any street if in the opinion of the Government it is considered necessary to do so.
- (vi) For the purpose of rule 68(2) of the Rules, the maximum wind pressure shall be taken as 20 pounds per square foot.

NATURE OF SUPPLY.

13. The system and pressure of supply which shall be adopted for the supply of electrical energy under this license are as follows:—

- (i) Three phase alternating current, three or four-wire supply at pressures of 400 volts between phases and 230 volts between each phase and neutral at a frequency of fifty complete cycles per second.
- (ii) Single phase alternating current, two-wire supply at a pressure of 230 volts between the phase and the neutral conductor at a frequency of fifty complete cycles per second.

The pressures stated above shall be as measured at consumers' terminals and shall not vary therefrom beyond the limits prescribed by the Indian Electricity Rules, 1937, throughout the area of supply:

Provided that the licensee may from time to time with the previous consent in writing of the Government and subject to such limitations and conditions as shall be made in writing by the Government, adopt any other pressures or systems of supply or both for the purpose of this license.

LIMITS OF RATES TO BE CHARGED IN RESPECT OF SUPPLY OF ENERGY.

14. (i) The rates to be charged by the licensee for energy supplied by him shall not exceed those stated in that behalf in the Fourth Annexure, or, in the case of a method of charge approved by the Government in accordance with clause (c) of sub-section (3) of section 23 of the Act, such maxima as the Government may fix on approving the method.

(ii) The rates for sale of electrical energy shall be subject to the provisions of section 57 and the Sixth and Seventh Schedules to the Electricity (Supply) Act, 1948.

PURCHASE OF UNDERTAKING.

15. (A) *Purchase by local authority or State Government (where the State Electricity Board is not formed).*—(i) The option of purchase given by section 7 of the Act shall be first exercisable on the expiration of twenty years from the commencement of this license and thereafter on the expiration of every subsequent period of ten years.

(ii) The purchase price payable on the exercise of said option shall be—

(a) the net expenditure on the capital account of the licensee in respect of lands, buildings, works, machinery, mains, apparatus, appliances, fixtures, furniture, vehicles and other like property (including serviceable stand-by plant) owned and used by the licensee for the purposes of the undertaking less the total depreciation thereon calculated according to the Sixth Schedule and the scale of depreciation provided in the table appended to the Seventh Schedule of the Electricity (Supply) Act, 1948

The percentage of the value of the lands, buildings, works, materials and plant of the licensee referred to in sub-section (i) of section 7 of the Act which shall be added to such value under the second proviso to that sub-section on account of compulsory purchase shall be ten per centum; and

(b) the value of the stores, spare parts and loose tools in use or available and suitable for use (for the purposes of the undertaking) at the date of purchase at such price as may be agreed, or failing agreement, as may be determined by arbitration.

(iii) In accordance with clause (d)(ii) of sub-section (2) of section 3 of the Act, it is hereby declared that the power station used or to be used in connection with the undertaking shall form part of the undertaking for the purpose of purchase under section 5 or section 7, provided that the power station shall not have been abandoned by reason of the operation of clause 16 of this license.

(iv) Not less than two years' notice in writing of any election to purchase the undertaking shall be served upon the licensee by the Government and after such notice shall have been given all extensions and outlays of money debitable to the capital account of the undertaking during the period of such notice shall be subject to the previous approval of the Government.

(B) *Purchase by the Electricity Board.*—In the event of the purchase of the undertaking being made by the State Electricity Board constituted under the provisions of section 5 of the Electricity (Supply) Act, 1948, the same shall be governed by the relevant Schedule of the Electricity (Supply) Act, 1948.

BULK SUPPLY.

16. (i) Should a supply of electrical energy in bulk become available at any future date from any source at a rate not more than the rate at which the licensee is generating at the time and if the Government think it in the interests of development of electricity in that area so to direct, the licensee shall obtain his supply from such source.

The decision of the Government on the operation of this clause shall be final.

(ii) The licensee will take from the State Electricity Board, if set up by the Government, or from any Government generating station such energy as required for this distribution at any time the Electricity Board or the Government is prepared to supply at a rate not more than the rate at which, in the opinion of the Central Electricity Commission to the Government of India or the Government or the State Electricity Board, the licensee is generating at the time of the supply.

If energy is taken as provided above, the licensee shall, if so required, sell to the Electricity Board or to the Government its generating plant at its depreciated book value, or if the Electricity Board or Government does not wish to purchase, the licensee will have full discretion to dispose of such plant.

MANAGEMENT EXPENSES AND INTEREST ON LOAN.

17. (z) The Government shall have the right from time to time to nominate one *ex-officio* Director on the Board of Directors of the Company and the Director so nominated shall be entitled to such remuneration payable by the said Company as fixed in the Memorandum and Articles of Association of such Company in respect of other Directors. The Director so nominated by Government shall not be required to hold any qualification shares, nor shall he be liable to removal or retirement. The Government shall, however, have the right to remove the person so nominated and appoint another person in his place.

(u) Subject to any law for the time being in force relating to Co-operative Societies, the licensee shall not enter into any agreement with the Managing Agents, or make any modifications to such agreement already entered into without the previous consent in writing of the Government. The Government shall also have the right to examine any agreement between the licensee and the Managing Agents, and to require suitable modifications therein as a condition precedent to Government granting any consent as required by section 9(2) of the Act.

(iii) The rates of remuneration to be paid to the Managing Agents and the expenses of the office of the Managing Agents shall be regulated in accordance with the provisions contained in clause XIII of the Sixth Schedule of the Electricity (Supply) Act, 1948. The rates of remuneration to be paid to the Directors and persons other than the staff employed by the licensee for the actual running of the undertaking and also the rates of interest on loan, whether secured or not, and any changes in such rates shall be subject to the prior approval of the Government in each case.

VARIATIONS FROM THE SCHEDULE TO THE ACT.

18. In pursuance of clause (f) of sub-section (2) of section 3 of the Act, it is hereby expressly declared that—

- (i) sub-clause (1) of clause VI and sub-clause (1) of clause VIII of the Schedule to the Act shall for the purpose of incorporation in this license be varied by the addition of "except for the months of November, December, January and February when the supply may be discontinued daily for ten hours and a half, namely, between 6-30 a.m. and 5-0 p.m., local time, for a period of two years from the commencement of supply" after the expression "continue to supply energy" occurring in the sub-clauses above-mentioned;
- (ii) clause IV of the Schedule to the Act shall, for the purpose of incorporation in this license, be varied by the substitution of two years for the period of three years specified in said clause;
- (iii) the following shall be added between the words "licensee" and "and" at the end of clause (a) of the first proviso to sub-clause (1) of clause VI of the Schedule to the Act:—
"and to comply with the conditions of supply made from time to time with the previous sanction of the Government under section 21(2);"
- (iv) clause (a) of the first proviso to sub-clause (1) of clause VI of the Schedule to the Act shall for the purpose of incorporation in this license be further varied to the following extent, namely, that the licensee shall not be bound to supply energy to any person for any period unless the person requisitioning such supply shall enter into an agreement as required by clause 7(iv) of this license;
- (v) the following sub-clause shall be substituted for sub-clause (5) of clause VI, namely:—
"(5) Every requisition under this clause shall be in a form approved by the Government; and copies of the form shall be kept in the office of the licensee and supplied free of charge to any applicant;"
- (vi) the first proviso to clause XI of the Schedule to the Act shall, for the purpose of incorporation in this license, be varied by the substitution of five years for the period of seven years specified therein;
- (vii) the following sub-clause shall be substituted for sub-clause (2) of clause X, namely:—
"(2) Before commencing to supply energy through any distributing main the licensee shall give notice, by public advertisement in such manner as shall be previously approved by the Government, of the method by which he proposes to charge for

energy so supplied and the rates at which such energy will be supplied; and, where the licensee has given such notice, he shall not be entitled to change the method of charging or the rates at which energy will be supplied without giving notice thereof by public advertisement in the manner aforesaid and giving in writing one month's notice or such shorter notice, as the Government may deem proper, of such change to the Government, to the local authority concerned, and to every consumer of energy who is supplied by him from such distributing main."

SECURING CONTINUITY OF SUPPLY.

19. It shall be the duty of the licensee (which expression shall, for the purpose of this clause and clause 20 following, be taken to mean and include the licensee, his employees, servants, agents and his permitted assigns) to give the nearest Magistrate immediate and full information of any circumstances in which interruption of the supply may be apprehended as a result of civil commotion or disturbance of the public peace, or any strike or lock-out of the nature specified in section 15 of the Trade Disputes Act, 1929 and/or section 22 of the Industrial Disputes Act, 1947.

TRANSFER OF MANAGEMENT.

20. The licensee shall not employ or engage any other party to work his undertaking or to carry out the work of supplying energy under this license except with the previous written consent of the Government wholly or to such extent as the Government may think fit.

REVOCATION.

21. (i) If the licensee shall in the opinion of the Government have failed to give such immediate and full information as is required by clause 19 hereof, or if at any time any interruption of the supply shall occur which in the opinion of the Government is attributable to any wilful or preventable default or neglect on the part of the licensee or which in the opinion of the Government could by the exercise of reasonable care have been prevented by the licensee, or if the licensee shall in the opinion of the Government fail to comply with any of the provisions of this license, or shall in the opinion of the Government fail to show satisfactory progress during any portion of the period of two years, specified in clause 6 of this license, or if the general direction and control of the licensee shall cease to be in the hands of the citizens of India the license may be revoked

(ii) In the event of the Government revoking the license for any of the causes specified in the sub-clause (i), the security deposit of Rs. 10,000 made in accordance with clause 3 may in whole or in part be forfeited as the Government may decide and the decision of the Government as to both revocation and forfeiture shall be final and binding on the licensee.

Industries**NOTIFICATION.**

6991nd—16th March 1951.—The designation of the post of "Special Officer (Gur)" under Directorate of Industries, West Bengal, is changed to "State Palm Gur Organiser, West Bengal."

By order of the Governor,
S. K. CHATTERJEE, Secy.

RESOLUTION No. 655-IND.

Calcutta, the 13th March 1951.

Read an application, dated the 12th July 1949, from Messrs G. B. Works, Ltd., Rishra, district Calcutta, for a loan of Rs. 20,000, since reduced to Rs. 11,500 only under section 19(1)(a) of the Bengal State Aid to Industries Act, 1931 (Bengal Act III of 1931), for development of their existing factory for manufacture of instruments apparatuses, etc.

Read also the resolution adopted by the Board of Industries, West Bengal, at the meeting held on 2nd August 1950 incorporated in the report submitted with letter No. 17776, dated the 6th February 1951, from the Director of Industries, West Bengal.

Order.

ORDERED that the loan of Rs. 11,500 only be sanctioned provided that it does not exceed 50 per cent. of the net value of the assets of the applicant-firm in the industry after deducting all encumbrances thereon existing at the time when the application was made. The loan is subject to the following conditions:—

- (1) That the entire amount of loan should be utilised for development of their existing factory for manufacture of instruments apparatuses, etc.;
- (2) That a mortgage bond should be executed by Sri B. K. Ganguly, the Managing Director of the Company, in the form to be drawn up by Government for the purpose;
- (3) That interest should be charged at the rate of 8 per cent. per annum payable with each instalment on the balance of the unpaid principal;
- (4) That if the instalments with interest thereon are paid promptly on the due dates or within seven days thereafter, the interest will be accepted at the reduced rate of 6½ per cent. per annum; and
- (5) That the entire amount of loan with interest thereon should be repaid in eight annual instalments—the first seven instalments being of Rs. 1,500 only each and the eighth and final instalment being of Rs. 1,000 only plus interest, the first instalment being payable on the first anniversary of payment of the loan.

ORDERED also that the resolution be published in the Calcutta Gazette.

RESOLUTION No. 656-IND.

LABOUR DEPARTMENT**ORDER.**

1736Lab.—17th March 1951.—Whereas under the Government of Bengal, Labour Department, order No. 6406Lab., dated the 10th November 1950, the industrial dispute between Messrs. Nasco, Ltd., Prince Anwar Shah Road, Tollygunge, Calcutta, and their workmen represented by Nasco Mazdoor Congress, 14, Girish Chandra Basu Road, Entally, Calcutta, was referred for adjudication to Sri G. Palit, District Judge;

and whereas the said Sri G. Palit, District Judge, has submitted to the Government his award on the said industrial dispute;

now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

a matter of an industrial dispute existing between Messrs. Nasco, Ltd., Prince Anwar Shah Road, Tollygunge, Calcutta, and their workmen represented by Nasco Mazdoor Congress, 14, Girish Chandra Basu Road, Entally, Calcutta.

PRESENT:

SRI G. PALIT, District Judge, Chairman of the Tribunal.

and for the Workmen: Sri D. L. Sen Gupta, Advocate.

and for the Company: Sri P. K. Sanyal, Advocate.

By order No. 6406Lab., dated the 10th November 1950, the Government of West Bengal had constituted a Tribunal of one Judge under sections 10 and 11 of the Industrial Disputes Act, 1947 (XIV of 1947), and referred said dispute to me for adjudication.

The reference was received here on the 14th November 1950. The Workmen filed its written statement on the 20th November 1950. The Company filed its written objection on the 16th December 1950. The issues were framed on the 27th December 1950. The case was taken up for hearing on 30th February 1951. The hearing was concluded on that day.

The issues that were framed stood as follows:—

1. Fixation of minimum basic pay and dearness allowance.
2. Flat rate increment, if any, to be awarded.
3. Gratuity.
4. Bonus.
5. Rules ensuring security of service.
6. Supply of the Company's products to the workers, if necessary, at a concession rate.

AWARD.

Before the issues are taken up specifically for consideration, a brief history of the dispute will be relevant. The Company came into existence in the year 1918. The concern originally belonged to one Sri Kristo Dasgupta. It was taken over by Messrs. J. C. Dutta & Co. and was converted into a private limited Company which was eventually transformed

into a public limited one. There was a trike inspired by Communist in on the 12th February 1947. It was called off after a month. There another strike in April 1948 and during this strike period the Nasco Ma Congress, under the Presidentship of Dr. Suresh Chandra Banerjee, ca be formed. After that the Union represented the grievances of the w to the Factory Manager in writing but with no tangible results. T charter of demands was placed on the 13th August 1948. This led Tribunal set up by Government order No. 3840Lab., dated the 25th O 1948. The reference, however, ended in a compromise on the Com submitting to an interim flat increment of Rs. 5 per capita. But since the Union's demand for redress of the workers' grievances fell on deaf So a charter of demands followed on the 30th May 1950. It led t present Tribunal. Issues have been framed with an eye to the griev set forth in this charter of demands. The Company contends that its cial position is very nearly desperate. It pleads inability to bear any financial burden. Any further increase in wages would inevitably le the collapse of the firm. Its total sale has dwindled down from Rs. 1 in 1947 to Rs. 3 lakhs and odd in 1950. Other liabilities are also o increase while overdraft in the bank amounts to Rs. 2 lakhs. It has t with foreign competition and has been forced to reduce its prices of modities by 18½ per cent. with effect from 1st January 1950. The k the Pakistan market is also said to have hit it hard.

Issue No. 1.

5. The Union claims the minimum basic pay for an unskilled w to be fixed at Rs. 30 per month. The Company in paragraph 10 c written statement states that the minimum basic pay at present is not Rs. 30 per month. The Annexure B of the written statement of the U which has not been questioned shows also that the minimum basic pe the employees of the Company is not below Rs. 30 per month except in single instance. That case is of Jamadar Singh, Durwan, who draw Rs per month as basic pay. I raise it to Rs. 30 per month with effect the date the award comes into operation. I also direct that the minn basic pay of the employees of the Company should be Rs. 30 per mont

Regarding dearness allowance, I find that of the staff it is unno Rs. 25 per month. In the case of workers it ranges from Rs. 11 to Rs. Considering the high level of prices that is now ruling in the market dearness allowance requires to be slightly raised. I have not been t to disturb the existing wage structure which is certainly rather low being so, unless the dearness allowance is slightly raised, it may be nigh impossible for the workers to carry on. Of course I am quite al the fact that the financial position of the Company is well nigh tone The Company is on its last legs to maintain its existence. So the U has been well advised not to press for revision of wages at the p moment. I find from the Conciliation Officer's report that the Com agreed to an overall increment of Rs. 5 to all workers. I accept that tion. I direct that there will be an increment of Rs. 5 per month u dearness allowance of the staff. So the dearness allowance in their would amount to Rs. 30 per month. Regarding the workers, I dir there will be an overall increase of Rs. 5 in each case per month su a minimum of Rs. 20. In other words, those who are getting Rs get Rs. 20 per month as dearness allowance and those who are getting per month at present will also get Rs. 20 per month. Those who are at present Rs. 20 will get Rs. 25 and those who are getting Rs. 25 a' will get Rs. 30 as dearness allowance per month. This increment t ness allowance will have effect from the date the award will cor operation.

Issue No. 2.

I have already referred to the wretched position of finance of this any. The increment in dearness allowance already allowed will go to the condition of the workers with their poor pay to some extent. I also hit, to a certain extent, the financial position of the Company. In view of things I refrain from granting any flat rate increment to workers. I, of course, take sympathy for the workers who earn a little less than Rs. 30 as basic pay even after a considerable length of service, but there is no help. So this issue is disposed of without any direction.

Issue No. 3.

Considering the present finances of the Company, the claim for gratuity must fail.

Issue No. 4.

The Company has placed before me its audited balance-sheet for the year ending December 1949. That shows net loss at a figure of Rs. 1,000 and odd. The Company did not grant bonus in the past except when it granted Independence Bonus. But that is more by way of exception than as a rule. I turn down the claim for bonus accordingly.

Issue No. 5.

Regarding the probationary period before confirmation, there is no dispute between the parties. The Company concedes that it treats a worker as permanent after three months of service. Regarding the period of service, the Company concedes that it gives every opportunity to a worker to defend himself before he is dismissed. The intervention of a third party accordingly is uncalled for. Regarding retrenchment, the Company follows the principle of "last come, first go" subject, of course, to the condition of special efficiency. That is just as it should be. I do not see what the matter of retrenchment will be determined by the Union with the authorities.

Issue No. 6.

The Company resists the claim on the ground that the products of the Company are mostly luxury goods. That also appears from the list as per Appendix A appended to the Union's statement. The workers are not entitled to have these luxury goods at cost price which may lead only to inflation. I am not satisfied that the workers are in the habit of purchasing these products. Regarding the staff members, of course, the position is different. They may be in the habit of using those luxury goods, but the number is only seven. I leave it to the good sense of the Company to see if they can provide them with these luxury goods at concession. But this concession should never be claimed as a matter of right. It is less to set it up as the subject matter of an industrial dispute. I turn down the claim of the workers on this head, except as above. The award is passed accordingly.

G. PALIT,

Chairman of the Tribunal.

March 1951.

By order of the Governor,
D. S. P. MUKHERJEE, Jt. Secy.

ORDER.

No. 1741Lab.—19th March 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 4559Lab., dated the 1st August 1950, the industrial dispute between Messrs. Empire Bone Mills, Bansberia, Hooghly, Managing Agents: Messrs. B. N. Elias and Co., 1, Old Court House Street, Calcutta, and their workmen represented by the Empire Bone Mills' Labour Union, Babuganj, Hooghly, was referred to Sri A. Das Gupta, District Judge;

And whereas during the pendency of proceedings before the said Sri A. Das Gupta, District Judge, the workmen of Messrs. Empire Bone Mills, Bansberia, Hooghly, under the Management of Messrs. B. N. Elias and Co., Ltd., 1, Old Court House Street, Calcutta, made a complaint in writing before the said Tribunal alleging that the said company had acted to the prejudice of the said workmen, the conditions of service applicable to them immediately before the said proceedings;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Sri A. Das Gupta, District Judge, has adjudicated upon the said complaint and submitted his award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased by order to publish the said award as shown in the annexure hereto

ANNEXURE.

In the matter of two complaints of the workmen of Messrs. Empire Bone Mills, Bansberia, Hooghly, under the Management of Messrs. B. N. Elias and Co., Ltd., 1, Old Court House Street, Calcutta, represented by the Empire Bone Mills' Labour Union, Babuganj, Hooghly, against the said company, under section 33A of the Industrial Disputes Act as amended by the Industrial Disputes Appellate Tribunal Act, 1950 (Cases Nos. 17 and 51 of 1950) and in the matter of Reference No. 4559Lab., dated the 1st August 1950, of the Government of West Bengal, Labour Department.

PRESENT:

SRI A. DAS GUPTA, *District Judge.*

- 1) That despatches of finished goods, stacking and all other works of the godown would be done daily according to the instructions of the Manager or Supervisor.
- 2) That shipment will be carried out by lorry and/or boat and/or wagon according to the Mills' requirements.
- 3) That the rates of shipment and stacking will be piece-rated as follows:—

	Per ton.
	Rs. a. p.
Shipment—	
(a) By lorry	... 0 12 6
(b) By boat	... 1 6 6
(c) By wagon	... 1 1 6
Stacking	... 0 10 0

Understood that the above rates are based on the present wage. Should the Tribunal sitting now decide to increase the wage rate, the piece-rate accordingly revised.

- 4) Should there be no shipment or stacking during any day, then provided it is required by the Manager, they will be employed on filling, weighing and stitching of bone meal. This will be done according to the instructions of the Manager or the Supervisor. The rate will be Re. 1 per ton.

In the event of there being no work available on piece-rates on any day, the Company will pay the minimum rate as fixed by the Tribunal for that day during which any or all the work as under will be carried out by the godown workers—

- a) Unloading bone meal.
- b) Unloading and loading gunny bales and other materials.
- c) Loading horns and roofs.
- d) Loading sinews.

On any day when sufficient piece-rate work cannot be given to the godown workers then to allow them to earn the minimum wage set by the Tribunal, they will be paid the minimum daily wages.

The Company will agree not to pursue their case in the Tribunal for the dismissal of the 22 godown workers.

the use of plural in the definition is without any significance. Lord in *Conway versus Wade* (1909), A.C. 506, observes: "I cannot see any way to hold that trade dispute necessarily includes any individual dispute. It is true that after a certain stage such dispute, although ground may be, may come to be a subject in which sides are taken and may develop into a situation of general aspect containing the characteristics of a dispute; but until it reaches that stage, I cannot hold that a trade dispute necessarily exists" [*vide* also *Dallimore versus William Jesson* (1912), 29 T. L. R. 67 C. A.]. So I find that in the present case the first ingredient of the definition, viz., the parties to an industrial dispute is wanting.

Regarding the subject matter, of course, I must say that the question of the definition is answered.

Regarding the third element, viz., the origin of the dispute, I am of opinion that it may or may not be of a workman. So even the case of an officer may come under the industrial dispute provided the matter has been espoused by other employees in service. In this connection I may refer to the award of Sri A. Das Gupta, in the *Joint Steamer Co.*, and its facts were reported in the *Calcutta Gazette* of the 22nd September 1911, pp. 1733-1734. So this element may also be taken to be satisfied in the present case even without any evidence on the point.

6. So in conclusion, I find that the definition of industrial dispute is not fully answered, because all the three elements must co-exist to constitute an industrial dispute. The learned lawyer of the employee has urged upon me to take evidence on the merits before throwing out the case as untenable on such preliminary ground. I am afraid that such a course cannot hold any water. If, as I have found, the case cannot be sustained legally, it is no use taking evidence. The taking of evidence cannot make a legally untenable case, a tenable one. The learned counsel next pleads that his client, in the above view, will be denied his legal relief and there will be a consequent failure of justice. That may be true to a certain extent, it is not wholly true, because the door of the Industrial Tribunal is shut against him, the door of the Court is certainly open to him to sustain his claim about gratuity. If it been a claim on the ground of reinstatement which the Industrial Tribunal alone is competent to grant, I might have understood such a contention. So the claim fails on preliminary grounds. I refrain from dealing with the other issues in view of my finding recorded above. The award is passed accordingly.

ORDER.

No. 1788Lab.—21st March 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 5354Lab., dated the 22nd September 1950, the industrial dispute between Messrs. Robm Press, Strand Road, Calcutta, and one of their employees, Sri Sailendra Ghosh, holding No. 126, Grand Trunk Road, Sheoraphuli, F.I. Bazar, as represented by self, was referred for adjudication to Sri P. R. Mukherjee, District Judge;

And whereas the said Sri P. R. Mukherjee, District Judge, has submitted the State Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

the matter of reference No. 5454Lab., dated 18th September 1950, of the Government of West Bengal, Labour Department, and in the matter of an industrial dispute between Messrs. Robin Press, 38, Strand Road, Calcutta, and one of their employees, Sri Sailendra Nath Ghosh, holding No. 128, Grand Trunk Road, Sheoraphuli, E.I.Rly., as represented by self. •

PRESENT:

SRI P. R. MUKHERJEE, *Judge, Industrial Tribunal.*

for the employers:—Sri N. K. Mukherjee, Advocate, Sri S. Bose, Superintendent of Calcutta Printing Press Owners' Association and Sri H. L. Bose, Managing Partner.

for the employee:—Sri A. N. Banerjee, Assistant Secretary of the Federation of Mercantile Employees' Union.

AWARD.

The above dispute had been referred to me for adjudication on the complaint of Sri Sailendra Nath Ghosh, an employee, who was an assistant of the above press on a salary of Rs. 120 per mensem plus Rs. 7 as allowance per working day. It is alleged that the said Company did not pay salary in time and on the employee's insisting on being paid arrear salary, the Company, without assigning any reason, verbally barged him on 19th of June 1950.

The employee prays for reinstatement and prays for the salary due for working period from November 1949 till 19th January 1950, and also month's pay in lieu of notice (Rs. 120).

The employer submitted a written statement alleging that the aforesaid workman was very negligent in the discharge of his duties and did not maintain the books of accounts in regular manner. The workman was called several times to complete the account up to date, but he never did so.

It is further alleged that the employee absented himself on and from January 1949 and never thereafter resumed duties. It is stated that the employee voluntarily resigned the service without any notice.

After the case had been gone into for some time, both the parties came to an amicable settlement, and it was decided that the employee should be reinstated but he would be content to get a consolidated sum of Rs. 250 from the employer.

The parties accordingly entered into an amicable agreement and a sum of Rs. 250 has been paid in my presence to the advocate of the employee, whereupon the matter was finally closed. I, therefore, hold that the dispute has been amicably settled by payment of Rs. 250 and no further dispute exists. The case is disposed of accordingly.

P. R. MUKHERJEE,
Judge, Industrial Tribunal.

13th March 1951.

By order of the Governor,
D. S. P. MUKHERJEE, Jt. Secy.

ORDER.

No. 1792Lab.—21st March 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 5865Lab., dated the 5th October 1950, the industrial dispute between Messrs. Calcutta Mosquito Destroyer Co., 30, Raj Kumar Mukherjee Road, Alambazar, 24-Parganas and their employees in connection with the cases of Sri Shyam Charan Dey 50, Jayanarain Banerjee Lane, Baranagore, 24-Parganas, and Sri Goutam Charan Bairagi, 34, Raj Kumar Mukherjee Road, Taltalabagan, Alambazar, 24-Parganas, was referred for adjudication to Sri P. R. Mukherjee, District Judge;

And whereas the said Sri P. R. Mukherjee, District Judge, has submitted to the State Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of reference No. 5865Lab., dated the 5th October 1950, of Government of West Bengal, Labour Department, and in the matter of an industrial dispute between Messrs. Calcutta Mosquito Destroyer Co., 30, Raj Kumar Mukherjee Road, Alambazar, 24-Parganas, their employees in connection with the cases of Sri Shyam Charan Dey 50, Jayanarain Banerjee Lane, Baranagore, 24-Parganas, and Sri Goutam Charan Bairagi, 34, Raj Kumar Mukherjee Road, Taltalabagan, Alambazar, 24-Parganas.

PRESENT :

SRI P. R. MUKHERJEE, *Judge, Industrial Tribunal*

For the employers : Sri Manik Chandra Dey, Proprietor

For the employees : None.

AWARD.

The dispute abovenamed was referred to this Tribunal and registered notices were served on the employees Sri Shyam Charan Dey and Sri Goutam Charan Bairagi inviting them to submit their statements. If appropriate notices were duly served and both the workers appeared in person on November 1950, but they did not submit any statement. Therefore it appears that the Tribunal issued several more notices inviting them to submit their written statements. But even after several reminders none of them appeared and filed any written statement. The proprietor Sri Manik Chandra Dey was present to receive the statement, if filed.

Inasmuch as none of the employees submitted their written statements several reminders spreading over a period of four months. I presume that they have no intention to prosecute this application. I believe that there is no dispute to be settled. I, therefore, make an award that the case be disposed of without adjudication.

P. R. MUKHERJEE,

Judge, Industrial Tribunal

The 14th March 1951.

By order of the Governor
D. S. P. MUKHERJEE, J.

ORDER.

No. 1797Lab.—21st March 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 5521Lab., dated the 25th September 1950, read with its corrigenda Nos. 6892Lab., dated the 29th November 1950, and 947Lab., dated the 13th January 1951, the industrial disputes that existed or were apprehended in the Jute Textile Industry in West Bengal between the Jute Mills mentioned in the list attached with the said order, dated the 25th September 1950, read with the said corrigendum, dated the 13th January 1951, and represented by the Indian Jute Mills' Association, Royal Exchange, Calcutta, and their workmen represented by the Trade Unions mentioned in the said order, dated the 25th September 1950, read with the said corrigendum, dated the 29th November 1950, regarding the matters specified in the schedule to the said order, dated the 25th September 1950, were referred for adjudication to an Industrial Tribunal consisting of Sri S. N. Modak, I.C.S. (Retd.), as Chairman and Sri P. R. Mukherji and Sri M. C. Banerji, District Judges, as members;

And whereas during the pendency of proceedings before the said Tribunal, Sri Jibandhan Ganguly, claiming to have been a workman employed by Fort Gloster Jute Mills which are two, being items 1 and 2 under the head "Howrah" of the said list, made a complaint in writing before the said Tribunal alleging that the said Company had altered, to the prejudice of the said workman, the conditions of service applicable to him immediately before the said proceedings;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Tribunal has adjudicated upon the said complaint and submitted its award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

the matter of a complaint under section 33A of the Industrial Disputes Act made by one Jibandhan Ganguly against Fort Gloster Jute Mills in connection with Government of West Bengal, Department of Labour, order No. 5521Lab., dated the 25th September 1950, referring certain industrial disputes between 88 Jute Mills in West Bengal including Fort Gloster Jute Mills and their workmen.

AWARD.

This case, which has been registered as case No. 53 of 1950 under section of the Industrial Disputes Act, arises out of a petition of complaint

under section 33A of the Act presented on 18th December 1950 by the petitioner Jibandhan Ganguly who claims to have been a workman employed by Fort Gloster Jute Mills which are two (Nos. 1 and 2 under Howrah district in the list) of the 86 Jute Mills in West Bengal which are involved in industrial disputes between such Jute Mills and their workmen, as referred for adjudication by this Tribunal by Government of West Bengal, Department of Labour, order No. 5521Lab., dated the 25th September 1950. The original adjudication proceedings which commenced on 25th September 1950 are still pending before this Tribunal. The allegations made by the complainant in his petition are briefly on the following lines. He was discharged from service on 7th November 1950 during the pendency of the original adjudication proceedings before this Tribunal, and no permission of the Tribunal was obtained by the employers in that behalf. The discharge was ordered on the basis of charges of misappropriation, negligence, etc. laid against the complainant. The complainant was an employee of the Fort Gloster Jute Mills. But the employers wrongfully asserted that his services were under the zemindary estate department of Fort Gloster Jute Manufacturing Co., Ltd. According to the complainant there was no justification for the discharge and the employers contravened the provision of section 33 of the Industrial Disputes Act inasmuch as they did not obtain the permission of the Tribunal in respect of the discharge which took place during the pendency of the original adjudication proceedings. The written statement in reply has been filed by Fort Gloster Jute Manufacturing Co. Ltd., which runs the Fort Gloster Jute Mills. The case sought to be made out by the Company is that Jibandhan Ganguly was a law clerk employed under the zemindary estate department of the Company, and his services had nothing to do with the Fort Gloster Jute Mills, and no disputes between the zemindary estate department of the Company and its employees have been referred for adjudication by this Tribunal by the order of reference mentioned above, no such adjudication proceedings were pending and there was no contravention of any provision of section 33 of the Industrial Disputes Act and consequently the petition of complaint under section 33A of the Act is not maintainable, and the petition should accordingly be rejected.

2. The Tribunal decided to go into the preliminary point of maintainability of the petition of complaint before examining the facts and circumstances. Two witnesses, viz., the Land Officer in charge of the zemindary estate department of the Company and the Chief Labour Officer of the Managing Agents, were examined on behalf of the Company, and both sides put in a number of documents. The order of reference as per order No. 5521Lab., dated 25th September 1950, makes it perfectly clear that the industrial disputes referred for adjudication are between 86 specified Jute Mills as such and their workmen. This order of reference never intended to refer for adjudication any dispute in connection with such undertakings of the Companies as cannot be said to be intrinsically connected with the Jute Mills as such. The question is whether any industrial disputes between the employees of the type of the complainant Jibandhan Ganguly and the employers were referred for adjudication at all by the order of reference. In other words, the question is whether it can be said under the particular circumstances that Jibandhan Ganguly was an employee of any of the Fort Gloster Jute Mills as such. The Company's case is that he was not such an employee, and he was an employee of the zemindary estate department of the Company as distinguished from the Jute Mills. On the other hand, the complainant's case is that although he was employed for the purpose of the zemindary estate department, the functions of that department and those of the Mills were interconnected in such a manner that there was no means of distinguishing between employment under the estate department

hat under the Mills, and his services were utilised at least in part for purpose of the Mills proper, and that being the position he was recognised employee of the Mills and the Tribunal should come to a finding on basis.

The acquittance roll shows that the complainant Jibandhan Ganguly employed as a law clerk under the estate department and was paid his as such. In his reply to the charges laid against him, he describes self as law clerk of the estate department. It is true that some portions of cash abstract register indicate that some of the medical staff, labour are staff, etc., who would ordinarily be paid by the Jute Mill concerned, are paid their wages from the estate department. The same cash abstract register shows that the law clerk's wages were paid from the estate department. From the materials placed at our disposal we find that in certain respects the mill department and the estate department have been interconnected. These elements of interconnection, however, appear to have arisen from the particular circumstances of the zemindary estate department the mill department being run side by side, the superior managing authorities being the same. In spite of these aspects of interconnection, we are not satisfied on the evidence that the estate department is distinguishable from the mill department. The mere fact that some of the medical staff, labour welfare staff, etc., were being paid from the estate department does not necessarily detract from the position that the complainant law clerk was an employee of the estate department, and was paid his wages by that department and not by the mill department. From the evidence of P. W. 2, the Chief Labour Officer, we gather that the names of employees of the estate department, including the present complainant, were not included in the voters' lists of the Works Committees appertaining to the Fort Gloster Jute Mills, and we consider that this circumstance is significant, in so far as it indicates that employees of the estate department like the present complainant had nothing whatever to do with the Jute Mills. The mere fact that the services of the present complainant were lent by the estate department on certain isolated occasions for the purpose of carrying on certain litigations in connection with the Jute Mills does not detract from the position that he was an employee of the zemindary estate department. Whatever might be the position regarding his status of employment during the period of loan taken for the purpose of the Mills, there is no difficulty in coming to the conclusion that the complainant was an employee of the zemindary estate department which paid his wages. It is true that a service record and an employment book were issued in respect of the present complainant on the same lines as would be applicable to Jute Mill employees. It is, however, to be noted that on these documents the official stamp of the estate department was put, and it is probable that these books were issued in respect of an employee of the estate department merely for the purpose of imitating the system applicable to the Jute Mills, and we consider that this circumstance by itself does not indicate anything. As regards the "Workers' Provident Fund Institution which accepts mill workers and estate department employees as members, we are satisfied that the action of the Provident Fund Institution does not by itself indicate either way. Similarly we are not satisfied that the *parchas* which were filled on behalf of the complainant necessarily help to establish a position of employment under the Jute Mills. In the light of all the facts and circumstances we find that although there are certain elements of interconnection between the zemindary estate department and the Jute Mills there is no difficulty in coming to the conclusion that the complainant Jibandhan Ganguly was essentially an employee of the zemindary estate department as a law clerk and he could not be said to be a workman employed by the Jute Mills. In that view of the matter no industrial dispute

between any of the 86 Jute Mills covered by the order of reference on one hand and Jibandhan Ganguly on the other was pending for adjudication by this Tribunal at any time. We hold therefore that by discharging complainant on 7th November 1950, the Company did not contravene provision of section 33 of the Industrial Disputes Act, and consequently present petition of complaint under section 33A of the Industrial Disputes Act is not maintainable. The petition therefore fails on the preliminary ground and is rejected. We make our award accordingly. Under particular circumstances of the case, we make no order as to costs.

NOTIFICATION.

1605 Lab.—13th March 1951.—In exercise of the power conferred on him by the West Bengal Maternity Benefit (Tea Estates) Act, 1948 (LIII of 1948), the Governor is pleased to make the following rules, the having been previously published as required under sub-section (1) of said section:—

Rules.

Short title.—These rules may be called the West Bengal Maternity Benefit (Tea Estates) Rules, 1951.

Definitions.—In these rules—

“the Act” means the West Bengal Maternity Benefit (Tea Estates) Act, 1948;

“form” means a form appended to these rules; and

“section” means a section of the Act;

“Inspector of Factories” and “Chief Inspector of Factories” have the same meanings, respectively, as in the Factories Act, 1948 (LXIII of 1948).

Muster roll.—The employer of every factory or plantation in which are employed shall prepare and maintain in English and according to the English calendar a muster roll in Form No. A and shall enter the particulars prescribed therein in respect of all women employed in the plantation from whom notice of confinement is received under section 8. All entries in the muster roll shall be made and maintained up-to-date and it shall always be available in the factory for examination by an Inspector of Factories. The employer shall enter in the muster roll such other particulars as may be required for the purposes of the Act. The muster roll shall be preserved for a period of three years from the date of the last entry therein.

Notice of confinement.—The notice required under sub-section (1) of section 8 and given in writing shall be in Form No. B.

Certificate.—A certificate referred to in sub-section (1) of section 6 shall be in Form C.

Inspections.—The Chief Inspector of Factories shall be responsible for the administration of the Act and every Inspector of Factories subordinate to him shall be responsible to him for the due discharge of such functions under the Act or these rules as may be assigned by him to the Inspector. The Inspector shall discharge the said functions within such limits in respect of such factories or plantations as may be specified by the Chief Inspector.

Powers of Inspector.—An Inspector may examine the muster roll maintained under rule 3 and may make such enquiries and require the production of such papers or documents as he may consider necessary for the purpose of ascertaining whether the provisions of the Act and of these rules are properly carried out in the factory or plantation, or not;

and that he shall not require an employer to answer any question or produce any evidence tending to incriminate himself.

8. Method of payment.—(1) When, under section 5, Maternity Benefit is paid partly in cash and partly in kind, the amount to be paid in cash shall not be less than two-thirds of the total amount payable.

(2) Receipts for payment in cash and kind shall be taken.

9. Medical Authority.—In each district the Civil Surgeon of the district shall be the medical authority for the whole of the district for purposes of sub-section (3) of section 6.

10. Appeals.—(1) An appeal to the Labour Commissioner against decision of the Inspector of Factories under sub-section (b) of section 14 shall be presented in the form of a memorandum setting forth relevant facts of the case along with a certified copy of the order appealed against duly signed by the appellant or, on his behalf by a duly authorized agent or legal practitioner. The Labour Commissioner may call for further information or require the production of any document which he deems necessary for the disposal of an appeal before him.

(2) Every memorandum of appeal referred to in sub-rule (1) shall have a court-fee stamp of twelve annas only.

11. Return.—The manager of every factory or plantation in which women are employed shall furnish to the Chief Inspector of Factories or the latter so directs, to the Inspector of Factories within whose jurisdiction the factory is situated, by the 15th January in each year, a return in Form D for the previous year ending on the 31st December.

12. Records.—All notices, orders, receipts, certificates and documents issued in pursuance of the Act and these rules shall be preserved for a period of two years.

13. Abstract.—The abstract of the provisions of the Act and the rules referred to in section 17 shall be in Form E. It shall be exhibited in the local vernaculars under section 17 and a copy of the abstract in English shall be also posted in a glazed frame in some conspicuous place in the factory or plantation by the employer.

14. Obstruction.—(1) No person shall wilfully obstruct an Inspector of Factories or the Chief Inspector of Factories in the exercise of any power under the Act or these rules, or fail to produce on demand by an Inspector of Factories or the Chief Inspector of Factories the muster roll or notices, orders, receipts, certificates or other documents in his custody maintained or kept in pursuance of the Act or of any of these rules in connection with any factory or plantation.

(2) No person shall wilfully delay or refuse to produce any document or evidence called for by the Labour Commissioner, or disregard any summons to appear before him, in connection with any appeal preferred to him under the Act.

15. Penalties.—Any person who contravenes any of the provisions of these rules 8, 11, 13 or 14 shall, on conviction, be punishable with fine which may extend to Re. 50.

**Abstract of the West Bengal Maternity Benefit (Tea Estates) Act, 1951
rules framed thereunder.**

(See rule 13.)

1. Under the West Bengal Maternity Benefit (Tea Estates) Act every woman employed in a factory or plantation, if she has worked for one hundred and fifty days in the twelve months immediately preceding the expected date of her delivery, is entitled to maternity benefit at the rate of rupees five and annas four per week for six weeks immediately preceding and six weeks immediately following the date of child birth.

2. Every pregnant woman should give notice to the employer of her expectation of confinement within one month and a half. The notice may be given either orally in person, or in writing in Form B appended to the West Bengal Maternity Benefit (Tea Estates) Rules, 1951.

3. Maternity benefit is payable to the woman entitled to receive it. If she dies, but her child survives, the benefit due is payable to the person who takes care of the child. If both the woman and the child die, the benefit due is payable to the woman's nominee or her next-of-kin to be decided by the employer.

4. A woman must not work in a factory during the period for which she receives maternity benefit. Failure to adhere to this will render the woman and employer employing her liable to prosecution.

Provided that on the certificate of a medical practitioner a woman may undertake light work during ante-natal period in the factory or plantation of the employer for a certain period to be fixed by the medical practitioner for which she shall be paid at the prevailing rate for such work in addition to the maternity benefits to which she is entitled.

5. An employer may not dismiss a woman during the period for which she is entitled to be absent from work, and if dismissed without just cause within six months, before delivery, she shall still be entitled to maternity benefit.

6. Payments against claims for maternity benefit may be made in instalments, up to the extent of one-third of the total amount payable, in kind and manner to be decided by the employer.

7. Every employer of a factory or plantation in which women are employed must prepare and maintain in English and according to the British calendar a muster roll in Form A appended to the West Bengal Maternity Benefit (Tea Estates) Rules, 1951. All entries in the muster roll shall be made in ink and maintained up-to-date and it shall always be available in the factory or plantation for examination by an Inspector of Factories.

8. The manager of every factory or plantation in which women are employed must submit to the Chief Inspector of Factories or, if he is not so directed, to the Inspector of Factories within whose jurisdiction the factory or plantation is situate, by the 15th January in each year, a return in Form D appended to the West Bengal Maternity Benefit (Tea Estates) Rules, 1951, for the previous year ending on the 31st December.

DEPARTMENT OF IRRIGATION AND WATERWAYS

NOTIFICATIONS.

9-1.—21st March 1951.—The following draft rules and schedule of which, in exercise of the powers conferred by sections 78 and 99 of the Irrigation Act, 1876 (Bengal Act III of 1876), the Governor is to propose to make for the supply of water from the Banskhali in the of Bankura are hereby published for the information of persons to be affected thereby.

The draft rules and rates will be taken into consideration on or after April 1951. Any objection or suggestion with respect thereto received undersigned before that date will be considered:—

DRAFT RULES AND RATES.

Leases for a term of years.

The country served by the canals shall be mapped out into blocks convenient size in accordance with the features of the ground, natural arterial. So far as may be practicable, the blocks shall be separated drainage lines. This shall be done by the Subdivisional Canal Officer the guidance and control of the Divisional Canal Officer.

Each block determined as above shall be numbered and recorded its gross and irrigable areas in registers to be maintained by the Divisional Canal Officer. The blocks shall also be marked on maps to maintained by the same officer.

Leases for not more than six years may be granted for the whole or part of a block or for definite parts of a block under the following rules:—

- I Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently a separate lease may be granted for each part.
- II All leases within one block shall be so granted that they may expire on the same date.
- III No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

The Superintending Engineer shall fix from time to time the gross area and the limits of the canal within which, leases for a term of years may be granted.

Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any possibility of such leases being granted shall be kept in the Subdivisional Canal Office. These maps to be at a scale of 1 inch = 1 mile when such are available and elsewhere at scale of 1 inch = 2 miles.

The preliminary application for a lease for a term of years, either for a term of years or for a term of years, may be of an informal nature, but it must be in writing. It shall be presented and shall be received either at the Subdivisional or

Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated at once inform the Divisional Canal Officer giving such particulars as the officer may direct, and shall ask his formal approval to the lease to proceed with. On receipt of such approval the Subdivisional Canal Officer shall proceed to make the detailed assessment. The lands to be leased under lease shall be indicated on a copy of the map referred to in rule

7. The Subdivisional Canal Officer on receipt of the application shall depute an amin to prepare the khasra or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and khasra. Should the survey map and khasra not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the khasra he shall forward it to the Subdivisional Canal Officer who shall forward it to the Divisional Canal Officer for approval.

9. As soon as the khasra has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a khatian or a copy of the khasra, and shall have the form of application given as Appendix I to these rules, filled up and signed or marked by each of the applicants in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit for formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer in the presence of his Sectional Officer. The Divisional Canal Officer shall return the application to the Subdivisional Canal Officer with a copy of the permit for reference.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that some of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and the Subdivisional Canal Officer shall hold a local enquiry recording the statements of the persons who decline to sign and take into consideration his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease shall be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer may grant a lease when not less than 95 per cent. of the net irrigated area of the block has been signed for. In particular cases should it be decided to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require a covering lease before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No.

rules. This application shall be signed in the presence of the tahsildar or some other responsible officer nominated for the purpose by the Divisional Canal Officer. The signatures shall be those of the leading rators in the block in question and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

Applications for water to irrigate spring rice or other crops between 1st November and 15th June may be presented at the Subdivisional Office or to the Sectional Officer. They shall be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required shall be specified and the rate shall be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules shall be issued by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

No water shall be supplied to any lands except such as have been taken under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

Under the forms of irrigation lease in use, no specific supply of water is promised; but the undertaking is to give such a supply to each tenant as may be necessary for the lands leased. The supply shall be given, and shall be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

The Divisional Canal Officer may give the required supply by himself or should this be advisable for the efficient working of the canals may charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

The rates due for water supplied shall be collected by the Divisional Canal Officer or other officer in charge of the Revenue Division through his tahsildars and peons. All khatians or demand statements shall be submitted to the Divisional Canal Officer or other officer in charge of the Revenue Division after scrutiny in his office.

At the time of preparation of the khatian in the Subdivisional Office each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. The extract shall be furnished in such form as may from time to time be prescribed by the Subdivisional Canal Officer for the purpose.

Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. For the purposes of account of control over establishment, general administration, the Divisional Canal Officer or other officer in charge of the Revenue Division is in the position of an Executive Engineer in charge of a Division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Public Debt Recovery Act, 1913 (Bengal Act III of 1913), the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water.

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the B. I. Act, 1876 (Ben. Act III of 1876), proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use of water shall be made by the Subdivisional Canal Officer or his subordinates. The parties whom it is proposed to assess shall be named in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional Canal Officer or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding thereon, give his reasons for or against assessment, both as regards the facts and as regards the law, and he shall determine the rate to be charged subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment paper prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or assessment shall be sent to the officer in charge of the Revenue Division, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the B. I. Act, 1876 (Ben. Act III of 1876), shall be computed from the date on which the statement of the charge may be furnished to the person assessed, and the date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use of water or waste of water have occurred through the act or neglect of a Canal Officer or a subordinate officer employed on the canal. During the rice season, the passing on of surplus water from leased to unleased land is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Offices.

Complaints and applications received by a Divisional Canal Officer shall be transferred to his Subdivisional Canal Officer for disposal at his discretion.

Any such complaints or applications, if presented to the Subdivisional Canal Officer or to his staff, shall be returned endorsed with instructions to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

55. Complaints or applications with respect to corrections of the assessment with respect to the actions of the amins in assessing and with respect to the actions of the tahsildars and other staff employed in collections, shall be referred at the office of the Divisional Canal Officer or other officer in charge of the Revenue Division.

56. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and actions shall be recorded in registers to be kept for that purpose.

57. The officer receiving the complaint or application shall either make personal enquiry into the matter or he shall nominate in writing some suitable person to hold the enquiry.

58. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be computed from the date on which the copy of the order received by the person.

59. When an appeal to the Collector is from the order of a Subdivisional Officer, the proceedings shall be called for through the Divisional Officer, who may record on them such remarks as he may think fit, provided that he does not thereby detain the proceedings.

60. In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of rates be suspended till the appeal is heard.

61. The Divisional Canal Officer may revise the proceedings of his Divisional Canal Officers and the Superintending Engineer may call for and revise the proceedings of all officers under his control.

Remissions and alterations of demand.

62. Whenever the crop on land entitled to a supply of water suffers injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be granted by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than fifteen days before the sowing of the crop.

63. On the occasion of lands being brought under a lease for a term of years the Divisional Canal Officer may remit the rates for the first season on such lands which from the nature of the cultivation then obtaining, or for other causes, have not, in that season, derived any benefit from the use of canal water.

64. Should the crop on lands under lease for a term of years suffer injury from excess of water due to deficient drainage, the Divisional Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied fifteen days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Officer.

35. Revisions of the assessment required in consequence of inaccuracies of entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by change of the occupation of lands shall be made under the orders of the Divisional Canal Officer or other officer in charge of the Revenue Division, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made, without the concurrence of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause shall be allowed under the special orders of the State Government.

Irrecoverable demands.

37. The Superintending Engineer may sanction the writing-off of demands which are reported, after due enquiry by the Divisional Canal Officer or other officer in charge of the Revenue Division, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the officer in charge of the Revenue Division shall, with concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

- (i) In the preparation of applications for leases,
- (ii) In the measurement of irrigated lands,
- (iii) In recording the names of the occupiers of the holdings,
- (iv) In receiving demand statements and distributing to the cultivators the individual notices of assessment,
- (v) In attending, when required, at enquiries into complaints,
- (vi) In reporting to the Circle Officer any changes in the occupants of lands under lease, and
- (vii) In assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own cultivation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer or other officer in charge of the Revenue Division may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in this section has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

1. The Divisional Canal Officer shall maintain in his office a register showing a record of the names of all representatives and of the areas of irrigation allowed to each.

2. Applicants for season leases shall be required to nominate one of number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases.

3. Should it be proved, after due enquiry, that the supply of water to any leased area is habitually wasted or used for the irrigation of land not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

4. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realising the water-rates, until arrears have been paid.

5. The Superintending Engineer may further suspend, or altogether cancel, any lease for a term of not more than 12 months on the 1st June of any year water-rates to the extent of half the amount due for one year are in arrears. Previous notice of intention to put the rule in force shall be given not later than the 15th April preceding.

Miscellaneous.

6. Tanks may be supplied with canal-water without charge, when the water can be made available without injury to the cultivation dependent on it, under the following conditions:—

- (a) That the water is to be exclusively used for domestic purposes, or for watering cattle;
- (b) That a channel exists through which water can pass without waste;
- (c) That the water shall only be supplied on the written order of the Subdivisional Canal Officer;
- (d) That any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water; and
- (e) That the supply of water may be stopped at any time if it is found that it is being misused.

Except when a public right-of-way exists, no person shall, without permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule, shall be proceeded against under clause (9) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

47. The use of any part of the banks or berms of any canal, or work which is part of the canal system, or flood embankment which is subject to the provisions of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), as a place for answering the calls of nature, is prohibited. Any person who, after due warning, commits a breach of this rule shall be proceeded against under clause (9) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

48. Should water be required for purposes other than irrigation be supplied, when available, at a rate of two rupees per 10,000 cubic feet of water.

49. No officer employed on the canals, unless especially exempted by the State Government from the operation of this rule, shall have any say in the distribution of water from any of the canals or purchase or sale of any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

No. 81.—21st March 1951.—The following draft rules and schedule of which, in exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor has pleased to propose to make for the supply of water from the catchment the Dharfari khal together with the khal itself measuring 1.75 square miles west of Rajur Bund in the district of Midnapore are hereby published for the information of persons likely to be affected thereby.

2 The draft rules and rates will be taken into consideration on or after the 1st April 1951. Any objection or suggestion with respect thereto received by the undersigned before that date will be considered:—

DRAFT RULES AND RATES.

Leases for a term of years.

1. The country served by the canals shall be mapped out into blocks convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2 Each block determined as above shall be numbered and recorded by its gross and irrigable areas in registers to be maintained by the Divisional Canal Officer. The blocks shall also be marked on maps so maintained by the same officer.

3 Leases for not more than six years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

- I Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently a separate lease may be granted for each part.
- II All leases within one block shall be so granted that they may expire on the same date.
- III No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any possibility of such leases being granted, shall be kept in the Subdivisional Canal Office. These maps to be at least 12" x 1 mile when such are available and elsewhere at scale of 24" x 1 mile.

The preliminary application for a lease for a term of years, either for the first time or for renewal, may be of an informal nature, but it must be in writing. It shall be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer, as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a

definite block or a definite part of a block, and that it can be irrigated, at once inform the Divisional Canal Officer giving such particulars as the officer may direct, and shall ask his formal approval to the lease proceeded with. On receipt of such approval the Subdivisional Canal Officer shall proceed to make the detailed assessment. The lands to be brought under lease shall be indicated on a copy of the map referred to in rule

7. The Subdivisional Canal Officer on receipt of the application depute an amin to prepare the khasra or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map or khasra. Should the survey map and khasra not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a measuring-rod.

8. When the amin has completed the khasra he shall forward it to the Subdivisional Canal Officer who shall forward it to the Divisional Canal Officer for approval.

9. As soon as the khasra has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a khatian or abstract of the khasra, and shall have the form of application given as Appendix 2 to these rules, filled up and signed or marked by each of the applicants in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit for formal approval of the lease shall be signed and issued in the form given as Appendix No. 111 to these rules. The permit shall be made over to a representative of the cultivators by the Subdivisional Canal Officer through his Sectional Officer. The Divisional Canal Officer shall return the application to the Subdivisional Canal Officer with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that some of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and the Subdivisional Canal Officer shall hold a local enquiry recording the statements of the persons who decline to sign, and record his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease should be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer may grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desired to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require it before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No. 112 to these rules. This application shall be signed in the presence of the tenant or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures shall be those of the cultivators in the block in question and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly made, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

12 Applications for water to irrigate spring rice or other crops between the 16th November and 15th June may be presented at the Subdivisional Canal Officer or to the Sectional Officer. They shall be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required shall be specified and the rate shall be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules shall be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13 The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14 No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15 Under the forms of irrigation lease in use, no specific supply of water is promised; but the undertaking is to give such a supply to each leasee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16 The Divisional Canal Officer may give the required supply by station, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17 The rates due for water supplied shall be collected by the Divisional Canal Officer or other officer in charge of the Revenue Division through his staff of tahsildars and peons. All khatians or demand statements shall be made good by the Divisional Canal Officer or other officer in charge of the Revenue Division after scrutiny in his office.

18 At the time of preparation of the khatian in the Subdivisional Canal Officer each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved by the Subdivisional Canal Officer for the purpose.

19 Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20 For the purposes of account of control over establishment, and of general administration, the Divisional Canal Officer or other officer in charge of the Revenue Division is in the position of an Executive Engineer in

charge of a Division, and is directly subordinate to the Superintendent Engineer. In regard to any proceedings taken under the Public Demands Recovery Act, 1913 (Bengal Act III of 1913), the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water.

21. Should it be necessary to take action under the provisions of section 79 and 80 of the B. I. Act, 1876 (Ben. Act III of 1876), proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use of the waste of water shall be made by the Subdivisional Canal Officer or his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional Canal Officer or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against assessment, both as regards the facts and as regards the law, and he shall determine the rate to be charged subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment paper prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand on him shall be sent to the officer in charge of the Revenue Division, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the B. I. Act, 1876 (Ben. Act III of 1876), shall be computed from the date on which the statement of the charge may be furnished to the person assessed, and this date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or waste of water have occurred through the act or neglect of a Canal Officer or a subordinate officer employed on the canal. During the irrigation season, the passing on of surplus water from leased to unleased lands is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Offices.

Complaints and applications received by a Divisional Canal Officer shall be transferred to his Subdivisional Canal Officer for disposal at his discretion.

Any such complaints or applications, if presented to the Sectional Canal Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall at once be forwarded to the Divisional or Subdivisional Canal Officer.

25. Complaints or applications with respect to corrections of the assessment with respect to the actions of the amins in assessing and with respect to the actions of the tahsildars and other staff employed in collections shall be received at the office of the Divisional Canal Officer or other officer in charge of the Revenue Division.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be computed from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer may revise the proceedings of his subdivisional Canal Officers and the Superintending Engineer may call for and revise the proceedings of all officers under his control.

Remissions and alterations of demand.

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than fifteen days before the sowing of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer may remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied not less than fifteen days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Divisional

Canal Officer or other officer in charge of the Revenue Division, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made, without the concurrence of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause shall be allowed under the special orders of the State Government.

Irrecoverable demands.

37. The Superintending Engineer may sanction the writing-off of demands which are reported, after due enquiry by the Divisional Canal Officer or other officer in charge of the Revenue Division, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the officer in charge of the Revenue Division shall, with concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

- (i) In the preparation of applications for leases,
- (ii) In the measurement of irrigated lands,
- (iii) In recording the names of the occupiers of the holdings,
- (iv) In receiving demand statements and distributing to the cultivators the individual notices of assessment,
- (v) In attending, when required, at enquiries into complaints,
- (vi) In reporting to the Circle Officer any changes in the occupancy of lands under lease, and
- (vii) In assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer or other officer in charge of the Revenue Division may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Divisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the area of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases.

Should it be proved, after due enquiry, that the supply of water to any leased area is habitually wasted or used for the irrigation of land not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June following. The order to cancel a lease shall be passed before the 1st April of the year in which it is to take effect.

The Superintending Engineer may give directions to the Divisional Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realising the water-rates, until arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of six months on the 1st June of any year water-rates to the extent of half the amount for one year are in arrears. Previous notice of intention to put the rule in force shall be given not later than the 15th April preceding.

Miscellaneous.

Tanks may be supplied with canal-water without charge, when the water can be made available without injury to the cultivation dependent on the tank, under the following conditions:—

- (a) That the water is to be exclusively used for domestic purposes, or for watering cattle;
- (b) That a channel exists through which water can pass without waste;
- (c) That the water shall only be supplied on the written order of the Subdivisional Canal Officer;
- (d) That any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water; and
- (e) That the supply of water may be stopped at any time if it is found that it is being misused.

Except when a public right-of-way exists, no person shall, without permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as have been provided for the purpose.

ORDERS.

1101-M.P.—27th March 1951.—In exercise of the powers conferred by section 51 of the Indian Electricity Act, 1910 (IX of 1910), the Governor is pleased to confer on the Calcutta Electric Supply Corporation, Limited, Licensees of Calcutta and the District Consolidated License, 1946, for the purpose of laying a underground cable in the private common area leading to premises Nos. 30, 31, 32 and Kheta Mohan Mitra Road, Salkia, Howrah, and the existing overhead distributor on Kheta Mohan Mitra Road, Salkia, Howrah, to premises at Kheta Mohan Mitra Road, situated within the area of supply of the said Corporation for repairing the same whenever necessary and the powers which the Telegraph Authority exercises under sections 10 to 19 of the Indian Telegraph Act 1885 (XIII of 1885), with respect to placing of telegraph lines and posts for the uses of a telegraph established or to be so established by the Central Government or to be so established by the State Government. The exercise of the powers hereby granted is subject to the provisions of the said Telegraph Act, 1885.

1102-M.P.—27th March 1951.—Whereas Messrs. Bose Manna and Company and Monoranjan Das entered into an agreement with the Calcutta Electric Supply Corporation, Limited, Licensees of Calcutta and District Consolidated License, 1946, for taking from the said Corporation the supply of energy at the premises of the

said Messrs. Bose Manna and Company and Monoranjan Das on Ichapur Road in the district of Howrah situated outside the area of supply of the said licensees;

And whereas the said premises are not situated within the area of supply of any other licensees;

Now, therefore, in exercise of the power conferred by section 27 of the Indian Electricity Act, 1910 (IX of 1910), the Governor is pleased to authorise the said licensees to supply energy to the said Messrs. Bose Manna and Company and Monoranjan Das on Ichapur Road in the district of Howrah for industrial purposes and to lay down and place electric supply lines for that purpose subject to the following conditions and restrictions, namely:—

The authority hereby conferred shall—

(a) remain in force until—

(i) the area of supply of the said licensees is extended so as to include within its limits, the said premises of Messrs. Bose Manna and Company and Monoranjan Das on Ichapur Road in the district of Howrah; or

(ii) a license is granted to any other person whose area of supply includes the said premises within its boundaries and such person is in a position to supply energy to the said premises, or

(iii) any transmission or distribution system for supplying energy outside such area of supply is established by or on behalf of the State Government,

enabling energy to be supplied at the said premises without such authority;

(b) be subject to the restrictions referred to in the third proviso to section 27 hereinbefore mentioned.

This authority is not in lieu of the permission required under the West Bengal Electricity (Emergency Powers) Act, 1948 (West Bengal Act XVII of 1948).

LABOUR DEPARTMENT

ORDER.

No. 1917Lab.—27th March 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 6122Lab., dated the 27th October 1950, the industrial dispute between the Shalimar Works, Ltd., 1, Foreshore Road, Shibpur, Howrah, and their workmen represented by the Shalimar Works Sramik Union, 4, Lokenath Chatterjee Bye Lane, Shibpur, Howrah, regarding the matters specified in the schedule thereto was referred for adjudication to Sri G. Palit, District Judge;

And whereas the said Sri G. Palit, District Judge, has submitted to the State Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of an industrial dispute existing between the Shallmar Works, Ltd., 1, Foreshore Road, Shibpore, Howrah, and their workmen represented by the Shalimar Works Sramik Union, 4, Lokenath Chatterjee Bye Lane, Shibpore, Howrah.

BEFORE THE INDUSTRIAL TRIBUNAL, WEST BENGAL.

PRESENT:

**SRI G. PALIT, District Judge,
Chairman of the Tribunal.**

Present for the Union: Sri D. L. Sen Gupta, Advocate.

Present for the Company: Dr. J. K. Bose, Labour Adviser, Indian Engineering Association.

1 By Government order No. 61221ab., dated the 27th October 1950 the aforesaid dispute has been referred to me for adjudication under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947).

2. The reference was received on the 30th October 1950. The Union filed written statement on the 20th November 1950. The Company filed its written objection on the 30th November 1950. The issues were not framed as they were contained in the Order of Reference. Two adjournments were given at the instance of both parties to enable them to reach an amicable settlement. The talks for compromise did not materialise. The case was taken up for hearing on the 5th February 1951. Argument was heard on 8th February 1951.

3. The issues contained in the schedule of the Order of Reference stand as follows:—

- (1) If the canteen should be directed to be reopened and if the workers are entitled to any allowances for the period the workers were deprived of the canteen facilities.
- (2) If certificates from outside medical practitioners are to be entertained for purpose of sick leave.
- (3) If workers are entitled to have half of dearness allowance also along with half pay for the period of sick leave.

AWARD.

Issue No. 3.

4. This issue is not pressed for adjudication. The Union in sub-paragraph 3 of paragraph III of its written statement has stated that it has accepted the Company's offer of payment of half dearness allowance along with half pay for the period of sick leave. It merely calls upon the Tribunal to record the same. In respect of this issue the Company also has corroborated this position. So I dispose of the issue accordingly without any further direction.

Issue No. 1.

5. It is the case of the Union that the Company employs about 900 workmen of whom 600 are engaged in work in the premises at 1, Foreshore Road, Shalimar, and 300 persons are employed on outdoor duties. So it is asked that under the Factories Act it is obligatory on the part of the Company to maintain the canteen in the Factory. But it is alleged that the Company without any previous notice suddenly closed the canteen on 3rd November 1949. The canteen had been in existence since 1948. It supplied tea in the morning, noon and evening at $\frac{1}{2}$ anna per cup. Puri, number, chop, ghugni, bunde, puntwa, etc., were provided at a price less than half of the market rate. The sudden closing of the canteen put the workers to a loss. So the Union urges for reopening the canteen as well as for compensation during the period the canteen has been suspended. The Company, on the other hand, contends that it was forced to close the doors of the canteen with effect from the 4th November 1949 because (1) its Labour Welfare Officer was assaulted by the workers in connection with the alleged grievances regarding the conducting of the canteen and (2) even if the canteen was kept open after the said assault, the workers had boycotted it. Regarding the claim for compensation, the Company's stand is that it is not liable. The said canteen was run on a non-profit basis. If it had to be suspended,

the blame must attach not to the Company but to the workers themselves. The Company is all along prepared to reopen the canteen provided that there will be an assurance in the shape of an undertaking forthcoming from the workers that there will not be any repetition of the unfortunate incident and also that the canteen should not be boycotted.

Coming to the evidence on record, I am satisfied that the Company must be acquitted of any blame in the matter. P. W. 1, Dharendra Kumar Maitra, the Assistant Secretary of the Union, deposes before me that he was not aware of any incident on the 3rd November 1949. He was, however, forced to admit that he was arrested by the police and that was in connection with an assault occurring in the factory. He tried evidently to suppress the incident of assault on the Labour Welfare Officer. Another witness on behalf of the Union, Kurirum Das, admits that the Company closed the canteen on the ground of an alleged assault. On the day in question there was a multitude of 100 people or so before the canteen. They placed their grievances before the Works Manager in the presence of the Labour Welfare Officer. He was arrested by the police as well as Dhiren Babu in connection with the alleged assault. O. P. W. No. 1, Santosh Kumar Das Gupta, the Labour Welfare Officer, has deposed before me. He has spoken about the assault on him. He says that he hurried to the spot on hearing from the clerk of the canteen and found a multitude shouting and clamouring. Mr. Pope, the Works Manager, discussed the matter with the workers and then left. Scarcely had he left than some people jumped upon him. He fell down and sustained an injury on the forehead. His shouts from the place brought back Mr. Pope who rescued him. He got first-aid in the hospital and lodged information with the Shillpore Police. His injury was bandaged and he was given an injection. So this evidence makes it absolutely clear that the Labour Welfare Officer Santosh Babu was assaulted in connection with the canteen management. In the circumstances, if the canteen is closed by the Company, I do not think that the Company can be blamed. Considering the matter further I find from the Exhibit D, the Cash Book, that the canteen was kept open on the 4th and 5th November 1949. On the 5th November there was a sale of Re. 1. On the previous day also the sale was almost negligible. It indicates anything, it shows that there is a good deal of truth in the Company's contention that the canteen was, to all intents and purposes boycotted by the workers. No body would expect that in these days, when food is scarce and even hard to get, the Company would keep the canteen door open and waste the commodities there.

Coming next to the grievances of the workers regarding the canteen management, I find that these grievances are not well grounded. P. W. 1, Dharendra Maitra, Assistant Secretary of the Union, has stated that their grievances were: (1) all the workers were not supplied with food from the canteen, (2) they did not get all sorts of food, and (3) they did not like to have some of the food which was supplied to them as being injurious to their system. It has transpired in evidence that the supply of food in the canteen was rationed. It was Government that had put limitation upon the supply and the Company had no choice in the matter. The evidence shows that the Company tried to procure those food. The second contention is frivolous. Nowadays hardly there is any canteen which can supply all sorts of food that one might desire. Regarding the bad quality of food stuff, I find that there was a Canteen Committee. The Exhibit 2 shows that the Canteen Committee answers the requirements of the West Bengal Factories Rules, 1949, as per rule No. 71, p. 37. There is no evidence that the grievances were put in writing and placed before the Company. It is also clear that the canteen was run on a non-profit basis as required under the Factories Act Rules. Rather the Company went out of its way to subsidize the canteen to a certain extent by making up any loss that it incurred in course of its management. Besides, even if there was any genuine and real grievance regarding the canteen, an assault on the Labour Welfare Officer is certainly not the way in which such grievance should be ventilated or brought home to the Company. So I am clearly of the opinion that the blame for the closure of the canteen rests entirely on the workers, not on the Company.

In the above view of things, the question of compensation payable by the Company to the workers does not arise. If such compensation is allowed, it will be setting premium on violence. The workers will take advantage of their own wrong. I can never countenance this. So I reject the claim for compensation. But I direct that the canteen should be opened within one month of the award coming into operation. The question of a written undertaking from the workers does not arise because such undertaking has hardly any real value.

Issue No. 2.

6. The workers have some grievance on the score that certificates from outside medical practitioners produced by them in support of their illness or to secure sick leave are vetoed by the Company's Doctor. They cannot

have any sick leave or leave on the ground of illness except upon the certificate of the Company's Doctor. But the certificate of such Doctor is difficult to get because he is a part-time Doctor and attends the Factory only for two hours or so in the day. I fail to see what objection the Company can possibly have to consider the certificates from competent medical practitioners in support of illness of the workers. The Company certainly is entitled to scrutinise the said certificates. The last word must always remain with the Management. But to insist on a certificate of the Company's Doctor in every case is bound to prove hard to the workers and in many cases it may amount to a denial of justice. The Company's Doctor, being a part-time Doctor, cannot possibly attend to every worker during his illness on sick bed. It is in evidence that the Company's Doctor does not attend patient workers beyond the municipal area or beyond 1 or 1½ miles from the Factory. There are many workers who live beyond these limits. It is not possible nor practicable for them during their illness or immediately after their recovery to come up to the Factory and get a certificate from the Company's Doctor. So the Company must relent the rigidity on this head. I give my direction practically on the lines recommended by the last Major Engineering Tribunal in its award published in the *Calcutta Gazette Extraordinary* on the 21st September 1950 at page 1245—"We direct that sick leave should ordinarily be granted on the basis of a medical certificate from a qualified medical practitioner, *vaid* or *hakim* in accordance with the Factories Rules, subject to the proviso that the Management will have the right to have the employee examined by their own medical officer or a medical practitioner nominated by them at their own expense." With the above direction which also conforms to the requirements of the Factories Rules, I dispose of this issue.

Before parting with the records I must point out that there is one rival Union which wanted to agitate these claims before the Tribunal. But as it was not mentioned in the Order of Reference the Tribunal did not go into the contention set up by it. The Tribunal does not think itself called upon to decide any contention which might exist between several Unions. All that it wants to record is that the members of the said Union might avoid being bound by this award. Nothing more than that in the present Tribunal.

Chairman of the Tribunal

NOTIFICATIONS.

Subject: Accord of formal sanction to pensions authorised for payment on the provisional recommendation of the sanctioning authority under article 918(1) of the Civil Service Regulations.

No. TM(PR)/238.—20th March 1951.—It has been decided by the Government of India that, when authority for the payment of pension is issued by the Audit Officer under the 2nd sentence of article 918(1) of the Civil Service Regulations on the provisional recommendations of the authority competent to sanction the pension, the payment authorised by the Audit Officer is only provisional and a formal sanction to the pension, has to be issued by the competent authority under article 919, Civil Service Regulations, in every case. Before a pension is finally sanctioned the authority should take into account the provisions of articles 470 and 920(1), Civil Service Regulations.

2. It has also been decided by the Comptroller and Auditor-General of India in consultation with the Government of India that in cases where a provisional authority for the payment of pension is issued a formal report should be issued by the Audit Officer to the sanctioning authority together with an intimation of the issue of the provisional pension payment order.

All heads of offices of the Government of India under the audit of this office are, therefore, requested that on receipt of a report on the admissibility of pension from this office, a formal sanction to the pension may be accorded by the sanctioning authority in every case.

Subject: Opening of a new Minor Head in Accounts.

No. TM/239.—27th March 1951.—All Treasury and Sub-Treasury Officers in West Bengal and the Manager, Reserve Bank of India, Calcutta, are hereby informed that a new Minor Head, viz., "Account between Vindhya Pradesh and West Bengal" may be opened in manuscript both in the Cash Account and the List of Payments in the Central Section to record transactions in respect of Vindhya Pradesh, the accounts of which have been taken over by the Comptroller and Auditor-General of India with effect from 1st December 1950.

[Comptroller and Auditor-General of India endorsement No. 159-AC/KW.1-States-50, dated 22nd February 1951 Dy. India 9361/T.M. 2825 filed in Ble.TM/9-38 of 1949-50—Vol. II.]

Subject: Deposit of Land Customs Duty—Procedure of.

No. TM/240.—27th March 1951.—It has been decided by the Collector of Central Excise and Land Customs, Calcutta, that the import and export land customs duty will be deposited in the treasuries in special application forms prescribed by the Government of India, Central Board of Revenue, for this purpose. All Treasury Officers in West Bengal and the Manager, Reserve Bank of India, Calcutta, are, accordingly, requested that deposits on this account tendered with special application forms, in quadruplicate, duly filled in, and the assessment order thereon signed by the Land Customs Officer concerned, may be accepted provisionally for credit to the Union Government account. Out of the four copies of forms so tendered and receipted, the original should be retained at the treasury, the duplicate and triplicate returned to the depositor, and the quadruplicate forwarded to the Chief Accounts Officer of Central Excise and Land Customs, Calcutta.

The above instructions will have effect from the 1st April 1951.

[Collector of Central Excise and Land Customs, Calcutta, Circular No. 4-L.C. of 1951, dated 19th February 1951. Dy. TM-2834 and also Dy. TM-2918.]

Subject: Import Licence fees—Deposit of.

No. TM/241.—27th March 1951.—It has been decided by the Government of India in partial relaxation of rule 95 of the Central Treasury Rules that monies in payment of Import Licence Fees may be deposited in the Government Treasury or the Reserve Bank of India without getting the chalans countersigned by the Officers of the Import Trade Control Department. The chalans should show particulars of the application for the grant of import licence, namely, description of goods and value applied for. All Treasury Officers in West Bengal and the Manager, Reserve Bank of India, Calcutta, are hereby advised that monies tendered by parties on this account with chalans in triplicate under the head "XLVI—Miscellaneous—Import Licence Fees" may be accepted for credit to the Union Government Account. The triplicate copy of the chalans should be sent to the Departmental Officer concerned as required under the aforesaid rule.

[Comptroller and Auditor-General's letter No. 559-Ac/21/50, dated 24th August 1950—Dy. India-4024-BK-562.]

Subject: Contingent expenditure on item which either a monetary or quantitative limit has been laid down—furnishing of certificate on the contingent bills by Drawing Officer.

No. TM/242.—30th March 1951.—It has been brought to the notice of the Government of India by the Comptroller and Auditor-General of India that the monetary or quantitative limits prescribed in respect of contingent items of expenditure in Appendix 8 to the General Financial Rules, Volume II, as modified in some cases by special delegations, have not generally been adhered to by various offices of the Government of India. It would be very difficult to watch in and the annual or monthly monetary or quantitative limits in question are not exceeded, treating them as special contingencies. The Government of India have, therefore, decided that these items need not all be treated as contingencies. Where Government consider any particular item of contingent expenditure mentioned in this Appendix is so important that the annual monetary limit prescribed for it should be enforced in audit, a special order will be issued declaring it to be an item of Special Contingencies. Except in these cases the annual or monthly monetary limits prescribed will be regarded as administrative restrictions to be watched by Drawing Officers, who should furnish a certificate on the contingent bills to the effect that the monetary or quantitative limits prescribed in the Government in respect of items of contingent expenditure included in the bills have not been exceeded. The correctness of the certificates will be verified by the Comptroller and Auditor-General of India in the audit. Where the monetary limit has been exceeded, the Drawing Officer cannot furnish a necessary certificate. In such cases, the sanction of the competent authority has to be obtained. Contingencies of this type will be treated as "special contingencies". To the extent to which limits have been imposed on the powers of Drawing Officers concerned for incurring expenditure on specified items of contingencies on each bill, they will be treated as scale-regulated contingencies and will be admitted in audit on certificates being furnished by the Drawing Officer on the bills.

2. All Drawing Officers of the Union Government under the audit control of this office are requested to see that necessary certificates are furnished in contingent bills with effect from 1st April 1951.

Calcutta Police Notifications

Calcutta, the 31st March 1951.

The Government of the State of West Bengal having directed me by its notified order No. 6788-P., dated the 16th October 1950, Schedule I, to exercise the powers conferred and the duties imposed on the State Government by section 23 of the West Bengal Security Act, 1950 (West Bengal Act XIX of 1950), now, therefore, by virtue of the said direction and in exercise of the power conferred by sub-section (1) of section 23 of the West Bengal Security Act, 1950, I make the following order for the purpose of preventing or suppressing subversive acts:—

Order.

Except with the previous permission of the Commissioner of Police, Calcutta—

- (1) No person shall use or operate in any street, square, public place or other open space in the area specified in the schedule hereto annexed any apparatus for amplifying the human voice, or any reproduction of the human voice, such as a megaphone or an electrically operated loud-speaker.
- (2) No person shall use, operate or drive in any street, square, public place or other open space in the area specified in the said schedule, any vehicle which carries or has attached to it any apparatus referred to in paragraph 1.
- (3) Nothing in this order shall apply to any apparatus or vehicle belonging to Government or to such organisations as may, from time to time, be specified by me in this behalf.

Schedule.

The town of Calcutta as defined in Calcutta Police Act, 1866, together with the suburbs of Calcutta as defined by notification under section 1 of the Calcutta Suburban Police Act, 1866

Calcutta, the 3rd April 1951

The following draft of amendments which, in exercise of the powers conferred by clause (b) of sub-section (1), read with sub-section (2) of section 62 of the Calcutta Police Act, 1866 (Bengal Act IV of 1866), and by clause (b) of sub-section (1) read with sub-section (2) of section 39 of the Calcutta Suburban Police Act, 1866 (Bengal Act II of 1866), and with the previous sanction of the State Government, the Commissioner of Police, Calcutta, proposes to make in the Rules for the Regulation of Traffic in Calcutta and Suburbs, published under Calcutta Police notification, dated the 13th January 1950, at pages 64-99, Part I of the Calcutta Gazette of the 19th January 1950, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 14th May 1951 and any objection or suggestion with respect thereto which may be received by the undersigned before that date, will be duly considered.

Draft amendments.

I. In clause (1) of paragraph 2 of the said notification containing the said rules, for the words "Fire apparatus belonging to the Calcutta Fire Brigade" substitute the words "Fire Brigade vehicles belonging to the West Bengal Fire Service".

II. In clause (4) of rule 22 of part I of the said rules, for the words "Fire apparatus belonging to the Calcutta Fire Brigade" substitute the words "Fire Brigade vehicles belonging to the West Bengal Fire Service".

Darjeeling.—No. M.1M-54/51.—30th March 1951.—In exercise of the power conferred by sub-section (5) of section 56 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), the Governor is pleased to extend the term of office of the Commissioners of the Darjeeling Municipality till the 26th February 1952, the special circumstances in which it has been thought fit to extend the said term of office being that the last general election of the Commissioners of the said municipality having been held in the year 1946-47, the next general election is, under sub-section (3) of section 24 of the said Act, required to be held in the year 1950-51, but such general election cannot be held at that time as it would be of no use to do so in view of the fact that the four-year term of office of the present Commissioners of the said municipality, prescribed by clause (a) of sub-section (7) of section 56 of the said Act, which commenced on the 25th February 1948, will not be completed until the 24th February 1952. According to the proviso to the said sub-section (3) of section 24, therefore, the next general election cannot be held after the year 1950-51, unless the term of office of the present Commissioners of the said municipality is extended beyond the 24th February 1952.

Calcutta.—No. M.1C-38/51(1).—31st March 1951.—The services of Sri A. Niyogi, I.A.S., are placed at the disposal of the Corporation of Calcutta for appointment as the 1st Deputy Executive Officer of the Corporation.

Calcutta.—No. M.2B-9/50.—22nd March 1951.—The following amendment made by the Corporation of Calcutta, under clause (7) of section 478 of the Calcutta Municipal Act, 1923 (Bengal Act III of 1923), in the bye-laws published under notification No. 85-M., dated the 6th January 1950, has been sanctioned by the Governor under sub-section (1) of section 482 of the said Act, and is hereby published as required by section 486 thereof:—

Amendment.

In the said notification, for Schedule A substitute the following:—

Schedule A.

The following fees shall be payable for licenses issued under Bye-laws 2 and 4 hereof and shall be payable in advance:—

	New Revised Rate.	Rs. a. p.
I. Scaffolding, platform, stand-place, stall, blind, shed, awning, or any other projection of any kind, building materials, earth or any other goods whatsoever referred to in the bye-laws framed under section 559 (18) to which a scale of charges according to area occupied is applicable	(i) Not exceeding 5 days per sq. ft. (ii) Over 5 days per month, or part thereof	0 0 6 0 2 0
II. Bales, wares, goods, merchandise, furniture, stools, benches, chairs, baskets, fruits, vegetables or any other articles whatsoever referred to in the aforesaid bye-laws to which a scale of charges according to the number of articles deposited is applicable	(i) Not exceeding 5 days per article. (ii) Over 5 days per month, or part thereof, per article.	0 0 6 0 2 0
III. Archway, gate or similar contrivances across the road or footpath.	Per structure per diem.	5 0 0
IV. Archway, gate or similar contrivances where advertisements are put up.	Per structure per diem.	25 0 0

[If projections or portions of projections referred to in (I) are more than 8 feet, half the ordinary fees shall be charged for.]

[If the five days limit referred to in (I) and is exceeded the excess period will be charged at the monthly rate.]

[If the structure referred to in (III) does cross the road-way, the fees shall be calculated as prescribed in (I).]

A. The fees in (I), (II) and (III), are licenses obtained beforehand.

B. If the license is not obtained before for (I), (II) and (III), double the ordinary shall be charged and no remission of fees shall be allowed in future.

C. If the area or number of articles is more than that specified in the license, the excess or additional articles shall be charged for at double the ordinary rates.

N.B.—It should be noted that in cases of temporary encroachments where articles are placed on the footpath or roadway preparatory removal and not left there longer than six hours the officers concerned must exercise a reasonable amount of discretion and no fee should be charged provided that no serious obstruction is caused.

This amendment will take effect retrospectively from the 1st April 1948.

No. L.S.-G.1A-4/51(I).—3rd April 1951.—In exercise of the power conferred by sub-section (b) of section 37 of the West Bengal Fire Service Act, 1950 (West Bengal Act XVIII of 1950), the Governor is pleased to make the following amendment in the notification No. L.S.-G.1A-11/50 dated the 20th April 1950, declaring the quantities that shall be deemed to be small quantities certain articles within the meaning of section 4 of the said Act:—

In the list appended to the said notification the second column under the heading "small quantities of the article", for the words figures "Any quantity not exceeding 25 maunds" against the entries "Resin", "Shellac", "Varnish" and "Linseed oil" in the first column under heading "Name of article" substitute the words and figures "Any quantity not exceeding 10 maunds".

No. L.S.-G.1A-4/51(II).—3rd April 1951.—In exercise of the power conferred by clause (b) of section 2 of the West Bengal Fire Service Act, 1950 (West Bengal Act XVIII of 1950), the Governor is pleased to specify the following articles which in his opinion are inflammable and be articles for the purpose of the said clause namely:—

Wool, paper, card board and pressed paper board.

Murshidabad.—No. L.S.-G.3E-13/50(II).—3rd April 1951.—In exercise of the power conferred by clause (b) of section 132 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), the Governor is pleased to direct that the District Magistrate, Murshidabad, shall exercise and perform in addition to his own duties all powers and duties of the Murshidabad District Board which has been superseded by resolution No. L.S.-G.3E-13/50(I), dated the 10th April 1951, during the period of such supersession.

By order of the Governor
A. ZAMAN, Jt. Secy.

RESOLUTION No. L.S.-G.3E-13/50(1).

Calcutta, the 10th April 1951.

Supersession of the Murshidabad District Board.

Affairs of the District Board of Murshidabad have been a matter of great concern to Government some time past. In October 1949, the Commissioner of the Presidency Division brought to the notice of Government that the District Board deliberately failed to comply with a statutory provision passed by him under section 35 of the Bengal Act, 1885, for transferring the Radharghat to Government and dealt with the case of District Engineer in a manner quite unbecoming to a responsible Local Authority of the District Board. The Divisional Commissioner further reported to Government that the members of the Board were in serious jeopardy and should be either superseded or re-constituted under section 131 of the Bengal Local Self-Government Act, 1885, for incompetence and persistent failure in the performance of statutory duties. Accordingly the District Magistrate, Murshidabad, was directed to make a thorough enquiry into the affairs of the District Board, including the case of District Engineer. The District Magistrate's report revealed many irregularities affecting the functioning of the District Board. Government were satisfied that the District Board of Murshidabad had not merely abused its powers but shown incompetence to perform the duties imposed on it by, or under, the law and accordingly Government order No. L.S.-G.3E-51/49, dated 12th July 1950, issued under section 131 of the Bengal Local Self-Government Act, the District Board was asked to show cause why it should be superseded for the reasons specified below:—

1. Sri Sachindran Nath Mukherji, District Engineer, Murshidabad, was placed under suspension on certain charges and although most of the charges appeared to be serious and were confirmed to have been established by the Enquiry Committee constituted by the Board, the District Board was re-constituted. Fresh charges were brought against the said District Engineer within a few months and though they appeared to be serious, a resolution was passed for the removal of the District Engineer. The manner in which the charges on the two occasions were dismissed indicated that the resolutions were passed only through sheer majority and there was no attempt to consider them on merit.

2. A jeep and a trailer belonging to the District Board were sold in auction for Rs. 515 and Rs. 70, respectively, to two parties. Although the sale proceeds were paid on the day of the auction, the amount was not deposited in the treasury at the same time and no action was taken against the responsible person for withholding the same.

3. The District Board jeep was without an insurance cover for nearly a year. It was claimed by the District Engineer that he gave a receipt of Rs. 70 to a representative of Bagla Insurance Company, but the latter had no connections with the issue of the receipt and for the District Engineer's help to the fraud. No attempt was made by the District Board to probe in the matter.

4. The District Board Budgets for 1947-48, 1948-49 and 1949-50 were adopted by the District Board on 23rd January 1947, 8th June 1948 and 15th January 1949, respectively, in utter contravention of the rule which requires the annual budget to be adopted by the 15th December of the previous year.

5. The District Engineer brought to the notice of the Chairman acts of gross dishonesty on the part of the Sub-Overseer, Kandi, in carrying out the work of the Bigram Dispensary Buildings.

No disciplinary action was taken against him. Similarly in May 1949 the District Engineer complained against the conduct of the acting Overseer, Sadar subdivision to the Chairman but the matter was treated with considerable indulgence.

(6) The lease of Digha and Kalu Khali Fishery which was made by the previous Board according to the normal practice, was cancelled by the present Board after a year. The fishery rights in some District Board tanks were leased for three years by a previous District Engineer in contravention of the term of the notice of auction, with the knowledge of the Chairman. But when the District Engineer, lately dismissed, pointed this out to the Chairman, he took no steps to rescind the auctions. It is difficult to understand why different principles were adopted by the Board on different occasions.

(7) The District Board illegally settled the fishery rights of the side lands of Radharghat-Kandi Road in 1948-49 after its transfer to the Works and Buildings Department.

(8) There were instances of sinking tubewells at premises belonging to members and employees of the District Board.

(9) There were cases of contractors not getting payment for approved works done in emergent circumstances, while payments were being made in the absence of allotments and estimates to contractors who are sons or relations of members of the District Board.

(10) The District Board deliberately ignored an order of the Divisional Commissioner for holding fresh auction for settlement of the Radharghat Ferry in 1949 and for making it over to the Works and Buildings Department after resumption of the ferry by Government.

2. After considering the explanations furnished by the District Board it was held that majority of the charges framed against the Board had been proved and that it should not be allowed to continue.

3. Before finally deciding the question of supersession of the Board Government considered whether it would be possible to reconstitute the Board by a fresh general election on the basis of the present electoral roll, prepared in 1947, which does not include female voters, though according to the present law females are also eligible to exercise their right of franchise in elections to District Boards.

4. Government are, however, advised that reconstitution of the District Board on the basis of the present electoral roll would not be valid and that legislation purporting to exclude female voters from the electoral roll would be bad in law. The public feeling in regard to the question of supersession and reconstitution of the Board was also ascertained and it was found that the consensus of opinion was that the Board should be superseded and that a general election should be held on fresh electoral roll.

5. In view of the circumstances stated above and after very careful consideration of the whole matter, Government have come to the conclusion that the District Board of Murshidabad has proved incompetent to perform and has made default in the performance of the duties imposed on it by or under the Bengal Local Self-Government Act, 1885, and that it has exceeded and abused its powers. In exercise of the power conferred by section 131 of the said Act, the Governor is accordingly pleased to supersede the Murshidabad District Board for the period from the date of publication of this resolution till the 31st March 1952.

6. ORDERED that this resolution be published in the Calcutta Gazette.

By order of the Governor,
A. ZAMAN, Jt. Secy.

ferred by section 2 of the Epidemic Diseases Act,
Act III of 1897), the Governor is pleased to
make the following temporary regulations for
prevention and control of small-pox, and for
isolation, isolation, observation and
treatment of persons suffering from, or suspect-
ing infected with, small-pox in the said
localities for a period of four months.

any regulations for the prevention and control of small-pox.

these regulations, unless there is any
preamble in the subject or context:—

Health Officer" means the Health Officer
municipality;

Sanitary Inspector" means a Sanitary
Inspector appointed by the municipality;

Small-pox" means any disease accom-
panied by eruption of vesicles or pustules;

Patient" means a person suffering from or
suspected of suffering from small-pox;

Medical practitioner" means any person
of the medical profession.

Notices.

When the Health Officer or a
Sanitary Inspector considers that the issue of a
notice under regulation 20 is likely to lead to such
spread of small-pox as might facilitate the spread
of the disease he may forthwith take such steps as
may be fit for carrying out the work, and
as soon as possible, issue a notice
concerned stating the reasons why
it has been carried out.

Any measure which the Health Officer or
Sanitary Inspector has, by a notice issued under
regulation 20, required to be carried out, he not
withstanding to his satisfaction within the time
specified in the notice the Health Officer or a
Sanitary Inspector shall be entitled to carry out
the same.

Cost and compensation.

All expenses incurred in carrying out
in pursuance of an order issued under
these regulations shall be paid by the municipality
except where the order directs a person
to do any work in relation to property in his
possession in which case the expenses shall be paid
by him.

That where the conditions, which led
to the issue of a Sanitary Inspector to pass
an order, are not attributable to any act or
omission of the person in possession of the property,
the municipality may pay to such person the
amount of the expenses incurred by him
in carrying out the order.

The municipality may recover all expenses
incurred by the Health Officer or a Sanitary
Inspector in carrying out the measure under
these regulations from the person or persons to whom
the order was originally issued.

The municipality shall pay adequate com-
pensation to any person who has sustained sub-
stantial loss or damage by reason of anything done
in pursuance of these regulations:

Provided that no person shall receive any com-
pensation for anything done or suffered under
these regulations, if he has failed to carry out
an order, issued under these regulations within
the time specified in the order and to the satisfac-
tion of the Health Officer or a Sanitary Inspector.

Location of disease.

6. When a case of small-pox occurs in a
house, the nearest male relative in attendance
upon the patient, or in the absence of any such
relative the occupier of the house, or if the
occupier be the patient, the senior male inmate
of the house other than patient of the house
shall within twenty-four hours of the onset of the
disease, give information regarding the occurrence
of such case either personally or in writing to the
nearest Sanitary Inspector. When the inmates
of the house are all females the medical attendant
or the senior male inmate of the nearest house
shall give the required information.

7. (1) Every medical practitioner called in to
attend upon any case of small-pox shall forth-
with give notice of the case by a special messenger
to the Health Officer or a Sanitary Inspector and
the cost of such messenger in each case shall be
defrayed by the municipality.

(2) The doctor-in-charge of a hospital or a
dispensary within the municipality shall forthwith
give notice of any case of small-pox brought to
such hospital or dispensary for treatment to a
Sanitary Inspector or to the Health Officer by
a special messenger and the cost of such messenger
in each case shall be defrayed by the municipality.

8. Registrars of births and deaths shall supply
to the Health Officer or a Sanitary Inspector such
periodical returns of cases of small-pox as he may
from time to time call upon them to furnish.

9. The Health Officer or a Sanitary Inspector
may examine any person who is or suspected to
be, suffering from small-pox or who, in his
opinion, may be infected with or likely to spread
small-pox.

Isolation of patients

10. When the Health Officer or a Sanitary
Inspector considers that the isolation of any
patient is a precaution necessary for the protec-
tion of the neighbouring population, he shall
order the patient to observe isolation and may
order the nearest relative in attendance on the
patient, or the occupier of the house in which the
patient is staying to arrange for the isolation of
the patient in such a manner and for such a time
as may be approved by the Health Officer or a
Sanitary Inspector.

He shall not direct the patient to be removed
from the house unless it is, in his opinion, impos-
sible to make proper arrangements for his isolation
therein.

11. The Health Officer or a Sanitary Inspector
may order that any person, who has been in
contact with a person found to be suffering from
small-pox, shall be segregated for a period not
exceeding a fortnight in a manner and in a place
to be approved by the Health Officer or a Sanitary
Inspector.

12. The Health Officer or a Sanitary Inspector
may order that any person who has been in
contact with a person found to be suffering from
small-pox shall be vaccinated or re-vaccinated
within a time to be specified in the order.

13. No person shall enter any place wherein
a patient is isolated under regulation 10 without
the permission of the Health Officer or a Sanitary
Inspector.

14. When a patient has been removed from a house for isolation under regulation 10, the municipality shall provide for him free of charge a suitable place, with necessary attendants, diet, etc.

15. No person, who is or has been suffering from small-pox, shall leave the place where he has been staying until he has received from the Health Officer or a Sanitary Inspector written permission to do so.

16. No person while suffering from evident symptoms of small-pox or in the convalescent state of the disease with scabs of pocks on his body shall expose himself in any street, road, public place, shop, bazar or any place used in common by persons other than members of the family or household to which such infected person belongs or shall move from place to place unless he is proceeding to a hospital for admission and treatment.

17. The Health Officer or a Sanitary Inspector may, during the prevalence of any outbreak of small-pox, order that any bazar, shop, or other public place shall remain closed for such time as may appear to him to be necessary and may forbid the holding of any fair, mela or other gathering to which people from several villages commonly or periodically resort.

Miscellaneous.

18. The Health Officer or a Sanitary Inspector may require any person to allow to be carried out by such agency and within such time as may be specified in the order, such measures for the disinfection of any premises in the occupation of such person or for the disinfection or destruction of any of his personal effects, as the said officer or inspector may consider necessary.

19. The Health Officer or a Sanitary Inspector may direct the owner or occupier of any premises to take steps to have vaccinated or re-vaccinated within a time to be specified in the order any person residing on such premises and under the control of such owner or occupier if the Health Officer or a Sanitary Inspector is of opinion that such person has been in contact with any one suffering from small-pox.

20. The Health Officer or a Sanitary Inspector may forbid any person who has been a patient or who has to his knowledge been in contact with a patient to act as a vendor of any article for such period as may be specified in the order.

21. No person shall sell any article which has been in contact with a patient until it has been disinfected to the satisfaction of the Health Officer or a Sanitary Inspector.

22. The Health Officer or a Sanitary Inspector may issue general orders that by a specified date certain sanitary precautions of a simple nature, such as lime-washing of house, clearing of latrines or the removal of filth or rubbish shall be carried out to his satisfaction.

23. The Health Officer or a Sanitary Inspector may prohibit persons from retaining or selling clothes taken from the bodies of persons who have died of small-pox and may cause any such clothes to be destroyed.

24. No person shall carry or permit to be carried in a public conveyance a patient except in the case where a patient is carried with proper precautions to a hospital.

25. No person shall expose in any street, shop, bazar or any public place any clothing, bedding or other article which has been in contact with a patient or shall cause or suffer such article to be carried in any public conveyance, but nothing in

this regulation shall apply to a person who transmits with proper precautions, and without spreading the disease any such article, or to a person who has the same disinfected.

26. No person shall carry or permit to be carried in a public conveyance the dead body of any person who has died of small-pox without the previous written permission of the Health Officer or the Sanitary Inspector, and without proper precautions against spreading the disease.

27. No person shall, without the permission of the Health Officer or a Sanitary Inspector, dispose of any corpse except by burial.

28. The Health Officer or a Sanitary Inspector may approve burning or burial grounds by order direct either generally or specially in respect to any specified area, that corpse shall not be burned or buried at places other than so approved by him.

29. Any person burning or causing to be burnt any corpse shall cause the same to be completely reduced to ashes, and shall cause the clothes or other articles from such corpse to be reduced to ashes.

30. The Health Officer or a Sanitary Inspector may direct that no person shall bury or be buried any corpse, which in the opinion of the Health Officer, is likely to spread small-pox, in a grave, not constructed of a masonry of 6 feet deep.

31. The Health Officer or a Sanitary Inspector may order that no *dome* or other person employed for the disposal of corpses shall withdraw from his duties without the permission of the Health Officer or a Sanitary Inspector unless such *dome* or other person has given notice at least one month previously of his intention to withdraw.

32. The Health Officer or a Sanitary Inspector may through any person authorized by him or inspector in that behalf so authorized forbid any corpse which in the opinion of the Health Officer or inspector is infected with or is likely to spread small-pox, unless the relatives or friends of the deceased person satisfy him that they are prepared and able to dispose of the corpse in a manner which will prevent the spread of the disease.

33. (1) The Health Officer or a Sanitary Inspector may require any person who appears to be acquainted with facts in connection with a case or suspected case of small-pox to appear before him at a time to be stated in the order at any place not more than one mile from the place where such person resides or is at the time when the order is issued, and such person shall appear as so required.

(2) When the person summoned to appear under paragraph (1) is a female who, by the custom of the country, does not appear in public, suitable precaution shall be taken to respect said custom.

34. (1) The Health Officer or a Sanitary Inspector may examine orally any person who appears to be acquainted with the facts and circumstances of a case or suspected case of small-pox.

(2) When the person to be examined under paragraph (1) is a female who, by the custom of the country, does not appear in public, suitable precaution shall be taken to respect said custom.

n I]

3. Such person shall be bound to answer all questions relating to such case put to him or her by such officer, other than questions the answers to which would have a tendency to expose him or her to any criminal charge.

35. The Health Officer or a Sanitary Inspector may, with such assistant (if any) as he thinks fit, enter upon any land, or after two hours' notice in writing, into any premises or buildings used for human habitation at any time between sunrise and sunset for the purpose of carrying out any measure or making any enquiries authorised by these regulations.

36. The crew of any inland steam vessel or boat which plies in any canal or river and other persons residing on such vessel or boat shall be subject to these regulations.

37. (1) All vaccinations under these regulations shall be performed gratuitously provided they be done (a) at such public vaccination stations as may be opened by the municipality or (b) by house visits in the case of such persons as are by the custom of the country unable to attend at public vaccination stations and are too poor to pay fees.

Persons desirous of being vaccinated in their houses other than those specially exempted by sub-regulation (1) shall pay a fee of annas for each vaccination for which they shall obtain a printed receipt: provided that the total amount of fees payable for any number of operations performed in one family at the same house at the same time shall not exceed annas eight:

provided also the Municipal Commissioners at any time may, by a resolution, direct vaccination persons in their own houses to be carried out at charges.

38. Orders issued by the Health Officer or Sanitary Inspector under these regulations shall be binding.

39. The officer issuing such orders shall cause them to be served upon any persons named therein.

40. The nearest relative of a patient or the occupier of the house in which the patient is lying shall, if a copy of the order under regulation 39 has been served upon him, give to a Sanitary Inspector or to the Health Officer immediate notice of any disobedience of the order by the patient.

Enactment.—No. P H.950/2R-20/51.—3rd April 1951. Whereas the Governor is satisfied that the Government of Bengal is threatened with an outbreak of small-pox:

and, therefore, in exercise of the power conferred by section 2 of the Epidemic Diseases Act, 1897 (Act III of 1897), the Governor is pleased to make the following temporary regulations for the prevention and control of small-pox, and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with, small-pox in the district for a period of four months:—

Temporary regulations for the prevention and control of small-pox.

In these regulations, unless there is any repugnant in the subject or context—

“**Sanitary Inspector**” means the Health Officer appointed by the District Board under sub-section (3) of section 91 of the Bengal Local Self-Government Act of 1885 (Bengal Act of 1885);

“**Sanitary Inspector**” means a Sanitary Inspector appointed by the District Board under sub-section (3) of section 91 of the Bengal Local Self-Government Act of 1885;

“**Board**” means a District Board constituted under the Bengal Local-Self-Government Act of 1885;

“**Union Board**” means a Union Board constituted under the Bengal Village Self-Government Act, 1919;

“**small-pox**” means any disease accompanied by an eruption of vesicles or pustules;

“**patient**” means a person suffering from or suspected to be suffering from small-pox;

“**medical practitioner**” means any person practising the medical profession.

Notices.

2. If in any case the District Health Officer considers that the issue of a notice under regulation 20 is likely to lead to such an amount of delay as might facilitate the spread of small-pox, he may forthwith take such steps as he may think fit for carrying out the work, and shall thereupon, as soon as possible, issue a notice on the person concerned stating the reasons why such work has been carried out.

3. If any measure which the District Health Officer has, by a notice issued under regulation 20, required to be carried out, be not carried out to his satisfaction within the time stated in the notice, the District Health Officer shall be entitled to carry out the measure.

Costs and compensation.

4. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the Board except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expense shall be paid by such persons:

Provided that where the conditions which led the District Health Officer to pass such an order, are not attributable to any act or default of the person in possession of the property, the Board may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

5. The Board shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations if he has failed to carry out an order issued under these regulations within the time specified in the order and to the satisfaction of the District Health Officer.

Location of disease.

6. When a case of small-pox occurs in a house, the nearest male relative in attendance upon the patient, or in the absence of any such relative the occupier of the house, or if the occupier be the patient, the senior male inmate of the house other than the patient of the house shall, within twenty-four hours of the onset of the disease, give information regarding the occurrence of such case either personally or in writing or by means of the chaukidar or other village watchman to the nearest Sanitary Inspector.

7. (1) Every medical practitioner called in to attend upon any case of small-pox shall forthwith give notice of the case by a special messenger to the nearest member of the outdoor staff of the Board and to the District Health Officer by post and the cost of such messenger in each case shall be defrayed by the Board.

(2) The doctor-in-charge of a hospital or a dispensary within the district shall forthwith give notice of any case of small-pox brought to such hospital or dispensary for treatment to the nearest Sanitary Inspector by a special messenger and to the District Health Officer by post, and the cost in each case shall be defrayed by the Board.

8. Presidents of Union Boards in union board areas and thanna officers in non-union board areas shall supply to the District Health Officer such periodical returns of cases of small-pox as he may from time to time call upon them to furnish.

9. The District Health Officer or a Sanitary Inspector may examine any person who is, or suspected to be, suffering from small-pox or who, in his opinion, may be infected with or likely to spread small-pox.

Isolation of patients.

10. When the District Health Officer or a Sanitary Inspector considers that the isolation of any patient is a precaution necessary for the protection of the neighbouring population, he shall order the patient to observe isolation and may order the nearest relative in attendance on the patient, or the occupier of the house in which the patient is staying, to arrange for the isolation of the patient in such a manner and for such a time as may be approved by the District Health Officer.

He shall not direct the patient to be removed from the house unless it is, in his opinion, impossible to make proper arrangements for his isolation therein.

11. The District Health Officer or a Sanitary Inspector may order that any person, who has been in contact with a person found to be suffering from small-pox, shall be segregated for a period not exceeding a fortnight in a manner and in a place to be approved by the District Health Officer.

12. The District Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from small-pox shall be vaccinated or re-vaccinated within a time to be specified in the order.

13. No person shall enter any place wherein a patient is isolated under regulation 10 without the permission of the District Health Officer or a Sanitary Inspector.

14. When a patient has been removed from a house for isolation under regulation 10, the Board shall provide for him free of charge a suitable place, with necessary attendants, diet, etc.

15. No person, who is or has been suffering from small-pox, shall leave the place where he has been staying until he has received from the District Health Officer or a Sanitary Inspector written permission to do so.

15A. No person while suffering from evident symptoms of small-pox or in the convalescent state of the disease with scabs or pocks on his body shall expose himself in any street, road, public place, shop, bazar or any place used in common by persons other than members of the family or household to which such infected person belongs or shall move from place to place unless he is proceeding to a hospital for admission and treatment.

Miscellaneous.

16. The District Health Officer or a Sanitary Inspector may require any person to allow to be carried out by such agency and within such time

as may be specified in the order, such means the disinfection of any premises in the vicinity of such person or for the disinfection of any of his personal effects as the officer or inspector may consider necessary.

16A. The District Health Officer or a Sanitary Inspector authorised by the District Health Officer in writing in that behalf may, during the prevalence of any outbreak of small-pox, order the bazar, shop or other public place shall be closed for such time as may appear to him necessary and may forbid the holding of any *mela* or other gathering to which people from several villages commonly or periodically resort.

17. The District Health Officer or a Sanitary Inspector may direct the owner or occupier of premises to take steps to have vaccinated or vaccinated within a time to be specified in the order any person residing on such premises and the control of such owner or occupier if the District Health Officer is of opinion that such person has been in contact with any one suffering from small-pox.

18. The District Health Officer or a Sanitary Inspector may forbid any person who has been a patient or who has to his knowledge been in contact with a patient to act as vendor of any article for such period as may be specified in the order.

18A. No person shall carry or permit to be carried in a public conveyance a patient except in the case where a patient is carried to a hospital with the following precautions against spreading the disease, namely:—

(i) that he is so well covered that the discharges and scabs from the lesions do not come into contact with the body of the conveyance;

(ii) that he is taken to the hospital direct and the conveyance does not halt at any other place for transacting any business; and

(iii) that excepting one or two attendants for the patient no other person is carried in the conveyance at the same time.

18B. Every conveyance in which a patient or a dead body of a person who has died of small-pox or any article that has been in contact with a patient is carried shall be disinfected before it is used again. The disinfection will be effected—

(i) in the case of a conveyance carrying a patient to hospital, by the authorities of the hospital before such conveyance leaves the hospital;

(ii) in the case of a conveyance carrying clothing, bedding or other article of a patient to the disinfecting station, by the authorities of the station; and

(iii) in the case of a conveyance carrying a dead body to the burial or cremation ground, by the owner of the conveyance himself and such other persons as shall effect the disinfection with a strong solution of formalin (1 in 400), lysol (1 in 500), isol (1 in 500) or of saponified cresol (1 in 100).

19. No person shall sell any article which has been in contact with a patient until it has been disinfected to the satisfaction of the District Health Officer or a Sanitary Inspector.

19A. No person shall expose in any street, bazar or any public place any clothing, bed or other article which has been in contact with a patient or shall cause or suffer such article to be carried in any public conveyance, but nothing in this regulation shall apply to a person who transmits any such article for the purpose of having the same disinfected with the following precautions against spreading the disease:—

(i) the article is so well covered with a strong solution of formalin (1 in 400), lysol (1 in 500), isol (1 in 500) or of saponified cresol (1 in 100).

1 in 100), that it does not come directly in touch with the body of the conveyance;

the article is taken to the disinfecting station and the conveyance does not halt at any place for transacting any business; and

excepting one attendant for the purpose of the infected articles to the disinfecting station no other person is carried in the conveyance.

The District Health Officer or a Sanitary Inspector may issue general orders that by a special certain sanitary precautions of a simple kind, such as lime-washing of houses, clearing of streets or the removal of filth or rubbish shall be taken to his satisfaction.

No person shall carry or permit to be carried in a public conveyance the dead body of a person who has died of small-pox without the written permission of the District Health Officer or a Sanitary Inspector and without the following precautions against spread of the disease:—

(1) The dead body is so well covered with a cloth in a strong solution of formalin (1 in 400), (1 in 500), (1 in 1000), or of saponified lime (1 in 100) that the discharge and scabs from the body do not come directly into touch with any part of the conveyance;

(2) The dead body is taken to the burial or interment ground direct and the conveyance does not halt at any other place for transacting any business; and

excepting attendants for the dead body no other person is carried in the conveyance at the same time.

The District Health Officer or a Sanitary Inspector may prohibit persons from retaining or wearing clothes taken from the bodies of persons who have died of small-pox and may cause any such clothes to be destroyed.

No person shall, without written permission of the District Health Officer, dispose of a dead body except by burning or burial.

The District Health Officer may approve or disapprove burial grounds and may by order declare any area, whether generally or specially in respect to burial, to be a burial area, that corpses shall not be burned or buried at places other than those so approved.

No person burning or causing to be burned any corpse shall cause the same to be reduced to ashes and shall likewise burn or cause to be burned any clothes or other articles brought with the corpse to be reduced to ashes.

The District Health Officer may direct any person to bury or cause to be buried any corpse, which in the opinion of the District Health Officer, is likely to spread small-pox, in a place not constructed of masonry and less than 6 feet deep.

The District Health Officer may order any person or other servant of the Board to perform his duties without the permission of the District Health Officer unless such person or servant of the Board has given notice in writing not less than one month previously of his intention to withdraw.

The District Health Officer or a Sanitary Inspector may through any person authorised by him or inspector in that behalf seize and remove any corpse which in the opinion of the District Health Officer or Sanitary Inspector is infected with or is likely to be infected with small-pox, unless the relatives or friends of the deceased person satisfy him that they are

prepared and able to dispose of the corpse in a manner which will prevent the spread of small-pox.

28. (1) The District Health Officer or a Sanitary Inspector may require any person who appears to be acquainted with facts in connection with any case or suspected case of small-pox to attend before him at a time to be stated in the order and at any place not more than one mile from the place where such person resides or is staying when the order is issued, and such person shall appear as so required.

(2) When the person summoned to appear under paragraph (1) is a female who, by the custom of the country, does not appear in public, suitable precaution shall be taken to respect the said custom.

29. (1) The District Health Officer or a Sanitary Inspector may examine orally any person who appears to be acquainted with the facts and circumstances of a case or suspected case of small-pox.

(2) When the person to be examined under paragraph (1) is a female who, by the custom of the country, does not appear in public, the officer shall take her statement under such conditions and shall admit of due respect of the said custom.

(3) Such person shall be bound to answer all questions relating to such case put to him or her by such officer, other than questions the answers to which would have a tendency to expose him or her to any criminal charge.

30. The District Health Officer or a Sanitary Inspector may, with such assistants (if any) as he thinks fit, enter upon any land, or after two hours' notice in writing, into any premises or building used for human habitation at any time between sunrise and sunset for the purpose of carrying out any measure or making any enquiries authorised by these regulations.

31. The crew of any inland steam vessel or boat which plies in any canal or river and other persons residing on such vessel or boat shall be subject to these regulations.

32. (1) All vaccinations under these regulations shall be performed gratuitously provided they be done (a) at such public vaccination stations as may be opened by the District Board or (b) by house to house visits in the case of such females as are by the custom of the country unable to attend at public vaccination stations and are too poor to pay fees.

(2) Persons desirous of being vaccinated in their own houses other than those specially exempted under sub-regulation (1) shall pay a fee of two annas for each vaccination for which they shall get a printed receipt, provided that the total amount of fees payable for any number of operations performed in one family at the same house and at the same time shall not exceed annas eight.

33. (i) Orders issued by the District Health Officer or a Sanitary Inspector under these regulations shall be in writing.

(ii) The officer issuing such orders shall cause copies of them to be served upon any persons named in them.

(iii) The nearest relative of a patient or the occupier of the house in which the patient is staying shall, if a copy of the order under regulation 10 has been served upon him, give to the nearest Sanitary Inspector or to his office immediate notice of any disobedience of the order by the patient.

RESOLUTION No. 1269-Com.

Calcutta, the 31st March 1951.

Whereas a report has been made by the Registrar of Joint Stock Companies, West Bengal, as a result of an investigation made by him under section 137 of the Indian Companies Act, 1913 (VII of 1913), in respect of the management of the National Nutriments Limited

and whereas in the said report certain complaints have been made against the said Company and a resolution for the appointment of an Inspector has been made to investigate and report on the affairs of the said Company.

Whereas the Government considers it desirable that an Inspector should be appointed under section 138 of the said Act to investigate and report on the affairs of the said Company with particular reference to the complaints made in the said report

therefore, the Governor in exercise of the powers conferred by clause IV of section 138 of the Companies Act, 1913, read with Government of India notification No. 8313-11-CL/37, dated the 26th March 1951, is pleased to appoint Sri S. N. Banerjee of 10, 1st Office Street, Calcutta, to be the Inspector to enquire into and report on the affairs of the National Nutriments Limited, of 12, Chowringhee, Calcutta. The Governor is also pleased to direct that Sri S. N. Banerjee shall receive a consolidated fee of Rs. 1,000 exclusive of any travel allowance or halting charges which may be payable at the rates applicable to an officer drawing not exceeding Rs. 750 per mensem, if the Inspector, in course of his duty as such Inspector, is required to go out of Calcutta.

Order.

That a copy of this resolution be forwarded to the Registrar of Joint Stock Companies, Bengal, the Managing Director, National

Nutriments, Ltd., Sri S. Chatterjee, Receiver of the National Nutriments, Ltd., and Sri S. N. Banerjee, for information.

By order of the Governor,

NOTIFICATIONS

Subject: Salaries—Deduction of income-tax made at source—Receipt to be given under section 62 of the Indian Income-tax Act, 1922.

No. TM/244.—5th April 1951.—Section 62 of the Indian Income-tax Act, 1922, requires that a receipt shall be given for any money paid or recovered under the Act. As deduction at source is a mode of recovery of tax, it is obligatory that the person from whose salary tax is deducted should be given a receipt. A consolidated annual receipt for the tax deducted in the year would, it is considered, be sufficient compliance with the provisions of section 62, and it has accordingly been decided by the Government of India, Central Board of Revenue, in consultation with the Comptroller and Auditor-General of India, that, in future, when deduction of income-tax from salaries is made at source, the Disbursing Officers, i.e., Treasury Officers or Accounts Officers in the case of gazetted Government servants and heads of offices in the case of non-gazetted Government servants, should issue to the person from whose salary income-tax is deducted at source, an annual consolidated receipt in the form prescribed below:—

Name of the Government servant.....

Deductions made at source on account of income-tax:—

Name of month.	Amount of pay and allowances paid.	Amount of income-tax recovered.

Designation.....

2. All Disbursing Officers (both of the Union Government and of the State Government) under the audit control of this office and all Treasury Officers and Sub-Treasury Officers in West Bengal should note the above decision for necessary action.

These instructions should be followed in respect of the tax deducted at source in the year 1950-51 onwards.

[Central Board of Revenue letter No. 35(20)-I.T./50, dated 20th March 1951. Dy. TM-2885.]

Subject: Decentralisation of the audit and accounts work relating to certain departments of the Central Government.

No. TM/243.—31st March 1951.—It has been decided by the Government of India, Ministry of Finance, with the concurrence of the Comptroller and Auditor-General of India that the audit and accounting of the transactions of the offices and establishments noted below against serial Nos. 1 to 14 and against serial No. 15 should be transferred to this office from the offices of the Accountant-General, Central Revenues, and the Accountant-General, Bombay, respectively with effect from the accounts for 1951-52.

Serial No.	Name of office and establishment.	Major heads of account under which the transactions should be shown.
1	2	3
1	General Administration—Ministry of Finance—Industries and Commerce Division, Calcutta.	25 General Administration.
2	Archaeology	.. 36 Scientific Departments.
3	Special Police Establishment—Calcutta Branch of Calcutta Circle excluding Shillong.	29 Police. XXVII.
4	Union Excise Duties—Calcutta Collectorate	.. 2 Union Excise Duties. II.
5	General Administration—Ministry of Communications—Railway Inspection.	25—General Administration.
6	Aviation (excluding charges on "works" with which Chief Engineer, C. P. W. D., is concerned).	44 Aviation. XXXIII.
7	Miscellaneous Departments—Explosives	.. 47 Miscellaneous Departments. XXXVI.
8	Stationery and Printing—Central Stationery Office, Calcutta.	56 Stationery and Printing. XLV.

14	Medical Stores Depot	.. 57—Capital Outlay.
15	Scientific Departments—Meteorological Department—Headquarters offices and other offices and observatories.	36—Scientific Departments.

2. As a result of this decision the transactions of the offices and establishments named against serial Nos. 1 to 15 above occurring on or after 1st April 1951 will be audited and accounted for by this office.

3. All heads of offices of the Central Government situated in West Bengal, all Treasury and Sub-Treasury Officers in West Bengal and the Manager, Reserve Bank of India, Calcutta, are requested to note the above decision. All heads of offices are also requested to record proper classification on bills and chalangans pertaining to the offices and establishments mentioned above in order to enable the Treasury Officers and the Manager, Reserve Bank of India, Calcutta, to correctly exhibit the same against the Major Heads of account as noted in column 3 of the statement below paragraph 1 above. The Treasury Officers in West Bengal are requested to note that the vouchers in respect of the offices and establishments mentioned above, if paid, on or after 1st April 1951 should be forwarded to this office along with the list of payments and not sent to the former Accounts Officers of the offices and establishments.

4. The audit and accounting of transactions of the Survey of India Department have been transferred from this office to the Accountant-General, U.P., with effect from the accounts for 1951-52. The question regarding the extent to which the work has been transferred has been referred to the Government of India and a separate notification on the subject will be issued later on.

LABOUR DEPARTMENT

ORDER.

2047Lab.—3rd April 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 1326Lab., dated the 26th February 1951, the industrial dispute between Messrs. Swaika Vanaspati Products, 18B, Brabourne Road, Pollock House, Calcutta, and one of their employees Sri Gora Chand Sen of 147B, Raja Dinendra Street, Calcutta-4, presented by himself was referred for adjudication to Sri S. K. Niyogi, District Judge;

and whereas the said Sri S. K. Niyogi, District Judge, has submitted to the Government his award on the said industrial dispute;

and, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

The matter of an industrial dispute between Messrs. Swaika Vanaspati Products, Ltd., of 18B, Brabourne Road, Pollock House, Calcutta, and one of their employees Sri Gora Chand Sen of 147B, Raja Dinendra Street, Calcutta-4.

PRESENT:

SRI S. K. NIYOGI, *District Judge, Industrial Tribunal.*

The employee: Sri Gora Chand Sen himself.

The Company: Sri P. R. Bakhshi, Manager.

AWARD.

By order No. 1326Lab., dated 26th February 1951, Government of West Bengal constituted a Tribunal of one member under sections 7 and 10 of the Industrial Disputes Act (Act XIV of 1947), and appointed me as such member of the Tribunal and referred to me the aforesaid dispute for adjudication.

The reference was received on 27th February 1951 and it was put up before me on 6th March 1951 after I joined. 19th March 1951 was fixed for filing of written statement by the employee. On that day both parties appeared but no statement was filed by either of them. Instead, the parties submitted a joint petition saying that they have amicably settled the dispute out of court and that no dispute exists between them, and they prayed for a no-dispute award. I make a no-dispute award accordingly and incorporate the joint petition of the parties as a schedule to the award.

SANTOSH KUMAR NIYOGI,
Industrial Tribunal.

1st March 1951.

S K NIYOGI, *District Judge and Member, Industrial Tribunal, Calcutta.*

In the matter of West Bengal Government Reference under sections 7 and 10 of the Industrial Disputes Act.

Regarding Industrial dispute between Messrs. Swaika Vanaspati Products, Ltd., and their employee Sri Gora Chand Sen.

MOST RESPECTFULLY SUBMITTED—

1. The parties have amicably settled the dispute outside the Court.

It is therefore prayed that you will be graciously pleased to give an order that the dispute has been settled by the parties and now there is no dispute.

ORDER.

No. 2048Lab.—3rd April 1951.—Whereas under the Government of Bengal, Labour Department, order No. 4572Lab., dated the 17th August 1950, the industrial dispute between Messrs. Swaika Vanaspati Products Ltd., Pollock House, 28A, Pollock Street, Calcutta, and their workers represented by the Swaika Mazdoor Union of 1, Bazar Lane, Bally Congress Office, P. O. Bally, Howrah, was referred for adjudication to Sri G. Palit, District Judge;

And whereas the said Sri G. Palit, District Judge, has submitted to the State Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of an industrial dispute existing between Swaika Vanaspati Products, Ltd., Pollock House, 28A, Pollock Street, Calcutta, and workers represented by the Swaika Mazdoor Union of 1, Bazar Lane, Bally Congress Office, P. O. Bally, Howrah.

BEFORE THE INDUSTRIAL TRIBUNAL, WEST BENGAL.

PRESENT:

SRI G. PALIT, District Judge, Chairman of the Tribunal

Present for the Union: Sri N. K. Mukherjee, Advocate.

Present for the Company: Sri S. C. Sen, Advocate, assisted by Sri N. M. Gupta, Pleader.

1. By Government order No. 4572Lab., dated the 17th August 1950, the aforesaid dispute has been referred to me for adjudication under sections 10 and 11 of the Industrial Disputes Act, 1947 (XIV of 1947).

The reference was received here on the 18th August 1950. The Company filed its written claim on the 5th September 1950. The Company filed its written objection on the 20th September 1950. The hearing of the case was held over till the disposal of the case of Swaika Oil Mills. After one adjournment, the hearing was taken up on the 26th February 1951, and continued till 1st March 1951. The argument was heard on the 1st March and continued till the 14th March 1951.

The issues contained in the schedule of the Order of Reference stand as follows:—

- (1) If the close-down of the Swaika Vanaspati Products, Ltd., by notice, dated the 30th June 1950, and subsequent notice, dated the 13th July 1950, was justified.
- (2) If the workers discharged as a result of such closure are entitled to any relief.
- (3) If the worker Ved Prokash discharged on the 28th June 1950 is to be reinstated or entitled to any other relief.

AWARD.

Issue No. 1.

The contention of the Union in respect of this sudden closure of the Company is: (1) The Company tried to avoid by the above measure the loss under the agreements entered into with the Union; (2) the Company tried to remove the old hands and to break up the solidarity of the workers; (3) the Company wanted to avoid its liabilities under the Income-Tax Act on the ground of professing loss of business. The Company, on the other hand, contends that all these are false. It asserts that it could not carry on the trading activity of competition—both inside and outside—and because of the handicap imposed by Government control in respect of the selling price of Vanaspati while the prices of raw materials, e.g., that of groundnut oil went up. This is a peril which stares every such industry in the face. The Vanaspati Manufacturers' Association of India took up the matter with the Government, but not with much tangible results. As a result, the concerns which dealt in such industry had to wind up.

In view of the evidence on record I am fully satisfied that the Vanaspati Manufacturing Companies in general and this Swaika Vanaspati Products, Ltd., in particular, found themselves in very tight corners to keep their heads above water. In March 1947, the Government of India introduced an *ad hoc* method under which it sanctioned increases in the prices of Vanaspati Products only twice in the year 1949. Under this method the price of Vanaspati per maund was increased by Re. 1-4 on 1st January 1949. But the rate of basic groundnut oil had increased by Rs. 6 per maund. Again on the 6th July 1949, the price of Vanaspati was increased by Re. 1-4 per maund. But the prices of groundnut oil went up out of all proportion with this. This was due to the soaring price of oil in the market. The Government measure could hardly meet the time-lag created loss. In September 1949, the situation was very grave that almost all the Vanaspati Manufacturing Companies had closed down. But the Swaika Vanaspati Products, Ltd., got over the difficulty by switching over to the manufacture of Salad oil from refined groundnut oil. The cost of production, however, was high. Thus the evil was merely postponed but not removed. The Swaika Vanaspati Products could not stem the tide and was overcome. Naturally it tried to reduce its expenditure. The services of the Technical Engineer in Charge, Mr. R. K. Agarwal and of the Sales Officer Mr. A. N. Chatterjee were retrenched sometime between

March 1950, and June 1950. The services of all temporary workers in the factory were retrenched in March 1950. All this finds place in the statement of the Company. They have not been specifically challenged by the Union. This makes it clear that this closure of the factory in 1950 was not abrupt. It came only in the proper sequence of events. There is also in evidence that most of the factories producing vegetable products have been forced to shut their door, if not for good, at least for some time. The printed Annual Reports of the Vanaspathi Manufacturers' Association of India for 1949 and 1950—marked Exts. G, G(1), G(2), G(3) and G(4)—are abundantly clear that the difficulties which this Company had set in support of its closure are not imaginary or faked. In my opinion, the difficulties are real and almost insurmountable. So if this Company is to wind up, it certainly had to do so under the pressure of circumstances. So I discard the contention of the Union that the Company resorted to closure from certain motives.

Coming next to the motives set forth by the Union on the part of the Company, I find that they do not bear scrutiny. Of course, I find some of the agreements reached by the Company with the Union seem to be implemented in respect of canteen, medical leave, etc. But it is borne in mind that the Company is a newly-formed one and it is faced with a keen struggle for existence, the non-implementation of these agreements does not go far enough. The Company must be given some time to stabilise its resources before it can be expected to introduce those costly undertakings.

Regarding the motive attributed to the Company on the score of removing the old hands and breaking up the Union, I must say that there is more or less stereotyped. But this contention must be proved to be true when I find that the Company was prepared to lay off the workers under Ext. A on the ground of involuntary unemployment. Exhibit A shows that the Union did not accept this gesture of the Company. If the Company is bent on getting rid of old hands, it would never consent to lay-off workers. It follows that when the lay-off is terminated, the workers will be automatically rehired.

Regarding the motive to break up the Union, I must find that there is equally idle. It is admitted by the Union itself that this Company entered into several agreements, both immediately before and after closure, with the Union to compose the differences amicably. That certainly is not an attitude which fits in with such allegation. The Union has referred to the assault of one Krishna Bahadur Singh, the Joint Secretary of the Union, at the hands of one Kamal Singh, a member of the staff. It is said that Kamal Singh is alleged to have persuaded or seduced Krishna Bahadur Singh to give up the Union and to set up a new Union of up-country workers. He is said to have alienated the Biharis from the Bengalis and to have written a threatening letter to Krishna Bahadur Singh. There was a police complaint by Krishna Bahadur for the assault and a case was stated. The Manager of the Company has emphatically repudiated any connection with the move of Kamal Singh or with the said threatening letter. I do not see why the Manager's disclaimer should not be accepted. It may be said that Kamal Singh had his own axe to grind in the said matter because he happens to be a member of the staff, the authorities cannot be implicated in the said matter in the absence of more cogent evidence. I am not prepared to accept that the Company is bent on disrupting the solidarity of the Union in question. No Company can thrive by fostering provincialism amongst its workers or by disrupting their amity.

1]

regarding the other contention that the Company closed the factory to avoid payment of income-tax, I must say that the objection is wild. The Company has produced the income-tax assessment for 1949-50—marked G. So where is the point in closing the factory to avoid income-tax? Besides, no Company does wind up for fear of paying income-tax which is always assessed on production. So it is clear that these concerns of the Union are based on misunderstanding the real situation and on prejudiced view points.

The learned Advocate appearing on behalf of the Union made a desperate attempt by suggesting that as this Company is allied to other Swaika concerns and as those concerns are still going on, this Company must not be closed down. If there are several concerns under the same management, but natural that the employees of one may be deputed to another or the same man may be attached to different concerns drawing different or consolidated salaries from such concerns. But the Swaika Vanaspati Products, being a Limited Company, must stand or fall by its own financial resources. The evidence makes it clear that this limited Company cannot keep its headway or rather cannot manage to keep it afloat. It is bound to wind up just to avoid further liabilities. That is entirely the look-out for management. Unless I find that the management is out to resort to measures not so much from economic grounds as from the sole motive to harm the Union, the Tribunal can never interfere. If it does, it will be beyond its legitimate limits. That being the position, I find that the closure in question was justified by the circumstances. The issue is decided accordingly.

Issue No. 2.

It is clear from the evidence that the Swaika Vanaspati Products, was closed down on the 15th July 1950. The notices given in this connection, viz., the notice of the 30th June 1950, and the subsequent notices of the 5th July 1950, and the 13th July 1950, must be closely examined in this connection. The notice on the 30th June 1950—marked B(2) makes it quite clear that it was more or less a provisional notice, purported to close down the factory with effect from the 15th July 1950, as the situation improved meanwhile. The daily-rated employees were discharged with effect from the 15th July 1950, and the monthly-rated employees with effect from the 31st July 1950. Then comes the notice, of the 13th July 1950—marked Ext. B. It purports to announce that the situation had not improved, rather it had deteriorated necessitating the management to close the factory immediately. It also held out that if the situation improved, the notice of the 30th June would not be given effect to; even if the factory would be closed in terms of the notice, dated 30th June 1950 with effect from the 15th July 1950. Then comes the notice marked Ext. B(1), dated the 13th July 1950. It is, of course, unequivocal in its terms. It purports to say that the factory would close immediately. The workers were asked to receive their dues on the basis of the notice, dated 30th June 1950. So the position boils down to this that the factory was closed with effect from the 15th July 1950. The workers were offered the compensation as given by the notice, dated 30th June 1950, marked Ext. B(2). It is that notice the daily-rated employees were discharged with effect from the 15th July 1950, and the monthly-rated employees with effect from the 31st July 1950. But I do not think that the workers can be denied their legitimate compensation though the notice was given as above. Now-a-days it is a matter of common knowledge that it is difficult for discharged employees to secure a job in no time. As the employees cannot be blamed for the sudden closure, they are entitled to some compensation to answer the call of justice.

Accordingly, I award that the daily-rated employees be entitled 15 days' wages with effect from 15th July 1950, and the monthly employees one month's wages as compensation with effect from the 15th July 1950. The wages will be calculated on the earnings for the equal period immediately before the closure in question. All these employees will also have the employer's contribution to the Provident Fund, notice, dated 30th June 1950—Ext. B(2). These must be paid with effect from the month of the award coming into operation.

Besides the above, I call upon the Company to give preference to old workers in the matter of future appointment if and when this issue reopens, provided they are available and otherwise found fit.

Issue No. 3.

G. Ved Prokash was admittedly discharged on 28th June 1950, in connection with an incident occurring in the factory on the 23rd June 1950. The charge-sheet is marked Ext. G. It is stated in the said charge-sheet that on 23rd June 1950, Ved Prokash was given definite direction that the motor must be kept going on until 25 drums of refined oil were filled but he flouted this direction and stopped the motor. Another particular charge was that he prevented other workers from filling in the said drums. The further charge was that he was obdurate though Sri P. N. Bhargava and Sri Dass tried to impress upon him the urgency of filling in the drums. He is said to have used rude and discourteous language to and also to have shown violent temper. Exhibit 6(a) is the reply of this Ved Prokash is said to have given. He denied the charge as being untrue and demanded an impartial enquiry. He was suspended and even dismissed on 28th June 1950, when he did not turn up, as a result of an *ex parte* enquiry. Ved Prokash's version before me is that at 4.30 p.m. on the 23rd June 1950, Sri Bhargava asked him to see the filling work outside the Compression Room by taking out a temporary connection. He pleaded inability to do this. According to him, he was asked to do something impossible because he could not look after the compression room as well as look to the filling of drums outside the room. Besides, the coolies had already left. This seems to have put Sri Bhargava in a rage. He was served with the aforesaid notice. On the 24th June 1950, he went to explain matters but was prevented at the gate by Sri Bhargava—O.P.W. 1—and Sri Bakshi—O.P.W. 2—the Manager. He contradicted this version of Sri Ved Prokash. According to Sri Bhargava, he received instructions from the Head Office to have 25 drums filled with Salad oil for delivery on that very day. He asked the operator, who was in the "A" shift, to do this work and Lakshmi saw 7 or 8 drums being filled in up to 3 p.m. At 4 p.m. Sri Bhargava came and found that the people were sitting by and Ved Prokash stopped the motor. He was asked to report to Sri Dass, the Officer-in-charge of shifts. Sri Dass asked Ved Prokash peremptorily to see to the filling of the remaining drums as it was urgent. But Ved Prokash stood adamant when Sri Dass offered to take charge of the Compression Room. The Manager, Sri Bakshi, speaks of the order of 25 drums of oil to be delivered that day. He asked Sri Bhargava, the Supervisor, to see that the order was executed. The Manager actually saw the filling of the drums till 3 p.m. He left instructions that the filling should continue even if that meant overtime work. In the evening he heard over the phone that the filling could not be executed for Ved Prokash. On the 24th June Ved Prokash called on him and said that he was not responsible. The Manager enquired and issued a charge-sheet and placed Ved Prokash under suspension.

...ing to the evidence relating to the above matter, I discard the
 ment of Ved Prokash that he had to take out a temporary connection
 le for this purpose and so pleaded his inability to execute the work,
 ularly as the coolies had also left. Had it been so, how could the
 ous operator, Laksmi, work all this time and see to the filling of 7 or
 ums? So the temporary connection, if any, must have been already
 The coolies could not have left. Had it been so, Sri Bhargav could
 have asked him to have the drums filled in. Ved Prokash certainly
 or with his own hands could never do this. So, considering the fact
 Sri Bhargav was insisting on the remaining drums being filled in, I
 hat the coolies must have been there at the time. It is also difficult
 eve that the coolies would flout the definite instructions of the Manager
 he asked them to work overtime, the matter being urgent. So, the
 being there, I think Ved Prokash could have agreed to see to the
 He might have left the responsibility of the Compression Room
 to Sri Dass to receive the charge or to Sri Bhargav who was insisting
 matter. But, instead of that, to be obdurate, not to run the motor
 favour of indiscipline and, if I may say, pigheadedness. This position
 to have been corroborated to a certain extent by Ved Prokash's reply—
 in which he wanted to be excused this time. Ved Prokash was
 a warning as per Ext. 4 on 10th December 1949 for his irregularity in
 ance; but that, of course, has no bearing on the present matter. In
 examination Ved Prokash admits at page 5 that he refused to work
 me on another occasion on the ground that he was ill. He denies the
 tion that the oil did overflow on that occasion. This indicates that
 Prokash sometimes wants to have his own way in his conduct. I am
 ed that the Manager had dismissed this worker in the proper manner.
 st of all suspended him, gave him charge-sheet, granted him an
 unity to explain matters and, when he did not turn up, the Manager
 choice other than holding the enquiry *ex parte*. I do not believe
 ed Prokash could not appear before the Manager during the enquiry
 and so desired. So I award that Ved Prokash is not entitled to re-
 ment nor to any compensation for his rightful dismissal.

G. PALIT,

Chairman of the Tribunal.

14th March 1951.

By order of the Governor,

D. S. P. MUKHERJEE, Jt. Secy.

ORDER.

2060Lab—4th April 1951.—Whereas under the Government of West
 Labour Department, order No. 2200Lab., dated the 3rd May 1950,
 industrial disputes which had existed between the 79 Printing Presses
 Calcutta and Howrah mentioned in the list appended to the said order,
 the 3rd May 1950, and their employees, represented by the Press
 Workers' Association, 249B, Bowbazar Street, Calcutta, over the questions
 to (1) minimum wages, grades and scales fixed in the previous
 referred to therein, (2) dearness allowance, (3) gratuity and (4)
 2 orders regarding termination of employment, were referred for
 attention to an Industrial Tribunal constituted by Sri A. Das Gupta,
 Judge;

whereas during the pendency of proceedings before the said Tribunal,
 Nandy of Hatkhola, Panchanontola, Chandernagore, an
 of Messrs. Caledonian Printing Co., Ltd., of 3, Wellesley Place,

Calcutta, being item No. 15 of the list aforesaid, as represented by the Press Employees' Association, made a complaint in writing before the Tribunal alleging that the said Company had altered, to the prejudice of the said employee, the conditions of service applicable to him immediately before the said proceedings;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Tribunal has acted upon the said complaint and submitted its award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of reference No. 2200Lab., dated the 3rd May 1950, of the Government of West Bengal, Labour Department, and in the matter of a complaint under section 33A of the Industrial Disputes Act, 1947, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950 (Case No. 11 of 1951), and in the matter of Curudas Nandy of Hath Panchanantala, Chandernagore, an employee of Messrs. Caledonian Printing Co., Ltd., of 3, Wellesley Place, Calcutta, represented by the Press Employees' Association, 249B, Bowbazar, Calcutta.

PRESENT:

SRI A. DAS GUPTA, *District Judge.*

For the complainant: Sri S. K. Dhar, Pleader, instructed by Sri Bhushan Sarcar, Secretary of Press Employees Association

For the opposite party: Sri D. Gupta, Solicitor of Messrs. Sanders & Morgans, instructed by Mr. L. H. Mordue, Manager, Caledonian Printing Co., Ltd.

AWARD.

In pursuance of the order of reference No. 2200Lab., dated the 3rd May 1950, of the Government of West Bengal, Labour Department, adjudication proceedings were started for settlement of an industrial dispute between 79 printing presses in Calcutta and Howrah, of which the Caledonian Printing Co., Ltd., was one, being serial No. 15 in the list appended to the order of reference. The award which followed the said reference was published in the *Calcutta Gazette* of the 1st March 1951, under Government of West Bengal, Labour Department, order No. 995Lab., dated the 1st February 1951. The complainant was an employee of the Caledonian Printing Co., Ltd. The complainant alleges that he was told by the Managing Director on three different dates, viz., on 27th January and on 7th and 8th February 1951, that he would be transferred to the Edison Press under the same management; that the necessary order in writing would be communicated to him on the 8th February 1951, and that if he would decline to comply with the order, he would be discharged. The complainant further alleges that as no such written order of transfer was communicated to him on the 8th February, he called at the office of the Caledonian Printing Co., Ltd., on the 9th February at the usual hour, but was not allowed admission by the durwan at the gate, and was told by the durwan that he had been discharged. The matter was immediately brought

he notice of the Labour Commissioner, and the Secretary of the Press Employees' Association, of which the complainant is a member, placed the matter before the Managing Director on behalf of the complainant by a letter dated the 9th February 1951, but the Managing Director did not reply to it. The complainant pleads that his service was not transferable and that the transfer order was passed with the ulterior motive of terminating services, inasmuch as, the works of the Edinburgh Press are being done by the Caledonian Printing Co., Ltd., and the management is contemplating closing down the Edinburgh Press.

The opposite party admits that the complainant was an employee of the Caledonian Printing Co., Ltd., and that on the 7th February 1951 the complainant was told that from the following morning he would be required to work at the Company's associated concern, the Edinburgh Press at 300, Market Street, Calcutta, and was asked to collect the written instructions on the 8th February 1951. The opposite party pleads that on the 8th February when the complainant called at the office, he was asked to wait to take the written instructions which were being typed but that the complainant without waiting for the instructions left the office and did not appear either at the office of the Caledonian Printing Co., Ltd., or the Edinburgh Press. The written order was sent to the complainant by a registered post. The opposite party admits to have received a complaint from the Press Employees' Association, dated the 9th February and pleads to have replied to it on the 15th February. The opposite party seeks confirmation of this Tribunal to terminate the services of the complainant on the ground that he had not carried out the Company's order and had been absent from work without previous leave or permission or notice.

The Edinburgh Press also known as the Calcutta General Printing Co., is not only under the same management as the Caledonian Printing Co., Ltd., but is an associated concern of the latter. This has been proved by the audited balance-sheets of the two concerns for the years 1945-46 as submitted before me. The balance-sheets were returned after inspection. The presses are under one and the same Manager. The complainant pleads at the hearing that some old hands had been transferred to the Edinburgh Press and that they had been discharged. He cited a specific instance of a durwan who is said to have been likewise discharged. The durwan was retrenched. Thus it is clear that the durwan was not retrenched but was discharged on account of paucity of work of the Edinburgh Press. The management had no reason to transfer the durwan to the Edinburgh Press solely for the purpose of discharging him. It is quite possible that the durwan was discharged for a good cause. The complainant however admitted that employees in the two presses were transferred in the past from one to the other and *vice versa* without being affected. He however qualified his statement of this by adding that they were favourites of the Manager. Regarding what the complainant has said to be true, there is nothing on the record to suggest that the Manager or the Managing Director had any animosity against the complainant. In fact the order transferring the complainant to the Edinburgh Press, a copy of which is an Annexure to the complaint, the written statement, clearly indicates that the complainant's service as an employee of the Caledonian Printing Co., Ltd., would not be terminated by the transfer and that the complainant would continue to be employed as an employee of the parent concern. Both the concerns are in Calcutta. Exhibit 2, a document filed by the complainant, shows the working of the Edinburgh Press has merged with the Caledonian Printing Co., Ltd. This is an additional fact which lends support to the complainant's case that in the exigencies of business of the two concerns

employees of one are transferable to the other and vice versa. On evidence and circumstances as placed before me I cannot but accept opposite party's view and I hold that so long as the employees are adversely affected by such transfers, they have no reasonable grievance. The complainant was to continue to be an employee of the parent co and had no ground to apprehend retrenchment in case the Edinb Press was closed down. His seniority in the Caledonian Printing Co was not to be affected by the transfer and even if any question of retirement of the employees of the Caledonian Printing Co., Ltd., arises seniority cannot be ignored in preference to the employee appointed his transfer.

Section 33 of the Industrial Disputes Act, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, prohibits during pendency of conciliation or adjudication proceedings, in respect of an industrial dispute before a conciliation officer, a Board or a Tribunal except with the express permission in writing of the conciliation officer, Board or Tribunal, a case may be—

- (a) alteration of the conditions of service to the prejudice of work concerned in the dispute, or
- (b) discharge or punishment by dismissal or otherwise of any work concerned in such dispute.

If the provision of section 33 is contravened during pendency of adjudication proceedings before a Tribunal, on the complaint of the aggrieved employees aggrieved, the Tribunal is to assume jurisdiction over grievance as if it were a dispute referred to the Tribunal by the appropriate Government and to give his award.

So far as the order of transfer is concerned there was no alteration in condition of service. Such transfers are necessary incidents of service the two concerns. Besides, the transfer in the case of the complainant was not to his prejudice. Hence the order of transfer is not hit by (a) of section 33 of the Act.

The next point that arises is whether the complainant was discharged as alleged. It is clear from the written statement of the Company that complainant was not discharged. In fact no written order of discharge was communicated to the complainant. The complainant was told by a durwan at the gate who refused him admission that he had been discharged. The durwan has not been examined by the management to deny this. It was an instance of misconception on the part of the durwan. The directions from the management instructions as to the employees to be admitted in the press. The complainant was to report himself to the Edinb Press on the 9th February. The durwan had instructions not to admit him on the 9th. This was possibly the reason why the durwan told the complainant that he had been discharged. This wrong information on misconception upset the complainant and he took all possible steps to clarify the position. When he was refused admission by the durwan, the allegation that he had been discharged, he accidentally met Mr. M. Manager of both the concerns and represented to him what had happened. The complainant was asked to wait till the Managing Director came. The Managing Director came and the complainant waited till 10.45 a.m. as he did not get any definite information till then he went to the premises of the press and went to the Labour Commissioner and sought his intervention. Exhibit 4 is the copy of the application submitted to the Labour Commissioner. This bears the initial of an official of the Labour Commissioner's office as a token of acknowledgment of original application. On the same very day, the Secretary of the Employees' Association wrote to the Managing Director of the Com

enting that the ~~durwan~~ had refused the complainant admission on the ground that the latter had been discharged. The Secretary made it clear that no satisfactory reply was received within 24 hours of the receipt of the letter, he would understand that the complainant had been discharged. The reply was received at least till 15th February 1951 on which date the complaint was filed. The Managing Director replied to the letter of the Secretary of the Press Employees' Association rather too late. The date of the reply which is an annexure to the Company's written statement is the date 15th February 1951. We are not aware when this reply reached the Secretary of the Press Employees' Association. In this reply the Managing Director stated :

"In the afternoon of the 7th February 1951, Mr. Gurudas Nundy was informed that from the following morning he would be required to work at the Company's associated concern, the Edinburgh Press, until further notice and was asked to call at our office next morning to collect the instructions to the above effect. Mr. Nundy called at the office next morning and before the written order, which was then being typed, could be handed over to him, he left the office without saying anything to anybody. The written instructions were, therefore, sent to him at his residential address by registered post. Since the 8th instant Mr. Nundy has not reported for

what was stated by the Managing Director in his letter to the Secretary that the written statement filed in this case was not absolutely correct. Attendance Register and the Purchasing Card which were produced before me at the hearing clearly show that the complainant worked in the Edinburgh Press up to 5 p.m. on 8th February 1951. The Managing Director had ample time to deliver the written order of transfer, to the complainant on the 8th February but this was not done. It has not been established that the complainant went to the premises of the Caledonian Printing Ltd. on the 9th February at the usual hour. The durwan has not been examined in this case. The Manager Mr. Merdue also did not debar himself to deny what the complainant had stated. The written order of transfer was despatched by registered post on 9th February 1951 at 3.30 p.m. as the postal seal on the cover, Ext. 1 indicates. The order was not possibly ready even in the morning of 9th February. If it was ready, it could have been handed over to the complainant and the present dispute would have been avoided. The registered cover was received in the post office of Chundernagore on the 12th February. On the cover there were two endorsements which indicate that the letter could not be delivered until the 13th February. The date of receipt of the letter as endorsed on the cover by the complainant himself is 15th February 1951. This has been disputed by the management. Although the complainant was verbally to report himself to the Edinburgh Press on the 9th no intimation appears to have been sent to the Manager, for if any such communication was intimated to him he would have explained the position when he reported to the complainant on the 9th February. It was quite possible that if a written order he would have been refused admission in the Edinburgh Press. By the time the written order was received by the complainant the present complaint had been started. After the matter had been placed in the hands of the Tribunal, neither party could act on their own initiative without any order from the Tribunal and the Tribunal did not pass any order without hearing both parties. The complainant was labouring under the belief that he had been discharged and the opposite party intended to discharge him on the ground that he had not complied with the order of transfer and has sought the Tribunal's permission to discharge him. It was not possible for the Tribunal to pass any order immediately without hearing the parties. The unusual delay in handing

over the written order of transfer to the complainant and the wrong impression of the durwan based on misconception or imperfect instructions responsible for the whole situation. The complainant took all reasonable steps to clarify the position but could not understand the position correctly. He had been threatened with discharge if he would decline to carry out the order of transfer. The complainant's specific allegations on this point in the written statement were confirmed by his unrefuted sworn testimony at the hearing. He apprehended that he had been discharged. This impression was confirmed by the fact that the Secretary of the Press Employers' Association did not receive any reply to the letter at least before the complaint was filed. Up to the 15th February 1951, i.e., up to the date on which the complaint was filed, the complainant was labouring under the impression that he had been discharged. He had no clear and correct information on which he could act before the complaint was filed. Immediately after the complaint was filed he could not act on his own initiative without any definite order from the Tribunal. In fact a Managing Director admits in his written statement the complainant had not as yet been discharged. Hence section 33A does not come into play.

The next question arises as to whether the opposite party should have been permitted to discharge the complainant. The complainant might have apprehended mischief but it has not been suggested that he had declined to carry out the order of transfer. The complainant was not to be blamed for his absence. The unusual delay in issuing the written order of transfer, the imperfect instructions to the durwan and the delay in replying to the position in reply to the letter of the Secretary of the Press Employers' Association were at the basis of the whole trouble, and for this the Managing Director was responsible more than any one else. I do not accordingly feel myself justified to accord any permission for discharging the complainant. I direct that he should report himself to the Edinburgh Tribunal within a week from the date when this award comes into force and there on terms and conditions as detailed in his transfer order.

The next question that arises is how the absence of the complainant should be treated. It has been suggested that the complainant appear in the last Intermediate Examination in Commerce of the Calcutta University. The examination commenced on the 28th February and ended on the 13th March 1951. It was suggested that the complainant deliberately absented himself to prepare for the examination. This he denied. The complainant could not possibly attend his duty from the 28th February to the 13th March. The absence for this period entirely from the 28th February to the 13th March shall be debited against the leave with pay that was due to the complainant up to that time. If no leave was due to him, or if the leave due to him was not sufficient to cover the absence for the period, the complainant shall be deemed to have been on leave without pay for the entire period or for the period by which the leave due to him falls short. The entire period of his absence less the period from the 28th February to the 13th March for which necessary direction has already been given shall be deemed to be leave on full wages and allowances. This award shall not operate as break in the service of the complainant. It is noted that in the event of the complainant's default to report himself within the time-limit fixed by this award the complainant shall be deemed to have been discharged without any benefit under this award.

ORDER.

2068Lab.—4th April 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 6756Lab., dated the 24th November 1950, the industrial dispute between The Crown Aluminium Works, Belur, represented by Messrs. Jeewanlal (1929), Ltd., 31, Netaji Subhas Road, Calcutta-1, and their workmen represented by Bengal Aluminium Workers' Union, 84, Lala Babu Shire Road, Belur, Howrah, regarding the matter specified in the schedule thereto was referred for adjudication to Sri G. Palit, District Judge;

and whereas the said Sri G. Palit, District Judge, has submitted to the Government his award on the said industrial dispute;

now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

The matter of an industrial dispute existing between the Crown Aluminium Works, Belur, P. O., represented by Messrs. Jeewanlal (1929), Ltd., 31, Netaji Subhas Road, Calcutta-1, and their workmen represented by Bengal Aluminium Workers' Union, 84, Lala Babu Shire Road, Belur, Howrah.

BEFORE THE INDUSTRIAL TRIBUNAL, WEST BENGAL.

PRESENT:

SRI G. PALIT, *District Judge, Chairman of the Tribunal.*

Agent for the Company: Sri S. C. Sen, Advocate.

Agent for the Union: Sri Nalini Kanta Mukherjee, Advocate, assisted by Sri Dinesh Chandra Roy, Secretary of the Union.

1. By Government Order No. 6756Lab., dated the 24th November 1950, the aforesaid dispute has been referred to me for adjudication under sections 17 and 18 of the Industrial Disputes Act, 1947 (XIV of 1947).

2. The reference was received on the 28th November 1950. The Union has written statement on the 16th December 1950. The Company filed written objection on the 2nd January 1951. No issues were framed as none were contained in the schedule of the Order of Reference. The hearing commenced on the 20th February 1951. It continued on 21st February 1951. The argument was heard on 14th March 1951. It was closed on the 15th March 1951.

3. The issues contained in the schedule of the Order of Reference stand as follows:—

- (1) What amount of increment should be granted to workers in 1950 and with effect from what date?
- (2) Is the abolition of 5 minutes' grace in attendance in the morning and after tiffin is justified?
- (3) If temporary workers are entitled to sick leave and, if so, for what period?

AWARD.**Issue No. 3.**

4. The Company refuses to grant sick leave to temporary workers on two grounds, viz., (1) that it never granted such leave to temporary workers in the past, and (2) that in the last General Engineering Tribunal of 1948 the Union's contention under this head was turned down. The Union did not appear to have pressed this matter before me for adjudication as it did not appear from its written statement. Even if it was canvassed for decision, my award would be in the negative, because the last Engineering Tribunal had turned down such contention. So this issue is disposed of without further direction.

Issue No. 2.

5. The Union claims the privilege of 5 minutes' lateness in attendance as being in existence for a period of over 8 years. This grace of 5 minutes is claimed in the morning at 7-30 a.m. and again after recess at 12-30 p.m. The Company contends that it was nothing but grace. So it is up to the Company to discontinue it at any time it pleased. The Company discontinued it with effect from the 7th August 1950, as per notice Annexure 'A' of the written statement of the Company. It, however, granted a total grace of 10 minutes in one week, either at a time or 5 minutes—twice in a week—as provided under the Major Engineering Tribunal's award, dated the 30th June 1948, as per order No. 2161 Lab. I find from the evidence that the working hour of the Company was from 7-30 a.m. to 12 noon and from 12-30 p.m. to 4-30 p.m., and on Saturday from 7-30 a.m. to 12 noon. This will work out to 47 hours of work in a week. This Company was a party to the First General Engineering Tribunal. That provides for 10 minutes' grace in a week, either on one day or on 2 days in a week. I never understand how, in the face of this award, the Union can contend as a matter of right, that the workers are entitled to come late 5 minutes or 10 minutes on all the days of the week. That will simply be preposterous. Besides, if the Company connived at the workers' lateness in attendance in the past and if it chooses not to do so from any time, the workers cannot make a grievance of that. This grace can never be claimed as a matter of right. The Company found that this grace or indulgence on its part was misused by the workers and so it abolished it by notice dated 7th August 1950. It was perfectly within its rights so to do under the award. So I turn down the Union's contention on this issue as hollow. The issue is accordingly answered in the affirmative.

Issue No. 1.

6. I am constrained to remark that the issue, as framed, exceeds the scope of the Tribunal's adjudication. The issue seems to presuppose that if some increment has got to be given; only the amount and the date of operation must be determined by the Tribunal. I, however, am inclined to think that the Tribunal's hands cannot be bound down in this respect by the framing of the issue. The Tribunal is competent to alter the issue as to comprehend in its scope the industrial dispute which had arisen at this point. In the present case I find that the Company sets its face against allowing any increment to the workers in 1950. So the Tribunal is required to see whether any increment should be given in the light of the circumstances elicited. If this is found in the affirmative, then the question will arise about its amount and about its date of operation.

Regarding the liability of the Company to pay an increment to the workers in 1950, the claim rests on two grounds, viz., (1) that the Company granted such increment in the past; it has stopped only in 1949 and in 1950 on the ground that the production by the trading position of the Company declined, and (2) that the Company was willing to grant 1 anna increment per day to all workers with effect from July 1950, and it cannot now round and say that it will grant nothing. The Company, on the other hand, denies its liability to pay any increment, because there is no wage structure which permits such increment and also because the workers are, for the whole, handsomely remunerated. The Company in its written statement signifies its preparedness to submit to any wage structure which the Tribunal might fix for the workers. Coming to the evidence I must find that there is no wage structure obtaining in the Company. I, however, cannot entertain any prayer for fixation of wage structure which has neither been mooted during the conciliation stage nor referred to me either in the order of Reference or in the written statement of the Union. So the question boils down to whether the Tribunal is competent to grant any increment in the absence of a wage structure. In this respect it is difficult to apportion the blame or responsibility on any party for absence or non-existence of the wage structure. I find that the Company has not implemented the General Engineering Tribunal's award of 1948 to which it was party. This Company figures "91" in the List No. 2 of the Award as order No. 2161Lab., dated the 30th June 1948. Though the award was published as far back as 1948, the Company has not fixed the minimum wages and dearness allowance in conformity with the said award. It has not implemented the later Engineering Tribunal's award in respect of the dearness allowance—I mean the award published on September 21, 1948, Extraordinary issue of the *Calcutta Gazette* (order No. 5860Lab., dated the 9th September 1950). On the other hand, what the Company has done appears to be that it has introduced other allowances under the name of "Special Allowance" and "Bonus" besides dearness allowance and standard wages. The Company cannot claim justification for non-implementation of the award by the introduction of those special allowances on obvious reasons. These special allowances or bonus are granted more as a bounty than by way of dearness allowance. If all these conditions of dearness allowance, then the workers could claim it as a matter of course no matter whether the Company has derived any profit or whether any particular worker has given any special outturn. But, as Mr. J. P. Singh, the Labour Officer of the Company, has admitted, the granting of increment rests in the sweet will or pleasure of the Managing Director. He deposes "There has been no fixed principle regulating the granting of increment to workers The Managing Director passes order of increment. The Managing Director grants the increment on his own discretion and sometimes of his own initiative even before demands are put out. The increment is made dependent either on the type of work done by the workers do or it is made dependent on basic wages drawn by the workers." Thus it appears that instead of granting dearness allowance according to the Engineering Tribunal's latest award, the Managing Director has chosen to hold the key in his own hands so that he could manipulate the quantum of benefit under this head and could adjust it to the output of the factory. The workers also did not choose to go in for implementation of the Engineering Tribunal's award, because they thought that any time they were getting the benefit in one shape or another. I have said all this just to show that it would not be fair on the part of the Company to rest a capital of the absence of wage structures just to defeat the claim for increment on the part of the workers. On the Conciliation Officer's report as well as from the correspondence on record I find that the Company has granted small increment year after year for the preceding 6 or 7 years.

up to 1949. So the point next arises, why should the Company suddenly put a stop to such increments. I can understand, if the Company sustains any loss or much decline in production in 1949 and 1950. That would be a reason for putting a stop to such increments. But in its written statement the Company has not stressed decline of trading position as the ground for denial of such increment. On the other hand, it stressed that the workers are handsomely paid. I do not know what limit can be fixed as to the handsomeness of payment. If the salary is linked to production, it is bound to increase if the production increases. On the other hand, the salary be in accordance with the Engineering Tribunal's award, the Company can very well fix it. But without such either, the Company cannot suddenly cry "Halt" and say that the workers have forfeited all right to any increment in wages for all time to come. The Company has placed before me a chart—Ext. I—to show the different amounts of wages that the workers in particular departments are drawing. That, however, does not make it very clear what was the minimum wage. So I may very well take it that decline in production is not the underlying cause for total denial of increment. Besides, I find that the Company at one stage of the negotiations agreed to grant an increment of 1 anna per day to all workers from July 1950. That will appear from Ext. K. The Union could not accept that offer because that flat rate increment was not welcomed by all workers, skilled, semi-skilled and unskilled. If the trading position was bad, the Company would never consent to grant any increase. So I fail to understand why the claim for increment was totally turned down by the Company either on the ground of absence of wage structures or on the ground of decline in trading position. As the evidence on record, I award the flat rate increment of 1 anna per day to all workers irrespective of any category including the piece-rated workers. I must frankly confess that this 1 anna per day increment has not been based on any actual calculation. I have arrived at this figure, because I find that the Company must grant some increment as it did in the past and because the Company at one stage of the negotiations signified its preparedness to grant it. As the Company admits that increment was granted in the beginning of the year, I grant this increment to take effect from January 1950. The arrears of increment must be paid by the Company within one month of the award coming into operation to all workers who were in the roll of the Company at the end of 1950. I must have to point out the necessity of having a wage structure fixed in this Company as a practical step just to secure durable peace in the factory. It is imprudent for the Company to have a hide-bound wage structure with so many flexible component parts of the wage, which would create unrest. It is also good for the workers to know what certain they are going to get instead of having their hopes on uncertain facts at present which may have chance to be blasted at any time the Company pleases. The issue is thus disposed of.

Public Health

NOTIFICATIONS.

Burdwan.—No. P.H.1031/2R-22/51.—10th April 1951.—Whereas the Governor is satisfied that the district of Burdwan is threatened with an outbreak of small-pox;

Now, therefore, in exercise of the power conferred by section 2 of the Epidemic Diseases Act, 1897 (Act III of 1897), the Governor is pleased to prescribe the following temporary regulations for the prevention and control of small-pox, and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with, small-pox in the said district for a period of four months.

Temporary regulations for the prevention and control of small-pox.

1. In these regulations, unless there is anything repugnant in the subject or context—

(a) "District Health Officer" means the Health Officer of the district appointed by the District Board under sub-section (3) of section 91 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885);

(b) "Sanitary Inspector" means a Sanitary Inspector appointed by the District Board under sub-section (3) of section 91 of the Bengal Local Self-Government Act of 1885;

(c) "Board" means a District Board constituted under the Bengal Local Self-Government Act of 1885;

(d) "Union Board" means a Union Board constituted under the Bengal Village Self-Government Act, 1919;

(e) "small-pox" means any disease accompanied by an eruption of vesicles or pustules;

(f) "patient" means a person suffering from or suspected to be suffering from small-pox;

(g) "medical practitioner" means any person practising the medical profession.

Notices.

2. If in any case the District Health Officer considers that the issue of a notice under regulation 20 is likely to lead to such an amount of delay as might facilitate the spread of small-pox he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reasons why such work has been carried out.

3. If any measure which the District Health Officer has, by a notice issued under regulation 20, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

Costs and compensation.

4. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the Board except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by such persons:

Provided that where the conditions which led the District Health Officer to pass such an order, are not attributable to any act or default of the person in possession of the property, the Board may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

5. The Board shall pay adequate compensation to any person who has sustained substantial damage by reason of anything done in pursuance of these regulations:

Provided that no person shall receive compensation for anything done or suffered in pursuance of these regulations if he has failed to carry out the regulations within the time specified in the order and to the satisfaction of the District Health Officer.

Location of disease.

6. When a case of small-pox occurs in the nearest male relative in attendance on a patient, or in the absence of any such relative the occupier of the house, or if the occupier is a female, the senior male inmate of the house, or if the patient is a female, the nearest male inmate of the house, within four hours of the onset of the disease, give information regarding the occurrence of such case personally or in writing or by means of a chauridar or other village watchman to the Sanitary Inspector.

7. (1) Every medical practitioner called upon to attend upon any case of small-pox shall give notice of the case by a special messenger to the nearest member of the outdoor staff of the District Board and to the District Health Officer, and the cost of such messenger in each case shall be defrayed by the Board.

(2) The doctor-in-charge of a hospital or dispensary within the district shall forthwith give notice of any case of small-pox brought to the hospital or dispensary for treatment to the Sanitary Inspector by a special messenger, and the cost of such messenger in each case shall be defrayed by the Board.

8. Presidents of Union Boards in union areas and thana officers in non-union areas shall supply to the District Health Officer periodical returns of cases of small-pox as from time to time called upon them to furnish.

9. The District Health Officer or a Sanitary Inspector may examine any person who is suspected to be, or is suffering from small-pox, in his opinion, may be infected with or may spread small-pox.

Isolation of patients.

10. When the District Health Officer or a Sanitary Inspector considers that the isolation of any patient is a precaution necessary for the protection of the neighbouring population, he may order the patient to observe isolation in the house, or order the nearest relative in attendance on the patient, or the occupier of the house in which the patient is staying, to arrange for the isolation of the patient in such a manner and for such a period as may be approved by the District Health Officer.

He shall not direct the patient to be isolated from the house unless it is, in his opinion, not possible to make proper arrangements for his isolation therein.

11. The District Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from small-pox, shall be segregated for a period not exceeding a fortnight in a manner and in a place to be approved by the District Health Officer.

12. The District Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from small-pox shall be vaccinated or re-vaccinated within a time to be specified in the order.

13. No person shall enter any place where a patient is isolated under regulation 10 without the permission of the District Health Officer or the Sanitary Inspector.

When a patient has been removed from a for isolation under regulation 10, the Board provide for him free of charge a suitable with necessary attendants, diet, etc.

No person, who is or has been suffering small-pox, shall leave the place where he been staying until he has received from the District Health Officer or a Sanitary Inspector written permission to do so.

A No person while suffering from evident symptoms of small-pox or in the convalescent stage of the disease with scabs of pocks on his face shall expose himself in any street, road, public place, shop, bazar or any place used in common by persons other than members of the family or household to which such infected person belongs or shall move from place to place unless he is proceeding to a hospital for admission and treatment.

Miscellaneous.

16 The District Health Officer or a Sanitary Inspector may require any person to allow to be searched out by such agency and within such time as may be specified in the order, such measures for disinfection of any premises in the occupation of such person or for the disinfection or destruction of any of his personal effects, as the said District Health Officer or Inspector may consider necessary.

16A The District Health Officer or a Sanitary Inspector authorised by the District Health Officer in that behalf may, during the prevalence of any outbreak of small-pox, order that any shop or other public place shall remain closed at such time as may appear to him to be necessary and may forbid the holding of any fair, festival or other gathering to which people from villages commonly or periodically resort.

The District Health Officer or a Sanitary Inspector may direct the owner or occupier of any premises to take steps to have vaccinated or re-vaccinated within a time to be specified in the order any person residing on such premises and under the control of such owner or occupier if the District Health Officer is of opinion that such person is in contact with any one suffering from small-pox.

The District Health Officer or a Sanitary Inspector may forbid any person who has been a patient of small-pox or who has to his knowledge been in contact with a patient to act as vendor of any article during a period as may be specified in the order.

No person shall carry or permit to be carried in a public conveyance a patient except in the following circumstances:—

(i) that he is so well covered with a cloth soaked in a strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500), or of saponified cresol (1 in 160) that the discharge and scabs from the lesions do not come directly into touch with the body of the conveyance;

(ii) that he is taken to the hospital direct and the conveyance does not halt at any other place for transacting any business; and

(iii) that excepting one or two attendants for the purpose of taking the infected articles to the disinfecting station no other person is carried in the conveyance.

17 Every conveyance in which a patient or a body of a person who has died of small-pox is carried shall be disinfected before it is again used. The disinfection will be effected—

(i) in the case of a conveyance carrying a patient, by the authorities of the hospital to which such conveyance leaves the hospital;

(ii) in the case of a conveyance carrying any article, bedding or other article of a patient to the disinfecting station, by the authorities of such station.

(iii) in the case of a conveyance carrying a dead body to the burial or cremation ground, by the owner of the conveyance himself and such owner shall effect the disinfection with a strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500) or of saponified cresol (1 in 160).

19. No person shall sell any article which has been in contact with a patient until it has been disinfected to the satisfaction of the District Health Officer or a Sanitary Inspector.

19A. No person shall expose in any street, shop, bazar or any public place any clothing, bedding or other article which has been in contact with a patient or shall cause or suffer such articles to be carried in any public conveyance, but nothing in this regulation shall apply to a person who transmits any such article for the purpose of having the same disinfected with the following precautions against spreading the disease:—

(i) the article is so well covered with a cloth soaked in strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500) or of saponified cresol (1 in 160), that it does not come directly into touch with the body of the conveyance;

(ii) the article is taken to the disinfecting station direct and the conveyance does not halt at any other place for transacting any business; and

(iii) excepting one attendant for the purpose of taking the infected articles to the disinfecting station no other person is carried in the conveyance.

20. The District Health Officer or a Sanitary Inspector may issue general orders that by a specified date certain sanitary precautions of a simple nature, such as lime-washing of houses, clearing of latrines or the removal of filth or rubbish shall be carried out to his satisfaction.

20A. No person shall carry or permit to be carried in a public conveyance the dead body of any person who has died of small-pox without the previous written permission of the District Health Officer, or a Sanitary Inspector and without taking the following precautions against spreading the said disease:—

(i) the dead body is so well covered with a cloth soaked in a strong solution of formalin (1 in 400), lysol (1 in 500), izol (1 in 500), or of saponified cresol (1 in 160) that the discharge and scabs from the lesions do not come directly into touch with the body of the conveyance;

(ii) the dead body is taken to the burial or cremation ground direct and the conveyance does not halt at any other place for transacting any business; and

(iii) excepting attendants for the dead body no other person is carried in the conveyance at the same time.

21. The District Health Officer or a Sanitary Inspector may prohibit persons from retaining or selling clothes taken from the bodies of persons who have died of small-pox and may cause any such clothes to be destroyed.

22. No person shall, without written permission of the District Health Officer, dispose of any corpse except by burning or burial.

23. The District Health Officer may approve burning or burial grounds and may by order direct either generally or specially in respect to any specified area, that corpses shall not be burned or buried at places other than those so approved by him.

24. Any person burning or causing to be burnt any corpse shall cause the same to be completely reduced to ashes and shall likewise cause the clothes or other articles brought with such corpse to be reduced to ashes.

25. The District Health Officer may direct that no person shall bury or cause to be buried any corpse, which in the opinion of the District Health Officer, is likely to spread small-pox, in a grave, not constructed of masonry and less than 6 feet deep.

26. The District Health Officer may order that no *dome* or other servant of the Board employed for the disposal of corpses shall withdraw from his duties without the permission of the District Health Officer unless such *dome* or other servant of the Board has given notice in writing not less than one month previously of his intention so to withdraw.

27. The District Health Officer or a Sanitary Inspector may through any person authorised by such officer or inspector in that behalf seize and dispose of any corpse which in the opinion of the said officer or inspector is infected with or is likely to spread small-pox, unless the relatives or friends of the deceased person satisfy him that they are prepared and able to dispose of the corpse in a manner which will prevent the spread of small-pox.

28. (1) The District Health Officer or a Sanitary Inspector may require any person who appears to be acquainted with facts in connection with any case or suspected case of small-pox to attend before him at a time to be stated in the order and at any place not more than one mile from the place where such person resides or is staying when the order is issued, and such person shall appear as so required.

(2) When the person summoned to appear under paragraph (1) is a female who, by the custom of the country, does not appear in public, suitable precaution shall be taken to respect the said custom.

29. (1) The District Health Officer or a Sanitary Inspector may examine orally any person who appears to be acquainted with the facts and circumstances of a case or suspected case of small-pox.

(2) When the person to be examined under paragraph (1) is a female who, by the custom of the country, does not appear in public, the officer shall take her statement under such conditions and shall admit of due respect of the said custom.

(3) Such person shall be bound to answer all questions relating to such case put to him or her by such officer, other than questions the answers to which would have a tendency to expose him or her to any criminal charge.

30. The District Health Officer or a Sanitary Inspector may, with such assistants (if any) as he thinks fit, enter upon any land, or after two hours' notice in writing, into any premises or building used for human habitation at any time between sunrise and sunset for the purpose of carrying out any measure or making any enquiries authorised by these regulations.

31. The crew of any inland steam vessel or boat which plies in any canal or river and other persons residing on such vessel or boat shall be subject to these regulations.

32. (1) All vaccinations under these regulations shall be performed gratuitously provided they be done (a) at such public vaccination stations as may be opened by the District Board or (b) by house to house visits in the case of such females as are by the custom of the country unable to attend at public vaccination stations and are too poor to pay fees.

(2) Persons desirous of being vaccinated in their own houses other than those specially exempted under sub-regulation (1) shall pay a fee of two annas for each vaccination for which they shall

get a printed receipt: provided that the amount of fees payable for any number of vaccinations performed in one family at the same time shall not exceed anna one and at the same time shall not exceed anna one.

33. (i) Orders issued by the District Officer or a Sanitary Inspector under the regulations shall be in writing.

(ii) The officer issuing such orders shall send copies of them to be served upon any person named in them.

(iii) The nearest relative of a patient occupying the house in which the patient is staying shall, if a copy of the order under regulation 10 has been served upon him, give notice to the nearest Sanitary Inspector or to his office of any disobedience of the order.

The Calcutta Electric Supply Corporation, Ltd., carries on the business of generating, distributing and supplying electricity in the city of Calcutta its industrial area and suburbs under different licenses under the Indian Electricity Act, 1910 (Act IX of 1910). The various licenses held by the Corporation were replaced in 1946 by the Calcutta and District Computed Electric License and it is under this license, which covers an area of 546 square miles, that the Corporation now operates.

Electricity supply in Calcutta began in 1895 with the passing by the Government of Bengal of the Calcutta Electric Lighting Act. A license was secured in 1896 to supply the central part of Calcutta with electricity under this Act and in January 1897 the Indian Electric Company, Ltd. was formed to take over the Calcutta Electric Lighting License granted by the Government in 1896. In February 1897 the name of the Company was changed to that of the "Calcutta Electric Supply Corporation, Ltd." and the Company has been operating in that name ever since. The area covered by the terms of the first license was only 5.46 square miles. The Company set up its first power station and associated distribution system in April 1899 at Emambagh Lane. The station had a capacity of 100 K.W. and was intended to serve the whole of the city of Calcutta. During the last 50 years the Company has steadily developed and it is due to the enterprise of the Company, which has successfully met the ever-increasing demands of the growing industrial area of the Calcutta belt, that it has risen to the great stature it presents today. Till December 1949 the Company had an effective generating capacity of 195,000 K.W. of which the old Cossipore station supplied 50,000 K.W. In 1950 a new generating station at Cossipore was started at a tremendous cost which is capable of generating 110,000 K.W. The Company states with justifiable pride: "Apart from its size, the Cossipore station will be outstanding as the most modern and efficient station in the sub-continent. The steam temperature and pressure will be higher than those in use elsewhere in India and represents a distinct step forward in power generation."

The Company counts as its customers about 7,000 industrial consumers 130,000 domestic and commercial consumers besides the Governments of India and West Bengal, the Commissioners for the Port of Calcutta about 30 Municipalities and Local Authorities. The amount of electric power sold to the consumers to the nearest million units in 1946, 1947, 1948 and 1949 were respectively 630, 610, 703 and 728. The supply to the Mills, one of the major classes of the customers of the company, varied a fall of 2 million units in 1949. The fall was, however, more than made up by the demands of the engineering and domestic consumers for public lighting.

The Company employs about 5,500 employees in 7 departments besides officials on covenants. The complements in the several departments are as follows —

1) Generating Station	1,728
2) Sub-Station Department	580
3) Main Departments	1,882
4) Construction Department	90
5) Testing Department	344
6) Commercial Department	432
7) Stores and Workshops	461
Miscellaneous	24
Total			5,541

The Union that represented the employees in this proceeding is styled as Calcutta Electric Supply Corporation Workers' Union. It appears that the Union has been in existence since 1934. There is evidence to consider that the Union officials have a healthy relationship with the authorities of the Company and there had been more than one instance of collective bargaining by the Union with the Company on the matter of dearness allowance and other terms of employment. There was a dispute between the Company and its workmen in 1947 which was referred by orders No. 239Com., dated 4th January 1947, and No. 1857Com., dated 24th April 1947, to the Hon'ble J.C.S., as Tribunal for adjudication. The employees were represented by the present Union as well as the Calcutta Electric Supply Corporation Mazdoor Union. The issues that were the subjects of the proceedings were as follows:—

- 1) Bonus.
- 2) Dearness allowance.
- 3) Basic pay and grade system.
- 4) Leave and holidays.
- 5) House rent allowance.
- 6) Old age pension and gratuity.
- 7) Reinstatement of dismissed workers.

The Award of the learned adjudicator was published in the *Calcutta Gazette* Extraordinary No. 175Lab., dated 9th June 1947. This Award increased the basic pay and dearness allowance of all employees and also improved the conditions of labour to a considerable extent. The Award on the above issues will be considered hereafter in dealing with the issues in the subsequent proceedings.

The Union in its written statement complains that in the last adjudication proceedings the learned Tribunal fixed the minimum wage at a figure just higher than that below which an individual would be undernourished, that is to say, just above the "poverty line" as defined in the report of the Central Pay Commission. It further states that since the question of fixation of fair wages has come to the forefront and the undertaking of the above Company is the fittest one where the principle for fixing fair wages should be made applicable. The Union further states that since the date of the last Award the productivity of labour has greatly increased, the workload per capita has increased, the Company's capacity to pay fair wages to its workmen, the scale of remuneration paid to its skilled workmen compares unfavourably with those of similar concerns in the locality, the workload of the clerical staff has vastly increased demanding overtime work from them, and that the place of the industry in the economy of the State is very high. It is, therefore, asserted there should be a revision of the wages stepping them up to the standard of a fair wage. The Union submitted a charter of demands on these points to the Company on 21st August 1950. The Company by its letter, dated 26th August 1950, declined to accede to any of these demands and an industrial dispute was set up which was taken up by the Labour Directorate for conciliation. The Labour Directorate failed to make any amicable settlement of the disputes and recommended, under section 12(1) of the Act, for a reference of the dispute to the Tribunal. Thereafter this dispute was referred to this Tribunal.

The Company in its written statement states as follows:—

The Calcutta Electric Supply Corporation is a public utility concern. Its operations, particularly the financial operations, are regulated by the Indian Electricity Act, 1910, and the Electricity (Supply) Act, 1948. Its accounts are submitted annually to Government and its financial operations are governed by the principles laid down in the Sixth Schedule of the Electricity (Supply) Act, 1948. By that Schedule the Company is allowed to earn a limited return, known as the "reasonable return" of the 5 per cent on its capital base, and the admissible items of expenditure allowed in determining that return are set out therein. It follows that if the admissible return to the Company is to be secured and not exceeded, its income and expenditure must be carefully adjusted. It should be the aim of a public supply company, as it has always been of this Company, to supply electricity to the public at as low rates as possible. The employees should receive wages adequate to meet the cost of living and related to the nature of work they perform. Extraordinary benefits over and above this can only result in the increase in the rates payable by the public or a demand for a reduction in rates, in both cases, to the disadvantage of the consumer. The issues at stake in this proceeding concern not only the employees, but also the general public in the domestic and industrial sphere.

Although the Company have considerable reserves, these reserves do not exist in the form of cash or liquid capital. They have all been put back into the business and exist in the form of assets detailed in the account of capital expenditure and depreciation. Any increase in the cost of labour could only be met by an increase in the charges to consumers. It is the Company's policy to pay generous but not extravagant wages. It can claim that its general service conditions, taken as a whole, are more than favourably with almost any organisation in the Calcutta area. The Company improved the standards of wages and the conditions of service in the latter half of 1946. There were still some outstanding matters of difference between the Company and its employees, and

cases were adjudicated on by Mr. R. Gupta's Award in June 1947. The award was brought about by the Company's own action and the Award of Mr. R. Gupta added to the Company's annual expenditure a sum of Rs. 26 lakhs. In January 1948 a sliding scale of dearness allowance table was introduced. This table was amended in September 1948. It was further revised in April 1949, as a result of collective bargaining with the Union in discussion with the Labour Commissioner. On three occasions the Company was entitled to reduce the dearness allowance as the cost of living had fallen. This action was not taken. In February 1950, as a result of negotiations with the Union, the Company granted the Bengal table of Commerce dearness allowance scales to certain of its employees, namely those of the middle classes. The cost of this improvement is estimated to be between Rs. 4 and Rs. 4½ lakhs per annum. Canteens have been built, equipped and operated. Besides the capital expenditure, the Company has cost the Company a sum of Rs. 50,000 per year. Medical services have been steadily improved and the gross cost of medical services for salaried staff and workers in 1949 amounted to about Rs. 1,40,000. Shops are maintained. The gross cost of the Company of this service in 1949 was about Rs. 1½ lakhs. The Company grants one month's basic salary bonus since 1945. The Company grants no less than 24 or 25 public holidays in the year in place of 8 or 10 granted by other industries.

The Company, therefore, states that there is no foundation, factual or otherwise, for the alleged discontent or distress amongst its workers. The Company's labour policy is more than fair and the employees have consistently been cared for on an ever-increasing scale. The demands of the Union are illogical and no major alteration of the emoluments structure is justified.

The issues were framed on 4th December 1950.

The appearances for the parties were as follows:—

the Union—Sri Dayaram Beri, President, Sri Deven Sen, Secretary, Sri Panchanan Bhattacharji, Assistant Secretary, Sri Ram Rup Mukherji, Organising Secretary, and other workers.

the Company—Mr. J. W. G. Church, Agent, Mr. G. E. May, Mr. D. Blake and Mr. S. Dutt, officials of the Company.

The issues framed were as follows:—

ISSUES.

22. Machine allowance for Comptometer and Adrema staff.
23. Revision of duty hours of C.H.P. Drivers.

DECISIONS.

Issues Nos. 1 to 5.

1. Revision of the scales and grades of pay of the manual and clerical workmen.
2. Adjustment and fitting in of the pay from the present scale to revised scale, if any.
3. Flat increment of Rs. 10 per month in the dearness allowance of clerical workmen drawing basic salary of less than Rs. 70 month.
4. House rent.
5. Bonus.

These issues are taken up together for convenience as they relate to principal economic demands by the Union.

The Union's claim in brief on issues Nos. 1 and 2 regarding revision of scales and grades of pay are as follows: The Award of 1947 fixed the minimum wages at the "poverty line", i.e., at the standard below which workman would be under-nourished. Since the date of the Award Government has declared the optimum of paying "fair wages" as opposed to the "minimum wages" to industrial workers and the present Company view of its capacity to pay, its place in the economy of the country, productivity of labour, and the current wages in the region should pay its workmen a fair wage and not the minimum wage as it has been doing. The Union demands that the fair wage is to be attained by increase in basic pay of the employees in the following manner: -

- (1) The minimum scale of Rs. 35—1—39 (for males and sweepers) to be replaced by a scale of Rs. 50—2—70 and the starting wages of other workmen, except the clerical staff, should be increased by 43 per cent. and the maximum should be increased by 80 per cent. with provisions for an adequate annual increment to reach the maximum of the scale at the end of 15 years.

2) (a) Two grades are availing in the case of clerks, S.B.A.'s and Repairers should be introduced for other categories of superior employees. Sub-Station Engineers and Assistant Storekeepers should get an extra pay of 10 per cent. The working hours of the clerks should be reduced from 39 to 36. Special allowance should be given to clerks at the generating stations. Compounders and typists should get a special consideration.

b The Company is more prosperous than a first class bank or a commercial concern. Accordingly the pay scales of the clerical staff except that of the Draftsmen, Compounders and Meter Inspectors should be as follows:—

Junior—Rs. 96—8 × 7 years—Rs. 12 × 4 years—200.

Senior—Rs. 200—20—400.

Switchboard Attendants, Meter Testers and Repaires should get special consideration in appreciation of the risky and arduous nature of their jobs.

c The Draftsman employed in the Company should have scales of pay as follows:—

Junior—Rs. 125—10—225.

Senior—Rs. 240—20—460.

d The Meter Inspectors should have the following basic salaries besides other allowances:—

Junior—Rs. 130—10—240.

Senior—Rs. 260—20—500.

e 1 per cent of the staff should be placed in the senior grade in all the cases mentioned above. The revision of scales of pay of the Meter Inspectors has been made the subject of a separate issue being issue No. 13.

to the fitting in of the workmen into the new scales, it is stated that reference between the starting pay of the proposed pay scales and the existing pay scales of each grade should be given as a flat increment to each workman of each particular grade and if any workman over the maximum pay of his grade, he should be placed on the next grade and each individual employee should be accorded proper concession for the number of years of service put in.

dearness allowance.—The claim in regard to dearness allowance is as a flat increment of Rs. 10 per month in the dearness allowance of other than clerical staff drawing basic wages of less than Rs. 70 per month.

house rent.—The Union claims house rent at 25 per cent. of the basic salary of a minimum of Rs. 15 per month.

bonus. The Union claims that having regard to the enormous profits made by the Company in 1949 by the increasing productivity of labour, the Company should pay 3 months' pay as bonus.

The Company filed a booklet marked Annexure C showing the basic pay applicable to the subordinate staff and workers. This booklet contains many different categories of engineering staff, clerical staff and other employees. It is stated that the grade structure is a complex one at grades recur in different departments and it has a pattern running through the whole scheme. The Company stated that grades are designed

to reward employees strictly according to their skill and the value work to the Company, that there is a long time-scale when an em skill can be considered to increase as time passes, and in other case little skill is required of the worker and he reaches optimum el quickly, the time-scale is short. The Company affords opportur promotion and its policy is to recruit workers in the lowest gra encourage development of skill. Since the 1947 Award discusse the Union have resulted in the adjustment of some scales of pay agreement was signed before the Labour Commissioner to that e 1949. The Company claims that the existing grades and time-se, more than fair and that if the workers show initiative and skill, rewards are available.

The learned Secretary of the Union Sri Deven Sen supported hi for increase of emoluments on the following grounds: The Tribunal bear in mind the concepts of minimum wage, fair wage and living deciding the question of wage to be paid to the workmen. And the Indian Constitution guarantees to all workers, agricultural, m or otherwise, a living wage and conditions of work ensuring a standard of life. He referred to the minimum wage-fixing machine lished by the I.L.O. about the estimates of the living wage in th categories, being the amount necessary for mere subsistence the necessary for health and decency, and the amount necessary to p standard of comfort (*vide* report of the Committee on Fair Wages). He also referred to the analysis of these three concepts as made Tentative Budget Inquiry conducted in the U.S.A. in 1919 by th missioner of the Bureau of Labour Statistics (*vide ibid.*, pages 7). The learned Secretary characterised the wage rates awarded by the Tribunals in the country as but assuring the minimum sul levels of income. In the present case it was asserted that the p rates of wages should not be considered as the Company was a n concern. It had secured a license for 50 years recently and it h made the basis of governmental enterprise in advancement of elect projects. He referred to paragraphs 13 and 20 of the report of th mittee on Fair Wages where it is stated—

"In the early stage of the discussions a suggestion was made members that the level of wages fixed by Industrial and Courts might be regarded as fair for the presen suggestion, which was not pressed to any great extent find favour with the Committee, for it was agreed that siderations which had hitherto weighed with Tribu Courts in fixing wages were different from those before t mittee, that a number of settlements and decisions h based on compromises and not on any set principles. the recommendations of the Central Pay Commission applied primarily to Government servants had been giv weight by Courts and Tribunals in the fixation of wage rate employment. The Committee was of the opinion rates of wages fixed by Tribunals and Courts shou obviously would, be taken into consideration by futur boards, but that the weight to be attached to them v for the wages boards themselves to decide."

"We feel that while prevailing rates of wages fixed as a proper collective bargaining will bear a close approv for the present, to fair wages and should, therefore, into account in fixing fair wages, the same cannot be

prevailing wages resulting from unequal bargaining. The wage-fixing machinery should, therefore, make due allowance for any depression of wages caused by unequal bargaining."

The learned Secretary also stated that the Pay Commission had recommended the minimum wage, i.e., the wage at the minimum of subsistence level. It was also asserted that the rates of wages fixed by Sri R. Gupta in his award mentioned above also fixed minimum wages at the subsistence levels which were anything but satisfactory. The learned Secretary then referred to the observations of Mr. Justice Heggins quoted in the Award of learned Judges in the All-India Industrial Tribunal (Bank Disputes) where it is stated that the employee was free to refuse to take work at but the minimum rate of wages. It was then stated that the objective of the Union in regard to wages of the employees was a living wage as opposed to the minimum wage and the Union, therefore, claimed the grades of pay as laid down in the Award of the All-India Bank Tribunal for clerks in Class A banks in Class I areas. This rate as mentioned in that Award is Rs. 96-6-132-174-8-190-205-9-250-10-290. It will be useful to mention here that lower rates have been laid down for Class B and Class C banks in the same area and still lower grades of wages for these three classes of banks in other areas mentioned as Class II and Class III. The learned Secretary did not consider acceptable for the clerks any grades lower than (c), (f), (g) and (h) Grades laid down for Class III Officers in the report of the Central Pay Commission at page 361. These grades are as follows:—

- (c) Rs. 80-5-120-E.B.-8-200-10/2-220.
- (f) Rs. 100-5-125-E.B.-6-185.
- (g) Rs. 100-8-140-10-200-E.B.-10-300.
- (h) Rs. 150-7-185-8-225.

It was then claimed that the size of the family, which is usually taken in these reports as consisting of 3 consumption units, was really greater and referred to the statement in Appendix III, page 42, of the Committee on Fair Wages showing the average number of earners and dependents per family with equivalent adult consumption units as revealed by the Family Budget Enquiries conducted in 1943-46 under the All-India Scheme of the Government of India. It was pointed out that the number of persons per family was 4.09 and the average equivalent adult consumption units per family was 3.43. It may be noted that this claim of the learned Secretary was not borne out by the statistics in Appendix III. It appears that in the majority of 3.43 consumption units there are 1.43 earners. One earner has, therefore, to maintain less than 3 consumption units in Calcutta according to this table of statistics. The learned Secretary then referred to some statements of wages of some commercial firms in Calcutta showing higher rates than those availing in the Company. The Union complained that the minimum grade for the unskilled worker being Rs. 35-1-39 was unsatisfactory in various ways, specially because the annual increment is awarded only for a span of 4 years and the rate of increment was too poor and that these criticisms justly applied to other grades also.

Referring to the capacity of the industry to pay, the learned Secretary drew my attention to two standpoints:—

- (1) The present condition of the Company as also its future prospects which are both very bright.
- (2) The worker had a right over the reserves as the reserves were built by joint efforts of capital and labour and from the present-day social theories it can be said to have been built more by labour than by capital.

The Award of the learned Tribunal in the dispute between Cawn Electric Supply Corporation, Ltd., and its employees was referred to, it was stated that in this Award the learned Adjudicator declared the right of the labour over the whole of the amount of the reserves when the Company was purchased by the Government, and the amount of reserve fund in the present Company is sufficiently large to meet the demands of the labour.

These points will be considered in detail. The Industrial Trade Union of December 1947 referred *inter alia* to the need for "making provision for payment of fair wages to labour"; and Article 43 of our Constitution says that the State shall endeavour to secure to all workers "work, a living wage, conditions of work ensuring a decent standard of life and full enjoyment of leisure and social and cultural opportunities". But it must be remembered that although the living wage is the target to be aimed at it has "to be tempered, even in advanced countries, by other considerations particularly the general level of wages in other industries and the capacity of the industry to pay" (report of the Committee on Fair Wages, page 1). In the report of the Committee on Fair Wages a minimum wage, a living wage and a living wage have been defined on the following lines:—

A minimum wage must provide not merely for the bare sustenance of life but for the preservation of the efficiency of the worker. For this purpose, the minimum wage must also provide for some measure of education, medical requirements and amenities. The minimum wage should have no regard to the capacity of the industry to pay and should be based solely on the requirements of the worker and his family.

The living wage should enable the male earner to provide for himself and his family not merely the bare essentials of food, shelter and clothing but a measure of frugal comfort including education for the children, protection against ill-health, requirements of essential social needs and a measure for insurance against the more important misfortunes including old age.

A fair wage is a step towards the progressive realisation of a living wage. The minimum wage standards set up the irreducible level the lowest limit or the floor below which no worker shall be paid. A fair wage is settled above the minimum wage and goes through the process of approximating towards a living wage. While the lower limit of the fair wage must obviously be the minimum wage, the upper limit is equally set by what may broadly be called the capacity of industry to pay. This will depend not only on the present economic position of the industry but on its future prospects. Between these two limits the actual wages will depend on a consideration of the following factors:—

- (i) the productivity of labour;
- (ii) the prevailing rates of wages in the same or similar occupations in the same or neighbouring localities;
- (iii) the level of the national income and its distribution; and
- (iv) the place of the industry in the economy of the country.

It appears from the report of the Award of the learned Adjudicator of the All-India Industrial Tribunal (Bank Disputes) that for certain classes of banks not more than the subsistence level was laid down and for other classes rates of pay, etc., approximating to the living wage were laid down and between these two classes there was another class which was made to pay something higher than the subsistence wages. These are the classes

Class A and Class B banks in respect of emoluments for employees as set by the Tribunal. For the purposes of this Award the learned Judges classified the banks, both scheduled and non-scheduled, in three classes as follows:—

- A.—Banks having average working funds of 25 crores and above;
- B.—Banks having average working funds below Rs. 25 crores and up to Rs. 7½ crores; and
- C.—The banks having average working funds of less than Rs. 7½ crores.

The Tribunal, it appears, fixed the basic salaries on the cost of living figures of the working class of 1944 as the base. These cost of living figures as accepted for the region of Calcutta are the same as have been published in the Monthly Extracts of Statistics of the Government of India for the base of August 1939 equal to 100 for Calcutta. It may be mentioned that these figures are the same as those compiled by the Labour Directorate of the Government of West Bengal and which are relied upon by the Commission in fixing the sliding scale of dearness allowance according to the variation of the cost of living index. This cost of living index figure in 1944 was 279 with a base of August 1939 equal to 100. It, therefore, appears from the Award of the Bank Disputes Tribunal that the wages were fixed at the living wage standards for the Class A banks, for the subsistence standards in Class C banks and a standard between these two limits for the Class B banks. These standards for the clerical staff for the three classes are as follows:—

The learned Adjudicators state at page 68, 2nd paragraph:—

"In cases where the question of the applicability of an existing of pay, on the ground of its greater attractiveness, is no from doubt, it would seem advisable for the bank to give employees, or such of them as are concerned, an option, as as possible after the publication of this Award, of whether they would rather come under the existing scales of pay; and on such option being exercised, action be taken accordingly. But it must be understood that the scales and scales of dearness allowance laid down here to form a combined scheme and no employee should be held on e.g., to choose the old scale of pay and the new scale of de allowance, or *vice versa*, though no one would be pre from entering into any agreement with his employer on lines or any other lines regarded as suitable or advantageous.

It is, therefore, clear that the scales of basic pay as mentioned above cited by the learned Secretary of the Union cannot be considered as its complement of dearness allowance, and the pay scales and dearness allowance laid down in the Award together form a con scale. It is, therefore, necessary to consider also here the wage in the context of the dearness allowance allowed in this Award. Th of dearness allowance allowed by this Award is as follows:

Amount of monthly pay.

On every rise of 10 points in the cost living index figure above the level 1944 (calculated to the nearest *annas* and the *maush* being converted to the base 1944-10

	Per cent
Up to Rs. 50	9½
Thereafter up to Rs. 100	8½
Thereafter up to Rs. 150	7½
Thereafter up to Rs. 200	6½
Thereafter	5

The Award gives an illustration as to how the scale is to be applied mentions that for an employee earning Rs. 150 per month as a ba the total dearness allowance of the scale at a cost of living index fi 300 at Bombay (index figure for 1944=226) would amount to 1 in all. It may be mentioned that calculations show the same allowance would be available to an employee enjoying the same salary in Calcutta for a cost of living index of 370 (index for 1944=279). Under the Bengal Chamber of Commerce scale as in this industry an employee with a basic salary of Rs. 100 Rs. 118-12 as dearness allowance at a cost of living index of 370 noticeable that in this adjudication the Union did not claim an al of the scale of dearness allowance as allowed by the Comp the clerical and other staff, although they claimed a flat inc Rs. 10 per month in the dearness allowance to workmen other than staff drawing basic wages of less than Rs. 70 per month. It is be considered if the dimension of the Company is compar a banking concern of Class A as defined by the learned Adju Banks having an average working fund of Rs. 25 crores or ab been classified as Class A banks. The "capital base" and the "re return" as defined under the Electricity (Supply) Act, 1948. Company were agreed with the Government of West Bengal for 1949. This "capital base" was £15,378,578 or, in other words, 1 of pounds sterling. The Company's accounts are at the exchange 1s. 6d. to the rupee, that makes 1½ crores pounds near abou crores. It is, therefore, clear that a bank of Class A has a

exceeding the capital base of this Company and the present Company compared to a bank of Class B with average working funds of Rs. 7½ crores and Rs. 25 crores. The claim that the present bank ranks higher than a Class A bank as defined in the Award of Bank Disputes Tribunal is not justified for several other reasons. There is no restraint on the profits earned by a bank under a Statute as in the case with an Electric Supply Company under the Electricity Act of 1948, which restricts the profit to a reasonable return as in paragraph XVII of the Sixth Schedule. The "reasonable" means in respect of a year of account and an amount equivalent to 7 per cent of the capital base and two other items not material in the case. In 1949, the Company distributed a total dividend of 10 per cent on the ordinary stock. Under the Sixth Schedule of Electricity Act, 1948, the "clear profit" in any year shall not as far as it exceeds the amount of reasonable return. Excess to the extent of 3 per cent of the reasonable return is allowed, but in such cases one-half of such excess not exceeding 7½ per cent of the reasonable return shall be disposed of the undertaking and of the balance one-half is appropriated to a reserve and the other half is distributed in the form of appropriate rebate to consumers. No such provision of limitation of profit or diminution of the claims on the customers has been provided for in the Statute in regard to banks.

In the present condition and the future prospects of the Company, it is the opinion that they are bright, but that does not show that the Company will be able to override the provisions of the Electricity (Supply) Act, 1948 in regard to its total profits in the year. Under Section 22 of the Indian Electricity Act, 1910 (Act IX of 1910), the Company has an obligation to supply energy to every person within the area of supply on application at fixed rates. The Company is, therefore, bound to increase its activities for the benefit of the public under the Act.

This requires some reserves to be maintained by the Company for its operations. Then again, as the reasonable return is a fixed percentage of the capital base and the capital base deteriorates in value on account of depreciation, the Company would be obliged to increase the capital base from year to year to maintain the previous quota of profit after depreciation. That again requires ever-increasing capital and expenditure requiring reserves. These are some of the factors that discriminate the Company from a Class A banking company as defined in the Award of the learned Tribunal on the Bank

The learned Secretary of the Union pressed with some vigour the claim of the worker to the reserves of the Company. It is stated that "the claim that they have a right to the reserve fund in the liquid form and more so in the invested form. For reserve fund is a residue which the worker has got its due. Reserve is not created by depriving capital of its share. It is the claim of capital—as really it is in the present case. If the reserve fund has been created on the basis of restraint imposed upon itself in the matter of distribution of dividend, then the labour can also claim that reserve fund has been created because of the restraint imposed upon itself by not demanding up till now the amount of fair wage or living wage. The wage structure obtaining in the Calcutta Electric Supply Corporation is no more than subsistence level, it is on the poverty line." I shall consider the details as to the reserve fund hereafter, but it will be discussed as to whether on the basis of the labour has got any right on the reserves accumulated by the Company by restraint on dividends.

The Cawnpur Electric Supply Corporation, Ltd., was purchased by the Government of U.P. on 16th September 1947. The proposed transfer of the undertaking was a matter of much concern to the prospective employees who were anxious that such transfer should not operate to their disadvantage. After failure of negotiations between the workers and the Company in yielding any results, the Union of workers formulated their demands on 4th March 1947, and the dispute was referred by the Government under section 3 of the U. P. Industrial Dispute Act, 1947, for adjudication. The dispute comprised 5 items of which the first is what concerns us and it was as follows:—

- (1) From out of the reserve funds accumulated by the said company are its employees entitled to any gratuity by way of profit sharing; and, if so, what amount and under what terms and conditions?

The Award has been reported in 2 Labour Law Journal, page 1 (April 1950). A summary of the Award is available in the Indian Labour Year Book, 1947-48, published by the Government of India, Ministry of Labour, at pages 230 and 231. The contentions of both the parties as well as the decision of the Adjudicator as appearing in the summary of the Award are as follows:—

"The employees' contention was that the Corporation was paying bonus to them since 1916; the rate of bonus was linked with the dividend; reserves were created out of profits; the contribution made by labour towards production was not fully compensated; and a big slice of it was distributed among various factors of production. The employees claimed a share in this reserve on the ground that they have been sharing profit in the shape of bonus and that the reserve was built up out of the profit.

The employers' arguments were (i) that if any contribution was made by labour towards the coffers of the concerns, such contribution should be considered as a part of profit, and that according to the general spirit in which business is done all over India, the workers were more than compensated for any contribution that they had made; (ii) that bonus was an *ex-gratia* payment and its linking with profits did not mean the recognition of the workers' claim for bonus and that the payment of bonus was not the term of employment and, therefore, employees could not claim bonus as a matter of right; and, therefore also a share in the reserves.

The Adjudicator did not accept the proposition that bonus was an *ex-gratia* payment nor the contention of the employers that payment of bonus was not an expressed condition of employment. He held that 'the employees, by the past action of the employers, were led by the implication that they would get a share of the profit in the shape of bonus at the close of every year; and that the employers had established an implied contract between the employers and the employees for the payment of bonus which is closely connected with the claim of the employees forming the issue under discussion'.

Proceeding, the Adjudicator observed that the sharing in the annual profit had been accepted as a legitimate claim of the workers and that this claim had been further strengthened by linking the annual bonus with the annual dividends. Since the annual

put in the reserve had not been paid as dividend, no bonus could have been distributed on that account. After the winding up of the Corporation, the reserves would cease to exist for the purpose for which they were held and will be converted into profits on which, if not awarded, the employees will lose claim. The Adjudicator, therefore, came to the conclusion that the employees were entitled to these reserves and recommended that the employers of the Cawnpore Electric Supply Corporation, Ltd., Cawnpore, should distribute 50 per cent. of the reserves after meeting liabilities, if any, against them, to the employees proportionately taking into consideration their length of service and salary after they close their accounts for the current year. The party taking over the Corporation should consider it a liability against the Corporation."

learned Adjudicator, therefore, awarded for distributing 50 per cent. of reserves after meeting liabilities to the employees proportionately, taking into consideration their length of service and salary, after they close their accounts for the year. It appears that Cawnpore Electric Supply Corporation, Ltd., thereupon filed the Original Suit No. 3 of 1947 in the Hon'ble High Court of Judicature at Allahabad, questioning the Award of the learned Adjudicator and the order of the U.P. Government, dated 20th June 1947, enforcing that Award. The suit was heard by the Hon'ble Judges of the Court and the decision as to whether the Award given by the Adjudicator was invalid was in brief effect *inter alia* "It was not, however, for the Court to consider correctness of the Award. The Adjudicator was not, however, bound by the rules of evidence and we do not know what material was placed before him at the enquiry. It has not been suggested that he acted otherwise than in good faith, and it appears to me that we have neither power to review the evidence nor to say whether the Adjudicator came to the right conclusion." The answer to the issue as to whether the order of the U.P. Government, dated 20th June 1947, enforcing the Award was illegal was made in the affirmative and in the result, the suit was decreed with costs against both the defendants, being the Government and Union of employees, declaring the order of defendant Government, dated 20th June 1947, with the exception of sub-paragraph 3, as illegal and void. The sub-paragraph 3 in question was, as will be seen from a copy of the judgment, an order upon the Company not to employ any of its employees for two months from the date of the Award. A permanent injunction was also issued restraining the defendant Company from enforcing or acting upon, and the defendant Union from enforcing, or seeking to obtain enforcement of, the Award or any part of the order which was declared to be illegal and void. It is, therefore, clear that the Award of the learned Adjudicator in the dispute between the Cawnpore Electric Supply Corporation, Ltd., and its employees giving a right of the employees to a 50 per cent. of the reserves of the Corporation at the date of the transfer was set aside.

As has been mentioned above, the judgment of the Hon'ble High Court is silent as to the propriety of the order of the learned Adjudicator giving a moiety of the reserves to the employees, as was made in the Award on the ground that it was not competent for the Hon'ble Court to interfere with the evidence or to say whether the Adjudicator came to the right conclusion. As the matter was pressed before me by the learned counsel for the Union with some emphasis and it involves a question of great importance, I consider that the propriety of the order of

the learned Adjudicator in the Cawnpore Electric Supply Corporation Ltd., dispute demands further consideration. The same question arose before Sir H. B. Divatia, President, Industrial Court, Industrial Tribunal, Bombay, in reference No. Aj-IT 8 of 1947 in the industrial dispute between the Bombay Electric Supply and Tramways Co., Ltd. of the surplus assets of the Company. The Company was being wound up and its business was taken over by the Bombay Municipality. The case has been reported in *Bombay Labour Gazette*, December 1947, page 474, and a summary of the Award appears in the Indian Labour Year Book, 1947-48, page 229. The merit of the claim of the workmen on the surplus assets was considered in detail in this Award of the learned Adjudicator and the workmen's claim was rejected *in toto*. The Award of the Adjudicator in the Cawnpore case was considered in detail and was not supported. The demand of the workmen was made on two grounds (1) legal and (2) equitable. The learned Adjudicator rejected the workers' claim on the legal ground because he held that the employees had no legal claim on the assets and capital of the Company at the time of distribution in winding up proceedings as it was against the provision of sections 30 and 211 of the Indian Companies Act. In connection with the claim of equity the Tribunal observed *inter alia* as follows:—

"That every industrial undertaking requires for its successful operation the joint efforts of those who supply money and those who supply labour will not be disputed by any one at the present day. It cannot also be disputed that the workers are entitled to a fair living wage which should be a first charge on the industry subject to its capacity to pay. It follows as a necessary corollary for these propositions that workers have an industrial claim of an equitable, though not of a legal, right to ask for a share in those profits of the industry to which they have contributed by their labour, especially so if the wages have not reached the living wage standard. It is on this standpoint that employees have an industrial claim for an annual bonus from the surplus profits of the industry. * * * It is for that reason that workers are being given bonuses which are *ex-gratia* payments from the standpoint of civil law, but are equitable claims from the standpoint of industrial relations.

The moral or the equitable right of the employee to get a share of the profits is not due to his status as a partner in the undertaking, but to the obligation of the employer to pay an equitable share in the surplus profits in the form of a bonus on the ground that even the living wage is generally not sufficient to enable him to save money for extraordinary expenditure. It must, however, be clearly understood that the employee is not entitled to such a share on account of the contribution which he has made by his labour to the increased profits of the undertaking in which he is working."

The Tribunal did not accept the stand taken by the employees that demand is made for the present working class of the Company represents the past and present workers just as only the present shareholders are entitled to a share in the assets. It is observed as follows:—

"The basis of the argument is that the present workers and shareholders are representatives of their predecessors and as

stand in their shoes. The present shareholders no doubt represent their predecessors in law because excluding those who are shareholders from the beginning of the Company, the rest have purchased the shares at their market value and have thus acquired the right, title and interest of their predecessors. By virtue of such purchase they are entitled to have their names entered in the register of shareholders. * * * Can the same thing be said of the present body of workers? The answer must be in the negative. Neither in law nor in equity can they represent the workers who have left the Company's service."

eding, the Tribunal stated that it did not agree with the same finding made by the recent Award of the Cawnpur Electric Supply Corporation Ltd. It remarked that the main ground on which the demand for a share in the reserve funds was granted by the Adjudicator was that in the opinion of the Adjudicator there was an implied contract that in the event of the winding up of the Company the share of the profits of the Company would be divided between the shareholder and the employees was created by the conduct of the company in linking up bonuses with dividends for a long period of years. The circumstances were sufficient to distinguish the case from the Cawnpore Award. The Tribunal did not agree with the assumption of the Cawnpore Adjudicator that the present employees represented the past workers and as such were entitled to all the accumulated profits of the past. The Tribunal observed as follows:—

My view that the present employees are not entitled to a share in the Company's profits including its reserves and capital assets does not mean that the employees are not entitled to anything out of the profits of a Company in addition to their wages and salaries. Their industrial claim to bonus out of surplus profits is now being recognised as an equitable right, although the exact amount of bonus depends on the capacity of the Company to pay. But this should be settled out of the profits of a particular year and once that is settled either by agreement or adjudication, the employees have no further claim over the reserves which are required to be set apart for future contingencies. If such a claim is recognised, it is likely to lead to disputes as to the manner in which reserves are being spent and possibly to the disappearance of the reserves themselves. Instead of industrial peace there will be constant friction between the employers and employees with allegations of creation of secret reserves out of profits and extravagant use of reserve funds. Even in England the present Socialist Government has recently nationalised the mining industry and the Bank of England, but in the winding up of the various Companies concerned, so far as I know, no demand or grant has been made in favour of the employees for any share in their reserve funds or capital assets.

• * * * *
 out sharing schemes for workers are also being applied in recognition of the workers' right to a share in annual profits. But the workers' demand for a share in the reserve funds, and capital assets on the winding up of a Company is not only novel but inconsistent with the provisions of law as embodied in the Indian Companies Act. The principle underlying the

demand vitally affected the whole public of India including shareholders and workers. Such a far-reaching demand should not, in my opinion, be decided through the mentality of piecemeal adjudications for different industries in different centres, but can be appropriately dealt with by legislation. If the general opinion in the country is in favour of this ideology, it is better that in the interest of industrial stability and uniformity, it should be implemented by amending the provisions of the Indian Companies Act or by special legislation and not left to be decided by the individual opinions of different adjudicators. For all these reasons I recommend that this demand should be rejected." (*Vide Labour Gazette* page 480.)

This Award of Sir H. B. Divatia was made on 19th November 1947. In my opinion of Sir H. B. Divatia, one of the ablest exponents of industrial law in this country, deserves great respect and I entirely agree with him. There is also no question of payment of bonus linking with profit in the present case. In any case, it will be obvious that the workers cannot legally or equitably claim to add to their emoluments by drawing on the past reserves of the Company which, as will be found in the present case, were all utilised in capital investment for the furtherance of the business of the Company. The claim of the learned Secretary of the Union that the workers have a right to the reserve fund in the liquid form of the invested form is, therefore, unworthy of support.

I shall now consider the claim as to the revision of the pay scale set up by the Union. There are two principal grade scales in the senior and junior scales as mentioned below and they have been applied to a number of occupations:—

(1) Clerk, Senior	} Rs. 146-6-170(B)-10-1
Motor Reader, Senior	
Draftsman, Senior	
Assistant Inspector (Testing Department)	
Repairer and Tester	
Assistant Storekeepers	
Workshop Supervisor	
(2) Clerk, Junior	} Rs. 70-5-110(B)-5-1
Motor Reader, Junior	
Draftsman, Junior	

(3) Switchboard Attendant, Senior—Rs. 170—10—240.

Switchboard Attendant, Junior—Rs. 80—8—120(B)—8—160.

(4) Junior Foreman—Rs. 80—10—140.

Telephone Operator—Rs. 105—5—140.

no junior and senior scales for the clerks are, therefore, of a tentative character as to the emoluments paid to the middle-class employees in this Company. The scales for the workmen will be considered in view of the argument of the learned Secretary for the Union who claimed that the scales of pay for clerks awarded by the learned Adjudicators of the Bank Tribunal were satisfactory and representing wage standard, a close comparison between the scales mentioned and that awarded by the Bank Tribunal becomes relevant. The learned Adjudicators of the Bank Tribunal already mentioned that the learned Adjudicators of the Bank Tribunal fixed the wage scales of clerks of Class A banks at the living wage standard, of Class C banks at the subsistence level standard and of Class B banks at a standard between these two limits. The wage scales of Class A, B and C banks were laid down in 3 classes in regard to cost of living indices in different territorial areas. Class I, Class II and Class III, which represented different cost of living indices in different territorial areas. Class I is comprised in Class I area. The wage scales were fixed at the living index of 1944 taken as the base, which for Calcutta was 279 the base of August 1949=100. I have also observed above that in classification of banks as made by the learned Tribunal, the present Company would come under Class B bank, if at all a comparison of a with this Company was permissible and not with a Class A bank as claimed by the learned Secretary for the Union. The scale laid down for Class A bank in Class I area is from Rs. 96 to Rs. 290 covering a period of 25 years and that for a Class B bank of the same area is from Rs. 100 to Rs. 285 over the same span of 25 years. I shall compare the scale laid down for Class A bank in Class I area with the wage scales prevailing in the Company and the claim for the wage scales made by the Union. The Company grants dearness allowance at the Bengal Bank of Commerce scale with a minimum of Rs. 65 for the present Company's circular, Annexure M, dated 18th February 1950), as awarded by the learned Tribunal of the bank dispute awarded dearness allowance at certain percentages of the basic salary as mentioned above. The first point to be observed is that the pay scale laid down by the Bank Tribunal is at a cost of living index of 279 whereas that fixed by the Company is at a cost of living index of 180, as dearness allowance is granted for indices above 180. For a cost of living index at 279, the Tribunal Award will give the clerk no dearness allowance whereas the Company will grant a dearness allowance of Rs. 35 to an employee on Rs. 70 as the basic salary making the total emolument in basic salary and dearness allowance Rs. 105. At Rs. 150, the dearness allowance is Rs. 62-8 and at Rs. 250 it appears to be Rs. 81-4. The wage scale of the Company is Rs. 70 to Rs. 140 at a cost of living index figure 180 appears to be one of Rs. 105 to Rs. 200 and odd and that of Rs. 146 to Rs. 240 appears to be one of a little over Rs. 200 to Rs. 330 and odd. If the scale of the Company be considered to be a composite scale it will, therefore, be higher in amount than that awarded by the Bank Tribunal.

bonus awarded by the learned Adjudicators of the Bank Tribunal follows:—

• to 4 per cent dividend—Nil.

• every increase of $\frac{1}{2}$ per cent. in the dividend over 4 per cent.—One-sixth of a month's pay.

The Company granted a dividend of 6 per cent. to its shareholders and I have not been informed that it ever granted a higher rate of dividend. At this rate of dividend the Bank Tribunal Award will be only two-thirds of a month's pay as bonus to the employees. The

present Company has been paying bonus at the rate of one month's pay to all its employees and although it may be stated that the pay under the bank Award is higher than that in case of the employees of the present Company, the bonus on a dividend of 6 per cent. is one-third of Rs. 96) Rs. 64, whereas a bonus of month's salary would be Rs. 96.

It, therefore, appears that, if the two grade scales of basic pay allowed by this Company for the junior and the senior clerks be considered to be one continuous scale, it does not reflect a standard of living higher than that envisaged in the Award of the Bank Tribunal. In Chapter I of the Award of the Bank Tribunal, it has been directed that an entry bar is to be placed between the 17th and the 18th years of service in the case of all employees. The scale of Rs. 96 to Rs. 290 is, therefore, practically broken up into two scales of Rs. 96 to Rs. 205 and from Rs. 214 to Rs. 290. These scales conceived at a living index figure of 279 do not show any comparison with the scales provided by the Company at the cost of living index figure at 180 with the Bengal Chamber of Commerce scale of basic pay and dearness allowance. The scales do not, therefore, merit the approval representing only the subsistence level of income as was put forward by the Union.

The scales claimed by the Union have been mentioned above. The claim for the clerical staff is—

Clerks—

Junior—Rs. 96—8 × 7 years—12 × 4 years—200.

Senior—Rs. 200—20—400.

For Draftsmen—

Junior—Rs. 125—10—225.

Senior—Rs. 240—20—460.

Meter Inspectors—

Junior—Rs. 130—10—240.

Senior—Rs. 260—20—500.

The scale demanded for the clerks, not to speak of the other scales, is much higher than the scale adopted by the Bank Tribunal for a clerk in Class A bank in Class I area. The annual increments also are far higher than those mentioned therein. The Union does not raise any question of dearness allowance for the clerks of the other middle-class employees. It is anxious to retain the Bengal Chamber of Commerce scale of dearness allowance for a cost of living index figure at 181 and upwards. I do not consider that the claim of a revision of the basic wage scale made by the Union before this Tribunal is justified.

The claim for the Draftsmen for a higher scale of wages than that of the clerical staff does not appear to me to be justified. The representative of the Company told me that there are 50 Draftsmen in the Company and as many as 46 of them are engaged in copying the plans of the city of Calcutta made by the Survey of India, and that one Draftsman who gets special scale of pay in view of the superior nature of his job. I have not been able to be satisfied that the work of a draftsman in this Company is more difficult or requires more knowledge and skill than that of a clerk and a claim for a higher amount of pay for such an employee is not, to my mind, justified. The same conclusion as to the scales of pay of Meter Inspectors. This question will be considered in details in another issue.

next consider the ~~case~~ of the basic salaries of the subordinate grades. There are a number of scales in the subordinate grades as mentioned in Annexure C of the Company. The employees in the Sub-Stations, Testing Stations, Mains Department, Construction Department, Testing Department, Central Stores, Central Workshops and Stores Department represent numerous categories of varying degrees of skill and arduousness of jobs. The subordinate staff in a bank consist of only but a few grades of the nature of durwans, bearers, messengers and the like. The Union complains that the minimum grade consist of a scale of Rs. 1-39 with an increase of only Rs. 4 in a span of 20 or 25 years service. This really appears to be the grade of the muli, sweeper, cook, lamp lighter. There were also some scales with a maximum basic salary of Rs. 128 per month and between these two grades there were various grades as will be found in Annexure C. The principal grades are as follows—

- 1. 95-3-128.
- 2. 90-3-114.
- 3. 85-2-107.
- 4. 49-2-83(B)-2-89.
- 5. 73-2-93.
- 6. 49-2-83.
- 7. 49-2-73.
- 8. 79-1-74(B)-1-59.
- 9. 41-2-63.
- 10. 40-1-49 (for the head cooly).
- 11. 37-1-52.
- 12. 37-1-45 (for the cooly).
- 13. 35-1-43 (canteen cooly).

Gratuity allowance in force at present varies according to salary and follows—

upto Rs. 50	... Rs. 50.
from Rs. 51-69	... Rs. 60.
from Rs. 70-100	... Rs. 65.
from Rs. 101-150	... Rs. 72.

Bank Tribunal Award, the basic salaries of the subordinate employees follows—

<i>Class A.</i>		
Class 1 Rs. 60-1-74-1½-80.
<i>Class B.</i>		
Class 1 Rs. 50-1-70-1½-85.
<i>Class C.</i>		
Class 1 Rs. 52-½-59-1-60.

Working class cost of living index in Calcutta with a base of August 1940 for 1950 is given in Appendix A. The average for the whole

year appears to be 349. For a basic salary of Rs. 60, the dearness allowance available according to the Bank Tribunal's Award will be Rs. 11. The total emolument is, therefore, Rs. 71 and not more. A mali, sweeper or a cook is not really a workman of the industry, but is an employee of the domestic variety. Even then such a servant of the Company will get Rs. 85 per month along with dearness allowance. There are also in the grades of subordinate employees for a bank as mentioned in paragraph 1.

I shall now consider, if the claims of the Union can be met by the Company from the reserves or the recurring net revenues. The estimate of additional expenditure involved in this proceeding, if the demands of the Union are met is mentioned by the Union in its supplementary statement, dated January 1951, in Part H and it is as follows:—

	Per month	Per
	Rs	R
1. Basic salary, if increased on average by 60 per cent. after adjustment in the new grades and opening new grades for Meter Inspectors, Draftsmen, Compounders, etc.	2,17,800	24
2. House rent—		
At Rs. 15 for 3,000 drawing less than Rs. 60—Rs. 45,000	90,750	10
At 25 per cent. of pay for 2,500 above Rs. 60—Rs. 45,750		
3. Dearness allowance for 3,500 staff drawing less than Rs. 70 ..	35,000	4
4. Graduates 40 × Rs. 20	800	
5. Adrema and Comptometer	230	
6. Overtime for clerks and Meter Inspectors and road allowance	5,000	
	3,49,580	41
		(or 1111)
7. For bonus of additional two months	7,26,000	
	(£51,793)	

The total of these amounts as stated by the Union appear to be £90,000. There is no doubt that this is a recurring expense. The Company's supplementary statement shows that the total wage bill over the employer's question in 1949 was as follows:—

	£
Basic Pay	342,022
Dearness allowance	269,882
Overtime	99,144
Company's contribution to Provident Fund	21,732

Total	733,070

possibly does not include the bonus which will be in the region of 000.

The balance sheet for 1949 may be considered in appreciating the financial position of the Company. It is to be noted that for 1949 the Government of West Bengal ratified the capital base and the reasonable return as follows in the Electricity (Supply) Act, 1948:—

Capital base—£15,878,785.

Reasonable Return—£768,939.

The revenue account shows £1,146,136 as the amount to be carried to the revenue account.

The net revenue account shows—

	£
Dividend payments at 3 per cent. plus 3 per cent. ...	255,758
Dividend on preference stock at 5 per cent. ...	76,000
	<hr/>
	331,758
The other expenses are income-tax ...	120,000
Cost of issue of shares ...	60,000
	<hr/>
	180,000

The reserves kept are—

(1) Contingency reserve ...	103,274
(2) Retiring gratuity fund ...	35,000
(3) Provision for taxation in respect of initial allowances ...	428,144
(4) Balance carried to the balance sheet ...	158,506

1,146,136

plus £91,429(A),

and (A) being the balance from 1948 account. The income-tax paid in 1948 was £465,000, whereas in 1949, out of the total payable tax of £144 a sum of £120,000 was only paid and the rest of £428,144 was met as remission by way of initial depreciation under section 10(2)(vi) of the Income-tax Act. The Company admits that the excess of the clear profit over the reasonable return in 1949 was £209,803. The total clear profit was, therefore, £978,742. The excess of the clear profit over the reasonable return authorised by the Government of West Bengal has been utilised by the Government to be utilised as a special appropriation under paragraph XVII(2)(c)(ii) to finance the machinery of production in order to increase clear profit and reasonable return. As the items of expenditure authorised by the Electricity (Supply) Act, 1948, are not clearly discernable in the balance sheet, the calculation of the clear profit is made from the net profit of the Company. The learned Secretary of the Union pointed out that the excess of the clear profit over the reasonable return and that of the reasonable return over the amount necessary for the service of the plant could be utilised for the service of labour. The Secretary in his

additional written statement, dated 15th January 1951, related that following amounts were thus available:—

	£
Balance in 1949	158,
Excess of clear profit over reasonable return in 1949	200,
Excess of reasonable return over money required for service of capital	437,
Saving in coal in 1950	130,
Total	935

The learned Secretary also claimed that the amount set apart for provision for taxation in respect of initial allowances in the next revenue account 1949 being £428,000 will also be available, at least partially, for the service of labour. The excess of reasonable return over the money required for service of capital includes the balance of 1949. The saving on coal in 1951 is stated by the Company in its statement, dated 1st February 1951, to be only £38,000. The Company states that this saving on coal will be more than cancelled by the additional wage bill at the new Cossipore Generating Station the employees of which were considerably increased in 1950. The Union made no reference to the latter factor as the figures of 1949 appearing in the balance sheet of 1949 were mainly considered in the preceding. I have stated above that the amount of money required for servicing of capital in 1949 was £331,758. The amount of £128,144 kept as a reserve provision for taxation in respect of initial allowances, the amount carried to the balance sheet was £158,506. This last sum is necessary for the conduct of the business as a surplus from the previous year. As to the savings from initial allowances, the Company suggests that the amount will be extinguished when there would be increased taxation in future years and the initial allowances do not afford the assessee any permanent relief from taxation. Section 10(2)(vi) grants an initial depreciation allowance to the extent of 20 per cent. of the cost in respect of a machine or plant and 10 to 15 per cent. in the case of buildings in the year of installation over and above the normal depreciation allowances for such items at the scheduled rates. The depreciation of 20 per cent. on the plant and 10 to 15 per cent. of the buildings at Cossipore Generating Station which mainly accounted for an addition of £3,822,719 in the account of capital expenditure and of depreciation in 1949, earned for the Company a remission of income-tax on the initial depreciation to the extent of £128,506. Twenty per cent. or 10 to 15 per cent. depreciation over and above the normal depreciation is a pretty large amount. Under proviso (c) to the sub-section mentioned above, the aggregate of all allowances shall in no case exceed the original cost to the assessee of the buildings, furniture, plants, machine or as the case may be. The normal annual depreciation for electric power machineries and boilers is 10 per cent., meaning that at near about the end of the 13th year the total depreciation will approach 80 per cent. On account of the initial depreciation allowances no further depreciation will be allowed for such machineries. The tax deducted for the initial allowances will be extinguished in setting off the increased taxation for loss of depreciation allowance. The Company states that the initial allowances accelerate the grant of depreciation which would in any event be given later. According to the table as to depreciation of assets in paragraph XVII of the First Schedule of the Electricity (Supply) Act, the life of the machineries concerned appears to be 25 to 35 years or more. The Company will, obviously, get no depreciation allowance for the rest of the life of the machine.

I, say, the 13th year. The same will be in regard to the buildings. A £209,803 has been allowed as a special appropriation by the Government to finance the expansion of machinery and production. The Company says that this appropriation has been made from the savings out of allowances. As the enterprise of the Company will have to involve purchases and installations, the short allowances of depreciation in years resulting from the allowances for initial depreciation is expected to be compensated for by initial depreciation of the new purchases in the years. Although the Company is well-advised in treating with the amount of savings by way of initial depreciation, there is no immediate need of keeping them for future taxes and this should properly be vested in new purchases, as a substantial portion of this amount has been utilised by the Company with the sanction of the Government of West Bengal. It is to be noted that the total income-tax paid in 1948 was £1000 and that for a less profit than 1949. It can be considered that in coming years the total tax payable will be above £500,000 assuming that profits will not dwindle. That being so, the clear profit in the future will be much less than it was in 1949 when a greater amount of tax will be payable unless there is again a saving on account of initial depreciation allowances. If the full amount of tax had been paid in 1949, the clear profit would not have been more than £550,598.

It appears that in 1950 the Company issued £5,000,000 of 5 per cent debentures and the interest payable on these debentures will be a sum of £250,000 per annum. In addition, £91,000 per annum has to be provided for to establish a sinking fund designed to repay the whole of the debentures in due course. The amount necessary for the service of the capital will therefore be—

	£
	331,758
	250,000
	91,000
Total ...	672,758

It is, therefore, clear that the amount necessary for the service of the capital in 1950 cannot be met by the Company unless it can secure savings in initial allowances in income-tax which, it is expected to do on account of the new generating stations at Cossipore and Mulajore which are not yet complete. It, therefore, becomes clear that the annual revenues of the Company do not permit of the increase of about £370,000 in labour costs, an increase on this account must necessarily diminish the clear profit of the Company *pro tanto* and will reduce this profit below the amount necessary for servicing of capital.

I shall also now consider if the balance sheet of the Company for 1949 shows a reserve or any amount from which the demands of the labour as in this proceeding can be met.

The balance sheet of 1949 shows—

	£
Capital issued and fully paid	6,162,646
Capital reserve	1,118,263
Revenue reserve and surplus	2,164,830
Total ...	9,445,739

Against these reserves the balance sheet shows capital expenditure cost, less depreciation £14,333,962. The only conclusion is that no part the sum of capital and reserve exists in cash and has been invested in assets. The Company has, it appears, further liabilities all maturing in 1950, 1951 and 1952 amounting to £2,350,000. It has been explained by the Company that at the end of 1949 in view of the future liabilities it had to finance a sum of £6,821,329 from external sources. This indebtedness has been partially liquidated by issue of 5 per cent. debenture stock for an amount of about £5,000,000 and still there is a necessity for about £2,000,000 to discharge the liabilities which were gradually maturing. All these liabilities are Cossipore Generating Station and the extension to the Mulapore Generating Station. Considering all these circumstances it appears clearly that it is not possible for the Company to draw upon any reserve amount to meet the extra expenditure of about £369,000 in the emoluments of labour.

I have already mentioned above that the scales of basic salaries of clerks in the junior and the senior scales taken as a composite scale in an undertaking compared very favourably with those laid down for the clerks in Class A bank in Class I area by the All-India Bank Disputes Tribunal. The Union in its additional written statement mentioned some of the grade scales of mercantile firms of Calcutta. The grade scales of salaries of clerks in the mercantile firms of Calcutta who were members of the Bengal Chamber of Commerce were fixed by the Major Industrial Tribunal in 1949. The Tribunal fixed an ideal scale for the clerical staff of the Bengal Chamber of Commerce in its award, dated 26th January 1949, published by notification No. 547-Lab., dated 8th February 1949, and the scales of the clerical staff of the other member Companies were conceived to accord to this model scale as far as practicable. The Bengal Chamber of Commerce's scales are as follows:—

Grade D—Rs. 70—3—130.

Grade C—Rs. 70—4—134.

Grade B—Rs. 110—7—180.

Grade A—Rs. 160—10—260.

Special grade—Rs. 260 and upwards.

The junior scale of this Company may be compared with Grades C and D and the senior scale with Grade A of the above scales. The Company, as has been mentioned above, pays the dearness allowance according to the Bengal Chamber of Commerce scale with a minimum of Rs. 65 for the present by a circular, dated 18th February 1950 (Annexure M of the written statement). I consider that two scales are more convenient for the clerical staff of a similar staff than four different scales. As has been mentioned above it is not proper to compare the wage-paying capacity of this Company with that of a mercantile firm or a managing agent's undertaking in Calcutta for the simple reason that the profit earned by this Company is controlled by the Electricity (Supply) Act, 1948, whereas no such Statute restricts the amount of profit earned by a mercantile firm. The only comparable industry which was brought to my notice is the Gouripore Electric Supply Company, which is also an undertaking for generation and supply of electrical energy.

dearness allowance in this Company is paid as follows:—

Up to salaries of Rs. 149 per month—Rs. 29 per month.

From salaries of Rs. 150 and above—Rs. 50 per month.

scales of dearness allowance apply to all classes of workmen. It will be evident that the scales of salaries as well as dearness allowance as offered in the present Company are superior to those offered by the (Gouripore Electric Supply) Company, Ltd., which is also a Company governed by the Electricity (Supply) Act, 1948. There are other scales relating to the various categories in the wage structure (Ext. A). Considering the facts and circumstances discussed above, it is clear that the Union's demand for increase of basic pay of the employees on an average by 60 per cent. is not worthy of support. It is not also financially possible for the Company to grant the liberal increments and allowances as claimed by the Union in the present state of its finances. The Union did not countenance a move to increase the profits of the Company by raising the rates of its customers, and is not really justified in the circumstances in view of the fact that wages paid to the employees compared favourably with the living wages awarded by the Bank Disputes Tribunal. I do not also consider the activity of labour has increased to any extent to justify an increase on account

of a careful consideration I find that no major alteration of the scales of salaries of the employees in the undertaking is called for or justified. There are, however, some difficulties in the system of the working of the scales of pay. I consider it proper to remove and which can be done without imposing a very great extra burden upon the Company. The division of the cadre into junior and senior scales of clerks calls for some consideration. In the General Department there are 350 junior clerks as against only 50 senior clerks. In the Sub-Station Department there are 166 Junior Clerks as against 88 Senior S.B.A.'s. In the Testing Department there are 50 Junior Repairers as against 30 Repairers. In the Sub-Station Department again there are 55 Assistant Junior Switchboard Attendants styled as probationers on Rs. 50—5—70. In the Testing Department also appears a new category in 24 Assistant Junior Repairers previously styled as probationers on Rs. 50—5—70. The difficulty to the employees, however, is in the unavailability of higher grade of salaries on account of limitation of a large number of employees in the junior scale. The employees in the banks would be if a large number of clerks were detained at the agency bar at the 17th year of service. I am, therefore, of opinion that leaving the superior scales of clerks, etc., undisturbed there should be a cease of the maximum pay in the junior scales, so that even in cases of accumulation of employees in the junior scales they may be able to take some advantage of the senior scales. It is not possible for me to state to the Company how many employees in the higher scales it should

employ. That depends on the extent and the nature of the work. The question has been discussed in Issue No. 6. Leaving the scales of salary undisturbed, I allow extension of the lower scale of the clerk up to maximum of Rs. 155. Similar extension of the junior scales of salaries other categories, e.g., Meter Inspectors, Junior Switchboard Attendants, Junior Repairers, etc., are also given. Some extension of the scales salaries in the case of manual workers are also made by me. These scales are extended by 2 increments in cases where the maxima are up to Rs. 63 and by one increment for scales with maxima above Rs. 63 and below Rs. 100. No increments are given to scales with maximum salaries at more than Rs. 100. I leave the senior scales of salaries of clerks, etc., undisturbed. The junior scales would be as follows:—

Junior Switchboard Attendant—Rs. 80—8—120(B)—8—160—5—17;
 Junior clerk including Typist, Junior Meter Inspector and Junior Draftsman—Rs. 70—5—110(B)—5—140—5—155.
 Junior Foreman—Rs. 80—10—140—5—155.
 Junior Repairer—Rs. 80—8—136—5—151.
 Telephone Operator—Rs. 105—5—140—5—155.
 Full-time Compounders (Head Office, Central Stores, Mulapora and Cossipore)—Rs. 70—5—140—5—155.
 Checker—Rs. 80—10—140(B)—10—170—5—185.

As to the additional increments awarded above, it is laid down for the and others whose scales of pay are extended by three increments that employee who had had no increments for four years or more shall get two increments and those who had no increment for more than a year but less than four years shall get only one increment on the date on which the Award comes into operation. Others, including the manual workers who had had no increment for more than a year shall get one increment on the date of the commencement of operation of this Award.

The proportions of the Assistant Junior Repairers to the total number Repairers, junior and senior, and that of Assistant Junior Switchboard Attendants to the total number of Switchboard Attendants, senior and junior should not increase any further.

Dearness allowance.—I do not find that the claim of a flat increment Rs. 10 per month in the dearness allowance of workmen other than clerical staff drawing basic wages of less than Rs. 70 per month is justifiable. It appears that an increment of Rs. 5 in dearness allowance of the employees was given on 24th February 1949. I consider the dearness allowance to be quite justified.

House rent allowance.—The Union claimed house rent at 25 per cent of the basic pay with a minimum of Rs. 15 per month. The learned Adjudicators of the Bank Tribunal granted house rent in Calcutta at the following rates over and above the basic pay and dearness allowance:—

- (a) Where pay does not exceed Rs. 100 per month—Rs. 8
- (b) Where pay exceeds Rs. 100 but not Rs. 200 per month—Rs. 12
- (c) Where pay exceeds Rs. 200 per month—6½ per cent of pay

At page 89 the learned Adjudicator stated: "We have based scales of pay largely on the results of the enquiry made by Mr. Subramanian. The figures for monthly requirements of different classes of middle-class employees of the Central Government given by him in his report include the amount required by such employees to be paid as house rent. There are no materials before us to suggest that the average figures given by Mr. Subramanian are inaccurate or misleading; and we see no grounds, therefore, generally

asking for allowing house rent in addition to the scales of pay laid down. The learned Judges then allowed the house rent allowances as mentioned in view of the fact that they allowed house rent for the employees in Cochin, Delhi and Cawnpore in an interim Award and that the question of dental accommodation had become more acute in some of the very big firms since 1946. From what I have discussed above it will appear that the allowance paid by the Company more than compensates for the extra allowance granted by the Bank Tribunal. In view of this piece of circumstance, I do not consider that any house rent allowance should be payable to the employees in this Company over and above the basic pay and the allowance as allowed.

Bonus.—The Union claimed that having regard to the enormous profit made by the Company in 1949 for the increase in productivity of labour, the Company should pay 3 months' pay as bonus. I do not find that the Company made very large profits in 1949. The expense over the new power Generating Station is still a great load on the finances of the Company. I do not find any justification for this claim and consider that payment of one month's pay as bonus to all the employees is proper and should be maintained by the Company.

Issue No. 6—Promotion to higher grades.

The claim of the Union on this issue is on the following three heads:—

- (a) 50 per cent. of the workmen should be placed in upper grades.
- (b) Promotion to higher grades should be given in cases of those who have completed 18 years of service.
- (c) An employee should be given a permanent post after an officiating period not exceeding 6 months.
- (d) The case of the workmen who had been externed in 1940 by the then Government of Bengal under the Defence of India Rules and were directed to be reinstated by Sri R. Gupta should all be given immediate promotion.

The Company's reply on this issue is that Superintendent and officers are primarily responsible for the department are the best judges of what shall do a work. They cannot be influenced by any considerations, other than a man's ability and personality, and it is a fact that selections are carefully made. Promising men are watched for some time before promotion and the Standing Orders show the points that count. As a rule to ensure the better flow of promotion the Company propose to make a rule requiring that on the 1st January 1953 all employees who have 30 years' service must retire and thereafter the employees must as they complete 30 years' service.

The Union claims that Sri R. Gupta, I.C.S., laid down the principle that 50 per cent. of the workmen should be placed in the upper grades. This is unfounded. What Sri Gupta stated in his Award was "the efficiency should, therefore, in my opinion, remain, but it should be possible for an employee in his grade to cross the bar provided his superior has given a necessary certificate in his favour. There must, therefore, be the same number of posts above the bar as below it, because in theory every worker should be provided for above the bar if he has not definitely been prevented from crossing it because of his own inefficiency". This observation clearly refers to the efficiency bar in each of the grades. It does not contemplate that 50 per cent. of the workmen should be placed in the upper grades.

A similar claim was made by the employees of the Bombay Electric Supply and Tramways Company, Ltd., before the Hon'ble Mr. Justice M. C. Chaudhary and was rejected with the following observations:—

"The only grievance is that the ratio of those employed in these grades is very small as compared to those who are employed in the remaining grades. I do not see any logic or justification in this complaint of the employees. It is impossible to dictate to the Company how many highly paid clerks it should have. That would depend upon the extent and nature of the work. One concern the proportion of highly paid employees to low paid employees may be high; in another it may be low. No useful inference can be drawn from these varying proportions." (*Bombay Labour Gazette*, May 1946, pages 700 to 711)

The Union made a grievance that there are a number of employees in all different categories who have not received any increment for the last 2 to 12 years, and it is claimed that these employees should be given immediate promotion and that promotion was overdue for them. In an additional written statement it also gave me a list of senior employees who had been superseded by junior employees at the time of promotion. Promotion to higher grades is a matter within the sole discretion of the Company in exercise of its management function. Under the American Law there are some rights and practices of the management which have got recognition as management functions and which could be exercised without prior approval of the Union or prior arbitration. These are—

- (1) methods of plant operation,
- (2) sub-contracting of work,
- (3) determination of supervisory force,
- (4) plant discipline,
- (5) overtime work,
- (6) incentive wage plans,
- (7) job content and job evaluation, and
- (8) determination of employee's competence.

(*Idem* "Management Functions under Collective Bargaining" by Lord Teller, pages 34 to 49.)

"A number of cases recognised the factor of competence, as determined by management, as a qualification of seniority provisions governing assignments, promotions, demotions or transfers". (*Ibid*, page 47)

N.L.R.B. recognised the employer's right to initiate action as an essential quality of management functions. "The proposed principle of interpretation may be illustrated in the operation of a qualified seniority clause. It is common in collective agreements to provide that seniority shall prevail subject to the ability of the employee to do the job in question. The determination in regard to the ability of an employee under such a clause should rest with the management. Alleged errors of judgment should be open to scrutiny of the Arbitrator. The scope of arbitration should be limited to enquiry into the employer's good faith in exercising the decision." "By good faith is meant the desire to carry on business in accordance with the needs of business. Bad faith, accordingly, would be shown by evidence of an intention of the employer to deprive the Union or employees of the fruits of the agreement whether directly or indirectly whether through discrimination or by other means". (*Ibid*, page 48)

principles have been followed in the determination of labour management relations in this country. The decision as to whether a particular employee merits promotion to a higher grade must, therefore, remain with the Company as one of its vital management functions to carry on the business according to its needs. The Standing Orders of the Company in 1946 give recognition to seniority as well as to some other factors showing efficiency of the workman. There is no allegation of bad faith in relation to the individual cases of supersession at the time of promotion, and it is neither possible nor desirable for this Tribunal to interfere with the management function of the Company in the matter of its day-to-day administration. There is nothing to show that any of these employees was promoted by the Company as a result of any *mala fide* conduct or discrimination on account of Union activity. No interference, therefore, is called for in these cases of alleged supersession at the time of promotion.

The claim that an employee should be appointed to the permanent post after an officiating period not exceeding six months is also unworthy of consideration. There are occasions when on account of a certain employee going on leave for a period of more than 6 months a junior employee has to take his place. Such a piece of circumstance should never be considered as a ground for confirming the officiating incumbent to the post of the employee concerned.

The Union filed a list of employees for whom it claims promotion to be due and the Union claims that an employee who has completed 18 years of service should be promoted to the higher grade. It appears that in all the cases the employee in question has served for the full period represented by the grade, and has reached the maximum of the grade. There was an accelerated advance to the maximum of the grade as a result of the fixation of basic pay in the last Award by which increments were given for the period of past service. It is not possible for the Company to grant increments to an employee even beyond the scale of pay of his grade only because he was earning the maximum for some years. The claim of the Union on this point is not of much substance. The decision of the previous issues by which the lower grades of salaries have been extended will give these employees some relief.

The representative of the Company stated before me that in deciding upon promotion they considered the cases of employees in order of seniority of service taking into consideration the points enumerated in rule 10 of the Standing Orders and that they never made any discrimination on account of an employee's Trade Union activity. I am satisfied the Company is following the right principle and this should be done in the future.

The Company's proposal for framing a rule for retiring employees after 20 years of service was not really a subject matter for adjudication before me. I would like to record my opinion over this matter for consideration and decision by the Company and the Union. Such a proposal appears to me to be reasonable as there should be defined rules of retirement of employees to ensure a free flow of promotion to younger employees. A condition of service is also indispensable for attainment of efficiency and the Union will settle this matter by amicable negotiations with the management of the Company. I do not, however, say anything about the merits of the proposal. As the retiring benefits offered by the Company are substantial, there should be no difficulty in the matter.

his issue is accordingly answered.

Issue No. 7—Revision of rules of contribution to the Provident Fund

At the present time all permanent employees are obliged to be members of the Company's Provident Fund on the following terms:—

- (a) The compulsory contribution from the employee is $6\frac{1}{2}$ per cent. of the basic salary.
- (b) The voluntary contribution from the employee can also be $6\frac{1}{2}$ per cent. of the basic salary.
- (c) The Company's contribution may be into two parts—
 - (i) An amount identical to the compulsory contribution by employee.
 - (ii) A further 10 per cent. of the voluntary contribution by employee, if any.
- (d) Interest earned by the capital of the fund *pro rata* to each account.
- (e) Capital appreciation or depreciation is credited/debited *pro rata* to each account at the end of each year.

The Union claims the amount of compulsory contribution should be 10 per cent. of a workman's salary or wages and the additional contribution should be of the same percentage. The Company opposed this claim.

A copy of the rules of the Provident Fund of the Company is Annex T of the Company's written statement. The fund constitutes a scheme which has worked smoothly for 50 years. It appears that the fund has 5,040 members of whom 4,293 make maximum subscriptions. It appears that an employee can contribute $12\frac{1}{2}$ per cent. of his basic pay, if he desires, and get 6.875 per cent. of his basic pay as Company's contribution. I consider that the rules of the Provident Fund are satisfactory and demand no revision.

This issue is accordingly answered.

Issue No. 8—Revision of casual leave rules and Issue No. 12—Sick leave in case of accident.

The Union made a claim that the entire period of 7 days' casual leave should be permitted to be availed of in a single month and that they should also be permitted to tack their leave on to holidays. The other prayers are that the employees drawing more than Rs. 240 should be allowed to enjoy casual leave and in case of accident extra special sick leave should be granted. The leave rules of the Company for employees under no covenant or agreement show the following categories of leave.

(1) **Privilege leave.**—One month (for employees on pay of Rs. 50 or more and for employees on a pay less than Rs. 50 from the year of service). Fifteen days (for employees on a pay of less than Rs. 50 for the first five years of service). Privilege leave for employees on a pay of Rs. 50 or more can be accumulated up to a maximum of three months and for employees on a less pay up to a maximum of two months.

(2) **Sick leave.**—Fifteen days' sick leave on basic pay plus dearness allowance is granted but there are modifications in case of a longer period.

(3) **Casual leave.**—Seven days to be available after the first six months of employment as a permanent employee, subject to some conditions. One of the conditions for availability of casual leave is that no casual leave be granted for more than four days at a time.

If further appeal that the Company allows 24 or 25 public holidays with pay for the year and that any employee works on those days they were earned. The Company sought for modification of the public holidays and stated that the usual practice in the Calcutta area was to grant 8 to 10 public holidays with pay in the calendar year. The employees, therefore, are entitled to 30 days plus public holidays 24/25 days plus casual leave 7 days = 61 days with full emoluments in the year. This is a very substantial leave account. I do not find any reason for granting permission availing of the whole casual leave all at once. Under the Standing Orders the casual leave is available along with holidays, but in that case a holiday is counted as leave. This is the prevailing practice everywhere also in Government employment. The employees drawing more than Rs. 240 who are not on covenant have the same rules of leave as mentioned above. There is no point in making a special claim for them. I do not see any modification of leave rules to be justified and the claim in this respect is rejected.

The claim of an extra special sick leave in case of accidents is not upheld. In case of an accident the workman is entitled to the benefits under the Workmen's Compensation Act and a further burden cannot be legally imposed on the Company.

No. 9—Free supply of 30 units of electricity per month to the employees.

The Union claims that as in the Railway service and in the Tramways workmen are allowed special facilities, it is only just and fair that the Company should, as a condition of service, supply, free of charge, 30 units of electricity per month to all its workmen. Assuming that such free supply of electricity is to be made to 5,000 employees of the Company, it would involve free supply of about 18 lakhs of units in the year. Only those who occupy Company's quarters including about 1,000 workmen in barracks get free supply of electricity. I do not find any justification for a claim involving such a huge drain on the marketable commodity of electricity. The supply of electricity in the Company's buildings and workshops is a different matter altogether. This claim is, therefore, rejected.

No. 10—Special allowance to graduates and Issue No. 22—Machine allowance for Comptometer and Adrema Staffs.

In paragraph 33 of the Union's written statement the Union claims a special allowance of Rs. 20 per month for graduates. In paragraph 51 it is stated that the clerical staff who work on Comptometer and Adrema machines are skilled staff and technical hands. The Union claims that a special Machine Allowance at the rate of Rs. 10 per month should be given to them.

The Company objected to the claim of a special allowance to the graduates or to the Comptometer and the Adrema staff. In regard to a graduate, it is stated that if a graduate held a degree that implied technical knowledge such a degree is of some value to the Company and in that case he would obtain a post which carried a higher pay than those open to the purely clerical staff. The Company states that the possession of a non-technical degree is no special appeal to it and the employee cannot perform routine work any more quickly or accurately than the non-graduate employee. It is stated by the Company that on the whole it finds non-graduates more satisfactory for the routine work of the Company than graduates. As to a machine allowance, it is stated that the Comptometer is the simplest form of office equipment and no special aptitude is required on the part of the operator who can be proficient in using it in a very short time, and that

these machines are used to save employees making laborious calculations in long hand and this lightens their task. The Company has never given any special allowance on this head and sees no reason to do so.

The Union pointed out that the Award of the Bank Disputes Tribunal grants a special allowance of Rs. 10 per month to graduate employees in Class A bank in Class I areas, and somewhat similar allowances to other classes of banks. For Comptometer operators a similar allowance is given to all banks except Class A banks in Class I areas. I have mentioned above the scales of pay fixed by the Major Mercantile Tribunal for employees of the Bengal Chamber of Commerce which formed the model, which the pay scales of other member firms of the Bengal Chamber of Commerce were constructed by the Tribunal. There is no special allowance for a graduate or a Comptometer Clerk in the Award of the Major Mercantile Tribunal for the employees of the Bengal Chamber of Commerce. I have mentioned above that with the dearness allowance under the Bengal Chamber of Commerce scale starting from a cost of living index of 181, the total emoluments received by an employee of this Company would be higher than the emoluments fixed by the Award of the Bank Disputes Tribunal for an employee in a Class A bank in Class I area, based at a cost of living index figure of 1944 which was 279 for Calcutta. The learned Secretary of the Union pointed out that it was in 1939-40 that at the instance of the Recruitment Board of Calcutta and Dacca Universities some graduates were taken into the service of the Company and that there were at present only a few graduates in the clerical staff. The learned Secretary also complained that the Company did not show any preference to graduates in the matter of employment to the clerical staff as it should do. I have no doubt that when graduates apply for appointment in the lower grades of the clerical staff along with non-graduates or Matriculates they deserve a greater consideration for their higher academical qualification. The demand on the Company for a special allowance for graduates will doubtlessly result in a shrinkage of employment of graduates to posts to which under-graduates or Matriculates may be appointed without causing any difficulty to the Company. I would consider that more graduates should be employed by the Company to raise the level of academic qualification of the clerks in its employment. A special allowance for a graduate in a post which can be filled by a non-graduate will be a serious handicap to graduates in the matter of employment. In view of these circumstances the claim of special allowance for graduate clerk does not appear to me to be of substance and it is rejected.

The Adrema staff types the number and the names of the subscribers to the notices of the Company and the Comptometer staff use the machines adding and subtracting figures. I do not find any substance in the claim for special allowance to these categories of clerks either and the claim is rejected.

Issue No. 11—Confirmation after six months' service.

In paragraph No. 34 of the written statement the Union states that "the Company in order to avoid making employees permanent often takes temporary hands, discharges them after a certain period and re-appoints them thereafter. The system should be abolished and every employee should be confirmed as a permanent hand on expiry of the 6 months' service. A temporary employee discharged prior to the expiry of the period entitles him to confirmation, if re-employed, shall be deemed to be a permanent hand. Often the number of permanent hands have decreased and temporary hands are being appointed. Workmen to be made permanent after 6 months' service and the probationary period should not be more than 6 months' period."

Company in its reply states that it cannot agree to offer permanent employment to temporary employees after 'six months' service when it is probable that the man will be superfluous in the near future.

The Standing Orders of the Company a permanent employee is one appointed for an unlimited period after six months of approved service. This clause shows that the probationary period for a permanent employee is six months. The Union, it appears, is anxious to apply this to the case of a temporary employee. A temporary employee is one engaged for a work which is essentially of a temporary character. There is no point in claiming that a temporary employee should be confirmed as a permanent hand after a temporary period of service for six months. If this were done, it will not improve matters for the entire body of employees as a whole, as when after some time a retrenchment has to be made a permanent employee may have to suffer on account of a temporary employee being taken into the permanent category although there is no need to accommodate him. The claim for making a temporary employee permanent after any period of service is not justified and this claim is

12—Preference to workers' nominees and successors in recruitment.

The Union claims that in recruiting new hands the Company should give preference to the workmen's nominees and successors and generally that each worker should get chance in case of recruitment, and should be waiting lists of such candidates. It is further stated that the father or son of a retired or deceased worker should get first preference.

The Company in reply states that it often gives preference to retiring employees' sons, but it cannot guarantee to do this in all cases and does not accept nominees in place of sons on any occasion. Management reserves the right to be the sole judge of the person who is to be employed.

There is no doubt that the recruitment of an employee to the service of the Company is solely vested in it in exercise of its management function and it is not proper for this Tribunal to restrict the Company's right to choose from among its own employees. The claim of preference for a workman's son without any merit and may be even open to abuse. The Company's claim is that it has often given preference to retiring or deceased employees' sons should satisfy the Union on this point. In the circumstances no Award is made on this issue.

13—Revision of the scales of pay of Meter Inspectors and their successors in the Engineering staff; Issue No. 14—For Meter Inspectors the rate should be fixed with particular reference to half-day on duty days; and Issue No. 15—Increase in the rates of High Tension Meter Reading Bonus and Theatre Meter Reading Bonus.

The Union claims that Meter Inspectors have for some time past been included in the Clerical Grade, that they were originally designated as technicians in the Engineering Department under the Testing Superintendence while they enjoyed a scale of pay up to Rs. 350. As a justification for the inclusion of these employees in the Engineering Department it is claimed that they have to perform the following work of a technical

Connecting and disconnecting 220 to 400 volts D.C. and A.C. meters and loops.

- (b) They have to work with instruments, test lamps and check circuits, inspect and test meters and detect leakage of current.
- (c) Cut off supply of electric current for non-payment of bill.
- high tension and low tension meters and re-set meters for currents of 200 to 20,000 volts.

It is further stated that Meter Inspectors are engaged in outdoor work throughout the licensed area of the Company and have to attend Headquarters to prepare reports. It is also complained that the volume of work of a Meter Inspector, which means reading of meters entered in one meter book in a day, is gradually increasing owing to inclusion of an increasing number of meters in the area covered by each book.

The Union claims the following scales of pay for Meter Inspector

Junior—Rs. 130—10—240.

Senior—Rs. 260—20—500.

It is further claimed that 50 per cent. of the staff should be placed in the Senior Grade.

The work of the Meter Inspector essentially consists in reading meters recording consumption of currents. Even on holidays and during the work cannot be deferred. This means that Meter Inspectors have to work overtime. The Union in issue No. 14 claims for an increase in overtime allowance of the Meter Inspectors to be revised in the following way:—

- (a) The working hours to be reduced from 48 to 44 hours in the week.
- (b) Overtime rates to be at double the ordinary rate and to include a dearness allowance.

The Meter Inspectors also add to their income by a Meter Reading Bonus. Low Tension Meter Reading Bonus has been recently increased from Re. 1 to Re. 1-4 for 100 meters and for Government meter from Re. 1-8 to Rs. 1-12 for 100 meters. In Issue No. 15 the Union claims an increase of Meter Reading Bonus. The Union claims the following increase in the Meter Reading Bonus:—

- (i) Bonus for Low Tension Meters in Theatres to be increased from Re. 1-4 to Rs. 1-12 per 100 meters.
- (ii) High Tension Meter Reading Bonus to be increased from Re. 1-4 per cubic foot per month to Re. 1-4 per cubic foot per month for high tension subsidiary meters from Re. 1-4 to Rs. 2.

The Company opposed the claim of the Union in these issues on the following grounds.

The Company does not agree that Meter Inspectors should be included in the Engineering staff. They are not required to do any work on meters, such as calibration and testing, which are done by the Engineering Department. These employees are principally required to read meters to record the readings for billing purposes and, therefore, they are included in the Commercial Department. There is no substance in the claim that the work should carry additional pay as it is of a clerical character. There is no danger involved in the duty of a Meter Inspector. The work of a Meter Inspector is so arranged that it is reasonably light for a day. As the number of meters to be read in a meter book increases, which means a day's work of an Inspector, increases, the work is read by more Inspectors. There has been recent rise in such work and arrangements are being made for reallocation which will be completed by the middle of this year.

There has been a rise in the number of meters in every meter reading book; the ease in work involved has been much less than the proportion of the increase in the number of meters in the same premises. Owing to the increase of the number of meters in the same premises, there is a great deal of congestion of refugee families from Eastern Pakistan in certain parts of the city. The increase in the number of meters read, however, has not resulted in a more meter reading bonus to the Inspectors.

The Company agrees that as High Tension Meter Reading Bonus was not given in 1948, there is room for improvement there and the Company is willing to increase this bonus from 5 annas per cubicle per month to 10 annas per cubicle per week. There is, in the Company's view, no case for increasing the bonus for reading Low Tension Theatre Meters. They also maintain that the Meter Inspectors are well paid. Their senior grade is the same as the Clerks' grade but with the increases in the Low Tension Meter Bonus, 1948, each employee draws an amount of Rs. 60 to Rs. 70 per month.

There are 60 Junior and 10 Senior Meter Inspectors. There is no justification for increasing the number of Senior Inspectors who have to do a more difficult type of work than that of a Junior Inspector.

It appears that the Meter Inspectors were originally under the Installation and Inspection Department who handled a great volume of work not only in the installation of meters but also in the repair of meters. The Meter Inspectors at the present time. That department used to handle the installation of a particular building was fit for connection, and an entirely different type of work than what is done by a Meter Inspector. The Installation and Inspection Department was abolished and the Testing Department was introduced. It was then that the employees who used to do the job of Meter Readers were brought under the Testing Department as Meter Inspectors and others who did engineering work were brought under the Testing Department. It appears to me that the work of a Meter Inspector is not of the nature of the job of a Meter Reader. Reconnecting and disconnecting of meters are also done by the Meter Inspectors, but that does not appear to me to be much of a technical job. It should be compensated for by additional pay. It appears that new Meter Inspectors after appointment are given one month's training in the Testing Department. This is too short a period of training for young men coming from a school or college to equip them for any skilled work on meters. The working hours for a clerk are 39 per week and that for a Meter Inspector are 48 hours.

As the nature of the job of a Meter Inspector is essentially outdoor, the overtime allowance of 48 hours in the week is not too much, and there is no objection to reducing it to 44 hours of work in the week as claimed. The overtime allowance of a clerk being 9 annas per hour is much less than that of a Meter Inspector who gets double rate on basic pay for any hour over 48 hours.

In dealing with the Issues Nos. 1 to 5, I have discussed that the rates of pay given to a clerk are not inferior to the living wage grade awarded by the Bank Disputes Tribunal in case of the clerical staff of the banks in Class I areas.

I am not convinced that the work of a Meter Inspector should carry any higher pay than that of a clerk in the same grade. The Gouripur Electric Company pay to a Meter Reader a basic salary of Rs. 117-4-10. The Meter Tester gets Rs. 103-4-10.

The dearness allowance is Rs. 29 up to a basic salary of Rs. 150 and Rs. 50 for a salary of Rs. 150 and above. As a matter of fact, the overtime bonus which, as it appears from Annexures D, E and F, varied from Rs. 55 to Rs. 64 in May 1949, 1949 and October 1949, gives the Meter Inspector a substantial increase over his clerical counterpart. The overtime allowance of this Inspector in the 3 months mentioned above varied between Rs. 54

and Rs. 90. I am not, therefore, of opinion that there is any justification for allowing any pay scale to the Meter Inspectors as claimed by the Union. The Junior Meter Inspector's scale, however, will be extended to Rs. 115 as decided in the case of a junior clerk. I do not consider the claim for inclusion of the Meter Inspectors in the Engineering staff to be justified and it is awarded accordingly. A revision of the scale of a Junior Meter Inspector is allowed by extending his present grade to Rs. 115 at the same rate of increments. As to overtime, I do not consider the claim of inclusion of dearness allowance to the overtime rate to be justified, and this part is rejected.

The High Tension Meter Reading Bonus is increased from 5 annas per cubicle per month to 4 annas per cubicle per week, as offered by the Union and accepted by the Union at the time of the hearing. The claim of inclusion of Low Tension Theatrical Meters in two areas from Rs. 1-4 to Rs. 1-6 is rejected.

These issues are accordingly answered.

Issue No. 17—Revision in the rules of gratuity.

The Union's claim in this issue is as follows: "As the Company has been making a great financial gain by putting increasing work-load on the workmen and thereby subjecting them to excessive stress and strain which is calculated to result in early retirement of the workmen, it is necessary that the rules for payment of gratuity should be changed in the following manner, viz.:—

- 10 per cent. of the pay should be payable after 15 years of service
- 12½ per cent. after 20 years of service.

And in case of retrenchment, forced retirement, retirement due to disability or death, or retirement with the consent of the Company, gratuity should be payable at the rate of 10 per cent. irrespective of the period of service.

The Company objects to the shortening of 19 years' period for payment of gratuity or the alteration of any of the gratuity rules which were in force by June 1947 Award. It states that taking the benefits of the Provident Fund and gratuity and excluding interest, it is clear that an employee retiring after 24 years of service takes with him about one-third of the total wages earned throughout the period.

The Retiring Gratuity Rules in these Standing Orders are as follows:

- (1) On death, if he has served 19 years or more.
- (2) On retirement after 19 years' or more continuous service.
- (3) On retirement before completing 19 years' continuous service on account of permanent physical or mental infirmity.
- (4) On abolition of employment due to reduction of staff or other reasons.

The amount of gratuity will be 6½ per cent. of the total basic salary, of the employee during his period of continuous service if the period is under 24 years. If the period of continuous service is 24 years or over, the amount will not be less than 10 per cent. of the total basic salary, of the employee during his period of service.

The Company in Annexure H has given a calculation of the gratuity available to specimen employees under the present gratuity rules. I shall only deal with some of the typical cases. It appears that a Cooly to Mistry who started at a basic salary of Rs. 12 and retired at a salary of Rs. 75 after 30 years' service gets a total gratuity of Rs. 1,170-12. A Coal Trimmer to Boiler Attendant starting with a basic salary of Rs. 12 and retiring at Rs. 51 after 30 years' service earns Rs. 1,170-12. A Cleaner starting at Rs. 39 and retiring at Rs. 59 after 30 years' service

Rs. 2,340. A junior clerk retiring at Rs. 140 after 30 years' service as a gratuity of Rs. 5,512-8. The Company has given the same calculation as a number of specimen employees, and it appears to me that the gratuity actually earned by an employee is 40 to 60 times of the full pension, i.e., of the basic pay of the workmen. It is to be remembered that this is over and above the Contributory Provident Fund which in every case amounts to an amount equal to 2 to 3 times of the retiring gratuity. I am told that when the period of continuous service is 24 years or over the gratuity usually awarded by the Company is more than 10 per cent. and up to 12½ per cent. as used to be allowed previously. The claim of the Union only seeks to reduce the quantum of advantage received from the Company, but the kinds of relief suggested are provided for in the Standing Orders. I do not consider that any alteration of the gratuity rules is called for.

Issue No. 18—Revision of overtime rules for clerks.

The Union states that "the clerical staff are overwhelmed with work as the department is understaffed and most of the clerks put in 3 to 8 hours' overtime work on weekdays and 11 hours on holidays. It is also stated that the present rate of payment of overtime at the rate of 9 annas per hour is too inadequate to afford proper relief to the clerical staff. By such payment of overtime the Company is making a large profit which is not at all justified. It is therefore, claimed that the overtime rate should be increased to Re. 1-4 annas per hour." The Company's reply on this issue is that the Company does not wish its employees to work overtime. But there are, however, many factors outside its control which from time to time affect routine working and compel overtime. It is stated that communal rioting in the area, a large number of public holidays in a month, irregular deliveries of coal to the generating stations, are some instances that cause overtime work. It is also stated that in the month of October there are usually no less than 9 public holidays and all routine work is thus delayed. The Company pleads that the only alternative, i.e., the appointment of a temporary staff, is not the solution, as there is office accommodation problem and by the time these employees become normally productive the phase for extra work passes. The Company further states that it has done its best to deal with unprecedented overtime and has plans for mechanisation in future to reduce overtime. The Company states that in the Commercial Department the overtime allowances to the clerks increased every succeeding year although the number of employees despatched per capita is not increasing. It is further stated that as the Company has plans for mechanisation of the Commercial Section to cater to its expanding needs, and reduce the number of employees, and that the employees can reduce the overtime period if they only so desire. The overtime rate for junior clerks was increased from 6 annas per hour to 9 annas per hour in November 1947.

The Company urges that everything possible is being done to reduce overtime and improve working conditions on this account and that in the future there should be no alteration of the rates for overtime payment. At the time of the hearing the Union filed statements showing the period of overtime work done by the clerical staff in the Commercial Department in 1949 and 1950. In 1949 the total overtime hours of work by a single individual lies between the limits of 156 in June and 241 in January, the average appears to be 205 per month for the whole year. In 1950 the total period of overtime work per clerk per month is between 152 and 200 hours, the average per month being 192. The weekly period of work for a clerk in the Commercial Department is 39 hours, and the total monthly period is 169 hours per month. The statements on the overtime period worked by a clerk in the Commercial Department shows that both in 1949 and 1950 he worked a greater period in overtime than his normal period of work.

in the month. The overtime payment is made at 9 annas per hour. The Tribunal drew my attention to the observation of the learned Judges of the Bank Disputes Tribunal on overtime work at pages 125 and 126 of the Award. The Award agreed with the observation of Mr. R. Gupta in his Award regarding the Imperial Bank of India, where he stated that he did not propose any overtime wages for extra work on ordinary days because he expected the bank to examine the staff position and so to increase the staff that it would not be necessary ordinarily for any employee to work longer than the usual working hours of the bank. In his opinion this was the proper remedy for the defect complained against rather than making provision for overtime work, as such a provision often led to the continuance of the objectionable practice of working employees long hours because the employer found it cheaper to pay overtime than to engage additional staff, and thus the real objective of saving the staff from fatigue and strain was not attained. The learned Judges of the Bank Disputes Tribunal agreed with these observations, and as not many of the employees' representative asked for the total abolition of the overtime system, they permitted overtime work but restricted the total number of hours for which an employee might be required to work overtime in a year, and awarded such a period to be 90 hours or with the employees' consent 120 hours in any calendar year. The learned Judge awarded overtime pay at the rate of twice the ordinary rate of pay.

It will be noticeable in the present case that although the Union complained that by such overtime work the clerical staff were overwhelmed, the Company was making a large saving, it claimed for the increase of overtime rates from 9 annas to Re. 1-4 per hour. There is no claim for the elimination of overtime work. I am not impressed with the plea of the Company that it has plans to mechanise the Commercial Section to cater to its expanding needs and no increase of staff was therefore advisable and that in fact reduction of the overtime work could be attained by the employees only if they so desired. An average period of overtime work per month at 192 hours in 1950 and 205 hours in 1949 for every clerk where the normal working period of the clerk is only 169 hours appears to be a desperately unsatisfactory situation. The Company should not have permitted this situation to continue for such a long time. Overtime should be a part of the scheme for the normal routine business of the undertaking and should be resorted to only in unforeseen circumstances. The learned Judges of the Bank Disputes Tribunal limited the total overtime for the clerical staff at 120 hours in the year with the employees' consent, and allowed overtime rate at double the basic pay. Giving my anxious consideration on the matter I am of opinion that the maximum period of overtime work that should be given to a clerk should be 40 hours in any calendar month. The overtime allowance shall be paid at 12 annas per hour instead of 9 annas per hour. In fixing the quota of maximum permissive overtime period, I have been guided more by the predicament of the Company in managing its staff than by the overtime was further curtailed than by the justification of the plea. In doing so, the error has been undoubtedly on the side of extra payment. I would advise the Company to stay as much below the maximum period of overtime as possible and to bridge the gap by extra staff. The Company should employ temporary or permanent staff to manage the extra work which cannot be covered by overtime work by the clerical staff when the overtime is imposed by this Award.

This issue is accordingly answered.

Issue No. 19—Compensation for reduction in road allowance of Mains Department workmen.

This is in regard to the "walking allowance" payable to the Mains Department. An allowance at the rate of one hour's basic pay per mile traversed by Mains Department workmen is allowed if the workman is

at the correct starting time at a distance from his normal depot. It is the form of adding some hours to his daily time-sheet and, therefore, his emoluments while working in outlying areas. This allowance is allowed in central areas in which case the emoluments are normal. The Company was agreeable to pay the actual travelling allowance involved in accordance with fares published by public transport concerns, and this was not seriously pressed by the Union at the time of the hearing.

No. 20—The Category of Assistant Junior Switchboard Attendant in the Sub-Station Department should be abolished and they should be treated as Probationers.

The Union complains that the Company, instead of taking Probationers as Switchboard Attendants and confirming the Probationers as Switchboard Attendants after a certain period of probation, has been designating a Probationer as an Assistant Junior Switchboard Attendant and compelling him to do all the work of a Switchboard Attendant although on a smaller scale.

The Union, therefore, claims that the category of Assistant Junior Switchboard Attendant in the Sub-Stations Department should be abolished and should be designated as Probationer, or in the alternative if Assistant Switchboard Attendant has to be maintained and if he were to do the work of a Switchboard Attendant as he was doing, he should get the same pay.

In dealing with Issues Nos. 1 to 5, I have already noticed that the Company has taken in 55 Assistant Junior Switchboard Attendants who were previously styled as Probationers on Rs. 50—5—70, and I have given the opinion that the proportion of the Assistant Junior Switchboard Attendants to the total number of Switchboard Attendants, Senior and Junior, should be permitted to increase. The appointment of the Probationers as Assistant Junior Switchboard Attendants has at least the advantage of giving a permanent employment for the employees, and I have no doubt that they are suitable for appointment as Switchboard Junior Attendants and will be so appointed by the Company.

This issue is accordingly answered.

No. 21—Mains Department workmen and every one should be regarded as factory workers.

The Union states that although the workmen employed in the Mains Department as also for the Generating Stations, Sub-Stations or Distribution Stations, Central Store and Testing Departments (including Mains staff with 24-hours duties) come within the Factories Act, they are not treated as factory workers by the Company. It is claimed that workmen in these departments should be deemed to be factory workers and the benefits of the Factories Act should be made available to them. The Union says that the Mains Department, Generating Stations, Testing Department, Central Workshop and certain Sub-Stations are covered by the Factories Act and they all get the benefits of the Factories Act. A worker in the Mains Department works for 46 hours per week, a worker in the Generating Stations 46 hours per week and a worker in the Central Workshop 48 hours per week. The Company claims that these varied working hours have been decided by a custom for reasons lost in the past, but they are causing some friction between employees and employees and there should be a standard working week of 48 hours for all workmen covered by the Factories Act.

I do not find any ground for altering the existing working hours in the various departments. The working hours in these various departments should remain as they have been decided by custom. I do not find any reason

for the Union to doubt that workmen governed by the Factories Act not be so admitted by the Company. The Company in its written statement admits that the Mains Department, Testing Department, Central Working Generating Stations and certain Sub-Stations are governed by the Factories Act. The Company objects to the Central Stores being governed by the Factories Act. The Central Stores will not be governed by the Factories Act if it does not satisfy the definition of a "Factory" as laid down in section 2(m) of the Factories Act, 1948.

This issue is accordingly answered.

Issue No. 23—Revision of duty hours of C. H. P. Drivers.

This issue was not pressed at the hearing of the case, and therefore no Award is made on it.

Conclusion.—The advances in emoluments as assured in this Award are short of the demands made by the Union. I have, however, endeavoured to show that the demands preferred by the Union are far in excess of the living wage standards of wages prescribed by three eminent Judges in their Award in the All-India Industrial Tribunal (Bank Disputes) for A banks in Class I areas, upon which the Union appeared to take issue at the hearing of the dispute. I have considered in detail the Union's claims on some reserves which have already been invested by the Company in the purchase of useful machineries for the new generating stations at Calcutta and Mulajore. The Company has yet to meet large liabilities to the Cossipore Generating Station and these liabilities will mature in the next few years. I have, however, endeavoured to remove some of the grievance of the employees resulting in some pecuniary benefit to them and an easing of the burden on the Company. I hope the parties will take the Award with a right spirit, and create an atmosphere of goodwill so that they may go on to earn prosperity for an industry which forms an important link in the community.

I place on record my thanks for the assistance afforded to me by the representatives of the Company and the Union in the adjudication of this dispute.

M. C. BANERJI.

Tribunal, Industrial Disputes

The 26th March 1951.

By order of the Governor
D. S. P. MUKHERJEE, Jt. Secy.

ORDER.

No. 2138-Lab.—6th April 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 6592-Lab., dated the 20th November 1950, the industrial dispute between Messrs. S. K. Chakravarty, Mission Row, Calcutta, and their workers represented by S. K. Chakravarty Workers' Union, 206, Bowbazar Street, Calcutta, was referred for adjudication to a Tribunal consisting of Sri G. Palit, District Judge;

And whereas during the pendency of proceedings before the said Tribunal, Vice-President, S. K. Chakravarty Workers' Union, on behalf of Bashit, Lakshan, Prosad and Sukhan, made a complaint in writing before the said Tribunal, alleging that the said Company had altered, to the prejudice of said workmen, the conditions of service applicable to them immediately on the said proceedings;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Tribunal has adjudged upon the said complaint and submitted its award to the State Government.

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

the matter of a complaint under section 33A of the Industrial Disputes (Appellate Tribunal) Act of 1950 filed by Sri Jatin Chakravarty, Vice-President, S. K. Chakravarty Workers' Union, against Messrs. S. K. Chakravarty, Ltd.

The original reference out of which these four cases have arisen was made by Government order No. 6592-Lab., dated the 20th November 1950, of Government of West Bengal.

AWARD.

These four cases of Sukhan, Helper (Roll No. 324), Prosad, Helper (Roll No. 145), Bashit, Helper (Roll No. 106), and Lakshan, Raj Mistry (Roll No. 62), under section 33A as aforesaid have been taken up for an analogous application as the facts and the law involved in all of them are identical. The Union's case that these persons have been served with a notice of discharge by the Management with effect from 31st March 1951. The Union contends that the Management did issue such notice without specific sanction of the Tribunal while the original proceeding is pending. As it is contended, section 33 of the Industrial Disputes (Appellate Tribunal) Act of 1950 has been contravened. So relief has been sought under section 33A of the aforesaid Act (1) for a declaration that the said notice of discharge is illegal and not binding, (2) for maintaining the *status quo* and (3) for reinstatement and compensation. The Company, on the other hand, contends that the notice of discharge could not be properly issued. This discharge has been sought to be effected on economical grounds and has no connection with the subject-matter of the original proceeding before the Tribunal. As a result of this the Company seeks to be absolved of any liability under section 33A of the Industrial Disputes (Appellate Tribunal) Act of 1950.

These cases seem to have arisen out of a misconceived impression about the scope of section 33A of the Industrial Disputes (Appellate Tribunal) Act of 1950. Both the sides seem to be labouring under a wrong conception of the said section. The learned pleader of the Company is certainly wrong when he contends that because the discharge is sought to be effected on economical grounds and because it is unconnected with the subject-matter of the original proceedings, no permission of the Tribunal is necessary. Whatever might have been the position under the old section prior to the amendment of 1950, it is clear that under the amended section there can be no escape from taking the permission of the Tribunal in the matter of discharge of employees pending the proceeding, no matter whether on economical ground or otherwise. So, if the Company translates the notice in question into action without the permission of the Tribunal, it can hardly avoid the legal liability under section 33A of the Industrial Disputes (Appellate Tribunal) Act, 1950. Similarly, the Vice-President of the Union is also not immune from error. Section 33A never arises unless the employee has already been in fact either a prejudicial alteration of the service condition or a discharge or a punishment. But in the present case there has been no discharge nor punishment yet before 31st March 1951. There has been no prejudicial alteration of the service condition prior to that date. The notices of discharge do not affect the service condition prejudicially in fact. The Company could have legalised the notices by having permission from the Tribunal prior to 31st March 1951. So the applications under section 33A are obviously premature. So no action on the part of the Tribunal, if less reinstatement and compensation, is called for.

The applications are all rejected. This award will govern the applications numbering 23(10), 24(11), 25(12) and 26(13) of 1951 of Basku Lakshan, of Prosad and of Sukhan respectively.

G. PALIT,

Chairman of the Tribunal

The 30th March 1951.

By order of the Governor

D. S. P. MUKHERJEE, Jt. Secy.

ORDER.

No. 2142-Lab.—6th April 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 4559-Lab., dated the 1st August 1950, the industrial dispute between Messrs. Empire Bone Mills, Bansheria, Hooghly, Managing Agents: Messrs. B. N. Elias & Co. Ltd., 1, Old Court House Street, Calcutta, and their workmen represented by the Empire Bone Mills Labour Union, Babuganj, Hooghly, was referred to Sri A. Das Gupta, District Judge;

And whereas the said Sri A. Das Gupta, District Judge, has submitted to the State Government his award on the said industrial dispute,

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to publish the said award as shown in the annexure hereto.

ANNEXURE.

the matter of reference No. 4559-Lab., dated the 16th August 1950, of the Government of West Bengal, Labour Department, and in the matter of industrial dispute between Messrs. Empire Bone Mills, Bansberia, Hooghly, under the management of the Managing Agents, Messrs. B. N. Elias and Co., Ltd., 1, Old Court House Street, Calcutta, and their workmen as represented by Empire Bone Mills Labour Union, Babuganj, Hooghly.

PRESENT:

SRI A. DAS GUPTA, *District Judge.*

the Company: Sri S. C. Sen, Advocate, and Sri J. K. Ghosh, Pleader of Messrs. Orr, Dignam and Co., Ltd., Solicitors, assisted by S. Ghosh, Factory Manager, and Mr. Auroon, Manager, Head Office.

the Union: Sri P. K. Sanyal, Advocate, assisted by Sri Nirmal Sen, President, and Sri Nirmal Bhattacharjya, Secretary of the Union.

AWARD.

The following points have been raised for adjudication:—

- 1) Wages and dearness allowance of all employees.
- 2) Grades and scales of pay.
- 3) Permanency of service.
- 4) Bonuses.
- 5) Safety measure.
- 6) Medical arrangement.
- 7) Quarter or house rent.
- 8) Uniforms for durwans, office peons and drivers.
- 9) Reinstatement of—
 - (a) Nirmal Kumar Bhattacharjya, and
 - (b) Asokebaran Home Roy.
- 10) Re-introduction of the system of gratuity, as directed by the last award
- 11) Immediate provision for cheap canteen and rest shelter.

Not to the present reference, there had been an award by Sri M. C. District Judge, which was published in the *Calcutta Gazette*, dated 14 February 1949, under Government of West Bengal, Labour Department No. 624-Lab., dated the 14th February 1949. Among various points of dispute raised before Sri Banerji, it appears however that wages, dearness allowance, gratuity, medical aid, rest shelter, cheap canteen, safety and probationary period were dealt with in the last award. The

findings and the directions of the learned Adjudicator will be referred to this award at the proper stage, whenever there is an occasion for reference. It may however be noted, as held in the award of the Engineering Tribunal, West Bengal, that although an Adjudicator should not change the previous award except without sufficient justification, change of circumstances since passing of the last award, the principle of gradual advance to the living wage standard and anomalies and errors in the previous award causing hardship to any party will justify a revision of the provisions laid down in the previous award. The three grounds of service which have been enumerated above are only illustrative. It is not possible to lay down an exhaustive list of the grounds which will justify revision of the service conditions laid down in a previous award. I shall refer to the adjudicator's decisions of Sri Banerji on different points and shall discuss if any revision of the decisions of the learned Adjudicator will be justified in the present condition of the industry.

Before I take up the several points raised before me I propose to discuss the economic position of the industry to find out how far the industry is in a position to bear any additional financial burden.

The manufacturing operations of the mills admittedly commenced in July 1948. The Company filed before Sri Banerji the balance sheet for the year ending on 15th October 1947. It, as stated in the award of Sri Banerji, showed a loss of Rs. 2,75,000 on trading accounts. Sri Banerji could not give adequate relief to the workmen on this ground as also on grounds that at the time of adjudication, the industry had hardly worked for a year, and that the learned Adjudicator was not in a position, from survey of the workings of such a short period to foresee the future prospects of the industry. The audited balance sheet for the year ending on 15th October 1949 has been placed before me. This shows a loss of Rs. 20,13-2p. only on trading accounts. The accumulated loss of the previous years which was brought down to the accounts for the year ending on 15th October 1949 was Rs. 7,56,105-7-0. From these figures, I may safely say that the industry has been steadily improving. But so long as the industry is not in a position to wipe out the losses it had incurred in the past and earn a substantial profit, any additional financial burden that may be imposed upon the industry is likely to make the industry collapse. Industries in a free country are its assets. Industries increase and distribute the national wealth of the country. Industries give employment to hundreds of the unemployed. This aspect should be calmly considered by all, including workmen themselves. We feel for the low financial conditions of the workmen but where no improvement is permitted by the economic condition of the industry itself, any persistent demand for improvement may lead the industry to collapse and the workmen will be thrown out of employment. Workmen should always bear in mind the story of the hen who laid golden eggs.

Figures of production filed before me *prima facie* indicate that although there had been a fall in the production during the period August to December 1949 as compared with that for the corresponding period of 1948, there has been a marked improvement in the production in the year 1950 as compared with that in the year 1949. As there was no production from January to July 1948 we are not in a position to pass any remark on the production during the corresponding period of 1949. Production cannot be considered in the abstract without reference to the labour force employed. I am afraid if the workmen based their demands for increase of wages and other reliefs

financial commitments merely on the abstract figures of production any consideration whatsoever about the labour strength industrial disputes will never be at an end and industrial peace will be at a stake. This will hamper production and eventually the workers will be the worst sufferers. Coming back to the figures of production, they will be permitted to scrutinise the figures with reference to the labour employed and the labour charges incurred. The financial year of the industry begins on the 16th October of a year and ends on the 15th October of the following year. We may therefore take into account the figures from the 16th October of the following year to consider the position of the industry in a financial year. Annexures A and B to this award will show at a glance the position of production as compared with the previous year. The labour charge per ton of size bones was roughly Rs. 21 in the year 1948-49 and Rs. 18 for the year 1949-50. This fall in the labour charge is not much and in fact the savings in the labour charges are more than neutralized by the rise in the price of the raw materials. Price of raw materials (bones) varied from Rs. 85 per ton to Rs. 145 per ton and the price of size bones varied from £21 to £32 per ton. The price of bone dust was sold in December 1950 for £28 to £34 per ton. The price of the finished product is inclusive of transport charges which are paid by the Government. The price came down from £25 per ton to £21 per ton in 1950 when the price of raw materials rose from Rs. 85 to Rs. 145 per ton. The price of raw materials regularly had an upward tendency and in 1950 it rose over 300 per cent. of the price of April 1948 while the price of the finished product varied within a very small range. The price of bone dust was stationary being near about Rs. 210 per ton for private parties and Rs. 300 per ton to Government. From Exhibit 13(a) we get that raw materials were purchased in the year 1949-50 on an average at Rs. 195 per ton and size bones were sold at Rs. 285 per ton on an average (after deducting freight and wages of labour). It is clear from Exhibit D that it was not possible to obtain a uniform proportion of size bone from the raw materials. This was possibly on account of the difference in quality of raw materials. I have indicated in Annexure A to this award the proportion of bone dust, the total raw materials used from August to October 1948 and 1949 and from January to July of 1949 and 1950. In October 1949 to September 1950 the total production of size bone dust was respectively 9,370 and 919 tons, i.e., the dust was about 9.8 per cent. or roughly 10 per cent. of the size bone produced. Therefore out of 10 tons of raw bones 10/11 ton of size bones and 1/11 of bone dust can be obtained. This will be worth Rs. 2,699 (Rs. 250.9 for the size bones and Rs. 19 for the bone dust). This leaves a margin of approximately 65 per cent. out of which some provision must be made for depreciation of the plant and machineries, land rents, electric charges, brokerage, insurance and management and other necessary expenditure. It is not possible to say what would be left after meeting the charges to meet the demands of the workers. The manufacturing processes were started only in July 1949 when just a little over two years has elapsed. The financial position of the Company is improving, but it has not, as yet, reached such a stage as will enable it to bear a heavy financial burden. The days are not far off but the workers should have some patience and wait for some time to have a comprehensive revision of the service conditions including wages and dearness allowance. They must wait patiently and strain every nerve to their utmost to improve production and the financial condition of the industry. Grave charges have been laid against labour that they are subordinate and have been flouting the authority and following a strike tactics. The charges are not without any foundation, for in para 2 of the terms of settlement between the Management and the Union

arrived at on 9th June 1949 (Exhibit A), the charges were mentioned. It appears that the Union gave an assurance that the spirit of discipline would be maintained and the Management was given the authority to punish the delinquents under the rules. Thus it is clear that the charges were not denied by the Union. I do not propose to dilate on the charges against the labour. My duty shall be to impress upon the labour a sense of discipline in the Union that the workers do by all means steer clear of such charges.

The only objection that was raised against the audited accounts of the Company is about the depreciations allowed on various heads. No one has been placed before me to show that the depreciations allowed were high.

Points Nos. 1 and 2.—Wages, grades and scales of pay and dearness allowance.

For reasons already stated Sri M. C. Banerji laid down the following wages and dearness allowance for the workmen:—

	Wages.	Dearness allowance
	Rs.	Rs. a.
Male workers	26 per month.	24-6 per month
Female workers	20 per month.	24-6 per month
Clerks	50—55—3—85	30-0 per month
Durwans	30—1—40	24-0 per month

Jamadar was to get the salary and dearness allowance prescribed for durwans plus an additional pay of Rs. 5. After what has been said about the financial position of the industry I am not in a position to give substantial relief to the workmen on these points. However I will increase the basic salary of every workman by Rs. 4 a month and the dearness allowance of the workers both male and female from Rs. 24-6 to Rs. 25 a month. The basic salary of the clerks and the durwans shall likewise be increased by Rs. 4 per month. The clerks shall have the grade Rs. 54-59-3-4. The durwans shall have Rs. 34-1-44. The jamadars shall get the scales fixed for the durwans plus Rs. 5. Dearness allowance for jamadars and the durwans is also increased to Rs. 25 per month. At present the clerks shall continue to get dearness allowance at Rs. 30 a month. Adult male workers will accordingly get Rs. 30 as basic salary and Rs. 25 as dearness allowance and an adult female worker Rs. 24 as basic salary and Rs. 25 as dearness allowance per month. The salary of all permanent whole-time workers shall be increased by Rs. 4 a month and their dearness allowance shall not be less than Rs. 25 per month. The revised scales of basic salary and dearness allowance shall take effect from 1st April 1951.

Point No. 3.—Permanency of service.

The demands of the Union on this point as stated in Annexure A to the written statement are (1) retrenchment under no circumstances and (2) posts which have become vacant due to death, disability or resignation of permanent hands should be filled up immediately from the oldest badli hands.

About the first demand I would like to impress upon the workmen that the demand cannot be reasonably upheld, for retrenchment is a

of a business. If there is any retrenchment on any ground other than *bona fide* trade reasons, the employees will be at liberty to raise the issue. A ban on retrenchment in the abstract is likely to lead the industry to collapse and to throw out of employment the workmen employed in the industry.

out the demand No. 2 my direction should be that the Company announce from time to time the number of permanent posts of different grades and shall fill up the vacancies in the permanent cadre caused by death, dismissal or resignation from among the badlies according to aptitude and efficiency without any unusual delay. Selection from among badlies, according to seniority and efficiency is likely to take some time and it is expected that the selection and appointment are made within reasonable time from the date of vacancy. The Management will be at liberty, having regard to the condition of work and finance of the industry to vary the cadre of permanent workmen from time to time and such variation shall be notified. Temporary workers may be employed either for a fixed term or for a specified work of essentially a temporary nature. Continuation of work may be considered temporary, provided such accumulation is due to abnormal circumstances.

It has been contended on behalf of the Union that the probationary period was fixed by the last award at three months, but that the Company discharged the workers before completion of three months and reappointed new hands with a view to delay their confirmation. Without prejudice on the merit of the allegation I direct that in case of *bona fide* resignation for genuine trade reasons of any temporary workman the work done by him prior to the retrenchment shall be taken into account in computing the period of probation after his reappointment for the purpose of his confirmation. Any other break in the service of a temporary workman for which the employers are responsible shall be ignored in computing the period of probation necessary for confirmation.

Point No. 4.—Bonus.

In the present financial position of the Company I shall not be justified in allowing any bonus to the workmen. The Management has recently introduced a scheme of incentive bonus. This is detailed in Exhibit 16. The workmen should wait and co-operate with the Management in working out this scheme to the best advantage of the workmen themselves. No objection was given against this scheme.

Point No. 5.—Safety measure.

The Union's demands on this point are enumerated in paragraphs 5 and 6 of Part 10 and 11 of Annexure E to its written statement. These are: (1) Safety shoes and masks should be supplied according to the Factory Inspector's order; (2) Disintegrator and dust shaker should not be started unless and until necessary precaution is taken; (3) Hand-gloves should be supplied to news picker, scalemen and wagon and loading personnel; (4) Wagon loading place should be made pucca. Safety measures in a factory have been laid down in the Factories Act as also in the rules framed under the Act. A Tribunal's directions about safety measures are not likely to be exhaustive unless and until the Judge studies the work of the workmen in different categories for a considerable length of time. Sri M. C. Banerji has given some directions. Those directions must be followed and additional

measures should be taken according to the specifications under the Facto Act and the rules framed thereunder as may be advised from time to time by the Factory Inspector. Hand-gloves shall be supplied to those workmen who cannot avoid handling sinews.

Point No. 6.—Medical arrangement.

The Union's demands on this point have been enumerated in paragraphs 15, 16, 17, 18, 19 and 32 of Annexure E to its written statement. Sri M. Banerji gave some directions on these points. In the present financial position of the industry I cannot enlarge upon the directions given by M. C. Banerji. This direction shall be implemented in full.

Point No. 7.—Quarter and house rent.

The Company has erected some quarters for the clerical staff, durwans and workers. Some of these are family quarters. These quarters do not accommodate the full complements. The Company charges Rs. 1 per room which accommodates four single persons. Some of the rooms are occupied by workmen with their families. They are mostly imported from other provinces. In the present financial position of the Company it is not possible to extend the housing scheme. It is equally difficult for the workers to secure any accommodation at a cheap rate. I have already increased the total emoluments of a workman and I hope that the workmen will supplement their earnings by increasing the production under the incentive bonus scheme. This is likely to ease the difficulty to some extent. I, however, recommend that the Management should extend the housing scheme as far as the economic position of the industry substantially improves. For the present I propose to make the following suggestions: (1) Family quarters shall be given to workmen only when female members of his family work in the factory; (2) Those workers whose presence in the factory 24 hours in the day is necessary shall have the prior claim; and (3) And others, quarters shall be allotted to the workmen according to their seniority in service.

Point No. 8.—Uniform.

We are told that uniforms are now being supplied. Hence the point does not call for any decision.

Point No. 10.—Gratuity as directed by the last award.

Sri M. C. Banerji laid down a scheme of gratuity. It was alleged that the scheme has since been discontinued. It has been contended on behalf of the Management in the written statement that the financial position of the industry does not permit re-introduction of the gratuity scheme. At the hearing the learned Advocate for the Company has informed me that the scheme is still in force. I confirm the scheme laid down by Sri M. C. Banerji and direct that the scheme shall be continued without any break.

Point No. 11.—Cheap canteen and rest shelter.

The constructions have been completed and I have been assured by the Management that the canteen would be started very shortly. The suggestion was suggested by Sri M. C. Banerji and we should wait to see how

works. About the rest shelter the Company shall carry out the under the Indian Factories Act and the rules framed thereunder.

4.—Reinstatement of (a) Nirmal Kumar Bhattacharjya, and (b) Asokebaran Home Roy.

Nirmal Bhattacharjya was appointed a godown clerk from 30th July the letter (Exhibit 3), dated 31st July 1948. He had since been of the godown. The Management calls him a godown keeper but Bhattacharjya is not agreeable to accept this position. The Management addressed a duty chart to Sri Nirmal Bhattacharjya on 3rd March 1950 (Exhibit 6). On receipt of the duty chart, Nirmal Bhattacharjya undertook to carry on the work as indicated in the duty chart. Bhattacharjya's letter to the Management is dated 6th March 1950 and is marked Exhibit 6(a). In this letter he explained how he was with the entire charge of the godown. He says "I was employed in the mill as a godown clerk, and from my appointment, I was doing the work of a clerk at the godown. My duty was to keep the stock of finished goods, to write gate passes of shipment and to keep *Hazira* of the mill and I was doing that duty. The shipment was given by Mr. M. R. Chakrabarty, Supervisor of the mill. After his discharge I was asked by Mr. Abraham, Manager, to do the shipment for the time being. From 1st March I was doing the shipment and other duty of the godown in place of Mr. Daniel. Though it is impossible to manage all sorts of godown work I tried to do the same with my level best." The Manager, Mr. Abraham, has been examined in this case. From his evidence it is clear that he is not in a position to say anything either way on this controversy. It remains that prior to 3rd March 1950, Nirmal Bhattacharjya was in charge of the godown and was to look after all the works of the godown including shipment. Nirmal Bhattacharjya became the Secretary of the Union in 1949. Before him Sri Bibhuti Chakrabarty was the Secretary. Nirmal Bhattacharjya was suspended with effect from 15th March 1950 by a letter conveyed by the letter, dated 14th March 1950 (Exhibit B2) and was subsequently discharged with effect from the 15th March 1950 by an order dated 21st March 1950 (Exhibit 9). The contention of the Union is that Nirmal Bhattacharjya was dismissed on account of his connection with the Union. It has been contended that the Management has been endeavouring to destroy the Union by all possible means. It may be noted that the Company discharged 9 employees including Bimal Bikas Chakrabarty, Debabrata Bhattacharjya, Bibhuti B. Chakrabarty, Santosh Chakrabarty and Ekadeo who were connected with the Executive Committee of the Union at that time. Bimal Bikas was the Treasurer. Debabrata was the Joint Secretary. Bibhuti Bhushan was the Joint Secretary and Bimal Dey and Ekadeo were members of the Executive Committee. None of these employees were placed before Sri M. C. Banerji for consideration. The parties came to an agreement and all the aforesaid employees, with the exception of Bibhuti Chakrabarty were reinstated. In this fact it cannot be presumed that the Company was guilty of any unfair labour practice or entertained any inimical spirit against the Union. It may be noted that some other employees who had no connection with the Union but its active members were also dismissed. Two of whom at least were reinstated. From the aforesaid facts as placed before me I do consider it safe to conclude that the Management entertained an inimical spirit against the Union, and was determined to destroy it. I do feel that the Management has no right to dismiss a workman without any fault because he is an active member of the Union. At the same time a member should not claim immunity simply because he is actively

connected with the Union. It shall accordingly be my duty to see what the real reason for dismissing Sri Nirmal Bhattacharjya was.

That Nirmal Bhattacharjya took over charge of the godown duty cannot be denied. So long as he is in charge of the godown performing the duty of a godown keeper, he cannot shirk his responsibility as a godown keeper. He does not appear to have protested when placed in charge of the godown keeper's job. I am discussing this on the assumption that the posts of a godown keeper and a godown are distinct and separate, as suggested by Nirmal Bhattacharjya. I mention here that it has not been suggested that there was ever anyone called a godown keeper. There were supervisors of different departments and supervisors might have been placed in charge of the godown from time to time and these supervisors might have supervised the works of the godown. Be whatever that might have been the fact remains that once Nirmal Bhattacharjya has accepted the responsibility of a godown keeper he cannot refuse to be called a godown keeper nor can he shirk the responsibility of a godown keeper. Nirmal Bhattacharjya was once called upon to explain the shortage of bags. In the explanation which he submitted he made it clear that when he took over charge of godown keeper's job he was not in charge of the bags by actual counting (Exhibit 1a).

Before I proceed to discuss the charges on which the extreme penalty was inflicted on Nirmal Bhattacharjya, I propose to discuss some of the charges laid against Nirmal Bhattacharjya. On 4th March 1949 he was called upon to explain shortage of bags. He submitted his explanation (Exhibit 1a). On 9th April 1949 he was charged with having incited labourers for slow down works and insubordination. He submitted his explanation and no step was taken against him (Exhibits 2 and 3). On 16th June 1949 he was charged with having instigated the labourers of the Shakers Department to make false allegations against the Superintendent. This time a warning was noted in his service record and it was pointed out to Nirmal Bhattacharjya that any repetition of the offence would lead to his suspension. The only thing which was recorded by Nirmal Bhattacharjya was "I have no objection". Thus it is clear that he pleaded guilty to the charge and he submitted to the warnings held out to him. I note in this connection that previous offences which have either been condoned or otherwise disposed of cannot be by themselves grounds for the dismissal of a workman. It is only when a new offence has been committed in the previous offences which had either been condoned or otherwise disposed of may be taken into account in assessing the punishment. The equitable principle on which I shall proceed in this case is the one which is enunciated in Exhibit B. The extreme penalty was inflicted on Nirmal Bhattacharjya for the reasons enumerated in Exhibit B. For a clear understanding of the case I shall quote the two charges and Nirmal Bhattacharjya's explanation. The charges are:

"In reply to your note, dated 6th March 1950, I have issued you a copy of your duty chart again on 7th March 1950 which you have to accept in addition. I cannot accept your statement that you are unable to manage with 34 hands as detailed in my note, dated 3rd March 1950 which I consider to be sufficient for the purpose. This constituted a dereliction of duty on your part, being negligent and also neglecting your responsibility for the work. Please show cause why your services should not be terminated on this ground.

This morning I understand, you had some argument with Sri Mukherjee over some affairs in Shaker Section and you uttered

able remarks about supervisor, engineer, manager, etc., in presence of workers (according to the statement of Mr. Mukherji). At about 4 when I asked you in presence of Supervisor Mukherjee about city of your reported remark, you denied it. But when Supervisor insisted that you did pass that remark you got wild with him. I did and asked you to control your temper. You lost your temper that degree and started talking to me in a very objectionable and ugly attitude.

Explanations are :

I am not at all a godown keeper, which duty was given from my parent that was stated at my letter, dated 6th March 1950. I was not of the godown, so I am ready to do my duty, which I am concerned the supervision of the coolies is not the duty of a clerk. So I am not to do the duty, which is out of clerical job. I am not able to understand what letter was given to me from the Head Office on September 1950 for the confirmation of my duty. I am agreed that a letter was given on 7th March 1950, and I did not take that letter as it was addressed to a keeper, but did not refuse to take. If you want to force me to do work of the mill, then how it is possible for me to comply with it. I have nothing to say for the paragraph 1, as it is stated before in

In paragraph 11, my statement is that when I was passing the Shaker Department, I saw that the female coolies are quarrelling with each other. I told them to stop quarrelling and to start work. A female cooly reported to me that when she wanted to go to the godown is being asked to go to godown Babu and Manager to have permission for that. I requested Mr. Mukherjee to transfer Ali Ahmed to the godown as from the beginning he is creating the trouble in that department that all female coolies told that they have asked to carry one bag of cement every now and then, and if they disagree to carry one bag, they are forced to do, and for the Narayan, a female cooly, was fallen down while carrying the bag from the lorry recently. I told them that according to the order they are to carry only 65 lbs. and if they are unable to carry one bag, they may not do that. They reported that if they are forced, they are to do, I only told them that I will try to take action. At 10-00 hour you asked me about the fact, and I told you the fact that Mr. Mukherjee told the lies to you, then I told him not to tell me that I was not wild with him. After that you threatened me that you would suspend me for seven days, but I did not tell you any illegal words in my letter. After that I only requested you not to suspend me and to award punishment illegally. You can discharge me, but you sent a false report to the police, that I have threatened you. I have been in this Company nearly one and a half year, but I was not suspended. All this illegal judgment is given by you, as because you are Union Secretary and you to collapse the Union activities to remove me from the mill."

In the first charge, as I have already said above that Nirmal Bhattacharjya having taken over the charge of the work of what he calls as godown keeper cannot shirk the duty and responsibility of a godown keeper's duty as fixed by an order, dated 13th March 1950 (Exhibit 4). The forwarding letter was addressed to "The Union Secretary". This was admittedly refused by Nirmal Bhattacharjya. The reason was that he did not take the letter because he was not the

godown keeper. Was there any employee answering the description "Godown Keeper" on 7th March 1950? There was neither any suggestion nor could there be any suggestion that there was any man answering the description godown keeper other than Nirmal Bhattacharjya. Ret the letter by Nirmal Bhattacharjya or in other words non-acceptance of the letter as Nirmal Bhattacharjya interprets it can by no means be justified. This refusal amounted to insubordination and was undoubtedly an instance of obstructive tactics. A few days before this, the Management addressed a chart indicating the total labour strength to be employed by him and how they were to be distributed. This is dated 3rd March 1950 (Exhibit 6). The labour strength is said to have been fixed by a decision of the Union and the Management in the Labour Commissioner's office. This was in a way admitted by Nirmal Bhattacharjya. Bhattacharjya in his evidence before me made all possible attempts to minimise the effects of the decision of the joint meeting. At first he did not remember to have attended any joint conference in Labour Commissioner's office. Labour Commissioner however did not take any part in the conference. This is possibly why we do not find any note of the conference in the Labour Commissioner's file although there is a reference to a joint conference held on 16th February 1950. In reply to this letter dated 6th March 1950 (Exhibit 6a) Nirmal Bhattacharjya did not say that there was any such decision in the joint conference held on 16th February 1950. He appears to have assessed the strength at a much lower figure before the Labour Commissioner. But in the letter, dated 6th March 1950, he explained in what circumstances it was possible to work with the strength suggested by him and told the Management that in the existing condition of the factory it was not possible to manage the work even with 34 men. The objections which were raised in the letter dated 6th March 1950, was another instance of obstructive tactics. In fact the Assistant Labour Commissioner was constrained at least once to invite the attention of the President Sri Nirmal Kumar Sen to similar attitude of the Secretary (Exhibit 7). It has not been suggested that Sri Nirmal Kumar Sen replied to this letter denying the charges brought against the Secretary. The charge of the Assistant Labour Commissioner is relevant in indicating the general conduct of Sri Bhattacharji. On the evidence and circumstances of the case I hold that the first charge has been proved.

The second charge was about using objectionable language showing a threatening attitude towards a supervisor and a manager. In his explanation Nirmal Bhattacharjya denies to have used any objectionable language or to have threatened as alleged by the Management. The charge relates to an incident of an altercation with the Supervisor Satyaranjan Mukherjee, since discharged. It was clear from the testimony of Nirmal Bhattacharjya that there was a heated altercation between Satyaranjan Mukherji and Nirmal Bhattacharjya and that Nirmal Bhattacharjya called what Satyaranjan Mukherji had reported to the Management as falsehood. Satyaranjan Mukherji has been examined by the Commission. He has since been discharged by the Company. He denies to have made any complaint to the Manager or to have had any quarrel with Nirmal Bhattacharjya. I cannot place any reliance on this statement of Nirmal Bhattacharjya. Thus far the evidence has been gained over to support Nirmal Bhattacharjya. Thus far in finding the truth of the charge brought by the Management against Nirmal Bhattacharjya or of the explanations submitted by Nirmal Bhattacharjya we are left with the evidence of the Manager on one side and Nirmal Bhattacharjya on the other. In this connection I shall have to consider the general conduct of Nirmal Bhattacharjya. I may note here that in a case before an Industrial Tribunal the standard of evidence is

is required for conviction under the criminal law of the land need be insisted upon. The guilt of an employee need not be proved beyond reasonable doubt before any punishment is inflicted on him. Any grave action based on legal facts and circumstances may justify punishment of an employee. By a letter, dated 13th October 1949, the Proprietor drew the attention of the President to several instances of misconduct of Nirmal Bhattacharjya (Exhibit 12).

reproduce the several charges against Nirmal Bhattacharjya mentioned in the letter.

N. K. Bhattacharjee (Godown Keeper).—Since about six months he has been neglecting his duties deliberately. Due to this negligence, he has allowed several thousand bags (containing finished goods) to rot. He is fully aware that these goods should be placed on tin sheets or bamboo planks—which were lying in his godown. Instead, the bags were placed directly on the floor and in the course of time rotted. The loss on this is really high due to the exorbitant rate for new gunny bags at present.

part from this, he has through negligence and bad work caused confusion in the godowns on many occasions by allowing bags to lie around in a haphazard manner. Several more instances showing neglect and inefficiency can be cited. His neglect of duties is further caused by the indulgence of Union activities during working hours in the mill. This matter we cannot agree to and have instructed him repeatedly—as we have warned that it interferes with the proper execution of work for which he is employed. In spite of instructions, he has continued to do this.

Finally, his attitude of indiscipline and threats will not be tolerated. He has on several occasions and in the presence of various people spoken rudely and insubordinately to the Manager. This we cannot permit, and it is to be enforced.

In addition, he threatened the Manager on one occasion that if a Union worker was not dismissed immediately he would behave as a troublemaker. On another similar occasion, he threatened that there would be a shutdown in the mill. Such threats we are not prepared to tolerate as they menace the smooth running of any factory."

The President did not refute the charges, and the silence of the Union was construed that there was nothing to be refuted. Having considered the various conduct of Nirmal Bhattacharjya in general, I cannot but commend the Manager in preference to Nirmal Bhattacharjya.

As has been urged that Nirmal Bhattacharjya was not given any opportunity to adduce evidence to defend himself. The first charge has been based on the documentary evidence for which further evidence was not required. If Nirmal Bhattacharjya was in possession of any further documentary evidence he should have produced it before me. No such evidence has been produced. And about the second charge, the incident took place in the presence of Sri S. Mukherji and the Manager himself. The Manager is the Manager. Any oral evidence other than that of the Manager and the Supervisor was not possible. Thus there was no opportunity of giving Nirmal Bhattacharjya any opportunity to adduce evidence to defend himself. The opportunity to adduce evidence must be

given only when such evidence is possible. Hence I do not think that there was any defect in the procedure.

The next contention is that in discharging Sri Nirmal Bhattacharya, the President was not consulted as agreed on between the parties on June 1949 (Exhibit A). Similar conduct of Nirmal Bhattacharya was reported to the President so far back as on the 13th October 1949. The President did not even reply to this letter. No useful purpose would be served if the President was consulted this time also. By inaction on the President on previous occasions as referred to above, the President of the Union forfeited his right given him by clause (5) of the agreement dated 9th June 1949.

On the evidence and circumstances of the case I shall not be justified in setting aside the order of dismissal. However I find from the Labour Commissioner's file that the Management was agreeable to give him some compensation. I appreciate this as a gesture of good feeling towards a workman and I hope that the Managing Director will pay some compensation to Nirmal Bhattacharya who was undoubtedly an employee of the Company with small earnings.

(b) *Asokebaran Home Roy*.—He has been examined before me. He was on a previous occasion discharged and by an agreement before M. C. Banerji he was reinstated. As I have already stated that no such labour practice can be imputed to the discharge of Asokebaran Home Roy along with several others who came up before Sri M. C. Banerji for adjudication of their cases. Besides Asokebaran Home Roy was not an active member of the Union. He might have been an insignificant member. Asoke Home Roy was ill and he went home and overstayed there without extending the leave originally taken. The evidence of Asoke Home Roy before me is rather inconsistent. He says one thing and the next moment he corrects himself. The truth can be found from his application to the Management, dated 12th September 1949 (Exhibit 10). In this application he stated that he had been suffering from pain in the stomach since July 1949, and that since then he had pain off and on. He consulted a Doctor on the 26th July who prescribed a special diet for him and as special diet was not possible for him at the place of his work, he took 7 days' leave which was due to him and went home where the pain abated. He could not return to duty before 27th August 1949. He was given leave on the 29th August 1949 and was discharged on 10th September 1949. 28th August 1949 was a Sunday. From the Attendance Register which was produced before me I noted the following details:—

25th May 1949 and 10th June 1949—Leave.

10th July 1949, 16th July 1949 to 23rd July 1949 and 25th July 1949 to 30th July 1949—Absent.

24th July and 31st July were Sundays.

1st August 1949 to 6th August 1949—Leave.

Although Asoke Home Roy stated before me that he had applied for extension of leave, it was specifically mentioned in the application exhibited that he could not before his return from home send any information to the Management, nor could he file any medical certificate. A medical certificate bearing the date 28th July 1949 was submitted along with the application (Exhibit 10). I do not propose to scrutinise the evidence of Asoke Home Roy as to when the medical certificate was obtained. All that I can

the evidence of Asoke Home Roy before me cannot be relied upon. It is clear that Asoke Home Roy went home on six days' leave. He was absent for about 21 days. Under the Standing Rules which were in force at the relevant time, any worker remaining absent in excess of the leave already granted was liable to be reduced to the *badli* status or to be dismissed unless he has previously secured written permission to extend the leave originally granted or on his return is able to give the Manager a satisfactory explanation on his failure to apply for an extension of leave. A written application (Exhibit 10) was submitted only after his discharge. No explanation appears to have been made to explain the overstay to the satisfaction of the Manager. The sworn testimony of the Manager is that he waited for some time and then appointed a substitute in place of Asoke Home Roy. He was originally the Ticket No. 14. Subsequently on 29th August 1949 he was appointed to the Ticket T4. For the week ending on 10th September 1949 his ticket was T2. The prefix "T" indicates "temporary" or "*badli*". The Manager's report contains a very favourable opinion about Asoke Home Roy and that he will take Asoke Home Roy as soon as there is an opportunity. Asoke Home Roy was not discharged. He was only reduced to the status of *badli*, according to the Standing Rules which were in force at the relevant time.

It has been contended on behalf of the Union that Asoke Home Roy was given any charge-sheet or any opportunity to explain his conduct. The contention is that each and every workman knows the service conditions laid down in the Standing Orders. He has been dealt with according to the Standing Orders. No useful purpose would have been served by calling for an explanation from Asoke Home Roy or giving an opportunity to him to explain his overstay. He should have applied for extension of his original leave if he was really unable to return to duty on expiry of the leave. On his return he did not explain his overstay to the satisfaction of the Manager. The facts are known to Asoke Home Roy and do not admit of any further explanation and under the Standing Orders he could have as been dismissed. The Manager appears to have taken a lenient view and inflicted on him a lesser punishment. The facts of the case which are admitted cannot but justify the action taken by the Manager in respect of Asoke Home Roy. In the interests of discipline among the workers in the industry I do not propose to interfere.

The next contention is that the action of the Manager cannot be upheld on the ground that in taking the action, the President of the Union was not consulted as agreed upon on 9th June 1949 (Exhibit A). Clause 5 of the Standing Orders speaks of previous consultation with the President of the Union in cases of retrenchment and dismissal. This is not strictly applicable to a case of dismissal. Even if it be held that it was a case of dismissal, the action which the Manager has taken was in accordance with the Standing Orders. Consultation with the President would not have been the proper course in the position. I firmly believe that the President who is reputed to be a reasonable man would not have, in the interests of discipline among the workers, advised otherwise. Of the two steps provided in the Standing Orders the Manager has taken the one which is more lenient. I however recommend that Asoke Home Roy should be taken in as soon as there is a vacancy in the permanent cadre.

ORDER.

No. 2154-Lab.—7th April 1951.—Whereas under the Government West Bengal, Labour Department, order No. 4861-Lab., dated the 31st August 1950, as modified by order No. 6315-Lab., dated the 6th November 1950, the industrial dispute between the Victoria Cotton Mills, post-office Ghusuri, Howrah, and their workmen represented by (1) Rajani Kanta Jana, (2) Lachman Shaw, (3) Subodh Adhikari, (4) Gopal Pater, (5) Bechu Mohan Pal, 27/1, Ram Charan Naskar Lane, post-office Ghusuri, Howrah, was referred for adjudication to Sri A. Das Gupta, District Judge;

And whereas the said Sri A. Das Gupta, District Judge, has submitted to the State Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of reference No. 4861-Lab., dated the 31st August 1950, amended by the order No. 6315-Lab., dated the 6th November 1950 the Government of West Bengal, Labour Department, and in the matter of an industrial dispute between the Victoria Cotton Mills, post-office Ghusuri, Howrah, and their workmen represented by Sri Rajani Kanta Jana and four others, 27/1, Ram Charan Naskar Lane, post-office Ghusuri, Howrah.

PRESENT:

SRI A. DAS GUPTA, *District Judge.*

For the employers: Sri P. C. Mullick, Advocate, Sri Chintan Mukherjee, Pleader, assisted by Sri Ajit Kumar Banerji, Manager of the Mill.

For the Employees: Sri D. L. Sen Gupta, Advocate, assisted by Rajani Kanta Jana.

AWARD.

The Victoria Cotton Mills is a partnership business. It is an exclusive spinning mill. The partners fell out and one of the partners Sri Rames Agarwalla filed a suit in the Original Side of the Hon'ble High Court Calcutta. The suit was registered as Suit No. 2165 of 1950. By an order of the Hon'ble High Court, dated the 17th August 1950, Sri Mota Jaju was appointed Receiver. The Receiver is a necessary party to the proceedings and he entered appearance through Sri P. C. Mullick, Advocate.

The following points have been referred for adjudication:—

- (1) If the workers are entitled to any relief for the period of lock-out
- (2) If the minimum basic pay of workers should be fixed at Rs. 20
- (3) If the post of "Sardar" should be abolished at once
- (4) If the Provident Fund Scheme as per last award should be reintroduced.
- (5) If the workers should be granted casual leave and sick leave as per last award.

- 5) To what relief are the following workers entitled:—(1) Sudarsan, Machine Shop (since dead), (2) Sudhir (Spinning) and (3) Naba (Spinning).
- 7) If a creche and a rest room for female workers are to be constructed.
- 8) If workers should be made permanent after three months' service.
- 9) If Kripa Singh should be allowed to resign on ground of old age and if he should be granted gratuity.
- 10) If the facilities regarding festival holidays prevailing before the publication of the Cotton Textile award should be restored.

may be noted at the very outset that the mill was closed on and from 1st of October 1950 by a notice, dated 30th August 1950. This notice caused an apprehension in the minds of the workmen and they raised a strike as to the justification of the contemplation of the Management to close down the mill. The dispute was referred to me for adjudication in order of the Government of West Bengal, Labour Department, 5707-Lab., dated the 28th September 1950. In compliance with the order of reference, an award has already been given upholding the award. The workmen who were thrown out of employment on account of the closure have, however, been awarded some compensation. The award has been published under the Government of West Bengal, Labour Department, order No. 1156-Lab., dated the 20th February 1951. Hearing the industrial dispute which is the subject-matter of the present adjudication proceedings had to be held up till publication of the award relating to the closure of the mill, although the order of reference is the basis of the present adjudication proceedings, because it is agreed that most of the items of dispute under the earlier order of reference would cease to have any force, if the mill was closed down. As the mill has been closed down without any possibility of it being reopened in the near future, items Nos. 2 to 5, 7, 8 and 10 of the industrial dispute as enumerated in the order of reference lost their force. It has been conceded by both parties that in the circumstances detailed above, these items of dispute need not be decided at this stage. The workmen, however, reserve their right to re-agitate these points, if the award reopens. Hence the only points which call for adjudication are: (1) If the workers are entitled to any relief for the period of lock-out. (2) To what relief are the following workers entitled:—(1) Sudarsan, Machine Shop (since dead), (2) Sudhir (Spinning), (3) Naba (Spinning). (3) If Kripa Singh should be allowed to resign on ground of old age and if he should be granted gratuity.

Part 1.—Compensation for the lock-out period from 6th May 1950 to 20th June 1950.

Admittedly the Management closed down the mill on and from 6th May 1950, 12 noon. The working hours of the mill were 6 a.m. to 10 a.m. and 12 noon to 4 p.m. A whistle was usually sounded at 10 a.m. to mark the midday stoppage of work and after the midday recess the work was commenced again by a similar whistle sound. But on 6th May 1950 no such midday whistle was sounded and instead of whistle sound, the following notice was found at the gate:—

“NOTICE.

The workers of the Spinning and Reeling Departments numbering about 200 have suddenly left the work at 9-25 a.m. without giving any

notice and came out of the mills premises leaving their respective machine and job. This action of the workers has been most illegal which has compelled the Management to stop the engine and close the mill.

(Sd.)

Manager."

(Annexure "H" to the Company's written statement.)

By this notice, the mill was closed down and the workmen were locked out. The lock-out was recalled with effect from 21st June 1950 by a notice dated 15th/17th June 1950. The notice is reproduced below:—

"NOTICE.

As desired by the Labour Commissioner, Government of West Bengal Calcutta, *vide* his letter No. 1513-L.C., dated 13th June 1950, the Management is willing to restart the mills on and from Wednesday, the 2nd instant, under the following conditions:—

- (1) That the Management will be at liberty to close the mills at expiry of two weeks without any further notice, if full strength of workers does not join or be not available within this period.
- (2) No claim of any kind will be made for the close period due to illegal strike on the part of the workers.
- (3) The Management will employ proportionate workers in all departments as the cotton mill is inter-linking, one department depending upon others.

(*Vide* Annexure H/13 to the Company's written statement.)

The spinning mill comes under the head "Cotton Textile Industry" in the schedule annexed to the Industrial Disputes Act, enumerating public utility concerns. As such, it must be classed as a public utility concern. Section 22 of the Act, lays down the conditions under which the employees of a public utility concern may strike and employers may lock out the employees. The underlying principles to impose restrictive conditions for a strike and lock-out in a public utility concern are too well known to require any explanation. Briefly speaking such concerns may be expected to exist for the people in general and to prevent any obstruction in the production of necessary goods, such restrictive conditions have been imposed. It therefore stands to reason that the party at fault cannot expect any sympathy from any quarter for their action in causing inconvenience and hardship to the people in general.

Strikes and lock-outs in a public utility concern may be declared by a notice as provided in section 22. The only exception where such notice is not considered necessary is where such strikes or lock-outs follow respectively a lock-out or a strike already in existence. But in any case, it is incumbent upon the employer to appraise the Government promptly about the strike which has necessitated a lock-out. It has been proved that the Management immediately sent an intimation to the Labour Commissioner about the notice and informed him about the circumstances under which, according to the Management a lock-out was to be declared. Sri B. K. Basu, Conciliation Officer, immediately received the information visited the mills and had discussion with

Manager and representatives of the workers. What transpired in the discussion with the Mill Management and representatives of the workers was reduced to writing. The Labour Commissioner's record is a report of the Conciliation Officer prepared from the jottings made by him at the mill. All these papers will be found in the file of the Conciliation Commissioner. This contemporaneous report of the Conciliator, a disinterested person, is of much value in sifting the oral statements of the parties adduced before me. The report is accordingly set out below:—

Fact: Strike by workers on 6th May 1950, followed by lock-out.

In receipt of information about strike by a section of workers and on 6th May 1950, I visited the mills on 6th May 1950, and had a discussion with Mr. Banerji, the Manager, and some workers' representatives. It appeared in course of the discussion that a section of the Spinning and Reeling Section stopped work at 9-00 a.m. on 6th May 1950. And after this the Management stopped the engine at the mill being closed thereafter.

It also appeared that 54 spinners had submitted an application praying permission to resign on 6th May 1950 as the rates paid were too low as compared to other mills and some reelers also had a grievance regarding their rates of payment. The stoppage of work from 6th May 1950 appears to have been due to refusal by the Management to increase the rate. As a result of joint discussion Management were asked to reopen the mills as soon as the workers of the Spinning and Reeling Section would commit in writing that they would be willing to return to work. The workers however were unwilling to give any written undertaking to that effect. It was ultimately suggested that the workers should consult the other workers and inform the Management about their decision to rejoin work by 6th May 1950 and Management would reopen the mills as soon as they were satisfied that all workers had returned to work.

B. K. BASU,

6-5-50.

It is amply clear from this report that after some workers of the Spinning and Reeling Departments had stopped work the Management stopped the engine and that as a condition precedent to the reopening of the mills the Management insisted upon a written undertaking by the workers of the Spinning and Reeling Departments that they would resume work, if the mills were reopened. But that the workers were not agreeable to give such undertaking.

It was suggested that the representatives would consult the other workers and inform the Management about their decision to rejoin work by 6th May 1950.

The Manager Sri Ajit Banerji and Spinning Master Sri Bankim Sircar have been examined for the employers and Sri Rujani Kanta Juna, one of the workers' representatives has been examined for the workers.

Four workers of the Spinning Department applied to the Manager for permission to resign. [Annexure G is the copy of the application at 31.] This application was received by the Manager on 5th May 1950 at about 9 a.m. The grievances of the workmen were that they were getting Rs. 20 per month as wages as directed by the award of the Tribunal. The application was handed over to the Spinning Master and the application with some of the applicants to the Manager. None of the applicants who took the application to the Spinning Master or to the

Manager has been examined in this case. The sworn testimony of Manager which stands un rebutted is that he told the workmen who accompanied the Spinning Master that they were being paid according to award, and that if they wanted to resign with so short a notice, the mill would be closed. He at once rang up one of the Proprietors Sri J. Agarwal who told the Manager on the phone that an immediate decision was not possible and that as he was indisposed he would give his decision after seven days. The Spinning Master appears to have made some communication about the date on which the Manager had the talk with the Proprietor on the phone. On the 6th May in the morning some of the workers demanded their wages. The Spinning Master says that he took them to the Manager and that the Manager had a talk with the Proprietor on the phone and told the workers that the Proprietors would give his decision after six or seven days. The Spinning Master then went to the gate and it was reported to him that the workers of the Spinning and Reeling Departments were surrounding the machines without doing any work. This was reported to the Manager and the Manager with the Spinning Master went to the Spinning and Reeling Departments and they satisfied themselves about the report. They apprehended that the machines would catch fire as the engine was 300 H.P. and 150 H.P. of the energy was consumed in the Spinning Department. If the Spinning Department was stopped the engine might break it. These are matters within the knowledge of an expert and in the absence of any contradiction, it can safely hold if the workers of the Spinning and Reeling Departments stop work there was the possibility of the machine catching fire and the breaking down. The Manager accordingly stopped the engine and the mill. This action according to the Management was taken for the good of the mill. Some workers are said to have stayed inside the mill as they had to be forced out, according to the Management, with police. The Conciliation Officer's report, dated 6th May 1950, does not indicate any police help had to be called for. We are told by the Manager that the Spinning Master that police help had to be requisitioned and a letter of the Manager, dated 11th May 1950, to the Assistant Commissioner there is a mention that police had to be requisitioned to guard the mill property as also "to put out the men unlawfully sitting on the machines" (Annexure H3 to the Company's written statement). The workers declared a strike. As I have already stated, the notes made by the Conciliation Officer on the spot during his inspection on the 6th May and his report bearing such notes have much value. These notes and report of a district officer of the Government supports the story of a strike. I am accordingly inclined to hold that there was a strike of the workers of the Spinning and Reeling Departments apart from the contemplation of 54 workmen of the Spinning Department to resign.

The grievance of the 54 workmen of the Spinning Department was that they were not getting wages according to the award of the Maharashtra Textile Tribunal. It is clear from the award that the basic wage of unskilled workmen of an exclusively Spinning Mill was fixed at Rs. 16-0-0 per month for an average consumption of 150 pounds of cotton per spindle per annum. The wages were subject to a sliding scale of 7 as 2½ increase or decrease in cotton consumption by 2½ pounds per spindle per annum subject to the irreducible minimum of Rs. 16-9-1. The consumption of cotton per spindle is much less than the standard fixed by the award for earning the wages demanded by the workmen. The workmen were agitating their grievance for a long time. But the grievance was not removed. It has been argued that the old age of the machine was responsible for the low production. No special case appears to have been made out by the workmen of this mill during the proceedings before

Cotton Textile Tribunal. In any case the award was binding on the workers and the employers unless or until the said award was altered by a new award. Besides, at the relevant time the award ceased to have any effect on expiry of the operative period of the award, the workmen could have asked the Government for removal of their grievance. The workers appear to have moved in a constitutional manner in this direction. They took up the weapon in their own hands to force the employers to concede their demands. This was undoubtedly highly unjustified. In the application for permission to resign the workers do not make any grievance about their wages nor did they suggest that in spite of their best attempts, the award could not be increased on account of the bad condition of the award. In any case, the parties to the award had no right to get out of the award so long as it was in force. The wages that were being paid to the workmen for the outturn were *prima facie* adequate. 54 workers made a grievance about their wages and sought permission of the Management to resign with a notice of one or two days. This application was obviously intended to embarrass the Management. Obviously, the Management had no sufficient notice to make arrangement for the work of these 54 workmen used to do. The whole idea of the workmen appears to have been to force the Management to concede to their demands. The Management could not be granted and was not granted. Absence of these 54 workers at a time was to tell heavily upon the mill. The 54 workmen, in response to their application, intended to resign after working the full shift on the 6th May. But they stopped work in the middle of the working shift in spite of the difficulties explained to them by the Manager. This was a part of the workmen amounted to a cessation of work by these 54 workers in a body acting in combination and a concerted refusal to work. This amounted to a strike. This strike was launched even without the immediate notice required by the Statute. This was undoubtedly an illegal strike. Even if we assume that there was no other strike, the action of these 54 workmen sufficiently justified the lock-out declared by the Management.

The strike was not only illegal but was unjustified. The intention of the workmen appears to have been to embarrass the Management. All these facts make the lock-out declared by the Management legal.

It was urged by Sri Sen Gupta for the workmen that the lock-out, even if it was lawful ceased to be so when the workmen informed the Management of their intention to resume work. As an answer to this contention, it may be permitted to quote below section 24, sub-section (2) of the Industrial Disputes Act:—

"Where a strike or a lock-out in pursuance of an industrial dispute has already been commenced and is in existence at the time of the reference of the dispute to a Board or a Tribunal, the continuance of such a strike or lock-out shall not be deemed to be illegal, provided such strike or lock-out was not at its commencement in contravention of the provision of this Act or the continuance thereof was not prohibited under sub-section (3) of section 10."

The lock-out was not in contravention of section 22 of the Act. It was in consequence of an illegal strike. There was no order of the Tribunal under section 10(3) prohibiting its continuance. The lock-out was declared on 21st June 1950. The dispute had not been referred to any Board or Tribunal at least till then. Hence, continuance of the lock-out till June 1950 could not be prohibited by the Government under section 22. The Government can assume jurisdiction under section 10(3) of the

Act only when the strike or lock-out is in existence on the date of reference under section 10(1) and continues even after the reference appears from the report of the Conciliation Officer as also the notes of Labour Commissioner confirming the said report that recommendation had been made to the Government for prohibiting continuance of the lock-out under section 10(3) of the Industrial Disputes Act. It also appears that on the 2nd June 1950, the Assistant Secretary of the Government of Bengal, Labour Department, wrote to the Manager of the Mill requesting him to lift the lock-out and reopen the mill immediately (Annexure I to the Company's written statement). This was long before the date of the reference. This letter cannot be construed as an order under section 10 of the Act.

The Management was agreeable from the very beginning to a lock-out provided all the workers rejoined their duties and insisted upon a written undertaking from the workers. This is clear from the report of the Conciliation Officer, dated 6th May 1950, to which reference has already been made. There was nothing unreasonable on the part of the Management in insisting on a written undertaking from the workers. The Company was running at a loss. If the Management works without the full cost of the over head cost of production would increase. Besides, the consumption of energy falls far short of the full capacity of the engine may be some risk to the engine and the machines. Equity requires that neither party of an industry specially in a public utility concern, should be permitted to ignore the interest of the other party and above all of the industry itself. And if the Management could not rely much upon the verbal assurance of some workers and insisted upon a written undertaking from the workers, there was nothing unreasonable. If the Management refused to work in a condition which appeared to him uncertain and in place of upon a firm and secure position there was nothing unjustifiable. I represented to the Assistant Labour Commissioner that on 7th May 1950 the worker's representatives approached the Management agreeing to work as soon as the mill reopens. (Annexure H2 to the Company's written statement.) In reply the Manager denied to have had any such intimation (Annexure H4 to the Company's written statement.) Then the Assistant Labour Commissioner informed the Manager by a letter, dated 16th May 1950, that the workers' representatives had assured him that the full strength of the workers was likely to be available within a week or two from the date when the mill would reopen. (Annexure H3 to the Company's written statement.) Thereafter the Manager with a view to safeguard the interests of the industry proposed to the Labour Commissioner to impose certain conditions. (Annexures H6 and 7 to the Company's written statement.) This led to a good deal of correspondence and conferences with the Labour Commissioner at least till about the middle of June, and the mill reopened with effect from 21st June 1950, by a notice, dated 15th/17th June 1950. Even after the mill was reopened the full strength of workers was not available for some time. The following figures will be found in the Labour Commissioner's file. The total strength of workers was 376

Date.	Number of workers available			
21st June 1950	191
22nd June 1950	246
23rd June 1950	253
24th June 1950	267
26th June 1950	309
27th June 1950	324

This is a court of equity, and compensation for a period of lock-out is an ample relief. The guiding principle of a court of equity is that one seeks equity must do equity. The illegal and unjustified strike of the workers were at the basis of the lock-out in question. The declaration of lock-out or its continuance was neither illegal nor unjustified. In the circumstances of the present case, I cannot persuade myself to allow any pension to the workmen for the period of the lock-out.

pts 6 and 9.—To what relief are the following workers entitled:—(1) Sudarsan (machine shop) (since dead), (2) Sudhir (spinning), (3) Naba (spinning). If Kripa Singh should be allowed to resign on ground of old age and if he should be granted gratuity.

These points relate to some specific demands on behalf of some of the workmen of the mill. Two of them had long ceased to be workmen of the mill. The demands of these workmen are detailed below:—

Name	Length of service.	Demands.	Remarks.
Sudarsan	8 years	His widow may be paid full contribution of the employer to the provident fund and gratuity.	Died of small-pox in March 1949.
Sudhir	12 years	Condonation of his absence from 26th April to 9th May 1949 on the ground of his marriage. It is prayed that his present appointment may be deemed to be in continuity of his past service without any break or he may be paid gratuity for his past service.	On his return from absence he was appointed as a <i>badli</i> worker.
Naba	12 years	Condonation of his absence on the ground of illness. It is prayed that his present appointment shall be deemed to be in continuity of his past service without any break or he should be paid gratuity for the past service.	He has been appointed as a <i>badli</i> worker after his return.
Kripa Singh	12 years	Employers' contribution to the Provident Fund and gratuity.	Retired on the ground of age and ill health without permission of the Management.

It may be noted at the very outset that the five representatives of the workmen mentioned in the order of reference have no authority either from the workmen or from the widow of Sudarsan. Although the definition "industrial disputes" is sufficiently elastic to indicate that any workman may be a party to an industrial dispute for any other workman, the section defining "workman" should be read subject to the provision of section 36. A workman who is an officer of a registered trade union or an officer of a federation cannot be a party to a dispute of right to place the demands of each and every workman. The right has been given to a workman to be represented by an officer of a registered trade union or an officer of a federation or where the workman is not a member of any trade union by any other workman employed in the industry. When a workman wants to be represented by another workman, the latter must be authorised "in such manner as may be prescribed". It is clear on this point. This clause was introduced by the Industrial Disputes (Appellate Tribunal) Act, 1950. No rules appear to have been framed in this connection after the amendment of section 36. As no specific rule is framed, we must follow the usual practice. If a workman wants to be represented by another workman or in other words when the latter intends to represent the former, the latter must have

a written authority from the former. Rajani Kanto Jana, a workman, says that he has verbally been authorised by these persons to represent them and to place their demands before the Tribunal. I am not inclined to rely upon the uncorroborated testimony of Rajani Kanto Jana and shall presently point out that what Rajani Kanto Jana says is absolutely absurd. The workers of the Victoria Cotton Mills had a union. This union was cancelled on the 28th February 1950 (Annexure A to the Company's written statement). So long as the Union was in existence it cannot be presumed that a workman authorised any other workman rather than the Officer of the trade union to represent his case before a Tribunal. Sudarsan died in March 1949. It has not been suggested that Sudarsan was not a member of the Union. A worker has the right to be represented by another workman only when he is not a member of a trade union. Besides, it cannot be believed that Sudarsan asked Rajani Kanto Jana on his behalf to represent his case before a tribunal which was not then in contention. These workers' representatives do not claim to have had any authority from the widow of Sudarsan.

Kripa Sing left the Company's service some time in July 1950. His dues, according to the Management, sent to him at his home address, by postal money order on 13th July 1950. The money order was received by him. No demand was placed by Kripa Sing before the Management about his dues under the Provident Fund or any gratuity. Kripa Sing applied to the Management for permission to resign on the ground of ill-health and old age. The application is annexure 1 to the Company's written statement. The Management refused permission on the ground that the application was not supported by any medical certificate. Kripa Sing said to have resigned some time in July 1950. He had ample time to submit a medical certificate. A demand on behalf of Kripa Sing appears to have been placed before the Labour Commissioner as also before the Management of the mill by one Subodh Adikari claiming to be the President of the Victoria Sutakal Mazdoor Union on 10th May 1950. This is to be found in the Labour Commissioner's file. I have already said that the Victoria Sutakal Mazdoor Union ceased to have any existence since February 1950. There is nothing to show when the Victoria Sutakal Mazdoor Union came into existence. Subodh Adikari is one of the workers' representatives before us. The Union of which Subodh claims to have been the President does not appear to have been registered even. I accordingly hold that the demand of Kripa Sing was not properly placed by a competent person either before the Management or before the Labour Commissioner. There was therefore no dispute in the correct sense of the term, and the workers' representatives before us have not been properly authorised by Kripa Sing to place demand for him before this Tribunal.

Sudhir Pal, brother of Bechu Pal, absented himself without any intimation to the Management. Bechu Pal is one of the workers' representatives. The workers' case is that Sudhir Pal applied for leave and absented himself from the 26th April to the 9th May on the ground of his marriage. The sworn testimonies of the Manager and the Spinning Master are that the application for leave was filed by Sudhir. It was suggested at the hearing that Sudhir's brother Bechu Pal applied for leave and spoke to the Spinning Master on his behalf. This is denied. We get from the Spinning Master that Bechu Pal told him that Sudhir was not heard of and asked him to grant Sudhir leave on Bechu's application. To this, the Spinning Master did not agree. This was indeed an illegal proposal and the Spinning Master was perfectly justified in not agreeing to this illegal proposal. On the evidence before me I hold that Sudhir absented himself without leave. Under the Standing Orders of the Company a workman cannot

it beyond the period of leave originally granted or subsequently added was to lose his lien on his appointment unless he explained to satisfaction of the Management his inability to return before expiry of leave not later than eight days after expiry of his leave. If a worker loses his lien of his appointment he may be entitled to a new appointment (see F to the Company's written statement). Nothing was said by the Cotton Textile Tribunal, absence without leave for more than six consecutive days was to be considered as misconduct. [Vide clause (f) of the Acts or Omission to be treated as misconduct.] It was also decided in the award that absence without leave without sufficient cause was liable to be punished by dismissal. In any view of the case Sudhir Pal absented himself without any sufficient cause for more than six consecutive days. He was reduced to the status of a *badli* worker by way of punishment. He was leniently dealt with. Under the Provident Fund rules which were to be adopted by the different mills a worker dismissed for serious misconduct was not entitled to the employer's contribution. Reduction of Sudhir Pal to the status of a *badli* amounts to dismissal from his permanent service on the ground of misconduct and reappointment. He is therefore not entitled to the employers' contribution to the Provident Fund even if any such fund had existed. Under the award gratuity is payable on the same conditions and under the same circumstances as employers' contribution for the Compulsory Contributory Provident Fund. In the circumstances already discussed Sudhir Pal was not entitled to gratuity whatsoever. The application of Sudhir Pal, Annexure K to the company's written statement, was filed after his return from absence. A sufficient explanation was offered for his absence. The Spinning evidence as to what Sudhir Pal's brother Bechu Pal had told him was un rebutted.

be / has—The evidence is that he left the service without notice on January 1950. No leave appears to have been applied for or granted, nor any extension of leave applied for. His case is similar to that of Pal. His absence without leave amounted to misconduct liable to be punished by dismissal or suspension. On his return from absence he was reduced to the status of a *badli* worker. This amounts to dismissal from his permanent post and new appointment. He, like Sudhir Pal, was not entitled to any benefit of the Provident Fund or of the gratuity scheme if such fund or scheme had been in existence in the Company.

As discussed the demands for these four workmen on the assumption that the Company had a Provident Fund and a gratuity scheme. As the representatives are not entitled to canvass for these workmen and their demands for these workmen cannot be upheld, I am not called upon to discuss the intricate question as to whether the mill had any Provident or gratuity scheme as laid down in the award of the major Cotton Textile Tribunal or if they had not introduced the said schemes. The Management could be compelled to make any payment in terms of the schemes. I have carefully considered the facts and circumstances and I cannot but reject the demands of the workers' representatives for these four workers on the ground already specified.

Mine and Power

NOTIFICATION.

1348M.P.—17th April 1951.—Whereas the Birla Jute Manufacturing Company, Limited, being licensee about to engage itself in the business of supplying energy to Messrs. India Linoleums, Limited, situated within the area comprising the premises of the said Birla Jute Manufacturing Company, Limited, at Birlapur, Parganas.

and whereas the district board of 24-Parganas is the local authority for the said area;

and whereas the said area is not included in the area of supply of any licensee;

now therefore, in exercise of the power conferred by sub-section (1) of section 28 of the Indian Electricity Act, 1910 (IX of 1910), the Governor is pleased, with the consent of the district board of 24-Parganas, to give the said Birla Jute Manufacturing Company, Limited, sanction to engage itself in the business of supplying energy to the said Messrs. India Linoleums, Limited, situated within the said area subject to the existing conditions, namely:—

(1) that the provisions of sections 11, 17 and 18, sub-sections (1) and (4) of section 21, sections 23, 24 and 26 of clauses II, III, X, XI and XIA of the schedule to the Indian Electricity Act, 1910 (IX of 1910), the Indian Electricity Rules, 1937, and the Sixth Schedule to the Electricity (Supply) Act, 1948 (LIV of 1948), shall apply as if the said Birla Jute Manufacturing Company, Limited, were a licensee;

(2) that the rates and the miscellaneous charges for the supply of energy shall be subject to the approval of the State Government in writing;

(3) that the sanction hereby given shall cease to be operative on the granting of a license to any person under Part II of the Indian Electricity Act, 1910 (IX of 1910), to supply energy within the said area.

Explanation.—In this notification “licensee” means a licensee under Part II of the Indian Electricity Act, 1910 (IX of 1910).

Birbhum.—No. 4750L.A.—16th April 1951.—The following agreement is published under section 42 of the Land Acquisition Act, 1 of 1894, for general information.

Agreement.

MEMORANDUM OF AGREEMENT made this 12th day of April 1951, between the Selected Raniganj Collieries, Ltd., a Company registered under the Indian Companies Act, 1882 and having its registered office at 31-B, Ekdaha Road in Calcutta-19 (hereinafter called the Company) of the one part and the Governor of the State of West Bengal (hereinafter called the Governor) of the other part.

Whereas for the purpose of the construction of a Haulage Tram line, the Company has applied to the Government of West Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, the piece or parcel of land containing an area of 1.05 acres, or thereabout situated in the village of Rusa in the district of Birbhum and more particularly described in the schedule hereto and delineated in the plan* hereto annexed.

And whereas the said Government of West Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

And whereas the said Government of West Bengal has required the company under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Governor herein-after contained. Now this indenture witnesseth that it is hereby agreed and declared as follows:—

(1) On demand the Company shall and will pay to the said Government of West Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by Court to which a reference under Part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

(2) On demand made by the said Collector the obligations of the Company under the last preceding clause not being thereby limited, the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purpose mentioned in the last preceding clause.

(3) On payment by the Company of all demands under the foregoing first clause, or, in the discretion of the said Government of West Bengal (on deposit by the Company of all estimated amounts as provided in the second clause), but not before

*Not printed but may be inspected in the office of the Land Acquisition Collector, Birbhum, Suri.

possession shall have been taken under the provisions of the abovementioned Act, the Governor shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

(4) The said land shall be held by the Company for the purpose of such a Haulage Tram line as is hereinbefore mentioned and without the sanction in writing of the said Government of West Bengal first had and obtained for no other purpose whatsoever.

(5) The said construction of a Haulage Tram line shall be completed (and fully equipped in all respects ready for use) within two years from the date on which possession of the said land shall have been given to the Company.

(6) Should the said constructions not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the Government of West Bengal, or should the said land at any time thereafter cease for a period of twelve consecutive months, to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause then and in any such case, the said Government may summarily re-enter upon and take possession of the said land together with all buildings thereon, whether such buildings were erected before or after transfer of the land to the Company, and thereupon the interest of the Company in the said land and buildings shall absolutely cease and determine.

(7) On taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(i) Should the said Government sell the land with the buildings, the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Company.

(ii) Should the said Government decide not to sell the land and buildings, the said Government shall retain the said land and buildings thereon in which case the Governor shall repay to the Company the market value as on the day of re-entry of all the buildings erected by the Company and all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent and less any amount received on account of trees and buildings which are not in existence at the time of resumption), but shall not repay any sums paid and received on account of costs, charges and expenses.

(iii) Should the said Government decide to sell the buildings only upon such sale, the Governor shall after deducting the expenses of taking possession and selling, pay the balance of the proceeds of sale to the Company, together with the sum received from the Company in respect of the compensation for the land (less the statutory allowance of 15 per cent, and less any amount received from the Company on account of trees and buildings which are not in existence at the time of resumption) but will not repay any sum paid and received on account of costs, charges and expenses.

(8) The public shall be entitled to use the Tram line only on express authority in writing from the Company.

(9) Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein

contained the same shall be referred to the Government of West Bengal and the opinion decision of the said Government upon such dispute or difference shall be final and conclusive binding on the parties hereto.

NOTIFICATIONS.

**Subject:—Submission of Annual Establishment
 Returns by heads of offices.**

No. TM(Pay Fixn)/251 - 13th April 1951.—In
 continuation of this office notification No. TM/236,
 dated 8th March 1951, on the abovementioned sub-
 ject (published at pages 608 and 641 of Part I of
 the Calcutta Gazette, dated 15th March 1951 and
 22nd March 1951, respectively), the following
 further instructions are laid down for the guidance
 of all heads of offices under the State Government.

In cases where for the purpose of completing the
 Annual Establishment Returns, a reference is
 necessitated to the Service Books of the personnel
 concerned now lying in this office for scrutiny of
 revised pay under the West Bengal Services
 (Revision of Pay) Rules, 1950/High Court Services
 (Revision of Pay) Rules, 1950, or otherwise, special
 and urgent requisitions for the same may forthwith
 be made, if not already done, citing the number
 and date of the forwarding memos., with which
 the Service Books of the particular personnel were
 actually sent to this office. On receipt of these
 special and urgent requisitions, steps will be taken
 by this office to forward the Service Books without
 delay to enable the heads of offices to complete the
 Annual Establishment Returns.

A suitable explanatory note should be inserted
 in these returns, where necessary, to indicate that
 the pay on the 1st April 1951 as entered therein, is
 the revised pay fixed by the head of the office,
 pending audit scrutiny. The Service Books in such
 cases should on no account be retained longer than
 is absolutely necessary; but should be sent back for
 necessary action in this office, as soon as these have
 been done with.

It is to be noted by all concerned that non-
 receipt of Service Books should not be a valid plea
 for not submitting the Annual Returns by the
 prescribed due date.

LABOUR DEPARTMENT

ORDER.

21861 Lab.—9th April 1951.—Whereas under the Government of Bengal, Labour Department, order No. 5402 Lab., dated the 31st 1949, the industrial dispute between Messrs. Lakhipara Tea Estate, ce Banurhat, Dooars, Managing Agents, Messrs. Duncan Brothers, 11, Netaji Subhas Road, Calcutta, and their workmen represented by Tea Garden Indian Employees' Association, Dam Dim, post office in connection with the case of Sri B. G. Sikdar, was referred for ation to Sri N. K. Roy Choudhury, I.C.S., Deputy Commissioner, ing;

whereas the said Sri N. K. Roy Choudhury, I.C.S., Deputy Commissioner, Darjeeling, has submitted to the State Government his award on industrial dispute;

therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to the said award as shown in the annexure hereto.

ANNEXURE.

(INDUSTRIAL DISPUTE.)

Petitioner:—Dooars Tea Garden Employees' Association,

versus

Messrs. Lakhipara Tea Estate.

AWARD.

termination of the services of Sri Broja Gopal Sikdar, a clerk of the para Tea Estate, by the Management, has led to the present adjudica-

Broja Gopal Sikdar had been a clerk of the said Tea Estate since or 1944. The labour force of the garden went on strike on 22nd arv 1948 till 28th March 1948. During the strike period a small force was deputed to the garden, presumably to keep the peace. From arch 1948 to 12th March 1948, that is, for four days within the strike , the members of the clerical staff of the garden, of whom Sri Broja Sikdar was one, absented themselves from work. Thereafter, on 7th 1948, the Manager of the garden served a notice on Sikdar terminat- services on grounds of inefficiency. On behalf of Sikdar the Dooars garden Indian Employees' Association took up this matter of dismissal.

contention of this Association is that Sikdar was not an inefficient but that he has been victimised because the Management thought that ad participated in that strike by absenting himself for four days and because he was one of those who had joined this Association. As to why is particularly selected for such victimisation, the explanation given is he was the juniormost clerk in the staff and could, therefore, be shed without attracting undue attention. The Association demands Sikdar be reinstated because the Management has been guilty of resort- to unfair labour practice. The Management claims to have terminated ar's services on the ground of inefficiency.

The issues framed are—

- (1) Was the dismissal or termination of service of Sri B. G. Sikdar on the ground of inefficiency fair and proper?
- (2) Is Sri B. G. Sikdar entitled to reinstatement? Is he entitled to compensation for the period of non-employment? If so, to what extent?

Both the issues will be taken up together, but before I do so, I take the preliminary objection raised on behalf of the Management. It is the Association has no *locus standi* in this matter. This objection is based on two grounds. Firstly, that the matter is not an industrial dispute; secondly, that Sri Sikdar is not connected with the Association. As to the first ground, this will amply be covered by the issues framed. As to the second ground, this is a question of fact, and as no issue was framed on this decision in this matter, it should not be allowed to be raised now. The ground on which stress has been laid by the Management, is too precarious a ground for those to stand upon.

Sikdar worked mostly as "stores and ration" clerk of the garden. The Management have led some evidence to prove that he was inefficient. In fact, the Manager, Mr. Hughes, has stated that he was a dullard. Mr. Hughes, Mr. Crombie, Mr. Walker and Mr. Dunbar who were Assistant Managers of the garden, and Sri S. P. Biswas, the Head Clerk of the garden, said that Sikdar was an inefficient clerk. Mr. Crombie said that Sikdar did not seem to give the ration out properly and that he could not keep the accounts very well. Mr. Walker said that he did not think Sikdar was very good in his work and that most of the accounts that he kept were on slips of paper and not in books. Mr. Dunbar said that he was very much inclined to be incompetent and had the habit of keeping accounts on slips of paper from which he made entries in registers a day or two later. On the other hand, through their evidence I am inclined to hold that the charge of inefficiency against Sikdar is rather vague. I am not, however, inclined to hold that Sikdar was an efficient clerk. The certificate given to him by a previous Manager of the garden is really no certificate of efficiency. There is no evidence of any warning in writing was ever given to Sikdar for his inefficiency. There was once a report in writing was ever made against him. There was once a short weight of tea seeds sent to another garden, the Carrom Tea Estate. Sikdar's complicity in the matter has not at all been established. This is one side of the picture. Turning to the other side, I find that the absence of clerks from work for four days during this strike period was not taken by the Management with good grace. The contention of the clerks is that even now is that they were forced by the labourers on strike under threat to absent themselves from work. The story of this forced absence does not appear to have been believed by the Management. If they had accepted the story, I do not think they would have gone to the extent of deducting salary of the clerical staff for those four days they absented themselves. The Management tried to make out that this cut in the salary for those four days was on a voluntary basis, but I am unable to accept this. The clerks are highly paid and even a small deduction from their salary does affect them considerably. Besides, the story that they were forced to absent themselves was not taken up later but from the very beginning. Under these circumstances, I cannot say it was a voluntary cut; the cut must have been imposed on them by the Management.

That the Manager did not like his employees to be in the Association is to a large extent borne out by the contents of a letter addressed to P. N. Deb, a member of the staff of the garden, to the Chairman, Doonars Tea Garden Indian Employees' Association (Exhibit 6). This letter is dated 9th April 1948. Therein he serves a notice of resignation

as a member of the Executive Committee on the ground that he had to collect subscriptions from the members of the garden. This sudden action of Sri P. N. Deb, who is still an employee of the tea garden, the Executive Committee of the Association on top of the deduction of for those four days of absence, does suggest that the Management garden did not at all like their employees to be in the Association.

In the discussions made above, I am of opinion that the clerk, Broja Sikdar, might not have been efficient, but that he was not as inefficient as to have been dismissed and that the immediate cause of the notice of service served on him was the Management's suspicion, amongst others, had voluntarily participated in the strike. His member of the Association aggravated the position and I accept the action that he was removed because he was the weakest man among the staff.

The next question is whether he should be reinstated. I do not think management would be a desirable order under the circumstances I have considered. At the same time, the clerk should be given an adequate compensation for the termination of the service. I, therefore, order that he be one month's pay as compensation for the termination of his services and the Management are not bound to reinstate him.

AWARD.

The Government of West Bengal in the Department of Labour No. 5878Lab., dated 6th October 1950, referred, under sections 7 a the Industrial Disputes Act, 1947 (XIV of 1947), the industrial between the Calcutta Electric Supply Corporation, Ltd., and their v represented by the Calcutta Electric Supply Workers' Union, in res number of items of disputes mentioned in the schedule to the order ence. The Award of this dispute has not yet been published in the gazette.

The Calcutta Electric Supply Workers' Union filed this complaint section 33A of the Industrial Disputes Act, stating that during the of the proceedings before the Tribunal under order of reference as n above, the Company, on 7th January 1951, without any express p of the Tribunal and in contravention of section 33 of the Industrial Act, 1947, discharged Sri Ramdas, coal cooly attached to the Generating Station, Metiabruj, on a false and malicious pretext further stated that no charge sheet was drawn up against the sa and no opportunity was given to him to explain his conduct petition the Union, on behalf of the workmen in question deny allegations made in the Company's letter of discharge and pu Ramdas should be reinstated to his former post and that he beon full wages for the period of his non-employment.

Notice was issued on the Company and it filed a written sa reply to the complaint of the Union stating as follows: Ramdas v several short spells as a temporary cooly in the Southern Generatu in the years 1949 and 1950; the last spell which he worked in the commenced on 8th March 1950. On 5th June 1950 Ramdas was t to the coal yard as a temporary coal cooly. This was done becau time several temporary workers received permanent appointu although Ramdas was not chosen, it was decided to give him a prove his worth, which had he done so would have resulted in a appointment being offered to him. Ramdas's work in the coal yar considered either by the Station Superintendent or the Coal Yard to be satisfactory. He was, therefore, given a month's notice on 7 ber 1950 that his temporary appointment would terminate on 7

The Standing Orders of the Company provide for only one week's notice for temporary workers who have been employed for more than six months continuously and Ramdas was showed a concession in being given one month's notice. The authorities of the Company were entitled to form their own opinion as to the value of a worker and to act upon it and no objection was made against Ramdas other than that his work had been found unsatisfactory. The discharge of Ramdas was, therefore, not illegal and justified. The issues were framed on 19th March 1951. The issues framed for the decision of this case were as follows:—

ISSUES.

Was Ramdas, coal cooly, discharged in contravention of section 33 of Industrial Disputes Act?
Is he entitled to reinstatement and/or any compensation?

DECISIONS.

Issues Nos. 1 and 2.

On the date of hearing of the case on 29th March 1951, the representatives of the Company and the Union made an amicable settlement of the case and filed a petition of compromise before me. The terms of the settlement of compromise appear to me to be satisfactory to both parties. I accept the terms of the petition of compromise filed by the parties and award accordingly. These two issues are accordingly answered. The petition of compromise, which is made Appendix A of this Award, shall form a part of the Award.

APPENDIX A.

Ramdas, ex-coal cooly.

The above man was on six months' probationary service in Southern Railway Station, was found unsatisfactory and discharged. He left the railway service on 7th January 1951.

At the request of Sri M. C. Banerji, District Judge, the Company agrees to employ this man a further six months' probationary service in some other station but on the distinct understanding that should this man be found unsatisfactory during this second probationary period he will then be finally discharged. The Calcutta Electric Supply Workers' Union for their part agree to accept the Company's decision whether this man shall be offered permanent employment at the termination of his probationary period or not. Ramdas shall not be entitled to any pay or emolument during the period January 1951 to the commencement of his second probationary period.

ORDER.

No. 2319Lab.—12th April 1951.—Whereas under the Government of West Bengal, Labour Department, order No. 6650Lab., dated the 21st November 1950, the industrial dispute between the Durgapore Workers' Union, Messrs. Burn & Co., Ltd., Managing Agents, Messrs. Martin Burn, 12, Mission Row, Calcutta, and their workers represented by the Ceramic Workers' Union, Durgapore post office, Burdwan, regarding the matters specified in the schedule to the said order, was referred for adjudication to Sri G. Palit, District Judge;

And whereas the said Sri G. Palit, District Judge, has submitted to the State Government his award on the said industrial dispute,

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of an industrial dispute existing between the Durgapore Workers' Union of Messrs. Burn & Co., Ltd., Managing Agents, Messrs. Martin Burn, 12, Mission Row, Calcutta, and their workers represented by the Ceramic Workers' Union, Durgapore post office, Burdwan.

BEFORE THE INDUSTRIAL TRIBUNAL, WEST BENGAL.

PRESENT:

SRI G. PALIT, District Judge, Chairman of the Tribunal

Present for the Company.—Sri S. C. Sen, Advocate.

Present for the Union.—Sri Prabhakar Mukherjee, Pleader, assisted by Sri Saktidhar Ghosh, Secretary of the Union and Dr. Satyendra Kumar Chatterjee, Vice-President of the Union

1. By Government order No. 6650Lab., dated the 21st November 1950, the aforesaid dispute has been referred to me for adjudication under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947).

2. The reference was received here on the 23rd November 1950. The Union submitted its written statement by registered post on 1st December 1950. The Company filed its written objection on 1st January 1951. No issues were framed as the same were contained in the Order of Reference. There was a preliminary hearing held on 1st February 1951. At the instance of the parties the trial was held on 1st March 1951 at Durgapore Factory. It was continued till the 10th March 1951 when argument was concluded. There was a talk of compromise between the parties. By a joint petition filed on the 10th March 1951, parties moved the Tribunal to hold over its award for a fortnight. The Tribunal granted the said prayer. As no compromise petition is filed even after 15 days, the award is being passed.

3. The issues contained in the schedule of the Order of Reference are as follows:—

(1) Should the workers enrolled just before the closure of Durgapore Works be reinstated on the same terms and conditions as at the time of employment?

(2) Whether the said workers are entitled to any compensation?

AWARD.

Issue No. 1.

I cannot help remarking that this issue, as framed by Government, is too condensed. It admits of mis-interpretation. The Tribunal is called upon to decide upon the question of re-instatement. If the statement is granted, then the Tribunal will proceed to consider what be the terms and conditions on which the workers might be ordered re-employed.

Coming next to the question of re-instatement, it is the Union's contention that the workers in this case were merely laid off. So when the works started functioning again, the workers should be taken *en bloc*. At the time they were discharged. The Company, on the other hand, contends that the workers' services were terminated by a notice immediately before closure as per Annexure B. The workers were given ten days' wages in lieu of notice as contemplated in the Company's Standing Orders. They are also guilty of slow-down tactics and of sabotaging the plants. As the Company cannot take them back. Even if the Company would re-employ these laches, the Company could not re-employ all the old hands because (1) the raw materials, viz., yellow clay had run short and the kilns have been totally exhausted and (2) there is no market for the sale of Singapore tiles at properly economical prices.

Coming then to the evidence on record I am inclined to hold that the notice as per Annexure B, marked Exhibit A, is more likely to be construed as a notice for "lay-off" than as a notice for retrenchment or discharge. The learned Advocate of the Company—Sri S. C. Sen—construes the notice as one of discharge and draws my attention to paragraph 17 of the Company's Standing Orders which provides for ten days' notice or payment of ten days' wages in lieu of notice in the event of termination of employment of a worker who has put in twelve months of service under the company. I am afraid, this argument of the learned Advocate seems not above criticism from the point-view of logic. Ten days' wages in lieu of notice may be provided for in the event of termination of the employment of a worker. But because ten days' wages in lieu of notice have been paid, it cannot be said that the service of a worker has been terminated. The worker to be terminated must be terminated as such, and not by implication. In the present case the notice, as per Annexure B—marked Exhibit A—, here does speak of discharge or termination of service or anything of that kind.

It merely speaks of the decision of the Managing Agents to close the Singapore North Works *sine die* and, in any case, until such time as the plants can be completely overhauled. The workers have been given ten days' pay in lieu of notice and asked to vacate the Company's quarters within ten days. This is the long and short of the notice in question. I would say that if it conveys any impression to the workers for whom it was issued, it should be one of lay-off than one of retrenchment or discharge. As the workers actually took it like this will appear from Mr. John's evidence, marked Exhibit 1(b), and also 1(c) and 1(d). In all of them Mr. John refers to the workers as laid-off men. He writes in Exhibit 1(d), "I accordingly met both Mr. Chatterjee and Mr. Sneddon and discussed the matter with them at length. The impression that I had at that time was that the works would be re-opened after three or four months and the workers would then be taken in." In Exhibit 1(c) he says,—"The workers have now been laid off for one year and are now undergoing great hardships." I can never make myself to think that Mr. John was preparing this case of lay-off in correspondence with the authorities. He appears to have treated this

matter as nothing else than one of lay-off. So I am unable to accept the contention of the learned Advocate Sri S. C. Sen that by notice—Exhibit A the Company had terminated the services of all the workers. The content of the Union that the notice was not individually served is neither here; there. In the case of a mass discharge, that is not necessary. But what then the position? Are these workers still continuing in service or have their services come to an end? For that I refer to the Company's Standing Orders—paragraph 14—bearing on stoppage of work. It provides—"employment of labour affected by the above will not be considered as terminated or broken for this period of unemployment up to a maximum of 30 days but if the stoppage extends beyond 30 days the employment of labour so affected, will be automatically terminated at the expiry of 30 days." "Labour affected by such closure will receive no wages from the time of cessation of operations." In the present case the closure of the factory was much in excess of 30 days, well nigh a year. So the result is that under this Standing Order the services of the workers had automatically been terminated after the expiry of 30 days from 26th October 1949. They are also entitled to no wages during the period subsequent to 26th October 1949. But whether they are entitled to compensation I shall discuss presently.

Regarding the practical difficulties in the matter of re-employment of these hands, the Company has pleaded want of raw materials and want of market for tiles at economical prices. I am convinced by the evidence on record that the contention of the Company under this head is genuine. D. R. Subramanian, the Works Manager of the Company (O. P. W. No. 1) at page 3 of his deposition states,—"The land which we had at our disposal for the production of tiles has now exhausted. We made attempts to acquire fresh lands but without success." He refers to Exhibits H, H(1), H(2), H(3), H(4) and H(5). These correspondences disclose a frantic effort on the part of the Company to acquire lands for the supply of clay for production of tiles. As yet, its efforts have not been crowned with success. As far as I could understand, time was taken by both parties to effect a compromise just to see if they could find their way to secure such land. If such land was available, certainly the Company would not have switched over to the production of fire-bricks, as at present. I have personally seen the pucca kilns of the factory are not quite as suitable for the manufacture of fire-bricks as for tiles. The said Works Manager has also conveyed the statement in his deposition how, in face of the present manufacturing cost of production of tiles does not command a ready market at remunerative prices. Of course, in Exhibit 1(a) Sir Biren Mookerjee has spoken of the availability of yellow clay at Durgapore. But he has spoken also of the enormous costs involved in the production of tiles at Durgapore. Yellow clay is certainly available at Durgapore, but the owners of the lands are demanding prohibitive prices for the same. That, in other words, amounts to the unavailability of yellow clay at remunerative prices. The Company has taken back about 171 of the old workers. As the Manager says, he has no room for new men except for bare necessity and even the number of such men is negligible. So I find that the Company could not take in more old workers than it has done, even if it so would. The want of raw materials and of a selling market certainly present an insurmountable difficulty. The Company cannot thrust the old workers on the Company in such a contingency. The question of re-instatement of the old workers *en bloc* does not arise. Those who have been taken back have accepted their terms of employment. So no question can arise of introducing their old terms and conditions. They existed at the date of the closure after which their services had been automatically terminated.

arding the allegation of slow-down tactics and sabotage of the plants, consider the same while considering the question of compensation under No. 2. I do not attach much importance to the Union's contention the Company had closed down the factory only to suppress the Union was demanding recognition. I am satisfied on evidence that the ay referred the matter to the Assistant Labour Commissioner when ere two rival Unions clamouring for recognition. So there is no *bona fides* on the part of the Company in this matter.

Issue No. 2.

I have already referred to the Standing Order which provides that company is not liable for any payment of wages during the term of 90 days. But that does not exonerate the Company from paying compensation if the Tribunal is disposed to award it to meet the exigencies of the situation. The charges of slow-down and sabotage are relevant in this connection. If the workers are guilty of these unsocial acts, certainly they have the right to claim compensation at the hands of the Tribunal. The Tribunal, in awarding compensation, has in view primarily the principles of justice and good conscience. Regarding sabotage, I find on the evidence that it is extremely doubtful. There is much force in the contention of the pleader representing the workers that if sabotage had been a fact, it would have found mention in the notice (Exhibit A). I have already stated that I cannot congratulate the author of this notice. It seems most clumsily drawn up without much thinking. If it was a carefully drafted notice to terminate the services of the workers as it was said to be, that very fact would not have been omitted. So I cannot attach much significance to this omission in Exhibit A, as the learned pleader has urged me to. Be that as it may, I find that the evidence is extremely weak in respect of the alleged sabotage. Sri Subramanian (O. P. W.), the Works Manager, admits that he examined personally one of the machines after the closure. There is no record to show that he detected the sabotage earlier. He did apprehend that sabotage was going on in the Works, but he did not inform the police. He took precautionary measures. He also speaks of three Supervisors being there and also several watchmen and guards. The plants are kept in a shed enclosed by a roof covered over with a roofing. That will narrow down the scope of sabotage. Nobody was detected in the act of actually committing the sabotage. No worker was particularly suspected as being involved in this. There is no charge-sheet against any worker. Mr. Brien, the Group Manager, inspected the machineries and detected the defects as per Exhibit A. That is the report of Mr. Sneddon. Mr. Brien has left for England. Mr. Sneddon has since retired. After the closure, according to O. P. W., the Works Manager, the Factory Inspector of the Government of West Bengal came to inspect the sabotage complained of. On 23rd November 1948 the Factory Inspector inspected the sabotage. The Company did not submit a report from him. The evidence of the Factory Inspector would be most helpful in the present matter regarding sabotage. The Company has called for his report or could have examined him as a witness. It does not appear to have done either. The Sardars who are now introduced in the service are said to have taken out the bolts and nuts from the machines. None of these Sardars have been examined. The Union pleader states that the nuts and bolts exhibited might have crept into the machines in the shape of impurities in the clay used. Suggestion, however, loses force being denied. Only I have the uncorroborated testimony of the present Manager in this respect. In the circumstances, I am not prepared to accept that the charge of sabotage has been brought home to the workers by unimpeachable evidence.

Regarding the charge of slow-down tactics as being adopted by workers, I am inclined to think that it has been made out by convincing evidence. The Union would have me believe that it is an afterthought on part of the Company to defeat the legitimate claim of compensation on part of the workers. Sri Subramanian (O. P. W. No. 1) has stoutly stated that the persistent slow-down policy adopted by the workers accounts the closure more than any other factor. The chart (Exhibit D) shows how production dwindled down systematically month after month. The chart was, of course, recently prepared. But it is based on registers. The Union could have called for those registers and proved that the chart was accurate. The notice (Exhibit B) shows that as far back as 3rd April 1949 there was a notice issued by the Manager warning the workers of this "go-slow" policy. Sri S. K. Das, Assistant Labour Commissioner, Asansol, investigated into the real cause of the slow-down. From the report of Sri S. K. Das (Exhibit E) it appears that the slow-down at Durgapur North Works is practically admitted by the Union people. Only the blame is attributed to the indifferent attitude of the Management towards workers' grievances and against recognition of the Union. Exhibit F, dated the 11th October 1949, shows that the Managing Agents were much worried over this slow-down strike. Exhibit E(3), dated the 10th October 1949, shows that even Sri K. C. Prasad for the Durgapur Workers' Union assures the Company that the production will come back to normal as soon as the Works be reopened after the Kali Puja. That indicates that the production was then subnormal. This fact has also been disclosed in the correspondence of the Company with the Labour Director. So I can never accept that the reduction in output was due to the breakdown of machineries and not the result of a deliberate policy resorted to by the workers. I get in evidence that the Raniganj Works also adopted the same tactics but gave it up after the publication of the Tribunal's award. The workers of Durgapur being misguided might have taken a cue from the Manager of Durgapur Works, of course, has deposed in cross-examination that the workers did give the required daily output. That seems a slip of the tongue being cornered in cross-examination. His evidence as a whole, clearly shows that there was considerable reduction in the rate of production for several months prior to the closure in question.

Now coming to the question of compensation, I was inclined to award one month's wages by way of compensation, i.e., during the period they were supposed to be in service under the Standing Orders. But I am of the opinion that the workers' slow-down tactics which considerably hampered production and put the Company to great financial loss, I reduce the amount of compensation to fifteen days' wages only. This should be worked out by adding into account the respective workers' income for the month immediately before the closure. Those who have got ten days' wages already are entitled to have five days' wages more. Others will get full fifteen days' wages as compensation. This should be paid within one month of the award coming into operation. Those old workers who will not turn up within two months of the award coming into operation to receive payment forfeit their claim to it unless the Company is inclined to give it.

The issue is thus disposed of. I conclude this award wishing that the Company will take in those old people who are still unemployed, if at all, the Company is in a position to absorb them before recruiting new

ORDER.

o. 2378Lab.—17th April 1951.—Whereas under the Government of Bengal, Labour Department, order No. 6743Lab., dated the 24th November 1950, the industrial dispute between the Bengal Chemical and Pharmaceutical Works, Ltd., 94, Chittaranjan Avenue, Calcutta, and their men represented by Bengal Chemical Mazdoor Union, 2, Jogodyan Lane, Calcutta, and Bengal Chemical Sramik Congress, 35B, Wellington Street, Calcutta, regarding the matters specified in the schedule to the said order was referred for adjudication to Sri G. Palit, District Judge; and whereas the said Sri G. Palit, District Judge, has submitted to the Government his award on the said industrial dispute; now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of an industrial dispute existing between the Bengal Chemical and Pharmaceutical Works, Ltd., 94, Chittaranjan Avenue, Calcutta, and their workers represented by Bengal Chemical Mazdoor Union, 2, Jogodyan Lane, Calcutta, and Bengal Chemical Sramik Congress, 35B, Wellington Street, Calcutta.

BEFORE THE INDUSTRIAL TRIBUNAL, WEST BENGAL.

PRESENT:

SRI G. PALIT, *District Judge, Chairman of the Tribunal.*

sent for the workers: Sri D. L. Sen Gupta, Advocate, representing the Bengal Chemical Sramik Congress, and Sri Arabindo Ghosal, Pleader, and Sri Suhrit Chandra Choudhury, Secretary, representing the Bengal Chemical Mazdoor Union.

sent for the Company: Sri S. K. Basu, Advocate, assisted by Sri N. M. Das Gupta, Pleader.

1. By Government order No. 6743Lab., dated the 24th November 1950, the said dispute has been referred to me for adjudication under sections 10 and 11 of the Industrial Disputes Act of 1947 (XIV of 1947).

2. The reference was received here on the 25th November 1950. The Bengal Chemical Sramik Congress filed its written statement on the 9th December 1950. The Bengal Chemical Mazdoor Union filed its written statement on the 16th December 1950. The Company filed its written objections on the 2nd January 1951. No issues were framed as the same were contained in the schedule of the Order of Reference. Three applications under section 33 of the Industrial Disputes Act were disposed of meanwhile. The Company filed a supplementary statement on the 6th January 1951. The case was taken up for hearing on the same day. It was continued on the 7th February 1951. Argument was heard on 19th January 1951 and continued till 26th February 1951. The factory was visited on the 27th February 1951 by the Tribunal accompanied by the representatives of both sides.

3. The issues contained in the schedule of the Order of Reference stand as follows:—

Increase of Basic Wages.

Increase of Dearness Allowance.

AWARD.

4. A brief history of the concern together with some facts leading to the present dispute will be relevant. The Company claims to be a pioneer of the chemical industries in India on a huge scale. Acharya Prafulla Chandra Roy was practically its founder. It is, perhaps, the biggest concern of its kind in Asia excluding Japan. The workmen of the Company number about 4,000 including the workmen at the city off Panihati and Manicktala. These trade unions some time after their formation placed before the Company their charter of demands. There was a strike which lasted for about 36 days. It led up to a Tribunal appointed by the Government of Bengal under Government order No. 3211Lab., dated 26th July 1947. This was modified by the Government of West Bengal as per order No. 4011Lab., dated 6th September 1947. The award of Sri S. N. Modak who presided over the said Tribunal was published in the *Calcutta Gazette*, dated the 20th November 1947. That, however, failed to satisfy the aspirations or demands of the workers who gradually became more and more restive. The Company granted some increment in the 1355 B.S. (Ashwin) to some members of its staff. The workers took this step as a move to disrupt their ranks and solidarity. The disputes between the workers and Company were referred to another Tribunal presided over by Sri S. N. Modak by Government order No. 2626Lab., dated the 1st May 1949, together with addendum order No. 3103Lab., dated the 1st June 1949. The award was published on 3rd November 1949 in the Extraordinary issue of the *Calcutta Gazette*. The workmen did not take the award also in very good grace but apparently took it merely as a sop. They started agitating for redress of their grievances and placed their charter of demands on the 19th August 1950. The Company declared a lock-out on the 28th August 1950 following an alleged strike. The lock-out was ended on 2nd November 1950. Negotiations continued for some time through the intervention of the Labour Directorate but yielded no tangible result. The present Tribunal was appointed by Government order No. 6743Lab., dated the 24th November 1950.

5. It will be worth while to mention the quantum of relief which the workers did get under the first award of Sri S. N. Modak on the scale of basic wages. As the award at page 344 of the *Calcutta Gazette*, dated 20th November 1947, will show, the increment in wages including dearness allowance did range between Rs. 10 to Rs. 16 per month according to different scales of wages. The increments in basic wages as per Sri Modak's second award published in the *Calcutta Gazette*, Extraordinary issue, dated the 3rd November 1949, vary from Rs. 3 to Rs. 5 per month. The dearness allowance was increased by a flat rate of Rs. 2 per month. So the question before me will be whether the basic wages and the dearness allowance should be further increased. I propose to deal with these matters separately under the respective issues.

Issue No. 1.

6. The workers have been systematically clamouring for more basic wages all these years since 1947. They were granted, as I have stated, some increment ranging from Rs. 10 to Rs. 16 per month by Sri Modak inclusive of dearness allowance by his award published in the *Calcutta Gazette* on 20th November 1947. The workers were again granted an increment of Rs. 3 per month by Sri S. N. Modak by his award published in the *Calcutta Gazette* on 3rd November 1949. Again, before this Tribunal, the workers have pressed for further increment in basic wages. Now, what does all this show? Is it that the workers have been encouraged in their demands by increments which they have succeeded in securing under these successive awards or is it that their wages are still very low in relation to the increments and their grievances on this score are genuine?

too strongly condemn the attitude of the workers if they are bent on one increment a stepping stone for getting another and so on. It can be more regrettable and unfortunate than that. Not only make the workers perpetually discontented but it hampers production and unrest alive. It will also alienate the sympathy of the employers. Before thinking of granting any further increment, I pause to consider the necessity of the workers' demand in this respect. I am thoroughly convinced by the evidence placed before me that the basic wages obtaining in these concerns are still very low in spite of the two increments mentioned in those awards. The wages granted by this concern even now after two increments compare very unfavourably with the scale of wages prevailing in the Calcutta Chemical Co., the Smith Stanistreet & Co., and Imperial Chemical Industries. Of course, these concerns have special features of their own which differentiate them from the Bengal Chemical and Pharmaceutical Works. Some have monopoly market, whereas others play more the role of a selling agency than that of a manufacturing agency. Apart from these Companies apart, the wages that obtain in this Bengal Chemical concern are much less than what rule in the other industries in the neighbourhood—I mean the Engineering industries and other kindred industries. If the wages of a particular concern fall much short of what are in the other concerns in the vicinity, the workers of the former concern are bound to be restive and discontented. That is what seems to be the present discontent of the workers of this concern before me. Sri S. N. Modak in both the awards was all apologetic, considering inadequate his granting of increment would turn out to be. He had most profound sympathy and consideration for these workers' sufferings made no secret of it. There is nothing to doubt his sincerity in the matter. He was helpless to grant more lest he might injure the industry. He shrank from allowing a greater increment in wages, being apprehensive of the future which looked none too bright. During his first award, there were so many ominous factors looming large before his eyes that he was reluctant to commit the Company to further financial burden. During his award in 1947 there was the partition of the country entailing a loss of a substantial portion of it, viz., Pakistan. There was also a change in the political set-up of the country. On the top of this, there was the communal disturbance. To crown all, there was a strike lasting for about a month in this very concern. So there was considerable fall in the matter of production and substantial decline in the selling market. The outlook was, if I may use the term, "fluid". In such circumstances, if Sri S. N. Modak took a gloomy view of the future, I should say he was more than justified. None but a prophet could speak with confidence about the future under such circumstances. During his second award also he did not become optimistic, because nobody could foresee the results that would flow from the devaluation. It is, however, the Union's contention that Sri S. N. Modak's sweet words did cut no ice. His gloomy forebodings were belied by the actual trend of circumstances. In 1948-49 when the full effect of his first award was felt, the Company derived the largest profits among the recent years, viz., net profits of Rs. 13,17,000 and odd. Even before Sri S. N. Modak's second award of November 1949, the Company had secured net profits of Rs. 12,71,000 and odd in 1950 B.S., rather in the year ending in April 1950. The Unions contend that in spite of both these increments under these two aforesaid awards, the net profits of the Company are much greater than what they were just prior to the first award. The Company is alleged to be heading on its upward march towards progress. Where is the point for the Company in not allowing legitimate wages to its workers? I have looked into the matter very carefully. I have considered the balance-sheets and also looked into the balance-sheets most

minutely. Though I do not see eye to eye with the Unions in this respect yet I find that the financial position of the Company is perfectly sound. I propose to place below my reasons for the above view. But before let me refer to Sri S. N. Modak's awards just to show that he considers the wages of the workers also as low. In his first award Sri S. N. Modak exhorts the employees not to expect too much and to remain contented with the present with what was being arranged for them in that award. He assured them, had been conceived with the utmost sympathy and consideration. He appeals to the workers not to press for more in the future and advises them in a most friendly spirit to wait for a better future. In the second award he has appealed to the employees to exercise patience and to wait to tide over the period of uncertainty till better arrived. He asked them to suffer for the present in order to reap some better in the future. He has remarked, "I have the greatest sympathy for the employees who, I admit, are suffering from serious hardships. The matter of making both ends meet". So it is abundantly clear that Sri Modak also is of the same opinion with myself that the grievances of the workers on the score of inadequacy of wages are genuine. I think the proper approach to the matter is what is necessary. Mere tinkering with the wage structure with proper provision for increments. Short of whatever little increment is given is bound to defeat its object in the long run. But a wage structure I have not been called upon to frame, neither have I made statements of the parties nor in the issues referred to me. So I cannot grant it. The next point will be for me to see whether I should grant further increment in the present circumstances and, if so, from what source.

The amount of increment must necessarily be commensurate with the financial position of the Company which I have deferred should be scrutinised. The Unions contend that the Company is thriving and its present condition is satisfactory. That will be apparent, according to the Unions, from the facts that the Company has embarked on opening new branches—one at Kanpur and another at Bombay, (2) the Company has increased the dividend to 6 per cent. as per balance-sheet of the year 13-56 B.S. for ordinary shares, (3) the Company has granted some increment in wages to some workmen albeit in an arbitrary way in August 1950, and (4) the Company has granted increments to the Managing Director and the Managing Director contends that these facts have been distorted. If the facts are properly construed, they will point to conclusions different from what has been alleged. According to the Company these are not signs of prosperity. They are at best hectic flush, not indicative of sound health. The Company's efforts on the part of the Company to keep its head above water in the present swim was the choice before the Company. The Company has resorted to these steps in its struggle for existence. The dividend has been increased only to attract capital which is otherwise shy. It merely adds a financial burden to the tune of Rs. 23,000 a year. The Kanpur branch was opened to facilitate the procurement of rectified spirit and other commodities which the Company stood badly in need of for its manufacturing purposes and which it could not procure locally. The Company had to raise a loan of Rs. 12,00,000 by issuing second preference shares at 4½ per cent. for the Kanpur Factory. The Company was also forced to incur a loan of 15 lacs of rupees by the issue of Debentures for these new commitments. The interest on such loan would amount to Rs. 1,20,000 a year. The Company contends that these expansion schemes it had to undertake under the pressure of circumstances. The maximum limit of the Managing Director's commission on sale was increased from Rs. 7,500 to Rs. 10,000 and the Managing Director's salary was increased from Rs. 1,000 to Rs. 1,500.

The latter did not get any dearness allowance for sale commission. The Advocate of the Company has expatiated on the handicaps to the Company has been subjected in the matter of securing raw materials and also on the financial loss in consequence of the loss of Pakistan and also consequent on the introduction of devaluation (*vide* the chart-). No doubt, the Company has been hard hit by the loss of Pakistan market in its sales. But what it has lost in Pakistan, it has apparently made good in other places or its profits could not have been maintained on the scale shown (*vide* the balance-sheets of 1954-55-56). True that the Company has not made as much profit as it could have made, if these adverse facts had not been there, yet, I do not think these factors have largely undermined the soundness of the financial position of this Company. Before I leave this matter, I shall casually mention some aspects of the balance-sheets exhibited before me. In the balance-sheet of 1954 B.S. I find at page (iii) that out of Rs. 17 lacs and 10 odd have been transferred to the Reserve Fund. This is a pointer how the Reserve Fund of the Company is being built up. In that year, about 5 lacs of rupees were set apart for Income Tax, Super-Tax and Business Profits Tax as per page (ii). In page 3 lacs and odd have been actually shown as appropriated for the profits taxes, etc. This indicates that the Company is very cautious in the matter of making provisional tax reserves. No Company can make such provisions unless it has ample surplus funds. In the year 1955 B.S. Rs. 1 lac and odd was transferred to the Reserve Fund. The dividend was given at 5½ per cent. on Ordinary Shares and at 7½ per cent. on Preference Shares. In 1956 B.S. similarly there has been a transfer of Rs. 1 lac and 42 thousand rupees to the Reserve Fund. The increase in the Reserve Fund is a sure index of prosperity. Next, I find from these balance-sheets that in 1954 B.S. salary and wages and dearness allowance amounted to Rs. 24 lacs and odd and the net profits amounted to Rs. 10½ lacs and odd; in 1955 B.S. salary and wages and dearness allowance amounted to Rs. 27 lacs and odd and the net profits amounted to Rs. 13 lacs and odd; in 1956 B.S. the salary and wages and dearness allowance amounted to Rs. 26 lacs and odd and the net profits stood at Rs. 12 lacs and odd. This will make it clear that the increment in wages did not much affect the net profits of this concern during all those years. I would like to mention one more reason to hope that if some increment is given in basic wages, it will not prejudicially affect or upset the financial balance of this concern. On the other hand, I have found that such increment is fully justified by the circumstances elicited. So I award that the increment in wages per month of the employees in this concern, irrespective of their category being office boys, Grade A and B workers, Pump Drivers, Beltmen, etc., shall be Rs. 30. I mention that these workers were still drawing less than Rs. 30 per month. But this will not appreciably affect the position of the workers in service who have put in considerable length of service and are still drawing on the whole very inadequate salaries. In view of the above award increment at a flat rate of Rs. 5 per month to all such workers irrespective of their category. This will also extend to piece-workers and to daily-rated workers.

There is some difficulty in granting this relief retrospectively. The award of Sri S. N. Modak was published in the *Calcutta Gazette* on 1st November 1949. So its operation is likely to extend to some time in the year 1950. No increment can be given during that period. In view of the above award increment operative with effect from 1st January 1951. The arrear wages will be payable within one month of the award into operation.

Issue No. 2.

7. Much of what I have stated above holds good in respect of the dearneess allowance *mutatis mutandis*. Sri S. N. Modak award increment of Rs. 2 per month only in respect of dearneess allowance last award. I must point out that the claim in this respect put by the Unions is rather too extravagant. It will be worth while to point out that even in the last Major Engineering Tribunal of 1950 Sri Modak, as Chairman, increased the dearneess allowance which was under the previous General Engineering Tribunal. There can be no question that the cost of living index is ever on the increase, though in a zigzag manner. I need not refer to the figures in this respect that the existing dearneess allowance will be revised as below: the dearneess allowance suffers from multifariousness:—

Monthly salary scales.

Monthly
allow

Up to Rs. 50
Rs. 51 to Rs. 100
Rs. 101 to Rs. 150
Rs. 151 to Rs. 200
Rs. 201 and upwards

The minimum dearneess allowance will be Rs. 30 per month. This increase in dearneess allowance will have effect from 1st January 1951. The increase of dearneess allowance will be payable within one month of the coming into operation. If the existing dearneess allowance is four times greater in any case, that will not be affected by the above scale. No. 2 is disposed of.

8. Before parting with this record I think it worth while to mention some legal difficulty involved in the present matter by reason of sub-section (6) of section 19 of the Industrial Disputes Act as amended in 1950. This sub-section makes the award continue to be binding on the parties after two months from the date on which notice or intimation is given by any party to terminate the said award. In the present case no such notice or intimation has been given to terminate the last award of Sri S. N. Modak published on 3rd November 1949. But Sri S. K. Basu, the Advocate of the Company, candidly submitted before the Tribunal that he does not press this objection. He moved the Tribunal to give a decision on the merits of the matter and not to defeat the case on such a legal objection. In the written statement of the Company also there is no objection on this score. I have doubts if the learned Advocate will waive the legal objection. But since no such objection has been made in the written statement and since there is waiver on the part of the Advocate, I have given my award as above ignoring such legal objection. Such objection would have gone to the Tribunal's jurisdiction to award the dispute. Objection to jurisdiction must have been taken at the first opportunity.

Subject to the provisions of the Indian Electricity Act, 1910 (Act IX of 1910), and the Electricity (Supply) Act, 1948 (Act I.V of 1948), license is hereby granted to the Alipur Duar Electric Supply Co., Ltd., to supply electrical energy in the area with the powers and upon the terms and conditions specified below:—

SHORT TITLE.

1. This license may be cited as the "Alipur Duar Electric License, 1951".

INTERPRETATION.

2. The several words, terms and expressions to which by the Indian Electricity Act, 1910, the rules thereunder, and the Electricity (Supply) Act, 1948, meanings are assigned shall have in this license the same respective meanings provided that in this license—

- (i) "the Act" shall mean the Indian Electricity Act, 1910, and any statutory modifications thereof;
- (ii) "the Government" shall mean the Government of West Bengal;
- (iii) the expression "the licensee" shall mean and include the said Alipur Duar Electric Supply Co., Ltd., Alipur Duar, a company registered under the Indian Companies Act, 1913;
- (iv) the expression "deposited map" shall mean the plan of the area of supply hereinafter specified, which has been deposited with the Government in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of West Bengal in the Department of Commerce and Industries and by the licensee;
- (v) the term "unit" shall mean the quantity of electrical energy equivalent to a current of one thousand amperes flowing under an electromotive force of one volt during one hour;
- (vi) the expressions "First Annexure", "Second Annexure", "Third Annexure" and "Fourth Annexure" shall mean the first, second, third and fourth annexures to this license, respectively;
- (vii) the expression "the commencement of this license" shall mean the date of the notification by the Government in the *Calcutta Gazette* by which this license is granted;
- (viii) Unless otherwise stated, where roads or streets are mentioned as forming the boundary or part of the boundary of any area in this license, the premises, properties or structures abutting upon either side of such roads or streets shall be deemed to be within the area of supply.

SECURITY.

3. (i) The period within which the licensee shall show under sub-clause (a) of clause I of the Schedule to the Act, that he is in a position to discharge fully and efficiently the duties and obligations imposed upon him by the license throughout the area of supply shall, unless otherwise ordered by the Government under sub-clause (b) of sub-section (3) of section 4 of the Act, be six months from the commencement of this license.

(ii) Unless otherwise ordered by the Government under clause (d) of sub-section (1) of section 4 of the Act, the sum which the licensee shall deposit or secure to the satisfaction of the Government under sub-clause (b) of clause (I) of the Schedule to the Act, shall be Rs. 10,000 and such sum shall be so deposited or secured within thirty days from the commencement of this license:

Provided that if the works proceed in a manner satisfactory to the Government, this amount shall be repaid by the Government to the licensee in four equal instalments and a final instalment for payment of interest, if any.

The whole of the amount repaid by the Government shall be used by the licensee for carrying into effect the works for which the license is granted.

AREA OF SUPPLY.

4. The area above referred to within which the supply of energy is authorised by the license (the area of supply under the Act) is the whole of the area, the boundaries of which are described in the First Annexure and delineated in red colour on the deposited map.

SITUATION OF THE GENERATING STATION.

5. The licensee shall erect the generating station or main receiving station within the area covered by the license.

LICENSEE'S WORKS.

6. (A) *Compulsory Works.*—(i) The licensee shall, within two years from the date of the grant of this license (1) provide and install suitable and sufficient feeders and distributing mains and execute works to the satisfaction of the Government for the purpose of supplying electrical energy throughout the streets, or parts of streets, named in the Second Annexure and shown in yellow colour on the deposited map, (2) erect the generating station or main receiving station mentioned in clause 5 with all machinery and apparatus necessary for the purpose of giving a continuous and efficient supply and (3) do all other works necessary for the commencement of the supply of energy to consumers.

The generating station or main receiving station mentioned in clause 5 together with all machinery and apparatus, feeders and distributing mains and all other works in connection with this license shall have the prior approval in writing of the Government before any orders for the same are placed.

(ii) At the expiration of each successive period of six months from the date of the grant of this license and until the completion of the compulsory works, the licensee shall submit to the Secretary to the Government of West Bengal in the Department of Commerce and Industries reports stating all steps taken and the progress made in carrying into effect this license.

(B) *Provision of adequate plant and extension of distributing mains.* Further within twelve months of the receipt of applications and subject to the first proviso of clause VI (1) of the Schedule to the Act, the licensee shall lay down suitable and sufficient additional transmission lines and feeders and distributing mains as may be required to give and supply adequate energy to every consumer within the area, and shall provide and maintain adequate plant which, in the opinion of the Government, may be considered necessary for regular, constant and sufficient supply of energy to consumers.

SUPPLY OF ENERGY.

7. (a) Subject to the provisions of this license, the Act and the rules, and also the Electricity (Supply) Act, the licensee shall be entitled during the continuance of his license to supply energy within the area of supply for all purposes.

(ii) The supply of energy shall not be commenced until an Electric Inspector to the Government shall have inspected the licensee's works and certified in writing that the supply of energy may commence.

(iii) As soon as may be after the grant of this license and in any case within six months thereafter the licensee shall submit to the Government for sanction under sub-section (2) of section 21 of the Act draft "Conditions of supply" to regulate his relations with persons who are or intend to become consumers.

(iv) After such conditions have been sanctioned by the Government with or without modification the licensee shall not supply energy unless

(a) the person to whom such supply is to be given shall have tendered to the licensee a requisition duly signed in the form for the time being approved by the Government; and

(b) such person and the licensee shall have executed an agreement in a form approved by the Government.

(v) The amount of all miscellaneous charges incidental to and in connection with the supply of energy, which the licensee proposes to make against consumers, shall be subject to the previous approval of the Government.

(vi) Where all the works have not been completed by the licensee and the licensee nevertheless desires to commence to give supply of energy in a portion or portions of the area of supply, the licensee shall do so only with the express permission of the Government.

EXTENSIONS TO GENERATING PLANT, TRANSMISSION AND DISTRIBUTING MAINS.

8. After the supply of energy has commenced in accordance with clause 7 of this license, no major additions to the generating station, machinery and apparatus, transmission and distributing mains or other works shall be made or orders placed for the same without the previous approval in writing of the Government.

ACCOUNTS.

9. (i) Separate and distinct accounts shall be kept, prepared and rendered by the licensee showing in full details as required by the Act and the rules thereunder and the Electricity (Supply) Act, 1948, or any order of the Government, the working of the undertaking for which this license is granted.

All books of accounts shall at all times be open to the inspection of the Government or of any person authorised by the Government in that behalf.

(ii) The licensee shall submit to the Government before the 1st October, every year, the accounts of the undertaking for one year made up to the 31st March of the same year.

STATISTICS.

10. The licensee shall when called upon to do so submit to the Government or an officer duly appointed in this behalf such statement and data as may be considered necessary for the purpose of compiling comprehensive statistics of electric supply undertakings in the State.

HOURS OF SUPPLY.

11. From the date of the commencement of supply the licensee shall maintain a continuous supply of energy for 24 hours throughout the year.

Provided that for a period of two years from the commencement of supply specially during the months of November, December, January and February, the supply may be discontinued daily for ten hours and a half, namely, between 6-30 a.m. and 5 p.m. local time, with the permission of Government obtained in writing.

METHOD OF CONSTRUCTION.

12. The feeders, distributing mains and service connections may be overhead or underground in whole or in part and shall, subject to the provisions of section 18 of the Act, be erected, constructed and maintained by the licensee in strict conformity with the Act and the rules thereunder and the following provisions:—

- (i) The licensee shall not erect overhead mains for use at any higher pressure than medium pressure without the sanction in writing of the Government in each case and subject to such conditions and/or limitations as the Government may impose.
- (ii) Aerial lines in the vicinity of a building or structure shall be erected in compliance with the Indian Electricity Rules concerned and in no case shall an aerial line be at a less distance than 4 feet horizontally and/or 8 feet vertically from any building or structure whether permanent or temporary.
- (iii) In narrow lanes, passages or streets where it is not possible to maintain a horizontal clearance of 4 feet between aerial lines and buildings or structures, underground cables shall be provided unless any special method of construction of aerial lines shall have been expressly sanctioned in writing by the Government for any such lane, passage or street and such sanction shall be obtained by the licensee before beginning construction of any such special aerial line.
- (iv) Where any electric supply lines cross or run along the routes of a taboot, temple car or similar other religious processions, the supply lines shall be laid underground or placed at such height as will allow of the free and safe passage of those processions. In case of dispute, such routes and heights shall be determined by the District Magistrate to whom the licensee shall refer before running any such lines.
- (v) *Removal of lines.*—The licensee shall remove or replace at his own expense any aerial line which runs along or across any street if in the opinion of the Government it is considered necessary to do so.
- (vi) For the purpose of rule 68(2) of the rules, the maximum wind pressure shall be taken as 20 pounds per square foot.

NATURE OF SUPPLY.

13. The system and pressure of supply which shall be adopted for the supply of electrical energy under this license are as follows:—

- (a) Three-phase alternating current, three or four-wire supply, at pressures of 400 volts between phases and 230 volts between each phase and neutral at a frequency of fifty complete cycles per second.
- (ii) Single phase alternating current, two-wire supply at a pressure of 230 volts between the phase and the neutral conductor at a frequency of fifty complete cycles per second.

The pressures stated above shall be as measured at consumers' terminals and shall not vary therefrom beyond the limits prescribed by the Indian Electricity Rules, 1937, throughout the area of supply:

Provided that the licensee may, from time to time with the previous consent in writing of the Government and subject to such limitations and conditions as shall be made in writing by the Government, adopt any other pressures or systems of supply or both for the purpose of this license.

LIMITS OF RATES TO BE CHARGED IN RESPECT OF SUPPLY OF ENERGY.

15. (i) The rates to be charged by the licensee for energy supplied by him shall not exceed those stated in that behalf in the Fourth Annexure, or, in the case of a method of charge approved by the Government in accordance with clause (c) of sub-section (3) of section 23 of the Act, such maxima as the Government may fix on approving the method.

(ii) The rates for sale of electrical energy shall be subject to the provisions of section 57 and the Sixth and Seventh Schedules to the Electricity (Supply) Act, 1948.

PURCHASE OF UNDERTAKING.

16. (A) *Purchase by local authority or State Government (where the State Electricity Board is not formed)*—

(i) The option of purchase given by section 7 of the Act shall be first exercisable on the expiration of twenty years from the commencement of this license and thereafter on the expiration of every subsequent period of ten years.

(ii) The purchase price payable on the exercise of the said option shall be—

(a) the net expenditure on the capital account of the licensee in respect of lands, buildings, works, machinery, mains, apparatus, appliances, fixtures, furniture, vehicles and other like property (including serviceable stand-by plant) owned and used by the licensee for the purposes of the undertaking less the total depreciation thereon calculated according to the Sixth Schedule and the scale of depreciation provided in the table appended to the Seventh Schedule of the Electricity (Supply) Act, 1948.

The percentage of the value of the lands, buildings, works, materials and plant of the licensee referred to in sub-section (1) of section 7 of the Act which shall be added to such value under the second proviso to that sub-section on account of compulsory purchase shall be ten per centum; and

(b) the value of the stores, spare parts and loose tools in use or available and suitable for use (for the purposes of the undertaking) at the date of purchase at such price as may be agreed, or failing agreement, as may be determined by arbitration.
